Independent Auditor's Report

To Management and Audit Committee of
GBC International Bank 401(k) Retirement Savings Plan
Monterey Park, California

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of GBC International Bank 401(k) Retirement Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of GBC International Bank 401(k) Retirement Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about GBC International Bank 401(k) Retirement Savings Plan’s ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of GBC International Bank 401(k) Retirement Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about GBC International Bank 401(k) Retirement Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental schedule H, line 4i-schedule of assets held at end of year as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its' form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of GBC International Bank 401(k) Retirement Savings Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 5, 2021 we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of Plan

The following brief description of the GBC International Bank 401(k) Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a participant-directed defined contribution plan covering qualified employees of GBC International Bank (the Company or the Plan Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (the ERISA).

The Company's Board HR Committee is responsible for determining the appropriateness of the Plan's investment offerings, and monitors investment performance.

In March 2020, the Coronavirus Aid, Relief and Economic Security (CARES) Act was signed into law. The CARES Act allowed the Plan to provide participants who were impacted by the pandemic with certain benefits related to taking Plan distributions and deferring repayment of Plan loans. The Plan adopted the distribution provisions in April 2020 but did not adopt the Plan loan provisions of the CARES Act. The Plan will be formally amended prior to December 31, 2022.

As required by the Setting Every Community Up for Retirement Enhancement Act of 2019 (SECURE Act), the Plan implemented the following provisions effective January 1, 2020: increase the age requirement for required minimum distributions from age 70 ½ to age 72, for participants born after June 20, 1949; change in the distribution rules for benefits payable upon the death of a participant to generally require distributions within 10 years after the participant's death unless the beneficiary is the participant's spouse or an "eligible designated beneficiary." The Plan will be formally amended prior to December 31, 2022.

As required under the Bipartisan Budget Act of 2018, as of January 1, 2020 the Plan eliminated the suspension of employee elective deferrals for participants who obtain hardship distributions. In addition, the Plan now requires participants to represent they have insufficient cash or liquid assets available to satisfy their financial needs as a condition for obtaining a hardship distribution. The Plan was amended prior to December 31, 2021.

Eligibility

All employees of the Company who have attained the age of 21 and completed three months of service meet the eligibility requirements for the employee deferral portion of the Plan, employer matching contributions and discretionary non-elective employer contributions, as defined by the Plan document.

Entry Date

Employees may enter the Plan on the first day of each month coinciding with or immediately following the date they satisfy the Plan's eligibility requirements.

Contributions

The Plan allows participants to contribute up to a maximum of 90% of their pretax annual compensation, as defined in the Plan. Contributions are subject to certain Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). The Plan does not allow for Roth 401(k) contributions or rollovers. The Plan includes an automatic deferral enrollment for eligible participants at the rate of 1% of eligible compensation and the deferral of contribution to a predetermined investment designated by the Plan Administrator. The initial automatic deferral amount shall increase each successive year until the deferred rate reaches 2% or until the participant makes an election for a different deferral rate.

The Plan Sponsor contributes a non-discretionary matching amount of 50% of the employee deferral contribution, subject to a maximum of 4% of the employee eligible compensation contributed to the Plan.

For the year ended December 31, 2021, total employer contributions consisted of matching contributions totaling $135,819. The Plan Sponsor may also make discretionary non-elective contributions in an amount to be determined by the Board of Directors for each Plan Year. For the year ended December 31, 2021, there were no discretionary non-elective contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Plan Sponsor's employer matching contributions based on eligible compensation, gains and losses on investments included in the participant's account balance and allocations of discretionary nonelective employer contributions (if any). Plan expenses are allocated based on participant account balances, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investment Options

Participants may direct both employee and employer contributions to be invested among various investment options as made available and determined by the Plan Administrator, which are more fully described in the Plan literature. Participants may change their investment options any time throughout the year via direct phone or internet access to the independent record keeper. In addition, participants can invest in self-directed brokerage account investments as long as the investment meets the legal requirements for investments by the Plan and is offered by affiliates of Fidelity Management Trust Company (Fidelity).

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Plan Sponsor contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service, at a rate of 20% per year after two years of continuous service. A participant who is an employee and not already fully vested becomes 100% vested in the event of death or disability (as defined in the Plan) or retirement at age 65.

Forfeitures

At December 31, 2021 and 2020, forfeited non-vested accounts totaled $38,802 and $12,989, respectively. These accounts will be first used to offset plan expenses with remaining amounts used to reduce future employer contributions. During the year ended December 31, 2021, forfeited non-vested amounts of $7,187 were used to pay plan expenses, and no amounts were used to reduce employer contributions.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are treated as distributions based upon the terms of the Plan document. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's accounts and bear interest at rates that range from 4.25% to 6.5%, which is commensurate with local prevailing rates. Loan terms may range from one to five years, or longer if used to purchase the primary residence of the participant.

Principal and interest are paid ratably by the participant to Fidelity. In the event the scheduled repayment remains unpaid as of the last business day of the calendar quarter following the calendar quarter in which a loan is initially considered past due, the loan is considered to be in default and considered a deemed distribution. A participant may have no more than one outstanding note at any one time. Loan fees are recorded as administrative expenses and are expensed when incurred.

Payment of Benefits

Upon termination of service from the Plan Sponsor, a participant may elect to receive the vested interest of his/her account in the form of a lump sum payment, a direct rollover to an individual retirement account, or other employer's plan (if permitted), or a combination of non-rollover and direct rollover. The Plan will also make involuntary cash-outs of account balances of terminated vested participants of $1,000 or less. Distributions may be made at the participant's election prior to termination upon attainment of age 59 ½ or hardship as defined in the Plan document.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Accounting Records

The accounting records of the Plan are maintained, with respect to individual participant accounts and Plan administration, by an independent record keeper and, with respect to investment transactions, by Fidelity Management Trust Company, the asset trustee.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The methods described in Note 3 to the financial statement may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. The Plan Administrator determines the Plan's valuation policies utilizing information provided by Fidelity, the trustee.

Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of investment earnings on Form 5500 due to different reporting requirements on Form 5500.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in the statement of changes in net assets available for benefits the net appreciation in the fair value of its investments, which consists of the realized gains or losses on the purchases and sales of investments during the year and unrealized appreciation or depreciation of investments held during the year.

Contributions

Contributions from the Plan participants are recorded in the year in which participant contributions are withheld from amounts paid. Employer-matching contributions are recorded in the year in which the contributions are withheld or earned on a per-pay-period basis from amounts paid. Discretionary contributions, if any, are recognized upon the authorization of the Plan Sponsor's Board of Directors.

Payments of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

The Plan's administrative expenses may be paid by the Plan or Plan Sponsor at the discretion of the Plan Sponsor. Expenses that are paid by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. Investment-related expenses are included in the net appreciation of fair value of investments.

Note 3 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual funds (registered investment companies including money market mutual funds) – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. Furthermore, interest-bearing cash is reported at cost, which approximates fair value.

Participant-directed brokerage account investments – As described in Note 1, participants are allowed to invest in self-directed brokerage account investments that meet the legal requirements for investments by the Plan and are offered by affiliates of Fidelity Management Trust Company (Fidelity). Accounts primarily consist of common stock which is valued at the closing price reported on the active market on which the individual securities are traded. In addition, these accounts may contain interest-bearing and/or noninterest-bearing cash which is reported at cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020:

	2021			
Investment Category	Level 1	Level 2	Level 3	Total
Mutual funds (registered investment companies)	$ 12,422,038	$ -	$ -	$ 12,422,038
Money market mutual funds	745,049	-	-	745,049
Participant-directed brokerage account investments	65,239	-	-	65,239
Total assets in the fair value hierarchy	$ 13,232,326	$ -	$ -	$ 13,232,326

	2020			
Investment Category	Level 1	Level 2	Level 3	Total
Mutual funds (registered investment companies)	$ 10,865,543	$ -	$ -	$ 10,865,543
Money market mutual funds	878,399	-	-	878,399
Participant-directed brokerage account investments	172,334	-	-	172,334
Total assets in the fair value hierarchy	$ 11,916,276	$ -	$ -	$ 11,916,276

Note 4 - Information Certified by Fidelity Management Trust Company, Trustee

The Plan Administrator has elected the method of compliance permitted by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified as complete and accurate by the trustee, Fidelity Management Trust Company, and furnished to the Plan Administrator, except for comparing such information certified by the trustee with information included in the Plan's financial statements and supplemental Schedule H, Line 4i – Schedule of Assets Held at End of Year.

The trustee has certified its statement of accounts as of December 31, 2021 and 2020, and for the year ended December 31, 2021. The statement of accounts includes beginning and ending balances of investments held, notes receivable from participants, and all related investment activity during the period, including investment earnings and interest income on notes receivable from participants.

Note 5 - Tax Status

The Plan adopted a pre-approved plan document sponsored by FMR LLC, which received an opinion letter from the Internal Revenue Service, dated June 30, 2020, as to the qualified status of the plan document. The Plan Administrator believes that the Plan is designed in compliance with the applicable provisions of the Internal Revenue Code (IRC) and will take all reasonable actions necessary to maintain the qualified status of the Plan and operate the Plan in compliance with the provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Related Party and Party-in-Interest Transactions

The Plan's investments include mutual funds, money market funds, and participant-directed brokerage account investments managed by Fidelity, the trustee as defined by the Plan. As described in Note 2, the Plan paid certain administrative expenses related to the Plan's operations and investment activity to various service providers. These transactions qualify as exempt party-in-interest transactions under the ERISA. Certain administrative functions are performed by employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for participants are paid directly by the Plan Sponsor.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or global conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8 - Subsequent Events

Plan management has evaluated for disclosure subsequent events occurring through October 6, 2022, the date the financial statements were available to be issued. No events have been identified that would require an adjustment to the financial statements or accompanying disclosures.

To Management and Audit Committee of
GBC International Bank 401(k) Retirement Savings Plan
Monterey Park, California

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of GBC International Bank 401(k) Retirement Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of GBC International Bank 401(k) Retirement Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about GBC International Bank 401(k) Retirement Savings Plan’s ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of GBC International Bank 401(k) Retirement Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about GBC International Bank 401(k) Retirement Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental schedule H, line 4i-schedule of assets held at end of year as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its' form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of GBC International Bank 401(k) Retirement Savings Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 5, 2021 we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of Plan

The following brief description of the GBC International Bank 401(k) Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a participant-directed defined contribution plan covering qualified employees of GBC International Bank (the Company or the Plan Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (the ERISA).

The Company's Board HR Committee is responsible for determining the appropriateness of the Plan's investment offerings, and monitors investment performance.

In March 2020, the Coronavirus Aid, Relief and Economic Security (CARES) Act was signed into law. The CARES Act allowed the Plan to provide participants who were impacted by the pandemic with certain benefits related to taking Plan distributions and deferring repayment of Plan loans. The Plan adopted the distribution provisions in April 2020 but did not adopt the Plan loan provisions of the CARES Act. The Plan will be formally amended prior to December 31, 2022.

As required by the Setting Every Community Up for Retirement Enhancement Act of 2019 (SECURE Act), the Plan implemented the following provisions effective January 1, 2020: increase the age requirement for required minimum distributions from age 70 ½ to age 72, for participants born after June 20, 1949; change in the distribution rules for benefits payable upon the death of a participant to generally require distributions within 10 years after the participant's death unless the beneficiary is the participant's spouse or an "eligible designated beneficiary." The Plan will be formally amended prior to December 31, 2022.

As required under the Bipartisan Budget Act of 2018, as of January 1, 2020 the Plan eliminated the suspension of employee elective deferrals for participants who obtain hardship distributions. In addition, the Plan now requires participants to represent they have insufficient cash or liquid assets available to satisfy their financial needs as a condition for obtaining a hardship distribution. The Plan was amended prior to December 31, 2021.

Eligibility

All employees of the Company who have attained the age of 21 and completed three months of service meet the eligibility requirements for the employee deferral portion of the Plan, employer matching contributions and discretionary non-elective employer contributions, as defined by the Plan document.

Entry Date

Employees may enter the Plan on the first day of each month coinciding with or immediately following the date they satisfy the Plan's eligibility requirements.

Contributions

The Plan allows participants to contribute up to a maximum of 90% of their pretax annual compensation, as defined in the Plan. Contributions are subject to certain Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). The Plan does not allow for Roth 401(k) contributions or rollovers. The Plan includes an automatic deferral enrollment for eligible participants at the rate of 1% of eligible compensation and the deferral of contribution to a predetermined investment designated by the Plan Administrator. The initial automatic deferral amount shall increase each successive year until the deferred rate reaches 2% or until the participant makes an election for a different deferral rate.

The Plan Sponsor contributes a non-discretionary matching amount of 50% of the employee deferral contribution, subject to a maximum of 4% of the employee eligible compensation contributed to the Plan.

For the year ended December 31, 2021, total employer contributions consisted of matching contributions totaling $135,819. The Plan Sponsor may also make discretionary non-elective contributions in an amount to be determined by the Board of Directors for each Plan Year. For the year ended December 31, 2021, there were no discretionary non-elective contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Plan Sponsor's employer matching contributions based on eligible compensation, gains and losses on investments included in the participant's account balance and allocations of discretionary nonelective employer contributions (if any). Plan expenses are allocated based on participant account balances, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investment Options

Participants may direct both employee and employer contributions to be invested among various investment options as made available and determined by the Plan Administrator, which are more fully described in the Plan literature. Participants may change their investment options any time throughout the year via direct phone or internet access to the independent record keeper. In addition, participants can invest in self-directed brokerage account investments as long as the investment meets the legal requirements for investments by the Plan and is offered by affiliates of Fidelity Management Trust Company (Fidelity).

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Plan Sponsor contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service, at a rate of 20% per year after two years of continuous service. A participant who is an employee and not already fully vested becomes 100% vested in the event of death or disability (as defined in the Plan) or retirement at age 65.

Forfeitures

At December 31, 2021 and 2020, forfeited non-vested accounts totaled $38,802 and $12,989, respectively. These accounts will be first used to offset plan expenses with remaining amounts used to reduce future employer contributions. During the year ended December 31, 2021, forfeited non-vested amounts of $7,187 were used to pay plan expenses, and no amounts were used to reduce employer contributions.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are treated as distributions based upon the terms of the Plan document. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's accounts and bear interest at rates that range from 4.25% to 6.5%, which is commensurate with local prevailing rates. Loan terms may range from one to five years, or longer if used to purchase the primary residence of the participant.

Principal and interest are paid ratably by the participant to Fidelity. In the event the scheduled repayment remains unpaid as of the last business day of the calendar quarter following the calendar quarter in which a loan is initially considered past due, the loan is considered to be in default and considered a deemed distribution. A participant may have no more than one outstanding note at any one time. Loan fees are recorded as administrative expenses and are expensed when incurred.

Payment of Benefits

Upon termination of service from the Plan Sponsor, a participant may elect to receive the vested interest of his/her account in the form of a lump sum payment, a direct rollover to an individual retirement account, or other employer's plan (if permitted), or a combination of non-rollover and direct rollover. The Plan will also make involuntary cash-outs of account balances of terminated vested participants of $1,000 or less. Distributions may be made at the participant's election prior to termination upon attainment of age 59 ½ or hardship as defined in the Plan document.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Accounting Records

The accounting records of the Plan are maintained, with respect to individual participant accounts and Plan administration, by an independent record keeper and, with respect to investment transactions, by Fidelity Management Trust Company, the asset trustee.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The methods described in Note 3 to the financial statement may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. The Plan Administrator determines the Plan's valuation policies utilizing information provided by Fidelity, the trustee.

Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of investment earnings on Form 5500 due to different reporting requirements on Form 5500.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in the statement of changes in net assets available for benefits the net appreciation in the fair value of its investments, which consists of the realized gains or losses on the purchases and sales of investments during the year and unrealized appreciation or depreciation of investments held during the year.

Contributions

Contributions from the Plan participants are recorded in the year in which participant contributions are withheld from amounts paid. Employer-matching contributions are recorded in the year in which the contributions are withheld or earned on a per-pay-period basis from amounts paid. Discretionary contributions, if any, are recognized upon the authorization of the Plan Sponsor's Board of Directors.

Payments of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

The Plan's administrative expenses may be paid by the Plan or Plan Sponsor at the discretion of the Plan Sponsor. Expenses that are paid by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. Investment-related expenses are included in the net appreciation of fair value of investments.

Note 3 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual funds (registered investment companies including money market mutual funds) – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. Furthermore, interest-bearing cash is reported at cost, which approximates fair value.

Participant-directed brokerage account investments – As described in Note 1, participants are allowed to invest in self-directed brokerage account investments that meet the legal requirements for investments by the Plan and are offered by affiliates of Fidelity Management Trust Company (Fidelity). Accounts primarily consist of common stock which is valued at the closing price reported on the active market on which the individual securities are traded. In addition, these accounts may contain interest-bearing and/or noninterest-bearing cash which is reported at cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020:

	2021			
Investment Category	Level 1	Level 2	Level 3	Total
Mutual funds (registered investment companies)	$ 12,422,038	$ -	$ -	$ 12,422,038

Total assets in the fair value hierarchy	$ 11,916,276	$ -	$ -	$ 11,916,276

Note 4 - Information Certified by Fidelity Management Trust Company, Trustee

The Plan Administrator has elected the method of compliance permitted by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified as complete and accurate by the trustee, Fidelity Management Trust Company, and furnished to the Plan Administrator, except for comparing such information certified by the trustee with information included in the Plan's financial statements and supplemental Schedule H, Line 4i – Schedule of Assets Held at End of Year.

The trustee has certified its statement of accounts as of December 31, 2021 and 2020, and for the year ended December 31, 2021. The statement of accounts includes beginning and ending balances of investments held, notes receivable from participants, and all related investment activity during the period, including investment earnings and interest income on notes receivable from participants.

Note 5 - Tax Status

The Plan adopted a pre-approved plan document sponsored by FMR LLC, which received an opinion letter from the Internal Revenue Service, dated June 30, 2020, as to the qualified status of the plan document. The Plan Administrator believes that the Plan is designed in compliance with the applicable provisions of the Internal Revenue Code (IRC) and will take all reasonable actions necessary to maintain the qualified status of the Plan and operate the Plan in compliance with the provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Related Party and Party-in-Interest Transactions

The Plan's investments include mutual funds, money market funds, and participant-directed brokerage account investments managed by Fidelity, the trustee as defined by the Plan. As described in Note 2, the Plan paid certain administrative expenses related to the Plan's operations and investment activity to various service providers. These transactions qualify as exempt party-in-interest transactions under the ERISA. Certain administrative functions are performed by employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for participants are paid directly by the Plan Sponsor.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or global conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8 - Subsequent Events

Plan management has evaluated for disclosure subsequent events occurring through October 6, 2022, the date the financial statements were available to be issued. No events have been identified that would require an adjustment to the financial statements or accompanying disclosures.
