Independent Auditor's Report

Plan Administrator and Participants
L&M Radiator, Inc. Pension Plan

Opinion

We have audited the financial statements of L&M Radiator, Inc. Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2020, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021 and 2020, and the changes in its net assets available for benefits for the years then ended, the accumulated plan benefits as of December 31, 2020 and changes in accumulated plan benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules, Schedule H, Line 4i—Schedule of assets (held at end of year), as of December 31, 2021, and Schedule H, Line 4j—Schedule of reportable transactions for the year ended December 31, 2021, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

L&M Radiator, Inc. Pension Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of L&M Radiator, Inc. Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan was established October 1, 1961, and amended throughout the years to comply with tax legislation. The Plan was last amended on March 25, 2021. The Plan is a noncontributory defined benefit pension plan that provides retirement benefits for eligible employees of L&M Radiator, Inc. (the Company and Sponsor), except for employees covered by a collective bargaining agreement, nonresident aliens with no U.S. source of income, and leased employees. Effective January 1, 2004, the Plan was amended to freeze participation in the Plan, and therefore, there are no new participants to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Company is the sponsor and administrator of the Plan. Plan assets are managed and invested by trustees, who are certain officers and employees of the Company. The third-party administrator, Charles Schwab Institutional, provides custodial, record-keeping and reporting services.

Benefits and vesting: Participants are eligible to receive fully vested benefits from the Plan upon the attainment of normal retirement age (65). The benefits are based on the fractional rule. The normal monthly benefit is determined based on years of service and the average monthly compensation of the participant. The average monthly compensation of a participant at any date is the highest monthly average of their compensation for any five consecutive years that yield the highest average.

A participant who has received credit for 10 years of vesting service and has attained age 60 is entitled to reduced early retirement benefits under the Plan. There is also a provision for entitlement to benefits on account of late retirement and disability. A participant who delays retirement may elect to either defer benefits until actual retirement, or begin receiving normal retirement benefits as though actual retirement had taken place. A disabled participant becomes immediately vested in his or her benefits and then receives the accrued benefit payable at normal retirement age without reduction for early commencement.

Benefits under the Plan are paid at normal retirement age in the form of a qualified joint and survivor annuity. Optional forms of benefit include a monthly life annuity, a 10-year certain and life annuity, a 50% contingent life annuity, a 66.67% contingent life annuity, a 75% contingent survivor annuity and a 100% contingent life annuity. Death benefits under the Plan are payable in the form of a preretirement survivor annuity. If the present value of the vested accrued benefit is less than \$5,000, the Plan Administrator may permit an immediate lump-sum cash-out.

L&M Radiator, Inc. Pension Plan

Notes to Financial Statements

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of Plan assets available for benefits and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits as of the date of the financial statements, and changes therein. Actual results could differ from those estimates.

The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on the highest monthly average compensation as noted in Note 1. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits was determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of January 1, 2021, are as follows:

Mortality rate:	2021 Annuitant and Non-Annuitant Mortality Tables (Static)
Retirement:	Age 65
Interest discount rate:	5.75%
Social Security:	3.50% increase in the Nation Average Wage Index
Marital status:	50% of active employees are assumed to be married
Actuarial method:	Present value of accumulated benefits

L&M Radiator, Inc. Pension Plan

Notes to Financial Statements

Note 2. Summary of Accounting Policies (Continued)

The assumption changes from the previous year's valuation were as follows:

- The funding interest segment rates and mortality table were changed as required by law.
- The IRS pay limit increased from \$285,000 to \$290,000.
- The basis for the amortization of funding shortfalls changed from using a seven-year basis to a fresh-start 15-year basis as allowed by the American Rescue Plan Act of 2021 (ARPA) and elected by the Sponsor.
- The expected investment return assumption was changed from 7.00% to 5.75% based on an updated investment policy.

The actuarial valuation was performed as of January 1, 2021. There were no significant differences between December 31, 2020 and January 1, 2021, which would cause the actuarial valuation not to be accurate as of December 31, 2020.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan was to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Benefit payments: Benefits are recorded when paid.

Administrative expenses: The Plan's expenses are paid either by the Plan or the Sponsor, as provided by the Plan document. Expenses that are paid directly by the Sponsor are excluded from these financial statements. Certain expenses incurred in connection with investment advisory services to the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment-related expenses are included as an offset to net appreciation in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 6, 2022, the date the financial statements were available to be issued.

Note 3. Fair Value Measurements

Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Money market fund: The money market fund is valued at cost plus accrued income, which approximates fair value measured by similar assets in active markets.

Mutual funds: Mutual funds are valued at quoted market prices for identical assets in active markets for the shares held by the Plan at year-end.

Government and agency securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

L&M Radiator, Inc. Pension Plan

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Transfers between fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The significance of transfers between levels is evaluated based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2021 and 2020, there were no transfers in or out of Levels 1, 2 or 3.

The following sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020:

	Assets at Fair Value as of December 31, 2021			
	Level 1	Level 2	Level 3	Total

L&M Radiator, Inc. Pension Plan

Notes to Financial Statements

Note 4. Funding Policy

The Sponsor's funding policy is to make an annual contribution to the Plan in an amount estimated to be sufficient to provide the Plan with assets with which to pay pension benefits to the Plan's participants. The contribution requirements are determined annually by the Plan's actuary, Van Iwaarden, as of January 1 of the Plan year. The Sponsor's contributions for 2021 and 2020 equaled or exceeded the minimum funding requirements of ERISA.

Note 5. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. governmental agency, up to the applicable limitations as discussed below.
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Sponsor and the level of benefits guaranteed by the PBGC.

L&M Radiator, Inc. Pension Plan

Notes to Financial Statements

Note 6. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated April 27, 2012, that the Plan was designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Related-Party and Party-in-Interest Transactions

The Plan's investments are managed by Charles Schwab Institutional, the custodian, and Advanced Capital Group provides investment advisory services; therefore, all Plan transactions qualify as party-in-interest transactions under ERISA. Fees paid by the Plan for investment advisory services amounted to \$77,954 and \$68,172 for the years ended December 31, 2021 and 2020, respectively.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the 2021 statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V - Summary of Plan Provisions

Plan Name: L&M Radiator, Inc. Pension Plan EIN: 41-0791661 PN: 001

1) Plan provisions as of January 1, 2021

a. Effective Date of Plan: October 1, 1961. Last amended October 15, 2019.

b. Participating employers: All salaried employees hired before January 1, 2004.

c. Employees Eligible for Participation:

(1) Employees covered: All employees who satisfy the participation requirements.

(2) Participation requirements: Age 21 and 1,000 hours of service. The plan was closed to new hires after January 1, 2004.

d. Definitions:

(1) Vesting Service: An employee earns a full year of vesting service for each plan year with at least 1000 hours of service. Participants are 100% vested after 5 years of Vesting Service.

(2) Benefit Service: An employee earns a full year of vesting service for each plan year with at least 1000 hours of service.

(3) Final Average Compensation: Average monthly compensation for the 5 consecutive years of Benefit Service in the last 10 years of Benefit Service which produce the highest average.

(4) Integration Level: 1/12th of Social Security Covered Compensation (SSCC). The SSCC is the average of the taxable wage bases for the 35-year period ending when the participant attains Social Security retirement age. For a participant who terminates prior to Social Security retirement age, the SSCC is calculated by assuming that taxable wage base remains level from the year of termination until Social Security retirement age.

e. Retirement dates:

(1) Normal retirement: Age 65.

(2) Early retirement: Age 60 and 10 years of Service.

(3) Late retirement: Retirement after normal retirement date.

(4) Deferred vested termination: Termination for reasons other than death or retirement.

(5) Disability: Totally and permanently disabled.

(6) Preretirement death benefit: Death while eligible for normal, early, late or deferred vested retirement benefits, with a qualified married participant fully or partially vested in an accrued benefit.

Plan Name: L&M Radiator, Inc. Pension Plan EIN: 41-0791661 PN: 001

1) Plan provisions as of January 1, 2021 (continued)

f. Accrued benefit: The sum of (1), (2) and (3) (maximum of \$6,250), multiplied by (4).

(1) 1.40% of average compensation multiplied by expected credited service at normal retirement date (maximum of 20 years).

(2) 0.70% of average compensation multiplied by expected credited service at normal retirement date in excess of 20 years (with a maximum of 15 years).

(3) 0.58% of average compensation in excess of the integration level multiplied by expected credited service at normal retirement date (with a maximum of 35 years).

(4) Accrued benefit adjustment.

Accrued benefit adjustment: The quotient of (1) divided by (2), not to exceed 1.00.

(1) Years of credited service to date.

(2) Years of credited service projected to normal retirement date.

g. Benefits paid:

(1) Normal retirement: Accrued benefit on normal retirement date.

(2) Early retirement: A monthly benefit calculated as above but reduced by 1/15 for each year that payments precede normal retirement date.

(3) Late retirement: The greater of the accrued benefit as of late retirement or the accrued benefit as of normal retirement, actuarially increased to the late retirement date.

(4) Deferred vested termination: Accrued benefit on date of termination multiplied by the vesting percentage.

(5) Disabled retirement: Accrued benefit on date of disability.

(6) Pre-retirement death benefit: The amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his or her earliest retirement age, retired with a qualified 100% joint & survivor annuity in effect, then died the next day.

Plan Name: L&M Radiator, Inc. Pension Plan EIN: 41-0791661 PN: 001

1) Plan provisions as of January 1, 2021 (continued)

h. Normal form of payment:

(1) Normal form: Married participants will receive a 100% joint & survivor annuity. Single participants will receive a monthly annuity payable for 10 years and life thereafter.

(2) Optional forms: Married participants can elect a 75%, 66 2/3% or 50% joint & survivor annuity. All participants have the option to receive a single life annuity. Payment in the form of a lump sum is required if the total benefit is less than \$5,000.

i. Benefit and pay maximums: All benefits and pay for the year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The Plan provides for increasing the dollar limit automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

2) Plan provisions effective after January 1, 2021

No future plan provisions were recognized in determining the net pension cost or cash contributions to the plan.

3) Changes in plan provisions since prior year

- The IRS pay limit increased from \$285,000 to \$290,000.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V - Summary of Plan Provisions

Plan Name: L&M Radiator, Inc. Pension Plan EIN: 41-0791661 PN: 001

1) Plan provisions as of January 1, 2021

a. Effective Date of Plan: October 1, 1961. Last amended October 15, 2019.

b. Participating employers: All salaried employees hired before January 1, 2004.

c. Employees Eligible for Participation:

(1) Employees covered: All employees who satisfy the participation requirements.

(2) Participation requirements: Age 21 and 1,000 hours of service. The plan was closed to new hires after January 1, 2004.

d. Definitions:

(1) Vesting Service: An employee earns a full year of vesting service for each plan year with at least 1000 hours of service. Participants are 100% vested after 5 years of Vesting Service.

(2) Benefit Service: An employee earns a full year of vesting service for each plan year with at least 1000 hours of service.

(3) Final Average Compensation: Average monthly compensation for the 5 consecutive years of Benefit Service in the last 10 years of Benefit Service which produce the highest average.

(4) Integration Level: 1/12th of Social Security Covered Compensation (SSCC). The SSCC is the average of the taxable wage bases for the 35-year period ending when the participant attains Social Security retirement age. For a participant who terminates prior to Social Security retirement age, the SSCC is calculated by assuming that taxable wage base remains level from the year of termination until Social Security retirement age.

e. Retirement dates:

(1) Normal retirement: Age 65.

(2) Early retirement: Age 60 and 10 years of Service.

(3) Late retirement: Retirement after normal retirement date.

(4) Deferred vested termination: Termination for reasons other than death or retirement.

(5) Disability: Totally and permanently disabled.

(6) Preretirement death benefit: Death while eligible for normal, early, late or deferred vested retirement benefits, with a qualified married participant fully or partially vested in an accrued benefit.

Plan Name: L&M Radiator, Inc. Pension Plan EIN: 41-0791661 PN: 001

1) Plan provisions as of January 1, 2021 (continued)

f. Accrued benefit: The sum of (1), (2) and (3) (maximum of \$6,250), multiplied by (4).

(1) 1.40% of average compensation multiplied by expected credited service at normal retirement date (maximum of 20 years).

(2) 0.70% of average compensation multiplied by expected credited service at normal retirement date in excess of 20 years (with a maximum of 15 years).

(3) 0.58% of average compensation in excess of the integration level multiplied by expected credited service at normal retirement date (with a maximum of 35 years).

(4) Accrued benefit adjustment.

Accrued benefit adjustment: The quotient of (1) divided by (2), not to exceed 1.00.

(1) Years of credited service to date.

(2) Years of credited service projected to normal retirement date.

g. Benefits paid:

(1) Normal retirement: Accrued benefit on normal retirement date.

(2) Early retirement: A monthly benefit calculated as above but reduced by 1/15 for each year that payments precede normal retirement date.

(3) Late retirement: The greater of the accrued benefit as of late retirement or the accrued benefit as of normal retirement, actuarially increased to the late retirement date.

(4) Deferred vested termination: Accrued benefit on date of termination multiplied by the vesting percentage.

(5) Disabled retirement: Accrued benefit on date of disability.

(6) Pre-retirement death benefit: The amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his or her earliest retirement age, retired with a qualified 100% joint & survivor annuity in effect, then died the next day.

Plan Name: L&M Radiator, Inc. Pension Plan EIN: 41-0791661 PN: 001

1) Plan provisions as of January 1, 2021 (continued)

h. Normal form of payment:

(1) Normal form: Married participants will receive a 100% joint & survivor annuity. Single participants will receive a monthly annuity payable for 10 years and life thereafter.

(2) Optional forms: Married participants can elect a 75%, 66 2/3% or 50% joint & survivor annuity. All participants have the option to receive a single life annuity. Payment in the form of a lump sum is required if the total benefit is less than \$5,000.

i. Benefit and pay maximums: All benefits and pay for the year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The Plan provides for increasing the dollar limit automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

2) Plan provisions effective after January 1, 2021

No future plan provisions were recognized in determining the net pension cost or cash contributions to the plan.

3) Changes in plan provisions since prior year

- The IRS pay limit increased from \$285,000 to \$290,000.

Independent Auditor's Report

Plan Administrator and Participants
L&M Radiator, Inc. Pension Plan

Opinion

We have audited the financial statements of L&M Radiator, Inc. Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2020, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021 and 2020, and the changes in its net assets available for benefits for the years then ended, the accumulated plan benefits as of December 31, 2020 and changes in accumulated plan benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules, Schedule H, Line 4i—Schedule of assets (held at end of year), as of December 31, 2021, and Schedule H, Line 4j—Schedule of reportable transactions for the year ended December 31, 2021, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

L&M Radiator, Inc. Pension Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of L&M Radiator, Inc. Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan was established October 1, 1961, and amended throughout the years to comply with tax legislation. The Plan was last amended on March 25, 2021. The Plan is a noncontributory defined benefit pension plan that provides retirement benefits for eligible employees of L&M Radiator, Inc. (the Company and Sponsor), except for employees covered by a collective bargaining agreement, nonresident aliens with no U.S. source of income, and leased employees. Effective January 1, 2004, the Plan was amended to freeze participation in the Plan, and therefore, there are no new participants to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Company is the sponsor and administrator of the Plan. Plan assets are managed and invested by trustees, who are certain officers and employees of the Company. The third-party administrator, Charles Schwab Institutional, provides custodial, record-keeping and reporting services.

Benefits and vesting: Participants are eligible to receive fully vested benefits from the Plan upon the attainment of normal retirement age (65). The benefits are based on the fractional rule. The normal monthly benefit is determined based on years of service and the average monthly compensation of the participant. The average monthly compensation of a participant at any date is the highest monthly average of their compensation for any five consecutive years that yield the highest average.

A participant who has received credit for 10 years of vesting service and has attained age 60 is entitled to reduced early retirement benefits under the Plan. There is also a provision for entitlement to benefits on account of late retirement and disability. A participant who delays retirement may elect to either defer benefits until actual retirement, or begin receiving normal retirement benefits as though actual retirement had taken place. A disabled participant becomes immediately vested in his or her benefits and then receives the accrued benefit payable at normal retirement age without reduction for early commencement.

Benefits under the Plan are paid at normal retirement age in the form of a qualified joint and survivor annuity. Optional forms of benefit include a monthly life annuity, a 10-year certain and life annuity, a 50% contingent life annuity, a 66.67% contingent life annuity, a 75% contingent survivor annuity and a 100% contingent life annuity. Death benefits under the Plan are payable in the form of a preretirement survivor annuity. If the present value of the vested accrued benefit is less than \$5,000, the Plan Administrator may permit an immediate lump-sum cash-out.

L&M Radiator, Inc. Pension Plan

Notes to Financial Statements

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of Plan assets available for benefits and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits as of the date of the financial statements, and changes therein. Actual results could differ from those estimates.

The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on the highest monthly average compensation as noted in Note 1. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits was determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of January 1, 2021, are as follows:

Mortality rate:	2021 Annuitant and Non-Annuitant Mortality Tables (Static)
Retirement:	Age 65
Interest discount rate:	5.75%
Social Security:	3.50% increase in the Nation Average Wage Index
Marital status:	50% of active employees are assumed to be married
Actuarial method:	Present value of accumulated benefits

L&M Radiator, Inc. Pension Plan

Notes to Financial Statements

Note 2. Summary of Accounting Policies (Continued)

The assumption changes from the previous year's valuation were as follows:

- The funding interest segment rates and mortality table were changed as required by law.
- The IRS pay limit increased from \$285,000 to \$290,000.
- The basis for the amortization of funding shortfalls changed from using a seven-year basis to a fresh-start 15-year basis as allowed by the American Rescue Plan Act of 2021 (ARPA) and elected by the Sponsor.
- The expected investment return assumption was changed from 7.00% to 5.75% based on an updated investment policy.

The actuarial valuation was performed as of January 1, 2021. There were no significant differences between December 31, 2020 and January 1, 2021, which would cause the actuarial valuation not to be accurate as of December 31, 2020.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan was to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Benefit payments: Benefits are recorded when paid.

Administrative expenses: The Plan's expenses are paid either by the Plan or the Sponsor, as provided by the Plan document. Expenses that are paid directly by the Sponsor are excluded from these financial statements. Certain expenses incurred in connection with investment advisory services to the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment-related expenses are included as an offset to net appreciation in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 6, 2022, the date the financial statements were available to be issued.

Note 3. Fair Value Measurements

Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Money market fund: The money market fund is valued at cost plus accrued income, which approximates fair value measured by similar assets in active markets.

Mutual funds: Mutual funds are valued at quoted market prices for identical assets in active markets for the shares held by the Plan at year-end.

Government and agency securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

L&M Radiator, Inc. Pension Plan

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Transfers between fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The significance of transfers between levels is evaluated based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2021 and 2020, there were no transfers in or out of Levels 1, 2 or 3.

The following sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020:

	Assets at Fair Value as of December 31, 2021

L&M Radiator, Inc. Pension Plan

Notes to Financial Statements

Note 4. Funding Policy

The Sponsor's funding policy is to make an annual contribution to the Plan in an amount estimated to be sufficient to provide the Plan with assets with which to pay pension benefits to the Plan's participants. The contribution requirements are determined annually by the Plan's actuary, Van Iwaarden, as of January 1 of the Plan year. The Sponsor's contributions for 2021 and 2020 equaled or exceeded the minimum funding requirements of ERISA.

Note 5. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. governmental agency, up to the applicable limitations as discussed below.
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Sponsor and the level of benefits guaranteed by the PBGC.

L&M Radiator, Inc. Pension Plan

Notes to Financial Statements

Note 6. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated April 27, 2012, that the Plan was designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Related-Party and Party-in-Interest Transactions

The Plan's investments are managed by Charles Schwab Institutional, the custodian, and Advanced Capital Group provides investment advisory services; therefore, all Plan transactions qualify as party-in-interest transactions under ERISA. Fees paid by the Plan for investment advisory services amounted to \$77,954 and \$68,172 for the years ended December 31, 2021 and 2020, respectively.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the 2021 statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V - Summary of Plan Provisions

Plan Name: L&M Radiator, Inc. Pension Plan EIN: 41-0791661 PN: 001

1) Plan provisions as of January 1, 2021

a. Effective Date of Plan: October 1, 1961. Last amended October 15, 2019.

b. Participating employers: All salaried employees hired before January 1, 2004.

c. Employees Eligible for Participation:

(1) Employees covered: All employees who satisfy the participation requirements.

(2) Participation requirements: Age 21 and 1,000 hours of service. The plan was closed to new hires after January 1, 2004.

d. Definitions:

(1) Vesting Service: An employee earns a full year of vesting service for each plan year with at least 1000 hours of service. Participants are 100% vested after 5 years of Vesting Service.

(2) Benefit Service: An employee earns a full year of vesting service for each plan year with at least 1000 hours of service.

(3) Final Average Compensation: Average monthly compensation for the 5 consecutive years of Benefit Service in the last 10 years of Benefit Service which produce the highest average.

(4) Integration Level: 1/12th of Social Security Covered Compensation (SSCC). The SSCC is the average of the taxable wage bases for the 35-year period ending when the participant attains Social Security retirement age. For a participant who terminates prior to Social Security retirement age, the SSCC is calculated by assuming that taxable wage base remains level from the year of termination until Social Security retirement age.

e. Retirement dates:

(1) Normal retirement: Age 65.

(2) Early retirement: Age 60 and 10 years of Service.

(3) Late retirement: Retirement after normal retirement date.

(4) Deferred vested termination: Termination for reasons other than death or retirement.

(5) Disability: Totally and permanently disabled.

(6) Preretirement death benefit: Death while eligible for normal, early, late or deferred vested retirement benefits, with a qualified married participant fully or partially vested in an accrued benefit.

Plan Name: L&M Radiator, Inc. Pension Plan EIN: 41-0791661 PN: 001

1) Plan provisions as of January 1, 2021 (continued)

f. Accrued benefit: The sum of (1), (2) and (3) (maximum of \$6,250), multiplied by (4).

(1) 1.40% of average compensation multiplied by expected credited service at normal retirement date (maximum of 20 years).

(2) 0.70% of average compensation multiplied by expected credited service at normal retirement date in excess of 20 years (with a maximum of 15 years).

(3) 0.58% of average compensation in excess of the integration level multiplied by expected credited service at normal retirement date (with a maximum of 35 years).

(4) Accrued benefit adjustment.

Accrued benefit adjustment: The quotient of (1) divided by (2), not to exceed 1.00.

(1) Years of credited service to date.

(2) Years of credited service projected to normal retirement date.

g. Benefits paid:

(1) Normal retirement: Accrued benefit on normal retirement date.

(2) Early retirement: A monthly benefit calculated as above but reduced by 1/15 for each year that payments precede normal retirement date.

(3) Late retirement: The greater of the accrued benefit as of late retirement or the accrued benefit as of normal retirement, actuarially increased to the late retirement date.

(4) Deferred vested termination: Accrued benefit on date of termination multiplied by the vesting percentage.

(5) Disabled retirement: Accrued benefit on date of disability.

(6) Pre-retirement death benefit: The amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his or her earliest retirement age, retired with a qualified 100% joint & survivor annuity in effect, then died the next day.

Schedule SB, Part V - Summary of Plan Provisions

Plan Name: L&M Radiator, Inc. Pension Plan EIN: 41-0791661 PN: 001

1) Plan provisions as of January 1, 2021 (continued)

h. Normal form of payment:

(1) Normal form: Married participants will receive a 100% joint & survivor annuity. Single participants will receive a monthly annuity payable for 10 years and life thereafter.

(2) Optional forms: Married participants can elect a 75%, 66 2/3% or 50% joint & survivor annuity. All participants have the option to receive a single life annuity. Payment in the form of a lump sum is required if the total benefit is less than \$5,000.

i. Benefit and pay maximums: All benefits and pay for the year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The Plan provides for increasing the dollar limit automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

2) Plan provisions effective after January 1, 2021

No future plan provisions were recognized in determining the net pension cost or cash contributions to the plan.

3) Changes in plan provisions since prior year

- The IRS pay limit increased from \$285,000 to \$290,000.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V - Summary of Plan Provisions

Plan Name: L&M Radiator, Inc. Pension Plan EIN: 41-0791661 PN: 001

1) Plan provisions as of January 1, 2021

a. Effective Date of Plan: October 1, 1961. Last amended October 15, 2019.

b. Participating employers: All salaried employees hired before January 1, 2004.

c. Employees Eligible for Participation:

(1) Employees covered: All employees who satisfy the participation requirements.

(2) Participation requirements: Age 21 and 1,000 hours of service. The plan was closed to new hires after January 1, 2004.

d. Definitions:

(1) Vesting Service: An employee earns a full year of vesting service for each plan year with at least 1000 hours of service. Participants are 100% vested after 5 years of Vesting Service.

(2) Benefit Service: An employee earns a full year of vesting service for each plan year with at least 1000 hours of service.

(3) Final Average Compensation: Average monthly compensation for the 5 consecutive years of Benefit Service in the last 10 years of Benefit Service which produce the highest average.

(4) Integration Level: 1/12th of Social Security Covered Compensation (SSCC). The SSCC is the average of the taxable wage bases for the 35-year period ending when the participant attains Social Security retirement age. For a participant who terminates prior to Social Security retirement age, the SSCC is calculated by assuming that taxable wage base remains level from the year of termination until Social Security retirement age.

e. Retirement dates:

(1) Normal retirement: Age 65.

(2) Early retirement: Age 60 and 10 years of Service.

(3) Late retirement: Retirement after normal retirement date.

(4) Deferred vested termination: Termination for reasons other than death or retirement.

(5) Disability: Totally and permanently disabled.

(6) Preretirement death benefit: Death while eligible for normal, early, late or deferred vested retirement benefits, with a qualified married participant fully or partially vested in an accrued benefit.

Plan Name: L&M Radiator, Inc. Pension Plan EIN: 41-0791661 PN: 001

1) Plan provisions as of January 1, 2021 (continued)

f. Accrued benefit: The sum of (1), (2) and (3) (maximum of \$6,250), multiplied by (4).

(1) 1.40% of average compensation multiplied by expected credited service at normal retirement date (maximum of 20 years).

(2) 0.70% of average compensation multiplied by expected credited service at normal retirement date in excess of 20 years (with a maximum of 15 years).

(3) 0.58% of average compensation in excess of the integration level multiplied by expected credited service at normal retirement date (with a maximum of 35 years).

(4) Accrued benefit adjustment.

Accrued benefit adjustment: The quotient of (1) divided by (2), not to exceed 1.00.

(1) Years of credited service to date.

(2) Years of credited service projected to normal retirement date.

g. Benefits paid:

(1) Normal retirement: Accrued benefit on normal retirement date.

(2) Early retirement: A monthly benefit calculated as above but reduced by 1/15 for each year that payments precede normal retirement date.

(3) Late retirement: The greater of the accrued benefit as of late retirement or the accrued benefit as of normal retirement, actuarially increased to the late retirement date.

(4) Deferred vested termination: Accrued benefit on date of termination multiplied by the vesting percentage.

(5) Disabled retirement: Accrued benefit on date of disability.

(6) Pre-retirement death benefit: The amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his or her earliest retirement age, retired with a qualified 100% joint & survivor annuity in effect, then died the next day.

Plan Name: L&M Radiator, Inc. Pension Plan EIN: 41-0791661 PN: 001

1) Plan provisions as of January 1, 2021 (continued)

h. Normal form of payment:

(1) Normal form: Married participants will receive a 100% joint & survivor annuity. Single participants will receive a monthly annuity payable for 10 years and life thereafter.

(2) Optional forms: Married participants can elect a 75%, 66 2/3% or 50% joint & survivor annuity. All participants have the option to receive a single life annuity. Payment in the form of a lump sum is required if the total benefit is less than \$5,000.

i. Benefit and pay maximums: All benefits and pay for the year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The Plan provides for increasing the dollar limit automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

2) Plan provisions effective after January 1, 2021

No future plan provisions were recognized in determining the net pension cost or cash contributions to the plan.

3) Changes in plan provisions since prior year

- The IRS pay limit increased from \$285,000 to \$290,000.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V - Summary of Plan Provisions

Plan Name: L&M Radiator, Inc. Pension Plan EIN: 41-0791661 PN: 001

1) Plan provisions as of January 1, 2021

a. Effective Date of Plan: October 1, 1961. Last amended October 15, 2019.

b. Participating employers: All salaried employees hired before January 1, 2004.

c. Employees Eligible for Participation:

(1) Employees covered: All employees who satisfy the participation requirements.

(2) Participation requirements: Age 21 and 1,000 hours of service. The plan was closed to new hires after January 1, 2004.

d. Definitions:

(1) Vesting Service: An employee earns a full year of vesting service for each plan year with at least 1000 hours of service. Participants are 100% vested after 5 years of Vesting Service.

(2) Benefit Service: An employee earns a full year of vesting service for each plan year with at least 1000 hours of service.

(3) Final Average Compensation: Average monthly compensation for the 5 consecutive years of Benefit Service in the last 10 years of Benefit Service which produce the highest average.

(4) Integration Level: 1/12th of Social Security Covered Compensation (SSCC). The SSCC is the average of the taxable wage bases for the 35-year period ending when the participant attains Social Security retirement age. For a participant who terminates prior to Social Security retirement age, the SSCC is calculated by assuming that taxable wage base remains level from the year of termination until Social Security retirement age.

e. Retirement dates:

(1) Normal retirement: Age 65.

(2) Early retirement: Age 60 and 10 years of Service.

(3) Late retirement: Retirement after normal retirement date.

(4) Deferred vested termination: Termination for reasons other than death or retirement.

(5) Disability: Totally and permanently disabled.

(6) Preretirement death benefit: Death while eligible for normal, early, late or deferred vested retirement benefits, with a qualified married participant fully or partially vested in an accrued benefit.

(1) 1.40% of average compensation multiplied by expected credited service at normal retirement date (maximum of 20 years).

(2) 0.70% of average compensation multiplied by expected credited service at normal retirement date in excess of 20 years (with a maximum of 15 years).

(3) 0.58% of average compensation in excess of the integration level multiplied by expected credited service at normal retirement date (with a maximum of 35 years).

(4) Accrued benefit adjustment.

Accrued benefit adjustment: The quotient of (1) divided by (2), not to exceed 1.00.

(1) Years of credited service to date.

(2) Years of credited service projected to normal retirement date.

g. Benefits paid:

(1) Normal retirement: Accrued benefit on normal retirement date.

(2) Early retirement: A monthly benefit calculated as above but reduced by 1/15 for each year that payments precede normal retirement date.

(3) Late retirement: The greater of the accrued benefit as of late retirement or the accrued benefit as of normal retirement, actuarially increased to the late retirement date.

(4) Deferred vested termination: Accrued benefit on date of termination multiplied by the vesting percentage.

(5) Disabled retirement: Accrued benefit on date of disability.

(6) Pre-retirement death benefit: The amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his or her earliest retirement age, retired with a qualified 100% joint & survivor annuity in effect, then died the next day.

1) Plan provisions as of January 1, 2021 (continued)

h. Normal form of payment:

(1) Normal form: Married participants will receive a 100% joint & survivor annuity. Single participants will receive a monthly annuity payable for 10 years and life thereafter.

(2) Optional forms: Married participants can elect a 75%, 66 2/3% or 50% joint & survivor annuity. All participants have the option to receive a single life annuity. Payment in the form of a lump sum is required if the total benefit is less than \$5,000.

i. Benefit and pay maximums: All benefits and pay for the year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The Plan provides for increasing the dollar limit automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

2) Plan provisions effective after January 1, 2021

No future plan provisions were recognized in determining the net pension cost or cash contributions to the plan.

3) Changes in plan provisions since prior year

- The IRS pay limit increased from \$285,000 to \$290,000.

Independent Auditor's Report

Plan Administrator and Participants
L&M Radiator, Inc. Pension Plan

Opinion

We have audited the financial statements of L&M Radiator, Inc. Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2020, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021 and 2020, and the changes in its net assets available for benefits for the years then ended, the accumulated plan benefits as of December 31, 2020 and changes in accumulated plan benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules, Schedule H, Line 4i—Schedule of assets (held at end of year), as of December 31, 2021, and Schedule H, Line 4j—Schedule of reportable transactions for the year ended December 31, 2021, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

Note 1. Plan Description

The following description of L&M Radiator, Inc. Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan was established October 1, 1961, and amended throughout the years to comply with tax legislation. The Plan was last amended on March 25, 2021. The Plan is a noncontributory defined benefit pension plan that provides retirement benefits for eligible employees of L&M Radiator, Inc. (the Company and Sponsor), except for employees covered by a collective bargaining agreement, nonresident aliens with no U.S. source of income, and leased employees. Effective January 1, 2004, the Plan was amended to freeze participation in the Plan, and therefore, there are no new participants to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Company is the sponsor and administrator of the Plan. Plan assets are managed and invested by trustees, who are certain officers and employees of the Company. The third-party administrator, Charles Schwab Institutional, provides custodial, record-keeping and reporting services.

Benefits and vesting: Participants are eligible to receive fully vested benefits from the Plan upon the attainment of normal retirement age (65). The benefits are based on the fractional rule. The normal monthly benefit is determined based on years of service and the average monthly compensation of the participant. The average monthly compensation of a participant at any date is the highest monthly average of their compensation for any five consecutive years that yield the highest average.

A participant who has received credit for 10 years of vesting service and has attained age 60 is entitled to reduced early retirement benefits under the Plan. There is also a provision for entitlement to benefits on account of late retirement and disability. A participant who delays retirement may elect to either defer benefits until actual retirement, or begin receiving normal retirement benefits as though actual retirement had taken place. A disabled participant becomes immediately vested in his or her benefits and then receives the accrued benefit payable at normal retirement age without reduction for early commencement.

Benefits under the Plan are paid at normal retirement age in the form of a qualified joint and survivor annuity. Optional forms of benefit include a monthly life annuity, a 10-year certain and life annuity, a 50% contingent life annuity, a 66.67% contingent life annuity, a 75% contingent survivor annuity and a 100% contingent life annuity. Death benefits under the Plan are payable in the form of a preretirement survivor annuity. If the present value of the vested accrued benefit is less than \$5,000, the Plan Administrator may permit an immediate lump-sum cash-out.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of Plan assets available for benefits and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits as of the date of the financial statements, and changes therein. Actual results could differ from those estimates.

The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on the highest monthly average compensation as noted in Note 1. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits was determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of January 1, 2021, are as follows:

Mortality rate:	2021 Annuitant and Non-Annuitant Mortality Tables (Static)
Retirement:	Age 65
Interest discount rate:	5.75%
Social Security:	3.50% increase in the Nation Average Wage Index
Marital status:	50% of active employees are assumed to be married
Actuarial method:	Present value of accumulated benefits

L&M Radiator, Inc. Pension Plan

Notes to Financial Statements

Note 2. Summary of Accounting Policies (Continued)

The assumption changes from the previous year's valuation were as follows:

- The funding interest segment rates and mortality table were changed as required by law.
- The IRS pay limit increased from \$285,000 to \$290,000.
- The basis for the amortization of funding shortfalls changed from using a seven-year basis to a fresh-start 15-year basis as allowed by the American Rescue Plan Act of 2021 (ARPA) and elected by the Sponsor.
- The expected investment return assumption was changed from 7.00% to 5.75% based on an updated investment policy.

The actuarial valuation was performed as of January 1, 2021. There were no significant differences between December 31, 2020 and January 1, 2021, which would cause the actuarial valuation not to be accurate as of December 31, 2020.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan was to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Benefit payments: Benefits are recorded when paid.

Administrative expenses: The Plan's expenses are paid either by the Plan or the Sponsor, as provided by the Plan document. Expenses that are paid directly by the Sponsor are excluded from these financial statements. Certain expenses incurred in connection with investment advisory services to the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment-related expenses are included as an offset to net appreciation in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 6, 2022, the date the financial statements were available to be issued.

Note 3. Fair Value Measurements

Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Money market fund: The money market fund is valued at cost plus accrued income, which approximates fair value measured by similar assets in active markets.

Mutual funds: Mutual funds are valued at quoted market prices for identical assets in active markets for the shares held by the Plan at year-end.

Government and agency securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

L&M Radiator, Inc. Pension Plan

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Transfers between fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The significance of transfers between levels is evaluated based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2021 and 2020, there were no transfers in or out of Levels 1, 2 or 3.

The following sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020:

	Assets at Fair Value as of December 31, 2021

L&M Radiator, Inc. Pension Plan

Notes to Financial Statements

Note 4. Funding Policy

The Sponsor's funding policy is to make an annual contribution to the Plan in an amount estimated to be sufficient to provide the Plan with assets with which to pay pension benefits to the Plan's participants. The contribution requirements are determined annually by the Plan's actuary, Van Iwaarden, as of January 1 of the Plan year. The Sponsor's contributions for 2021 and 2020 equaled or exceeded the minimum funding requirements of ERISA.

Note 5. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. governmental agency, up to the applicable limitations as discussed below.
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Sponsor and the level of benefits guaranteed by the PBGC.

L&M Radiator, Inc. Pension Plan

Notes to Financial Statements

Note 6. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated April 27, 2012, that the Plan was designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Related-Party and Party-in-Interest Transactions

The Plan's investments are managed by Charles Schwab Institutional, the custodian, and Advanced Capital Group provides investment advisory services; therefore, all Plan transactions qualify as party-in-interest transactions under ERISA. Fees paid by the Plan for investment advisory services amounted to \$77,954 and \$68,172 for the years ended December 31, 2021 and 2020, respectively.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the 2021 statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
