Report of Independent Auditors

To the Plan Participants and the Plan Administrator
of the AMETEK, Inc. Selected Defined Benefit
Pension Plans

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of each of the AMETEK, Inc. Selected Defined Benefit Pension Plans (the Plans), employee benefit plans subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits, listed on page 4, as of December 31, 2021, and the related statements of changes in net assets available for benefits, as listed on page 6, for the year then ended, and the statements of accumulated plan benefits, listed on page 8, as of December 31, 2020, and the related statements of changes in accumulated plan benefits, as listed on page 9, for the year then ended, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plans (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2021, and for the year then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the 2021 Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plans and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plans, and determining that the Plans' transactions that are presented and disclosed in the financial statements are in conformity with the Plans' provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plans' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental schedule of nonexempt transactions - AMETEK, Inc. Monthly Formula Pension Plan as of December 31, 2021 (referred to as the “supplemental schedule”), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, are presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

Auditor’s Report on the 2020 Financial Statements

We were engaged to audit the financial statements of the Plans as of and for the year ended December 31, 2020. As permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the investment information certified by a qualified institution. In our report dated September 24, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on those financial statements, and (b) the form and content of the information included in those financial statements other than that derived from the certified investment information, were presented in compliance with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

Contributions

AMETEK's contributions, which are determined annually on an actuarial basis, along with net appreciation (depreciation) in the fair value of the investments, are designed to sufficiently fund the benefits to be paid to the Plans' participants. The Plans have met the minimum funding requirements of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Benefits

Plan	Normal Retirement Benefits	Early Retirement Benefits	Pre-Retirement Death Benefits	Post-Retirement Death Benefits
Retirement	<p>Depending upon the predecessor plan in which eligible employees participated, benefits are based on either (1) a percentage of final average compensation, (2) monthly average annual compensation, (3) average compensation, (4) career earnings or career average earnings, or (5) specific dollar amount (i.e., rate) multiplied by years of credited service or months of service. Percentages and rates vary based on covered compensation limits, credited years of service limits and/or employment service periods.</p> <p>Benefit accruals for Superior Tubes Union participants ceased effective March 17, 2014.</p> <p>Certain participant account balances are credited with contribution credits at the end of each calendar month that relates to their age, service and interest credits, compounded daily, equal to the average monthly yield on 10 year U.S. Treasury securities preceding each calendar year quarter but in no event to be less than 2.25%.</p>	<p>Range from age 50 to age 60 and require 10 or 15 or more years of service.</p> <p>Certain legacy plans also require the sum of age and service to meet certain minimums. Reductions in the normal form of benefit range from 4% to 6.667% per year prior to normal retirement date.</p> <p>Haveg participants – reduced 1/10th per year for pre normal retirement date commencement, unreduced if retire before normal retirement date but on or after age 62 with 15 years of accrual service, or age 63 with 14 years of accrual service, or age 64 with 12 years of accrual service.</p>	<p>In addition to providing the statutory qualified surviving spouse annuity, certain participants are eligible for a death benefit equal to 60 times the accrued monthly pension at date of death and reduced for early commencement.</p>	<p>Benefits for certain participants depending upon the predecessor plan in which they participated range from \$1,000 to \$5,000.</p> <p>Haveg participants - \$10,500; all others - \$1,000.</p>

Plan Amendments

On September 7, 2021, the Nesquehoning, Pennsylvania facility was sold and the Chemical Products (Nesquehoning, Pennsylvania Plant) Division of AMETEK, Inc. Hourly Employees' Pension Plan was amended and restated to fully vest all participants as of the closing date. Effective August 31, 2022, the Chemical Products (Nesquehoning, Pennsylvania Plant) Division of AMETEK, Inc. Hourly Employees' Pension Plan was amended to close the Plan and freeze benefit accruals.

Effective January 1, 2021, AMETEK, Inc. Monthly Formula Pension Plan was amended to close the Plan to employees hired or rehired after December 31, 2020 at Measurement and Calibration Technologies Division, Largo, FL, Advance Motions Solutions Division, Dynamic Fluid Solutions Business Unit, Whitsett, NC and Measurement and Power Systems Division, Binghamton, NY.

In April 2020, the Company sold its Chemical Products (Wapakoneta) facility and all participants were terminated. Effective June 1, 2020, the Chemical Products (Wapakoneta, Ohio Plant) Division of AMETEK, Inc. Hourly Employees' Pension Plan was amended to close the Plan and freeze benefit accruals.

Plan Termination

Should the Plans terminate at some future time, their net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the then-existing net assets and the PBGC guarantee, while other benefits may not be provided for at all.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Allocation of the Master Retirement Trust

At December 31, 2021 and 2020, the assets of the Plans were held by The Bank of New York Mellon/BNY Mellon, N.A. ("Trustee") as Trustee of the Trust.

Assets attributable to the individual plans participating in the Trust are equitable shares, which are based on each plan's proportionate share of total net assets of the Trust as of the end of each month, excluding unpaid contributions. Contributions received, benefits paid and direct administrative expenses are accounted for as direct cash flows designated to the individual plans during the period. The Trustee allocates earned income, realized and unrealized gains and losses, and Trust expenses to individual plans based on each plan's pro rata share of the fair value of the Trust's net assets at the end of the reporting period.

Investment Valuation and Income Recognition

The Plans' investments are stated at fair value. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. See Note 6 for further discussion and disclosures related to fair value measurements.

Portfolio managers of the Trust may enter into certain types of futures and option contracts in order to enhance liquidity or protect the total return of the Trust's portfolio from market volatility. Realized and unrealized gains and losses from these contracts are included in investment income.

Purchases and sales of securities are reflected on the trade dates. Gains and losses on sales of securities are based on the average cost of securities. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned. Net appreciation includes the Plans' realized and unrealized gains and losses as well as investments held at year-end.

Actuarial Plan Benefits Valuation

Accumulated plan benefits represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plans' provisions to services rendered by the employees to the valuation date.

AMETEK, Inc.
Selected Defined Benefit Pension Plans
Notes to Financial Statements
December 31, 2021 and 2020

Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee services rendered to the valuation date.

The actuarial present value of accumulated plan benefits under the Plans was calculated by the consulting actuaries, based on the latest available data as of December 31, 2020. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Administrative Expenses

Specific expenses incurred by the Plans are reported on the statements of changes in net assets available for benefits as administrative expenses. Administrative expenses related to the Trust are allocated to the Plans and are reflected in the change in value of plan interest in net assets of the Trust.

Payments of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates and assumptions.

Risks and Uncertainties

The Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market fluctuation and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

3. Accumulated Plan Benefits

Significant assumptions underlying the actuarial valuation at December 31, 2020 are as follows:

Assumed Rate of Return on Investments	6.75% at December 31, 2020, compounded annually, net of investment expenses. 7.00% at December 31, 2019, compounded annually, net of investment expenses.
Mortality Basis	At December 31, 2020, mortality reflects the Pri-2012 gender-specific mortality table with generational projection using Scale MP-2021, no collar (Retirement Plan) and blue collar (all other plans) adjustments. At December 31, 2019, mortality reflects the Pri-2012 gender-specific mortality table with generational projection using Scale MP-2020, no collar (Retirement Plan) and blue collar (all other plans) adjustments.
Retirement Rates	Assumed retirement at ages ranging from 62 to 65.

Selected Defined Benefit Pension Plans
Notes to Financial Statements
December 31, 2021 and 2020

These actuarial assumptions are based on the presumption that the Plans will continue. Were the Plans to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Investment and Master Trust Information

All investment information disclosed in the accompanying financial statements including plan interest in the Trust at December 31, 2021 and 2020 and change in value of plan interest in net assets of the Trust for the years ended December 31, 2021 and 2020, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

5. Fair Value Measurements

The Plans utilize a valuation hierarchy for disclosure of the inputs to the valuation used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument. Level 3 inputs are unobservable inputs based on the Plans' own assumptions used to measure assets and liabilities at fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Level 1 investments are unadjusted, observable inputs from active markets. Common stocks are valued at the closing price reported on the active market on which the individual securities are traded. Registered investment companies are valued at quoted market prices which represent the net asset values of shares held by the Trust at year-end.

Level 2 investments are equity funds and fixed income funds that are valued by the vendor using observable market inputs. Fixed income securities such as certain government, municipal, and corporate obligations are primarily measured using a market approach pricing methodology, where observable prices are obtained by market transactions involving identical or comparable securities of issuers with similar credit ratings. Corporate obligations are all investment grade quality.

Alternative investments are considered level 3 investments as their values are determined by the sponsor using unobservable market data. The Plans' investment policy, developed by the Pension Investment Committee, limits the amount the Plans may invest in investments that are difficult to value. As of December 31, 2021 and 2020, the Plans hold no alternative investments.

Common collective trusts, which include temporary cash investments, are valued based on the Trust's unit of ownership and net asset value of the investment entity's underlying investments. These investments have no unfunded commitments and no limits as to the frequency of redemptions. However, the investments have various redemption terms and notice periods.

(a) - In accordance with subtopic 820-10, common collective trusts are measured at net asset value practical expedient and have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the accompanying statements of net assets available for benefits.

The objectives of the Plans' investment strategies are to maximize the Plans' funded status and minimize Company contributions and plan expenses. Because the goal is to optimize returns over the long-term, an investment policy that favors equity holdings has been established. Since there may be periods of time where both equity and fixed-income markets provide poor returns, allocations to alternative assets may be made to improve the overall portfolio's diversification and return potential. The Pension Investment Committee periodically reviews the Trust's asset allocation, taking into consideration plan liabilities, plan benefit payment streams and the investment strategy of the pension plans. The actual asset allocation is monitored frequently relative to the established targets and ranges and is re-balanced when necessary.

The equity portfolio is diversified by market capitalization and style. The equity portfolio also includes an international component.

The objective of the fixed-income portion of the pension assets is to provide interest rate sensitivity for a portion of the assets and to provide diversification. The fixed-income portfolio is diversified within certain quality and maturity guidelines in an attempt to minimize the adverse effects of interest rate fluctuations.

Other than investments in certain alternative investment collective trusts and pooled investments funds, certain investments are prohibited. Prohibited investments include venture capital, private placements, unregistered or restricted stock, margin trading, commodities, short selling and rights and warrants. Foreign currency futures, options and forward contracts may be used to manage foreign currency exposure.

6. Income Tax Status

The Plans have received determination letters from the Internal Revenue Service (“IRS”) dated as follows:

Employees’ Retirement Plan of AMETEK, Inc. (001)	January 21, 2016
Chemical Products (Wapakoneta, Ohio Plant) Division of AMETEK, Inc. Hourly Employees’ Pension Plan (012)	October 19, 2015
Chemical Products (Nesquehoning, Pennsylvania Plant) Division of AMETEK, Inc. Hourly Employees’ Pension Plan (032)	January 21, 2016
AMETEK, Inc. Aerospace Division Pension Plan (043)	October 27, 2015
AMETEK, Inc. Monthly Formula Pension Plan (035)	January 21, 2016

The determination letters state that each of the Plans qualifies under Section 401(a) of the Internal Revenue Code (“IRC”) and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letters, all of the Plans were amended. Once qualified, the Plans are required to operate in conformity with the IRC to maintain their qualification. The Plan Sponsor believes the Plans are being operated in compliance with the applicable requirements of the IRC and therefore believes these Plans, as amended, are qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plans. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plans, and has concluded that as of December 31, 2021, there are no uncertain positions taken or expected to be taken. The Plans have recognized no interest or penalties related to uncertain tax positions. The Plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Related Party and Party-in-Interest Transactions

At December 31, 2021 and 2020, the Trust held an investment in AMETEK common stock, consisting of 384,788 shares with a cost of \$190,757. At December 31, 2021 and 2020, the market value was \$56,579,228 and \$46,536,261, respectively. For the years 2021 and 2020, the Trust received \$307,830 and \$277,047, respectively, in related dividends.

Certain of the Trust's assets are invested in funds managed by the Trustee of the Plans. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

8. Subsequent Events

The Plans have evaluated, for consideration of recognition or disclosure, subsequent events that have occurred through the date the financial statements were available to be issued and have determined that no significant events occurred after December 31, 2021 that would have a material impact on its financial statements.

Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.
Decrement timing	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 7.00% (with such expected earnings limited by the prior year's third segment rate as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2020 plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA).</p> <p>These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years.</p> <p>However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	<p>Certain plans pay small benefits with a present value up to \$5,000 in a single lump sum payment. Such lumps sums are not explicitly valued as such; rather such participants benefits are valued using the benefit choice assumptions described above.</p> <p>All benefits described in the Plan Provisions section of this report were valued except for the Special Supplement for the Aerospace Union Plan. Due to the small window of eligibility, and de minimis value of the benefit, the Special Supplement benefit is not reflected for current active participants in the valuation (only reflected for retirees upon commencement).</p> <p>Willis Towers Watson has reviewed the plan provisions with AMETEK, Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.</p>

Schedule SB, Line 22 Description of Weighted Average Retirement Age as of January 1, 2021

The average retirement age for Line 22 was calculated by creating a hypothetical life table with retirement as the only decrement, and then computing the average retirement age for the table.

SCHEDULE SB ATTACHMENTS

Normal Retirement Date (NRD) First of month coinciding with or next following attainment of age 65.

Benefit Non-union: An account balance is established for each participant. The account shall be increased as of the last day of each calendar month of employment with a percentage of compensation in accordance with the age plus service points schedule below, where age and service is the sum of the whole and fractional years of age and service:

Age plus Service Points	Percentage of Compensation
Less than 30	4.0%
30 but less than 40	5.0%
40 but less than 55	6.0%
55 and greater	7.0%

The account shall be increased each day of employment with interest credits. Interest on the account balance is calculated as the greater of:

- (i) average monthly yield on 10-year US Treasury securities at constant maturity for the second month preceding each calendar year quarter, and
- (ii) 2.25%.

Interest is credited prior to the addition of compensation credits on applicable dates.

Account balances revert back to zero if a participant terminates employment prior to attaining 5 years of service and returns to service after a period of 5 or more breaks-in-service.

Union: Accrued benefit payable monthly as a life annuity is determined by multiplying the participant's total credited service and the multiplier in effect during the time of termination, based on the schedule below:

Date of Termination	Benefit Multiplier	
	Service accumulated prior to January 1, 2007	Service accumulated after January 1, 2007*
January 1, 2007 – December 31, 2007	\$5.00	\$35.00
January 1, 2008 – December 31, 2008	\$6.00	\$36.00
January 1, 2009 – March 14, 2010	\$7.00	\$37.00

SCHEDULE SB ATTACHMENTS

March 15, 2010 – March 17, 2013	\$10.00	\$40.00
March 18, 2013 and after	\$10.00**	\$42.00

*Credited service used for calculating the accrued benefit was frozen as of March 17, 2014

**For those who terminated during the period between March 18, 2013 and March 17, 2014 and had provided notice of intention to leave to the employer prior to January 1, 2014, a multiplier of \$12.00 for service accumulated prior to January 1, 2007 was used.

Actuarial Equivalence

Non-union: The conversion factors for optional forms of payment are determined according to IRC §417(e) assumptions using the second month prior to the plan year as the lookback month.

Union: The conversion factors for optional forms of payment are determined using the 1994 Group Annuity Reserving Table (blended 50% male and 50% female) projected to 2002 using Scale AA and an interest rate of 6.5%. The conversion factor for single sum present value of accrued benefits of less than \$5,000 are determined according to IRC §417(e) assumptions using the second month prior to the plan year as the lookback month.

Ancillary Early Retirement Benefit

Union: \$75 per month payable in any month where the retired participant is not eligible for Social Security Benefits.

Disability Retirement

Non-union: Account balance as of the date of disability is increased with interest and compensation credits until the earlier of the end of total disability, the benefit commencement date, or normal retirement date. Compensation credits are determined using the base rate of compensation for the month preceding the date of disability.

Union: The greater of \$150 monthly and the accrued monthly benefit (unreduced) at date of disability. An additional \$100 per month is payable for each month a disabled participant is not eligible for Social Security Benefits, unless the participant is receiving an accrued benefit under the prior plan, The Superior Group, Inc. Retirement Plan. Benefits end with the cessation of total disability, the benefit commencement date, or normal retirement date.

Vested Termination

Non-union: Distribution of entire vested interest in the account balance or actuarially equivalent life annuity benefit as of the date of commencement.

Union: Distribution of accrued benefit at commencement. If at least age 55, a reduced benefit may be elected, reduced by 0.5% for each month that commencement precedes NRD.

Postponed Retirement

Non-union: Distribution of entire vested interest in the account balance or actuarially equivalent life annuity benefit as of the date of commencement.

Union: Greater of the accrued monthly benefit at actual retirement date or the actuarially equivalent value as of NRD.

Preretirement Death

Non-union: Distribution of entire vested interest in the account balance or actuarially equivalent life annuity benefit as of the date of commencement made payable to the surviving beneficiary.

Union: Distribution of actuarially equivalent 50% joint and survivor annuity benefit as of the date of participant's earliest retirement date made payable to the surviving beneficiary. An additional death benefit may be awarded to the surviving beneficiary:

If the participant was actively employed and had attained age 50 and 10 years of vesting service at time of death, an additional monthly benefit is payable until the beneficiary attains age 65, and is equal to the greater of:

\$100 plus the prior plan benefit, and

A percentage of the participant's accrued benefit following the age schedule below

Participant's Age at Time of Death	Percentage
55 and over	50%
54	48%
53	46%
52	44%
51	42%
50	40%

The additional benefit is reduced by 0.5% for each year that the beneficiary's age is less than 50 at the time of the participant's death.

Once the beneficiary reaches age 62, the additional benefit is reduced by 65% of the benefit the beneficiary is entitled to under Social Security (the additional benefit may not go below \$25, however).

The additional benefit is not awarded if the participant and beneficiary had no attained 55 and 45 years of age, respectively, at the time of death.

Postretirement Death

All participants: Distribution of the remaining vested benefit to the surviving beneficiary in the form chosen by the participant.

Union: If a participant dies between the ages of 55 and 65 after commencing under early or disabled retirement, the beneficiary is entitled to similar additional benefits as described under preretirement death, given that the beneficiary is the spouse of the participant.

Ancillary Death Benefit

Union: \$5,000 lump sum made payable to the beneficiary at time of participant's death.

Forms of Payment

For unmarried participants, normal form of payment is a life annuity. For married participants, normal form of payment is a 50% joint and survivor annuity. Optional forms of payments include a single lump sum; a 50%, 66⅔%, 75%, and 100% joint and survivor annuity; a 5, 10, and 15 year certain annuity.
