Wheeling, West Virginia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of the Wheeling Jesuit University Defined Contribution Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA ("ERISA Section 103(a)(3)(C) audit"). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency ("qualified institution"), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of December 31, 2021 and 2020, and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

Prior to January 1, 2009, records were maintained at a contract, not a plan level; therefore, the management has not maintained, and TIAA and CREF did not provide sufficient accounting records and supporting documentation relating to certain annuity contracts and custodial accounts issued to current and former employees, and supporting documentation is not adequate to assure the completeness and accuracy of the amounts included in the financial statements. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements have been affected by these conditions.

As described in Note 2, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin ("FAB") No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. Related to such accounts, as reported by PIMCO Allianz, net assets available for benefits of approximately \$3,072,000 and \$2,619,000, were excluded from the statements of net assets available for benefits as of December 31, 2021 and 2020. Further, investment gains/losses of approximately \$534,000 and distributions of approximately \$81,000 related to such accounts, as identified by PIMCO Allianz, have also been excluded in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2021. Accounting principles generally accepted in the United States of America ("GAAP") require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP"), and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America ("GAAS") and to issue an auditor's report. However, because of the matters described in the *Basis for Disclaimer of Opinion* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedule H, line 4a-schedule of delinquent participant contributions-for the year ended December 31, 2021 and supplemental schedule H, line 4i-schedule of assets (held at end of year) as of December 31, 2021 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Wheeling Jesuit University Defined Contribution Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Wheeling Jesuit University Defined Contribution Plan (the “Plan”) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan under Section 403(b) of the Internal Revenue Code (“IRC”) and covers all employees of Wheeling University (the “University” or “Employer”) except for students, employees scheduled less than 20 hours per week, and non-resident aliens with no U.S. earned income. Employees are eligible to participate in the Plan immediately, following commencement of employment, as defined in the Plan Document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

Contributions

Contributions are comprised of the following:

- a) A participant may elect to contribute as a salary deferral any percent of eligible compensation, subject to certain limitations.
- b) Any participant who is eligible to make participant deferral contributions and who has attained age 50 before year-end, may elect to make catch-up contributions subject to certain limitations. Participants may also elect to make special catch-up contributions prior to the age of 50 if 15 years of service has been rendered by the participant subject to certain limitations.
- c) The University may, but is not required to, make discretionary matching contributions and discretionary non-elective Employer contributions. For the year ended December 31, 2021, the University elected to make a discretionary matching contribution in the amount of 100 percent of the first 3 percent of eligible compensation deferred upon. During 2021, the University elected to make a discretionary non-elective Employer contribution of 3 percent of eligible compensation. A participant must be 21 years of age and perform one year of service (1,000 hours performed in 12 consecutive months) to be eligible for the Employer discretionary matching contributions. A participant must be 21 years of age with no service requirement to be eligible for the Employer discretionary non-elective contribution. The Plan excludes from Employer contributions participants classified as adjunct faculty, employees belonging to “Society of Jesus” and employees not classified as full-time, staff (for match only), and faculty and administration (for the Employer discretionary non-elective contributions only).
- d) The Plan also allows participants to make qualified rollover contributions to the Plan.

Participant Accounts

Each participant’s account is credited with the participant’s deferral contributions, Employer contributions, and an allocation of earnings thereon. Allocations are based upon participant earnings, account balances, or specific participant transactions, as defined in the Plan document. Participants may direct the investment of their account balances into various investment options offered by the Plan. The Plan currently offers fixed annuity contracts, variable annuities, mutual funds and a pooled separate account. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Wheeling Jesuit University Defined Contribution Plan

Notes to Financial Statements

Contract Loans to Participants

Up until December 31, 2021, participants could borrow directly from TIAA and CREF, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of the present value of the vested accrued benefit of the TIAA Traditional Annuity account. The participant had to pledge sufficient collateral. The collateral of these loans is maintained in their investment accounts to the TIAA Traditional Annuity account.

The loans are not shown in the Plan's statement of net assets available for benefits as the loans were not made from plan assets and are therefore not considered assets of the Plan. Loan interest rates are variable at prevailing interest rates and can be increased or decreased by TIAA and CREF. Principal and interest is paid ratably by the participant directly to TIAA and CREF. A default charge will be assessed against the portion of the loan collateral used to foreclose on all or part of any loan.

Loan balances outstanding to TIAA and CREF from the Plan's participants were \$27,815 and \$39,115 as of December 31, 2021 and 2020, respectively. At December 31, 2021 and 2020, there were no loans to participants in default and subject to repayment from participants' accounts at the time of distribution. There was no loan collateral foreclosed upon by TIAA and CREF and distributed from participant accounts to repay a defaulted loan during 2021.

Notes Receivable from Participants

Participants may borrow a minimum of \$1,000 up to a maximum of equal to the lesser of \$50,000 or 50 percent of their account balance. Loans are secured by the balance in the participant's account and must be repaid in equal payments over a maximum five-year period, except for loans for the purchase of a principal residence, which must be repaid within a commercially reasonable period from the date of the loan. Participants are limited to one loan outstanding at any time. Loan interest rates are established at the discretion of the Plan Administrator.

Benefit Payments

On termination of service due to death, disability, or retirement (age 65), a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, annuities, or annual installments if otherwise elected, as provided for in the Plan Document. However, if the participant's vested interest is less than \$5,000, they must take a lump-sum distribution. The Plan also provides for "hardship" withdrawals prior to retirement age and withdrawals of rollover contributions at any time. Participants may also take in-service distributions at age 59 ½.

Vesting

Each participant is immediately vested in his or her salary deferral contributions, rollover contributions, and the Employer contributions, plus related earnings thereon.

Administrative Expense

Certain administrative expenses of the Plan are paid by the Employer and are excluded from these financial statements. Fees paid by the Plan for investment management are included in the investment gains and losses on the statement of changes in net assets available for benefits. During 2020, the Plan also paid for investment advisory fees.

2. Summary of Significant Accounting Policies

Annual Reporting Requirements

Prior to January 1, 2009, TIAA and CREF maintained records at a contract, not Plan level, and administratively decided not to provide accounting records and supporting documentation at the participant or plan level relating to certain annuity and custodial accounts issued to current and former employees. As such, neither the Plan sponsor nor TIAA and CREF have been able to produce sufficient records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. As a result, the completeness and the accuracy of the annuity and custodial accounts, related investment income, and distributions related to these accounts, if any, could not be determined.

Additionally, certain plan assets held by Pacific Investment Management Company, LLC ("PIMCO") are excluded from investments in the accompanying statements of net assets available for benefits certain annuity and custodial accounts issued to former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, Annual Reporting Requirements for 403(b) Plans. The investment income and distributions related to such accounts have also been excluded from the accompanying statement of changes in net assets available for benefits.

Specifically, the administrator of a 403(b) plan does not need to treat annuity contracts and custodial accounts as part of the employer's Title I plan or as plan assets for purposes of ERISA's annual reporting requirements provided that:

- The contract or account was issued to a current or former employee before January 1, 2009;
- The employer ceased to have any obligation to make contributions (including employee salary reduction contributions), and in fact ceased making contributions to the contract or account before January 1, 2009;
- All of the rights and benefits under the contract or account are legally enforceable against the insurer or custodian by the individual owner of the contract or account without any involvement by the employer; and
- The individual owner of the contract is fully vested in the contract or account.

If the identified contracts were included, net assets available for benefits would increase by approximately \$3,072,000 and \$2,619,000 as of December 31, 2021 and 2020, respectively. Further, investment income of approximately \$534,000 and benefit payments of approximately \$81,000 related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2021. These amounts are reported by PIMCO Allianz and are not subject to auditing procedures. Accordingly, we were unable to assure the completeness and accuracy of such excluded amounts. Accounting principles generally accepted in the United States of America require that these accounts and the related income and benefit payments be included in the accompanying financial statements.

Basis of Accounting

The accompanying financial statements of the Plan have been prepared under the accrual basis of accounting.

Wheeling Jesuit University Defined Contribution Plan

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value with the exception of fully benefit responsive (“FBR”) investment contracts. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. See Note 4 for a discussion on fair value measurements.

Investments in fully benefit responsive (“FBR”) investment contracts with TIAA (Note 5) are valued at contract value. Contract value equals accumulated cash contributions and interest credited to the Plan’s contracts, less withdrawals.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at the unpaid principal balance plus unpaid accrued interest. The Plan classifies all notes receivable from participants with no payments received for a prescribed period of time as in default. Defaulted loans from participants are deemed distributed and recorded as benefits paid to participants in the statement of changes in net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

3. Information Certified by TIAA and CREF

The plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and CREF, qualified institutions, have certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule are complete and accurate:

- Investments shown in the statements of net assets available for benefits as of December 31, 2021 and 2020;
- Net investment income and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2021; and
- Investment information included in the schedule H, line 4i—schedule of assets (held at end of year) as of December 31, 2021, as shown on the ERISA-required supplemental schedule.

Wheeling Jesuit University Defined Contribution Plan

Notes to Financial Statements

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements and ERISA-required supplemental schedule.

4. Fair Value Measurements

Accounting Standards Codification ("ASC") 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the valuation methodologies used at December 31, 2021 and 2020. The following is a description of the valuation methodologies used for assets measured at fair value:

Fixed Annuity Contracts: The non-fully benefit responsive ("NFBR") fixed annuity contracts, composed of the TIAA Traditional Annuity Contracts and TIAA Stable Value, are reported at fair value, which is approximated by contract value. Fair value is determined using a discounted cash flow model. The contract value equals the accumulated cash contributions and interest credited to the Plan's contracts, less withdrawals. The fixed annuity contracts are not available for sale or transfer on any securities exchange. The fixed annuity accounts are subject to various restrictions. See Note 5.

Wheeling Jesuit University Defined Contribution Plan

Notes to Financial Statements

Pooled Separate Account: Units held in the pooled separate account (“PSA”) are valued at net asset value (“NAV”) based on the fair market value of the underlying investments of the account less its liabilities. The NAV is published on NASDAQ; however, the PSA is not publicly traded. The PSA holds between 15 percent and 25 percent of its net assets in investments other than real estate and real estate related investments, comprised of publicly traded, liquid investments. Determination of fair value of the real estate assets, involves significant judgment. Valuation of the PSA’s real estate properties are based on real estate appraisals, which are estimates of property values based on a professional’s opinion and may not be accurate predictors of the amount the PSA would actually receive if it sold a property. Appraisals can be subjective in certain respects and rely on a variety of assumptions (including comparable property sales and historic pricing) and conditions at that property or in the market in which the property is located, which may change materially after the appraisal is conducted. Among other things, market prices for comparable real estate may be volatile, in particular if there has been a lack of recent transaction activity in such market. Further, as the PSA generally obtains appraisals on a quarterly basis, there may be circumstances in the period between appraisals or interim valuation adjustments in which the true realizable value of a property is not reflected in the PSA’s daily net asset value calculation or in the PSA’s periodic financial statements.

The PSA provides participants with a liquidity guarantee enabling the account to have funds available to meet participant redemption, transfer or cash withdrawals. TIAA guarantees that participants can redeem their accumulation unit value determined after their transfer or cash withdrawal request is received in good order.

TIAA-CREF limits the ability of participants to transfer funds into the TIAA Real Estate Account. Specifically, individual participants are limited from making internal transfers into their account if, after giving effect to such transfer, the total value of such participant’s account (under all contracts issued to such participant) would exceed \$150,000. A participant is not required to reduce his or her contract balance to a level at or below \$150,000 if the participant’s account totals more than \$150,000.

Mutual Funds: Mutual funds represent investments with various investment managers. The mutual funds are valued at the daily closing net asset value as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Variable Annuities: These are registered investments that invest principally in equity securities, fixed-income instruments and short-term investments in accordance with each portfolio’s investment objectives. Units held in the registered investments are valued at the NAV. The NAV is published on NASDAQ; however, the variable annuities are not publicly traded. The NAV is measured based on the fair value of the underlying investments held by the fund less its liabilities. The fair value of the underlying investments are determined using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments, including matrix pricing. Money market account holdings are generally valued at amortized cost. On a daily basis, units in the registered investments are revalued to reflect performance of the underlying investments minus any fees and charges.

Wheeling Jesuit University Defined Contribution Plan

Notes to Financial Statements

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan's assets at fair value:

Wheeling Jesuit University Defined Contribution Plan

Notes to Financial Statements

5. Fixed Annuity Contracts

As discussed in Note 4, fixed annuity contracts consist of investment options available to participants known as the TIAA Traditional Annuity Contracts (“Annuity”) and TIAA Stable Value. Annuity contracts are established between the participants and TIAA, an insurance company registered in the state of New York. This investment option is offered in a variety of formats, including Retirement Annuities (“RA”), Supplemental Retirement Annuities (“SRA”), Group Supplemental Retirement Annuities (“GSRA”), and Retirement Choice (“RC”). The return of Annuity contributions plus interest to participants is subject to TIAA’s claims-paying ability.

Annuity accounts are credited with a guaranteed minimum rate of interest that is determined annually. Participants may also earn interest in addition to the guaranteed rate at the discretion of TIAA. Such discretionary interest, if any, is declared by TIAA on a year-by-year basis and remains in effect for the subsequent twelve-month “declaration year”.

Contributions to the Annuity accounts are grouped by TIAA into “vintages” comprised of premiums received over defined time periods of one or more contiguous calendar months. The interest crediting rate for each vintage is determined, in part, by the net investment earnings rate of the TIAA assets supporting that vintage, minus a charge for administrative expenses and an amount set aside for contingency reserves. Crediting rates are also determined by the performance of investments contained in TIAA’s general account.

RA account balances may only be withdrawn over 10 annual payments. RC account balances are available within 120 days after termination of employment. If not withdrawn within 120 days of employment, balances may only be withdrawn over a period of seven years (84 monthly systematic payments). RAs and RCs are not considered to be fully benefit-responsive investment contracts as defined by ASC 962, because this provision is considered to restrict participants’ “reasonable access” to their contract balances.

SRAs and GSRA are considered fully benefit-responsive investment contracts, because they are fully liquid and immediately cashable once a participant terminates employment with the Employer (unless they are pledged as collateral on Contract Loans). See Note 1.

The TIAA Stable Value is a fixed rate group annuity contract issued by TIAA. Contributions are deposited into a non-unitized separate account. There is a guaranteed minimum rate of interest provided by the contract that falls between 1 percent and 3 percent. Any amount credited above the minimum guaranteed rate is determined by TIAA. These rates are subject to change every six months and TIAA guarantees that the declared crediting rate will not decline by more than 0.75 percent each time it is reset. TIAA prohibits direct transfers to competing funds. Transfers may be made to a competing fund after a 90 day waiting period after being transferred to a noncompeting fund. Additionally, transfers into TIAA Stable Value may not be made for 30 days following a transfer out.

6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of Plan termination, participants will remain fully vested.

Wheeling Jesuit University Defined Contribution Plan

Notes to Financial Statements

7. Tax Status

The Plan has not yet adopted a prototype 403(b) adoption agreement that has received an opinion letter from the Internal Revenue Service ("IRS"). The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks And Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. At December 31, 2021 and 2020, two investments comprised 45 percent of total net assets available for benefits.

9. Related Party and Party-In-Interest Transactions

Certain investments are managed by TIAA and CREF and serve as collateral on loans to participants. Investment management fees are recorded net of investment gains and losses in the statement of changes in assets held for benefits. Therefore, investment transactions are considered exempt party-in-interest transactions. Fees paid to the investment advisor are also considered exempt party-in-interest transactions.

During 2021 and 2020, Plan management identified certain instances of untimely contributions to the plan totaling \$36,576 and \$30,100, respectively. Plan management intends to correct the untimely participant contributions by remitting lost earnings to the Plan.

10. Subsequent Events

The Plan has evaluated subsequent events from the date of the statement of net assets available for benefits through October 10, 2022, the date the financial statements were available to be issued. Effective January 1, 2022, the Plan was restated adopting a Volume Submitter Plan. The restatement implements a one-year service requirement to be eligible for Employer discretionary non-elective contributions. The restatement also implements a two-year cliff vesting schedule for Employer discretionary matching contributions and Employer discretionary non-elective contributions. The vesting schedule only applies to newly eligible employees as of January 1, 2022. Employees who became eligible prior to January 1, 2022 remain immediately vested in all contributions, plus related earnings thereon. There were no other changes to Plan provisions noted herein, as a result of the restatement.
