Independent Auditor's Report

To the Plan Administrator
Monmouth University Defined Contribution Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We were engaged to perform an audit of the financial statements of Monmouth University Defined Contribution Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements ("2021 Financial Statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 Financial Statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from qualified institutions as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Disclaimer of Opinion on the 2021 Financial Statements

We do not express an opinion on the accompanying 2021 Financial Statements of the Plan. Because of the significance of the matters described in the *Basis for Disclaimer of Opinion on the 2021 Financial Statements* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2021 Financial Statements.

Basis for Disclaimer of Opinion on the 2021 Financial Statements

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying 2021 Financial Statements may have been affected by these conditions.

Further, as described in Note 2 to the financial statements, the Plan has excluded from investments in the accompanying statement of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirement for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amounts of these excluded annuity contracts and custodial accounts and the related income and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America require that these accounts and related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue our auditor's report. However, because of the matters described in the *Basis for Disclaimer of Opinion on the 2021 Financial Statements* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) (Schedule H, Line 4i) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the *Basis for Disclaimer of Opinion on the 2021 Financial Statements* section of our report, it is inappropriate to and we do not express an opinion on this supplemental schedule.

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by qualified institutions. Further, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

The Plan has excluded from the 2020 financial statements certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the 2020 financial statements. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the 2020 financial statements.

In our report dated October 8, 2021, we indicated that because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and, accordingly, we did not express an opinion on the 2020 financial statements.

MONMOUTH UNIVERSITY DEFINED CONTRIBUTION RETIREMENT PLAN

Notes to Financial Statements

(1) Description of Plan

The following description of Monmouth University Defined Contribution Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan, which was established on September 1, 1952, is a defined contribution plan covering substantially all of the employees of Monmouth University (the "University") except employees who are students performing services described in Internal Revenue Code (the "Code") Section 3121(b)(10). The Plan was established to encourage savings by employees and provide for their retirement and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Code. The Board of Trustees is responsible for oversight of the Plan. The Legal, Human Resources and Benefits Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

(b) Eligibility

Employees of the University are eligible to participate in the Plan and elect to have elective deferrals made on their behalf immediately upon hire. Employees who satisfy the eligibility criteria for their employee classification contribute a minimum of 5% of eligible compensation per pay period, and if they are not in an excluded job classification they are eligible to receive employer contributions as indicated under Contributions.

(c) Contributions

Each year, participants may contribute, in the form of pre-tax deferred salary reductions or after-tax salary deductions, any whole percentage of gross compensation between 1% and 100%, limited to allow for any required tax or benefit deductions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. No employer contributions are made by the University to participants who elect not to participate in the University's defined contribution retirement plan, to participants who elect to defer less than 5% per pay period of eligible compensation, to participants who are covered by a collective bargaining agreement that allows for participation in the Plan but does not provide matching contributions, or to participants in an excludable job classification. The University makes employer contributions to eligible participants as indicated below:

- (1) Faculty (excluding adjunct faculty) – 8% employer contribution on the first day of the month following the completion of two years of service**;
- (2) Administrators* – 8% employer contribution on the first day of the month following the completion of two years of service**;
- (3) Union Staff and Non-Union Staff* – 8% employer contribution on the first day of the month following the completion of two years of service**;
- (4) Police and Supervisory Police – 8% employer contribution on the first day of the month following the completion of two years of service**, and

MONMOUTH UNIVERSITY DEFINED CONTRIBUTION RETIREMENT PLAN

Notes to Financial Statements

- (5) Facilities Management Employees and Facilities Management Supervisors – 8% employer contribution on the first day of the month following the completion of two years of service**.

As dictated by the Internal Revenue Service (the "IRS"), the maximum combined participant and employer contributions to a participant's account for a Plan year is limited to the lesser of \$58,000 and \$57,000 for 2021 and 2020, respectively, or 100% of the participant's annual compensation. The maximum annual compensation taken into account for determining the contributions allowed to the Plan is \$290,000 and \$285,000, respectively, for 2021 and 2020. The IRS has limited a participant's annual tax deferred contribution to \$19,500 for 2021 and 2020. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions allowed by the Code of \$6,500 for 2021 and 2020. Participants with 15 years of service may be eligible to make special 403(b) catch-up contributions not to exceed \$3,000 per annum or \$15,000 in a lifetime.

* See Plan document for excluded job classifications.

** A year of service is a 12-month period in which the employee has completed at least 1,000 hours of service. See Plan document for full details.

(d) *Vesting and Forfeitures*

Participants are fully and immediately vested in the benefits arising from contributions made under this Plan.

(e) *Participant Accounts*

Each participant's account is credited with the participant's contribution and an allocation of the University's contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(f) *Payment of Benefits*

Benefits may be paid upon death, disability, termination, normal retirement or attainment of age 59½ to the participants or their beneficiaries. These benefits are generally paid as allowed under each funding vehicle which may include lump-sum distributions equal to the value of the participant's vested interest in his or her account, forms of single and joint life annuities and fixed period annuities.

(g) *Notes Receivable from Participants*

Loans are available from the Plan through Teachers Insurance and Annuity Association ("TIAA") and College Retirement Equity Fund ("CREF") only. Prior to May 13, 2021, loans were issued directly from funds owned by TIAA and CREF. Adequate security is required and a portion of the participant's account is reserved, or held in collateral, to cover 110% of the outstanding loan in case of default. The collateral is held in the TIAA Traditional Annuity as either part of an annuity or retirement choice contract, or as a separate retirement loan contract. The loan interest rate for these collateralized Plan loans may be fixed or variable and the initial rate is determined by the terms of the controlling contract, as is the rate adjustment details and frequency. For loans having collateral held in an annuity or retirement choice contract, principal repayments increase the amount of TIAA Traditional Annuity funds available for the participant's use. For retirement loan contracts, principal repayments are transferred to the CREF Money Market investment option in the participant's annuity or retirement

MONMOUTH UNIVERSITY DEFINED CONTRIBUTION RETIREMENT PLAN

Notes to Financial Statements

choice contract. For all collateralized plan loans, interest is paid directly to TIAA and CREF. At December 31, 2021 and 2020, participant loans of \$1,871,219 and \$2,459,535, respectively, were outstanding under this arrangement.

During 2021, TIAA and CREF announced a phasing out of collateralized plan loans. Effective May 13, 2021, the Plan discontinued issuance of collateralized plan loans. Thereafter, Plan loans are funded from an active participant's account in their retirement plan. The loan interest rate for these retirement plan loans is a fixed rate based on The Wall Street Journal Prime Rate plus 1%. Principal and interest are paid back to the participant's retirement account based on their investment allocation for their contributions. The maximum loan amount is the lesser of 50% of the participant's vested loan balance or \$50,000. The repayment period is 1-5 years for a conventional loan or 6-10 years for a primary residence loan. Participant notes receivable as of December 31, 2021 was \$443,435.

(2) Summary of Significant Accounting Policies

(a) *Basis of Accounting*

The financial statements of the Plan have been prepared on the accrual basis of accounting.

The Plan was established in 1952 and was historically viewed as an amalgamation of individual annuity and custodial accounts and the Plan administrator and its service providers did not maintain financial information at a plan level. Because historical records were not maintained or are not available at a plan level, the Plan may have excluded from the accompanying statements of net assets available for benefits certain annuity and custodial accounts, and related activity, issued to current and former employees prior to January 1, 2009. In recognition of these recordkeeping matters, the Department of Labor ("DOL") released Field Assistance Bulletin ("FAB") No. 2009-02, *Annual Reporting Requirements for 403(b) Plans* ("FAB 2009-02"), as transitional relief, to address situations where a plan's management is not able to obtain historical records. If FAB 2009-02 is implemented, the DOL has indicated that they will not reject Form 5500 where contracts are excluded as long as certain conditions were met. Further, FAB 2009-02 suggests that plan administrators make good faith efforts to include known contracts. While the Plan administrator has, in good faith, included all known contracts, because of certain incomplete records, there is uncertainty that all contracts have been included.

Insurance contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive insurance contracts. Contract value is the relevant measurement for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

(b) *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes in net assets available for benefits and, when applicable, disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

MONMOUTH UNIVERSITY DEFINED CONTRIBUTION RETIREMENT PLAN

Notes to Financial Statements

(c) *Investment Valuation and Income Recognition*

Investments are reported at fair value, except for fully benefit-responsive insurance contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Human Resources and Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year. Interest income for traditional annuity and stable value accounts certified by TIAA and CREF as net appreciation is included in interest income in the statement of changes in net assets available for benefits as these amounts represent income, rather than appreciation, to participants.

(d) *Fully Benefit-Responsive Investment Contracts*

The Plan holds a traditional investment contract. This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. At December 31, 2021 and 2020, contract value was \$11,413,329 and \$11,358,758, respectively.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer and ranges between 1% and 3% and has the potential for additional interest if declared by TIAA. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

MONMOUTH UNIVERSITY DEFINED CONTRIBUTION RETIREMENT PLAN

Notes to Financial Statements

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following: (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation or (4) a material amendment to the agreements without the consent of the issuer.

(e) *Payment of Benefits*

Benefit payments to participants are recorded upon distribution.

(f) *Expenses*

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the University. Expenses that are paid by the University are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

(g) *Notes Receivable from Participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowances for credit losses has been recorded as of December 31, 2021.

(h) *Subsequent Events*

The Plan has evaluated subsequent events through October 7, 2022, which is the date the financial statements were available to be issued.

(3) *Fair Value Measurements*

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Notes to Financial Statements

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Insurance Contracts: These investments are stated at fair value, which is equal to contributions plus interest, less withdrawals and fees. As the TIAA CREF insurance contract is contract-based, observable prices for identical or similar investments do not exist and, accordingly, these investments are valued using unobservable inputs. Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract.

Registered Investment Companies: These investments are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Self-directed Accounts: These accounts consist primarily of mutual funds that are valued on the basis of readily determinable market prices and are deemed to be actively traded.

Pooled Separate Account: Valued at the unit value reported by the account. The unit value is listed on the National Association of Securities Dealers Automated Quotations ("NASDAQ") website and updated overnight for each day that NASDAQ is open. The pooled separate account held by the Plan is deemed to be actively traded.

Variable Annuity Contracts: These investments are valued at NAV, which is based on the fair value of the underlying assets of the account. NAV is used as the practical expedient to fair value.

Notes to Financial Statements

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020. Classification within the fair value hierarchy table is based on the lowest value of any input that is significant to the fair value measurement:

Notes to Financial Statements

- (a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

For the year ended December 31, 2021, there was \$7,798,986 of purchases of Level 3 assets. There were no transfers into or out of level 3 during 2021.

Quantitative Information Regarding Level 3 Fair Value Measurements: The following tables represent the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	2021 Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average

(4) Related-Party Transactions

Certain Plan investments are managed by Fidelity Management Trust Company and AXA Equitable, the custodians of the Plan, and Teachers Insurance and Annuity Association ("TIAA") and College Retirement Equity Fund ("CREF"), the custodian of certain investments and also the recordkeeper as agent for TIAA, FSB, the custodian of other investments, and, therefore, transactions with these parties qualify as party-in-interest transactions.

TIAA and CREF provides certain administrative services to the Plan pursuant to a Master Plan Services Agreement ("MSA") between the University and TIAA and CREF. TIAA and CREF receives revenue from investment service providers for services TIAA and CREF provides to the funds. This revenue is used to offset certain amounts owed to TIAA and CREF for its administrative services to the Plan.

If the revenue received by TIAA and CREF from such investment service providers exceeds the amount owed under the MSA, TIAA and CREF remits the excess to the Plan's trust on a periodic basis. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. The Plan or Plan sponsor may make a payment to TIAA and CREF for administrative expenses not covered by revenue sharing.

Notes to Financial Statements

(5) Plan Termination

The University has established the Plan with the expressed intention and expectation that it will continue the Plan. However, if circumstances make it either impossible or inadvisable to continue the Plan, the University reserves the right at any time to amend, modify, or terminate the Plan subject to the provisions of ERISA. No such event will reduce the participant's accrued benefit.

(6) Tax Status

The Plan has been designed to qualify under Section 403(b) of the Code. The terms of the Plan have been prepared to conform to the sample language provided by the IRS in Revenue Procedure 2007-71. The Plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for Plan participants under Section 403(b).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Certification by the Custodians

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2021 and 2020, and investment income for the year ended December 31, 2021, that are disclosed in the accompanying financial statements and supplemental schedule, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by TIAA and CREF, the custodian of certain investments and also the recordkeeper as agent for TIAA, FSB, the custodian of the other investments, and Fidelity Management Trust Company and AXA Equitable Life Insurance Company, the other custodians of the Plan.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

In early 2020 and continuing into 2021, an outbreak of a novel strain of coronavirus ("COVID-19") emerged globally. As a result, events have occurred domestically in the United States and globally, including mandates from federal, state and local authorities, leading to an overall decline in economic activity. The continuation of the effects of COVID-19 could result in significant disruption of global financial markets, however, the ultimate impact of COVID-19 on the financial performance of the Plan's investments cannot be reasonably estimated at this time.
