Independent Auditor's Report

The Plan Administrator
Bracco Savings and Investment Program
Monroe Township, New Jersey

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Bracco Savings and Investment Program (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statements of changes in net assets available for benefits for the years ended December 31, 2021 and 2020, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2021 and 2020, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at the End of Year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the

supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Bracco Savings and Investment Program

Notes to Financial Statements

1. Description of the Plan

The following description of the Bracco Savings and Investment Program (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan established effective August 1, 1994. Covered employees of Bracco Diagnostics Inc. and Bracco Research U.S.A. Inc. (collectively, the Company) become eligible to participate on the first day of the month following his or her date of hire, and for part-time employees, upon completion of 1,000 hours of service, with the Company, as defined. Prudential Retirement Insurance and Annuity Company (Prudential) and Prudential Bank and Trust, F.S.B. (Prudential Trust) serve as the custodian and trustee, respectively, of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Effective February 1, 2018, the Plan was amended to make it easier to save for retirement by offering an automatic enrollment program, wherein automatic contributions will be 3% of eligible pay or compensation for each pay period. The participants will be automatically enrolled into the Plan starting February 1, 2018, in case, if the participants have not made an affirmative election to contribute to the Plan or not to contribute to the Plan.

CARES Act

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) was enacted and signed into law. The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to \$100,000 before December 31, 2020.
- Increase of the available loan amount to the lesser of \$100,000 or 100% of the participant's vested account balance through December 31, 2020.
- Extended the period for loan repayments, if applicable, up to one year through December 31, 2020.
- Suspended required minimum distributions for 2020 through December 31, 2020.

Contributions

Participants may contribute an amount equal to no more than 50% of their compensation, as defined by the Plan document subject to certain Internal Revenue Code (IRC) limitations. Participants may also make rollover contributions from other qualified defined contribution or defined benefit plans (rollovers). Participant contributions are recorded in the period during which the Company makes payroll deductions from the participant's earnings. Eligible participants may make catch-up contributions.

The Company makes matching contributions in an amount equal to \$.75 for each \$1.00 of the first 6% contributed by a participant, up to a maximum of 4.5% of the participant's eligible compensation. The Company may also contribute a true-up contribution for each participant at the end of the Plan

Bracco Savings and Investment Program

Notes to Financial Statements

year so that the total matching contribution for each participant is calculated on an annual basis. Company matching contributions are recorded in the same period as employee contributions. The Company made true-up contributions of \$330,715 and \$328,517 for the years ended December 31, 2021 and 2020, respectively, and are recorded as employer contributions receivable in the accompanying statements of net assets available for benefits.

Participant Accounts

Each participant's account is credited with the participant's contribution and Company matching contributions. Earnings are allocated by investment options based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants direct the investment of both their and the Company matching contributions into the various investment options offered by the Plan. The Plan currently offers pooled separate accounts, mutual funds, and a guaranteed investment contract, all offered by Prudential.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service, as defined. A participant becomes 20% vested after one year of service, 40% after two years of service, 60% after three years of service, 80% after four years of service, and 100% vested after five years of service. However, if an active participant dies prior to attaining the normal retirement age, the participant's account becomes 100% vested.

Payment of Benefits

Upon termination of service, a participant may elect to receive a lump-sum amount equal to the value of the vested portion of their account. Participants or their beneficiaries may elect a lump-sum payment or installment payments upon separation from service or death, respectively.

Forfeited Accounts

Forfeitures result from non-vested matching Company contributions remaining in the Plan from terminated employees. During the years ended December 31, 2021 and 2020, employer matching contributions were reduced by \$119,827 and \$69,344, respectively, from forfeited non-vested accounts. As of December 31, 2021 and 2020, \$9,087 and \$2,207, respectively, in cumulative forfeited amounts were available to offset future employer matching contributions.

Notes Receivable - Participant Loans

Participants may borrow from their account balance up to a maximum equal to the lesser of \$50,000 or 50% of the participant's vested account balance. Borrowings are repaid over a period of not more than five years, except in limited circumstances, such as the purchase of a principal residence. The

Bracco Savings and Investment Program

Notes to Financial Statements

loans are generally re-paid through payroll deductions. Loans calculated on a fully amortized basis are measured at their unpaid principal balance plus any accrued but unpaid interest. A loan is collateralized by the balance in the participant's account and bears interest at a rate commensurate with the market rates for similar loans, as defined (4.25% to 6.5% for both of the years ended December 31, 2021 and 2020).

Administrative Expenses

Administrative expenses of the Plan are paid by the Plan or the Company as provided in the Plan document. Expenses that are paid by the Company are excluded from these financial statements. Transaction charges for loan and benefit payment transactions are paid by the Plan by reducing the balances of those participants initiating the transactions and reflected in the statements of changes of net assets available for benefits as administrative charges.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements. The investment contract is fully benefit-responsive and reported at contract value (see Note 5).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Investment expenses charged to the Plan for investments in pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, investment expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits

Benefit payments to participants are recorded when paid. There were no material amounts allocated to participants who have elected to withdraw from the Plan but have not yet been paid as of December 31, 2021 and 2020, respectively.

Bracco Savings and Investment Program

Notes to Financial Statements

Notes Receivable - Participant Loans

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 and 2020.

Reclassifications

Certain prior year amounts have been reclassified in the current year footnotes for comparative presentation purposes.

3. Fair Value Measurements

Accounting Standards Codification (ASC) Topic 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are as follows:

Basis of Fair Value Measurement

Level 1 - This level consists of unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 - This level consists of quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3 - This level consists of prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2021 and 2020.

Pooled Separate Accounts - These assets are valued at their accumulation unit value (AUV), which approximates fair value as determined by Prudential. The AUV is determined daily based on the net asset values (NAV) of shares of the underlying fund, the fund's dividends, and the separate account charges (i.e., the daily asset charge). The Plan's investments in the pooled separate accounts may be redeemed daily. There are no redemption fees or notice periods and no unfunded commitments.

Mutual Funds - Fair value is determined as the total market value of the underlying assets based on published market prices as of the close of the last day of the Plan year. These values represent the NAV of the shares held by the Plan.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its

Bracco Savings and Investment Program

Notes to Financial Statements

valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

As required by ASC 820, assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value.

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) have not been classified in the fair value hierarchy in accordance with the adoption of Accounting Standards Update (ASU) 2015-07. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchies to the line items presented in the statements of net assets available for benefits.

4. Certified Investment Information

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Prudential, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments, at fair value, Investment, at contract value and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2021 and 2020.
- Net appreciation in fair value of investments, interest income from investment contract dividends, and interest from notes receivable - participant loans as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2021 and 2020.
- Investment information included in the Schedule of Assets (Held at End of Year) as of December 31, 2021, as shown on the ERISA-required supplemental schedule.

Bracco Savings and Investment Program

Notes to Financial Statements

At the request of the Plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

5. Investment Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with Prudential through an investment in the Prudential Guaranteed Income Fund (GIF) totaling \$11,580,235 and \$12,745,666, respectively, at December 31, 2021 and 2020. The GIF maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract has certain restrictions that impact the ability to collect the full contract value. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. The GIF may not terminate the contract at any amount less than contract value.

The GIF is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

6. Related-Party and Party-in-Interest Transactions

Plan assets include investments in funds managed by Prudential. Prudential is the Plan's custodian and, as such, transactions with the custodian qualifies as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each investment option.

Certain employees and officers of the Company, who may also be participants in the Plan, perform administrative services for the Plan at no cost to the Plan. Notes receivable from participants also qualify as party-in-interest transactions.

7. Risks and Uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and amounts reported in the financial statements.

The Plan invests in various investment options that invest in securities of foreign companies, which involve special risk and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Bracco Savings and Investment Program

Notes to Financial Statements

8. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

9. Federal Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 30, 2018, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Company is responsible for reviewing the annual Required Amendments List (RAL) issued by the IRS for individually designed plans to retain qualified tax status. Although the Plan has been amended since receiving the determination letter, the Company and the Plan administrator believe that the Plan is currently designed and is operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Subsequent Events

For purposes of determining the effect of subsequent events on these financial statements, management has evaluated events requiring adjustment to the financial statement or disclosures as stated herein subsequent to December 31, 2021 and through October 6, 2022, the date on which the financial statements were available to be issued. No material subsequent events were noted.

Independent Auditor's Report

The Plan Administrator
Bracco Savings and Investment Program
Monroe Township, New Jersey

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Bracco Savings and Investment Program (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statements of changes in net assets available for benefits for the years ended December 31, 2021 and 2020, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2021 and 2020, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at the End of Year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the

supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Bracco Savings and Investment Program

Notes to Financial Statements

1. Description of the Plan

The following description of the Bracco Savings and Investment Program (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan established effective August 1, 1994. Covered employees of Bracco Diagnostics Inc. and Bracco Research U.S.A. Inc. (collectively, the Company) become eligible to participate on the first day of the month following his or her date of hire, and for part-time employees, upon completion of 1,000 hours of service, with the Company, as defined. Prudential Retirement Insurance and Annuity Company (Prudential) and Prudential Bank and Trust, F.S.B. (Prudential Trust) serve as the custodian and trustee, respectively, of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Effective February 1, 2018, the Plan was amended to make it easier to save for retirement by offering an automatic enrollment program, wherein automatic contributions will be 3% of eligible pay or compensation for each pay period. The participants will be automatically enrolled into the Plan starting February 1, 2018, in case, if the participants have not made an affirmative election to contribute to the Plan or not to contribute to the Plan.

CARES Act

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) was enacted and signed into law. The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to \$100,000 before December 31, 2020.
- Increase of the available loan amount to the lesser of \$100,000 or 100% of the participant's vested account balance through December 31, 2020.
- Extended the period for loan repayments, if applicable, up to one year through December 31, 2020.
- Suspended required minimum distributions for 2020 through December 31, 2020.

Contributions

Participants may contribute an amount equal to no more than 50% of their compensation, as defined by the Plan document subject to certain Internal Revenue Code (IRC) limitations. Participants may also make rollover contributions from other qualified defined contribution or defined benefit plans (rollovers). Participant contributions are recorded in the period during which the Company makes payroll deductions from the participant's earnings. Eligible participants may make catch-up contributions.

The Company makes matching contributions in an amount equal to \$.75 for each \$1.00 of the first 6% contributed by a participant, up to a maximum of 4.5% of the participant's eligible compensation. The Company may also contribute a true-up contribution for each participant at the end of the Plan

Bracco Savings and Investment Program

Notes to Financial Statements

year so that the total matching contribution for each participant is calculated on an annual basis. Company matching contributions are recorded in the same period as employee contributions. The Company made true-up contributions of \$330,715 and \$328,517 for the years ended December 31, 2021 and 2020, respectively, and are recorded as employer contributions receivable in the accompanying statements of net assets available for benefits.

Participant Accounts

Each participant's account is credited with the participant's contribution and Company matching contributions. Earnings are allocated by investment options based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants direct the investment of both their and the Company matching contributions into the various investment options offered by the Plan. The Plan currently offers pooled separate accounts, mutual funds, and a guaranteed investment contract, all offered by Prudential.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service, as defined. A participant becomes 20% vested after one year of service, 40% after two years of service, 60% after three years of service, 80% after four years of service, and 100% vested after five years of service. However, if an active participant dies prior to attaining the normal retirement age, the participant's account becomes 100% vested.

Payment of Benefits

Upon termination of service, a participant may elect to receive a lump-sum amount equal to the value of the vested portion of their account. Participants or their beneficiaries may elect a lump-sum payment or installment payments upon separation from service or death, respectively.

Forfeited Accounts

Forfeitures result from non-vested matching Company contributions remaining in the Plan from terminated employees. During the years ended December 31, 2021 and 2020, employer matching contributions were reduced by \$119,827 and \$69,344, respectively, from forfeited non-vested accounts. As of December 31, 2021 and 2020, \$9,087 and \$2,207, respectively, in cumulative forfeited amounts were available to offset future employer matching contributions.

Notes Receivable - Participant Loans

Participants may borrow from their account balance up to a maximum equal to the lesser of \$50,000 or 50% of the participant's vested account balance. Borrowings are repaid over a period of not more than five years, except in limited circumstances, such as the purchase of a principal residence. The

Bracco Savings and Investment Program

Notes to Financial Statements

loans are generally re-paid through payroll deductions. Loans calculated on a fully amortized basis are measured at their unpaid principal balance plus any accrued but unpaid interest. A loan is collateralized by the balance in the participant's account and bears interest at a rate commensurate with the market rates for similar loans, as defined (4.25% to 6.5% for both of the years ended December 31, 2021 and 2020).

Administrative Expenses

Administrative expenses of the Plan are paid by the Plan or the Company as provided in the Plan document. Expenses that are paid by the Company are excluded from these financial statements. Transaction charges for loan and benefit payment transactions are paid by the Plan by reducing the balances of those participants initiating the transactions and reflected in the statements of changes of net assets available for benefits as administrative charges.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements. The investment contract is fully benefit-responsive and reported at contract value (see Note 5).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Investment expenses charged to the Plan for investments in pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, investment expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits

Benefit payments to participants are recorded when paid. There were no material amounts allocated to participants who have elected to withdraw from the Plan but have not yet been paid as of December 31, 2021 and 2020, respectively.

Bracco Savings and Investment Program

Notes to Financial Statements

Notes Receivable - Participant Loans

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 and 2020.

Reclassifications

Certain prior year amounts have been reclassified in the current year footnotes for comparative presentation purposes.

3. Fair Value Measurements

Accounting Standards Codification (ASC) Topic 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are as follows:

Basis of Fair Value Measurement

Level 1 - This level consists of unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 - This level consists of quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3 - This level consists of prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2021 and 2020.

Pooled Separate Accounts - These assets are valued at their accumulation unit value (AUV), which approximates fair value as determined by Prudential. The AUV is determined daily based on the net asset values (NAV) of shares of the underlying fund, the fund's dividends, and the separate account charges (i.e., the daily asset charge). The Plan's investments in the pooled separate accounts may be redeemed daily. There are no redemption fees or notice periods and no unfunded commitments.

Mutual Funds - Fair value is determined as the total market value of the underlying assets based on published market prices as of the close of the last day of the Plan year. These values represent the NAV of the shares held by the Plan.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its

Bracco Savings and Investment Program

Notes to Financial Statements

valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

As required by ASC 820, assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value.

December 31, 2021

	Investments at Fair Value			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 45,256,008	\$ -	\$ -	\$ 45,256,008
Pooled separate accounts, at NAV*	-	-	-	84,302,753
Total Investments	\$ 45,256,008	\$ -	\$ -	\$ 129,558,761

December 31, 2020

	Investments at Fair Value			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 41,653,067	\$ -	\$ -	\$ 41,653,067
Pooled separate accounts, at NAV*	-	-	-	75,315,126
Total Investments	\$ 41,653,067	\$ -	\$ -	\$ 116,968,193

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) have not been classified in the fair value hierarchy in accordance with the adoption of Accounting Standards Update (ASU) 2015-07. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchies to the line items presented in the statements of net assets available for benefits.

4. Certified Investment Information

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Prudential, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments, at fair value, Investment, at contract value and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2021 and 2020.
- Net appreciation in fair value of investments, interest income from investment contract dividends, and interest from notes receivable - participant loans as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2021 and 2020.
- Investment information included in the Schedule of Assets (Held at End of Year) as of December 31, 2021, as shown on the ERISA-required supplemental schedule.

Bracco Savings and Investment Program

Notes to Financial Statements

At the request of the Plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

5. Investment Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with Prudential through an investment in the Prudential Guaranteed Income Fund (GIF) totaling \$11,580,235 and \$12,745,666, respectively, at December 31, 2021 and 2020. The GIF maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract has certain restrictions that impact the ability to collect the full contract value. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. The GIF may not terminate the contract at any amount less than contract value.

The GIF is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

6. Related-Party and Party-in-Interest Transactions

Plan assets include investments in funds managed by Prudential. Prudential is the Plan's custodian and, as such, transactions with the custodian qualifies as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each investment option.

Certain employees and officers of the Company, who may also be participants in the Plan, perform administrative services for the Plan at no cost to the Plan. Notes receivable from participants also qualify as party-in-interest transactions.

7. Risks and Uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and amounts reported in the financial statements.

The Plan invests in various investment options that invest in securities of foreign companies, which involve special risk and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Bracco Savings and Investment Program

Notes to Financial Statements

8. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

9. Federal Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 30, 2018, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Company is responsible for reviewing the annual Required Amendments List (RAL) issued by the IRS for individually designed plans to retain qualified tax status. Although the Plan has been amended since receiving the determination letter, the Company and the Plan administrator believe that the Plan is currently designed and is operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Subsequent Events

For purposes of determining the effect of subsequent events on these financial statements, management has evaluated events requiring adjustment to the financial statement or disclosures as stated herein subsequent to December 31, 2021 and through October 6, 2022, the date on which the financial statements were available to be issued. No material subsequent events were noted.

Independent Auditor's Report

The Plan Administrator
Bracco Savings and Investment Program
Monroe Township, New Jersey

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Bracco Savings and Investment Program (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statements of changes in net assets available for benefits for the years ended December 31, 2021 and 2020, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2021 and 2020, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at the End of Year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the

supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Bracco Savings and Investment Program

Notes to Financial Statements

1. Description of the Plan

The following description of the Bracco Savings and Investment Program (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan established effective August 1, 1994. Covered employees of Bracco Diagnostics Inc. and Bracco Research U.S.A. Inc. (collectively, the Company) become eligible to participate on the first day of the month following his or her date of hire, and for part-time employees, upon completion of 1,000 hours of service, with the Company, as defined. Prudential Retirement Insurance and Annuity Company (Prudential) and Prudential Bank and Trust, F.S.B. (Prudential Trust) serve as the custodian and trustee, respectively, of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Effective February 1, 2018, the Plan was amended to make it easier to save for retirement by offering an automatic enrollment program, wherein automatic contributions will be 3% of eligible pay or compensation for each pay period. The participants will be automatically enrolled into the Plan starting February 1, 2018, in case, if the participants have not made an affirmative election to contribute to the Plan or not to contribute to the Plan.

CARES Act

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) was enacted and signed into law. The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to \$100,000 before December 31, 2020.
- Increase of the available loan amount to the lesser of \$100,000 or 100% of the participant's vested account balance through December 31, 2020.
- Extended the period for loan repayments, if applicable, up to one year through December 31, 2020.
- Suspended required minimum distributions for 2020 through December 31, 2020.

Contributions

Participants may contribute an amount equal to no more than 50% of their compensation, as defined by the Plan document subject to certain Internal Revenue Code (IRC) limitations. Participants may also make rollover contributions from other qualified defined contribution or defined benefit plans (rollovers). Participant contributions are recorded in the period during which the Company makes payroll deductions from the participant's earnings. Eligible participants may make catch-up contributions.

The Company makes matching contributions in an amount equal to \$.75 for each \$1.00 of the first 6% contributed by a participant, up to a maximum of 4.5% of the participant's eligible compensation. The Company may also contribute a true-up contribution for each participant at the end of the Plan

Bracco Savings and Investment Program

Notes to Financial Statements

year so that the total matching contribution for each participant is calculated on an annual basis. Company matching contributions are recorded in the same period as employee contributions. The Company made true-up contributions of \$330,715 and \$328,517 for the years ended December 31, 2021 and 2020, respectively, and are recorded as employer contributions receivable in the accompanying statements of net assets available for benefits.

Participant Accounts

Each participant's account is credited with the participant's contribution and Company matching contributions. Earnings are allocated by investment options based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants direct the investment of both their and the Company matching contributions into the various investment options offered by the Plan. The Plan currently offers pooled separate accounts, mutual funds, and a guaranteed investment contract, all offered by Prudential.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service, as defined. A participant becomes 20% vested after one year of service, 40% after two years of service, 60% after three years of service, 80% after four years of service, and 100% vested after five years of service. However, if an active participant dies prior to attaining the normal retirement age, the participant's account becomes 100% vested.

Payment of Benefits

Upon termination of service, a participant may elect to receive a lump-sum amount equal to the value of the vested portion of their account. Participants or their beneficiaries may elect a lump-sum payment or installment payments upon separation from service or death, respectively.

Forfeited Accounts

Forfeitures result from non-vested matching Company contributions remaining in the Plan from terminated employees. During the years ended December 31, 2021 and 2020, employer matching contributions were reduced by \$119,827 and \$69,344, respectively, from forfeited non-vested accounts. As of December 31, 2021 and 2020, \$9,087 and \$2,207, respectively, in cumulative forfeited amounts were available to offset future employer matching contributions.

Notes Receivable - Participant Loans

Participants may borrow from their account balance up to a maximum equal to the lesser of \$50,000 or 50% of the participant's vested account balance. Borrowings are repaid over a period of not more than five years, except in limited circumstances, such as the purchase of a principal residence. The

Bracco Savings and Investment Program

Notes to Financial Statements

loans are generally re-paid through payroll deductions. Loans calculated on a fully amortized basis are measured at their unpaid principal balance plus any accrued but unpaid interest. A loan is collateralized by the balance in the participant's account and bears interest at a rate commensurate with the market rates for similar loans, as defined (4.25% to 6.5% for both of the years ended December 31, 2021 and 2020).

Administrative Expenses

Administrative expenses of the Plan are paid by the Plan or the Company as provided in the Plan document. Expenses that are paid by the Company are excluded from these financial statements. Transaction charges for loan and benefit payment transactions are paid by the Plan by reducing the balances of those participants initiating the transactions and reflected in the statements of changes of net assets available for benefits as administrative charges.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements. The investment contract is fully benefit-responsive and reported at contract value (see Note 5).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Investment expenses charged to the Plan for investments in pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, investment expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits

Benefit payments to participants are recorded when paid. There were no material amounts allocated to participants who have elected to withdraw from the Plan but have not yet been paid as of December 31, 2021 and 2020, respectively.

Notes to Financial Statements

Notes Receivable - Participant Loans

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 and 2020.

Reclassifications

Certain prior year amounts have been reclassified in the current year footnotes for comparative presentation purposes.

3. Fair Value Measurements

Accounting Standards Codification (ASC) Topic 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are as follows:

Basis of Fair Value Measurement

Level 1 - This level consists of unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 - This level consists of quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3 - This level consists of prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2021 and 2020.

Pooled Separate Accounts - These assets are valued at their accumulation unit value (AUV), which approximates fair value as determined by Prudential. The AUV is determined daily based on the net asset values (NAV) of shares of the underlying fund, the fund's dividends, and the separate account charges (i.e., the daily asset charge). The Plan's investments in the pooled separate accounts may be redeemed daily. There are no redemption fees or notice periods and no unfunded commitments.

Mutual Funds - Fair value is determined as the total market value of the underlying assets based on published market prices as of the close of the last day of the Plan year. These values represent the NAV of the shares held by the Plan.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its

Bracco Savings and Investment Program

Notes to Financial Statements

valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

As required by ASC 820, assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value.

December 31, 2021

	Investments at Fair Value			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 45,256,008	\$ -	\$ -	\$ 45,256,008
Pooled separate accounts, at NAV*	-	-	-	84,302,753
Total Investments	\$ 45,256,008	\$ -	\$ -	\$ 129,558,761

December 31, 2020

	Investments at Fair Value			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 41,653,067	\$ -	\$ -	\$ 41,653,067
Pooled separate accounts, at NAV*	-	-	-	75,315,126
Total Investments	\$ 41,653,067	\$ -	\$ -	\$ 116,968,193

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) have not been classified in the fair value hierarchy in accordance with the adoption of Accounting Standards Update (ASU) 2015-07. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchies to the line items presented in the statements of net assets available for benefits.

4. Certified Investment Information

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Prudential, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments, at fair value, Investment, at contract value and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2021 and 2020.
- Net appreciation in fair value of investments, interest income from investment contract dividends, and interest from notes receivable - participant loans as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2021 and 2020.
- Investment information included in the Schedule of Assets (Held at End of Year) as of December 31, 2021, as shown on the ERISA-required supplemental schedule.

Notes to Financial Statements

At the request of the Plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

5. Investment Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with Prudential through an investment in the Prudential Guaranteed Income Fund (GIF) totaling \$11,580,235 and \$12,745,666, respectively, at December 31, 2021 and 2020. The GIF maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract has certain restrictions that impact the ability to collect the full contract value. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. The GIF may not terminate the contract at any amount less than contract value.

The GIF is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

6. Related-Party and Party-in-Interest Transactions

Plan assets include investments in funds managed by Prudential. Prudential is the Plan's custodian and, as such, transactions with the custodian qualifies as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each investment option.

Certain employees and officers of the Company, who may also be participants in the Plan, perform administrative services for the Plan at no cost to the Plan. Notes receivable from participants also qualify as party-in-interest transactions.

7. Risks and Uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and amounts reported in the financial statements.

The Plan invests in various investment options that invest in securities of foreign companies, which involve special risk and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

8. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

9. Federal Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 30, 2018, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Company is responsible for reviewing the annual Required Amendments List (RAL) issued by the IRS for individually designed plans to retain qualified tax status. Although the Plan has been amended since receiving the determination letter, the Company and the Plan administrator believe that the Plan is currently designed and is operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Subsequent Events

For purposes of determining the effect of subsequent events on these financial statements, management has evaluated events requiring adjustment to the financial statement or disclosures as stated herein subsequent to December 31, 2021 and through October 6, 2022, the date on which the financial statements were available to be issued. No material subsequent events were noted.
