INDEPENDENT AUDITOR'S REPORT

Trustees
403(b) Thrift Plan of Second Harvest Heartland
Brooklyn Park, Minnesota

Opinion

We have audited the financial statements of 403(b) Thrift Plan of Second Harvest Heartland, which comprise the statements of net assets available for plan benefits as of December 31, 2021 and 2020, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of 403(b) Thrift Plan of Second Harvest Heartland as of December 31, 2021 and 2020, and the changes in their net assets available for plan benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of 403(b) Thrift Plan of Second Harvest Heartland, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about 403(b) Thrift Plan of Second Harvest Heartland's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of 403(b) Thrift Plan of Second Harvest Heartland's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about 403(b) Thrift Plan of Second Harvest Heartland's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H Item 4i – Schedule of Assets Held at End of Year is presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Plan description:

The following description of the 403(b) Thrift Plan of Second Harvest Heartland (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General:

Second Harvest Heartland (the Organization) established the Plan to provide employees with a systematic means of savings and investing for the future. All permissible employees of the Organization, as defined in accordance with the universal availability standards, are eligible to enroll on their date of hire. Deferrals begin on the first day of the month subsequent to enrollment. During the year ended December 31, 2020, the plan was amended to exclude from eligibility employees who normally work fewer than 20 hours per week or who are reasonably expected to work fewer than 1,000 hours of service in a 12-month period. The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). On February 19, 2020, the plan was restated to comply with the Pension Protection Act. The Plan was also amended to comply with the Bipartisan Budget Act of 2018 on the same date.

Plan contributions:

Participants may contribute from 1% to 25% of their base pay by means of pre-tax or post-tax payroll deductions, subject to certain tests prescribed by the Internal Revenue Code and other limitations specified in the Plan. For the years ended December 31, 2021 and 2020, the Organization matched 50% of each employee's deferrals up to 4% of employee compensation and contributed 4% of the employee's annual eligible compensation regardless if the employee was making voluntary contributions to the Plan. Employees were automatically enrolled with a salary deferral unless the employee elected not to participate in the Plan. The salary deferral percentage was 4% of eligible compensation.

Participant accounts:

Each participant's account is credited with the participant's contributions, allocations of the Organization's base compensation contributions and Plan gains or losses. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's accounts.

Investment options:

Upon enrollment in the Plan, participants may direct the investment of their contributions and the Organization's contributions into various investment account options offered by the Plan within a pooled separate account.

Participants are immediately vested in their voluntary contributions and earnings thereon. However, vesting in the Organization's contributions is based on years of service.

1. Plan description (continued):

Vesting:

The following table represents the rate at which the Organization's contributions vest:

<u>Length of employment</u>	<u>Vested percentage</u>
Less than 1 year	0%
1 year	25%
2 years	50%
3 years	75%
4 or more years	100%

Distributions:

Upon retirement, disability or death, a participant or beneficiary receives the entire amount credited to the participant's account in either a lump sum or, at the participant's election, in annual installments. Upon termination, other than by retirement, disability, or death, a participant becomes eligible to receive the current value of the participants' vested account in a lump-sum based on IRS distribution regulations. During employment, vested employer contributions may be withdrawn from the Plan after five years of plan participation or at age 59½ or later. The Plan provides for automatic distributions for terminated participants with balances less than \$5,000.

Loans from Plan Administrator:

Participants may borrow from Mutual of America, the Plan Administrator, using a portion of their plan account as security for the loan. The minimum loan is \$1,000 and may be up to the lesser of \$50,000 less the highest outstanding loan balance during the one year period prior to the loan application date, or 50% of the participant's account balance less any current outstanding loan balance. Interest is charged at a reasonable rate that may not exceed the legal limit, which remains in effect for the duration of the loan. During plan years 2021 and 2020, interest rates on participant loans were 4.00%. Loan terms range from 1 to 5 years, or longer for the purchase of a primary residence. The Plan Administrator has concluded that these loans are not plan assets and that such arrangements are exempt transactions.

As of December 31, 2021 and 2020, the balances borrowed from Mutual of America totaled \$79,843 and \$76,769, respectively. Under the borrowing terms, \$95,812 and \$92,123 as of December 31, 2021 and 2020, respectively, of plan assets included in the interest accumulation account serve as collateral for these loans. Collateral is calculated at 120% of the participant loan balance.

Interest paid by participants on such loans during the plan years ended December 31, 2021 and 2020, was \$2,813 and \$3,574, respectively.

In the event of default, such loans are reportable to plan participants as taxable income but remain outstanding and continue to accrue interest until repaid by the plan participant or the participant becomes eligible to receive a distribution under the terms of the plan. As of December 31, 2021 and 2020, there were no loans in default.

1. Plan description (continued):

Participant investment rollovers:

Participants are allowed to transfer or rollover funds into the Plan from certain types of qualified plans.

2. Summary of significant accounting policies:

Use of accounting estimates:

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of certain assets, liabilities, and disclosures. Accordingly, the actual amounts could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Fair value investments:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

2. Summary of significant accounting policies (continued):

Fair value investments (continued):

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual funds in group annuity contract separate account – The Plan has investments in participation units held in mutual funds in a group annuity contract separate account of an insurance company as December 31, 2021 and 2020. The Plan has concluded that the net asset value (NAV) as adjusted and reported by the insurance company is the practical expedient to fair value for the pool separate account. The investments are redeemable at the adjusted NAV under agreements with the insurance company.

The nature of the investments, changes in market conditions, liquidity requirements, and the economic environment may significantly affect the NAV of the mutual funds in a group annuity contract separate account and consequently, the fair value of the Plan's investments

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of further fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate fair value using net asset value per share as the practical expedient as of December 31:

	<u>2021</u> <u>Fair value</u>	<u>2020</u> <u>Fair value</u>	<u>Unfunded</u> <u>commitments</u>	<u>Redemption</u> <u>frequency</u>	<u>Redemption</u> <u>notice period</u>
Investments measured at NAV, mutual funds in pooled separate account	\$ 12,526,860	\$ 10,602,353	\$ -	Daily	Daily

The Mutual of America Separate Account No. 2 has the following investment strategies:

Equity funds – The objective of the equity funds category is to seek to provide investment results that are comparable to or higher than various stocks or equity indices. To achieve this objective, the funds in this category invest primarily in a diversified combination of common and value stocks of small to mid-sized companies.

Balanced funds – The objective of the balanced funds category is to seek to obtain high total return with reduced risk over the long-term. To achieve this objective, the funds in this category invest in a variety of stocks, bonds and short-term investments.

2. Summary of significant accounting policies (continued):

The Mutual of America Separate Account No. 2 has the following investment strategies (continued):

Fixed income funds – The objective of the fixed income funds category is to seek current income with a secondary objective of preservation of capital. To achieve this objective, the funds invest primarily in investment grade, publicly traded debt securities.

Retirement funds – The objective of the retirement funds category is to seek to provide current income and capital appreciation for the asset allocation associated with the applicable target retirement date. To achieve this objective, the funds in this category invest in various funds in proportions that are balanced to meet the current target of the fund, which will move toward preservation of capital and production of income as the target retirement date approaches. The target of the fund changes over time, so the mix of fixed income funds and equity funds will change to reflect the periodic modification in the fund's target.

Asset allocation funds – The objective of the asset allocation funds category is to seek to provide current income and capital appreciation. To achieve this objective, the funds in this category primarily invest in a mix of equity and fixed income funds.

Real estate investment trust funds – The objective of the real estate investment trust funds (REITs) category is to provide a high level of income and moderate long-term capital appreciation. To achieve this objective, the funds in this category track the performance of a benchmark index that measures the performance of publicly traded equity REITs. The funds employ an indexing investment approach designed to track the performance of a given REIT index.

Changes in fair value and related gains and losses:

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) are reported in net appreciation in fair value of investments on the statement of changes in net assets available for benefits.

Investment valuation and income recognition:

At December 31, 2021 and 2020, the Plan's investments were held in various investment accounts and are stated at net asset value which approximates fair value. All investment accounts are part of and held in the Mutual of America Separate Account No. 2, as discussed above. The net appreciation in the fair value of investments include realized and unrealized gains and losses on the fair value of investments held by the Plan. Purchases and sales of investments are recorded on a settlement date basis. Interest income is accrued as it is earned and dividends are recorded as of the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation in fair value of investments.

The change in net unrealized appreciation/depreciation of investments held from the beginning of the plan year to the end of the plan year is included with realized gains/losses as net appreciation in fair value of investments reported in the accompanying statements of changes in net assets available for benefits.

2. Summary of significant accounting policies (continued):

Contributions:

Contributions from employees and the Organization are recorded in the period in which the Organization makes the payroll deductions from participant earnings.

Distributions:

Distributions are recorded when paid. At December 31, 2021 and 2020 there were no benefits processed and approved for payment, but not paid.

Expenses:

Certain administrative expenses of the Plan are paid by the Organization. Other expenses such as transaction fees charged by Mutual of America are paid from plan assets and deducted from participant accounts in accordance with the plan document.

Forfeitures:

Forfeitures of terminated participants' non-vested accounts must first be used to pay Plan expenses and then are used to reduce the Organization's future contributions to the Plan. For years ending December 31, 2021 and 2020, forfeitures of \$69,383 and \$51,073, respectively, were used to reduce Organization contributions to the Plan.

Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits

Subsequent events:

Management has evaluated for subsequent events through September 26, 2022, the date the financial statements were available for issuance.

3. Investments:

All investments held by the Plan are party-in-interest. Certain of the Plan's investments are held under a Group Annuity Contract (GAC) which is a variable accumulation annuity contract. The GAC includes a general account, the Mutual of America Interest Accumulation Account (IAA). Amounts placed in the IAA are credited with interest at a rate determined from time to time by Mutual of America. Mutual of America has the right to change the interest rates at their discretion, but not below minimum guaranteed interest rates based on total account balances. Principal and previously-credited interest in the account are guaranteed. Effective annual yield currently applicable to contributions held in this account for participants in this Plan was 7.00% and 8.00% for December 31, 2021 and 2020, respectively. The yield quoted assumes that money is compounded daily.

3. Investments (continued):

Contract account balances are reviewed on a daily basis and are used to determine the applicable interest rate credited to amounts in the IAA.

Mutual of America guarantees interest will be credited to amounts in the IAA at a rate at least equal to the greater of (1) any contractual minimum guarantee provided by the contract or (2) the minimum rate required by applicable state law or set pursuant to National Association of Insurance Commissioners (NAIC) standard nonforfeiture law. The NAIC minimum rate is determined by a formula and cannot be less than 1.00% or more than 3.00% in any event.

Mutual of America determines whether the application of the formula will change the minimum guaranteed rate each November, and any change is effective the following January 1 for that calendar year. Mutual of America may credit a higher rate of interest to contract amounts in the IAA at their discretion, although they are not obligated to credit interest in excess of the minimum guaranteed rate. Interest is compounded daily on contract amounts in the IAA to produce an effective annual yield that is equal to the stated interest rate. Requests for withdrawal can be made at any time and are not dependent on Mutual of America having to liquidate securities. The account balance is measured at net asset value, the practical expedient of fair value.

The guaranteed rate is subject to Mutual of America's financial strength and claims-paying ability.

4. Tax status:

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (the Code). The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service (IRS) in Revenue Procedure 2007-71. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for plan participants under Section 403(b). The IRS has determined and informed the Organization by a letter dated March 31, 2017, that the form of the Plan is acceptable under section 403(b) of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and plan management believe the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

5. Plan termination:

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. However, no such action may deprive any participant or beneficiary under the Plan of any vested right.

6. Transactions with party-in-interest:

The Plan invests in securities sponsored by the Plan's custodian, as defined by the Plan, therefore, these transactions qualify as party-in-interest transactions. Administrative fees related to the administration of the Plan are paid by the Plan. Other administrative fees are paid by the plan sponsor on behalf of the Plan.
