Independent Auditor's Report

To the Plan Administrator
GRAEF Retirement Savings Plan
Milwaukee, Wisconsin

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of GRAEF Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2021 and 2020, and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report,

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

GRAEF Retirement Savings Plan

Notes to Financial Statements

1. Description of the Plan

The following brief description of GRAEF Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Agreement for more complete information.

General

The Plan is a defined contribution plan available to all qualifying employees of GRAEF - USA Inc. (GRAEF or the Company). The Plan is designed to comply with Section 401(k) and the regulations thereunder of the Internal Revenue Code (IRC) as amended and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees are eligible to participate in the Plan on the first day of the pay period coinciding with their employment. To be eligible to receive any employer match or profit sharing, the employee must work 500 hours during a Plan year and be employed on the last day of the year.

Contributions

Participants may make voluntary contributions in the form of salary deferrals to the Plan. This contribution may not exceed the Code § 402(g) deferral limit. Highly compensated employees may be limited to a lesser amount as required to meet the 401(k) and 401(m) discrimination tests. Employer contributions, which are matching and profit sharing, are discretionary, and participants must be employed on the last day of the year to be eligible. The employer matching contribution made for the year ended December 31, 2021, was \$413,882 subsequent to year end. There was no profit-sharing contribution for 2021.

Participant Accounts

The trustee shall allocate the employer contribution for the year, if any, as directed by the Board of Directors. The employer contribution shall be allocated among the eligible participants as follows: a matching contribution of the participant's voluntary contribution, up to 4% of eligible compensation; and/or as a profit sharing contribution allocated in the same proportion that the participant's compensation bears to the total compensation of all eligible participants.

The net income or loss of the trust fund, and expenses, shall be allocated among the participants' accounts in proportion to the ratio which the accounts bear to the total accounts before employer contributions.

Vesting

All accounts of the participants are 100% vested at all times.

Participant Loans

Participant loans are not allowed under the Plan.

Payment of Benefits

Withdrawals are permitted in the event of termination of service due to death, disability, separation, or retirement. In-service distributions are permitted upon the attainment of age 59½.

Upon termination of service, a participant receives a lump-sum payment, as outlined in the Plan Agreement, equal to the value of his or her account.

Put Option

Under federal income tax regulations, the GRAEF common stock, held by the Plan and its participants, is not readily tradable on an established market and includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Administrative Expenses

Administrative expenses and Plan restatement fees are paid directly by the Plan. All Plan amendment fees are paid by the Company.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying statements have been prepared on the accrual basis, except for benefit payments, which are recorded upon distribution.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price).

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

GRAEF Retirement Savings Plan

Notes to Financial Statements

Mutual Funds

Mutual funds represent investments with various investment managers. The fair value of these investments is determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value (NAV) as of December 31, 2021 and 2020.

Common Collective Trust Fund

The common collective trust fund represents investments with various investment managers. Units held in the Morley Stable Value Fund are valued at the unit value as reported by the trustee, Principal Global Investors Trust Company as of December 31, 2021 and 2020.

While the majority of the underlying asset values are based on quoted prices, the NAV of the common collective trust funds are not publicly quoted. The NAV is reported by the fund managers as of the financial statement date based on recent transaction prices as a practical expedient to estimate fair value. The common collective trust fund provides for daily redemptions by the reported NAV on the measurement date.

GRAEF Common Stock

GRAEF common stock represents self-directed investments in the common stock of the Plan sponsor. The fair value is determined annually by an independent valuation using the architectural and/or engineering (A/E) firm approach. The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the Retirement Savings Plan Trustee, reviews in detail, discusses, and approves.

Promissory Notes - GRAEF

The promissory notes were issued for the redemption of GRAEF common stock. The Company believes the carrying amounts of these promissory notes are a reasonable estimate of their fair value because of the short-term nature of the promissory note or, in the case of the long-term promissory notes, the interest rates available for similar obligations.

Payment of Benefits

Benefits are recorded when paid.

3. Information Certified by the Plan's Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Newport Trust Company, a qualified institution, has certified that the following data included in the accompanying financial statements and ERISA-required supplemental Schedule of Assets (Held at End of Year) is complete and accurate:

<i>December 31,</i>	2021	2020
Mutual funds	\$ 52,192,604	\$ 50,373,623
Common collective trust funds	2,001,964	2,339,096

Year ended December 31, 2021

Interest and dividends	\$ 3,474,749
Net appreciation in fair value of investments	4,334,299

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurement

FASB Accounting Standards Codification ("ASC") Topic 820, "Fair Value Measurements and Disclosures," establishes a framework for measuring fair value utilizing a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

GRAEF Retirement Savings Plan

Notes to Financial Statements

The following tables set forth by level within the fair value hierarchy the Plan's investment assets at fair value as of December 31, 2021 and 2020. As required, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

<i>December 31, 2021</i>	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 52,192,604	\$ -	\$ -	\$ 52,192,604

Investments measured at net asset value *				2,339,096
Total Investments, at fair value				\$ 66,264,296

* The investment in the common collective trust fund is measured at fair value using the net asset value per share (or its equivalent) as a practical expedient and have not been categorized in the fair value hierarchy. The fair value amounts presented in the tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

There were no transfers of the Plan's Level 3 investments in the GRAEF Common Stock during the years ended December 31, 2021 and 2020. There were \$867,234 and \$479,632 of sales and \$1,041,440 and \$579,705 of purchases of the Plan's Level 3 investments in the GRAEF Common Stock during the years ended December 31, 2021 and 2020, respectively.

The investment in the Company's common stock is considered a Level 3 input as a number of the inputs to the valuation methodology are unobservable. The fair value of GRAEF common stock was \$50.42 and \$44.17 per share based upon the December 31, 2021 and 2020, valuations, respectively.

GRAEF Retirement Savings Plan

Notes to Financial Statements

Level 3 Investment in Common Stock

The valuation process involves the Plan Trustee's selection of an independent appraiser. The independent valuation of the GRAEF-USA common stock uses the architectural and/or engineering (A/E) firm approach in the valuation. The A/E formula approach uses the adjusted book value of the Company's tangible assets with goodwill added to properly reflect the Company's fair value. The independent appraiser also uses the capitalized debt-free cash flow and guideline company methods to value the Company's common stock, however, these methodologies are used to support the valuation under the A/E formula approach. The A/E formula approach receives 100% of the valuation's weight. Other unobservable inputs and significant input values used in the stock valuation are capitalization rate of 22.86% and 23.87%, weighted average cost of capital (WACC) of 10.02% and 10.52%, and discount rate for lack of marketability of the stock of 5% for 2021 and 2020, respectively.

The Plan's valuation method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Trustee believes the valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investment Measured at Net Asset Value

At December 31, 2021 and 2020, investments in certain funds that calculate the net asset value per share as the investment's fair value measurement. The following tables provide an overview, by major category, of the nature and risks associated with such investments as well as whether it's probable those investments will be sold at amounts different from their reported net asset value per share based on redemption restrictions, if any.

5. Related Party and Party-in-Interest Transactions

As of December 31, 2021 and 2020, the fair value of GRAEF common stock was \$15,667,964 and \$13,551,577, respectively, on 310,749 and 306,805, respectively, of outstanding shares and is included in investments in the statements of net assets available for benefits. There was net appreciation of \$1,942,181 for fiscal year 2021, which is included in the statement of changes in net assets available for benefits.

As of December 31, 2021 and 2020, the fair value of the promissory notes of GRAEF was \$197,831 and \$233,177, respectively, for the redemptions of GRAEF common stock and is included in receivables in the statements of net assets available for benefits.

GRAEF is the sponsor as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Such transactions are not considered prohibited transactions by statutory exemptions under the ERISA regulations.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated January 19, 2011, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Reconciliation of Form 5500 to the Financial Statements

The following is a reconciliation of the Form 5500 to the financial statements:

<i>December 31,</i>	2021	2020

Employer matching contribution	12,904
Change in fair value of GRAEF common stock:	
Prior year appreciation (recorded on 5500)	(2,304,106)
Current year appreciation (not recorded on 5500)	1,942,181
Changes in Net Assets Available for Benefits per the Financial Statements	\$ 3,575,794

9. Administration of Plan Assets

Certain employees of the Company provide administrative services to the Plan. These individuals are not paid by the Plan for their services.

10. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Included in investments at December 31, 2021, are shares of GRAEF common stock and American Funds Growth Fund America Inc. CL R-6 Fund, representing 22.4% and 11.8%, respectively. Included in investments at December 31, 2020, are shares of GRAEF common stock, American Funds Growth Fund America Inc. CL R-6 Fund, and T. Rowe Price Blue Chip Growth I Fund representing 20.5%, 12.0%, and 10.2%, respectively. A significant decline in the market value of these investments would significantly affect the net assets available for benefits.

11. Subsequent Events

The Plan has evaluated subsequent events through October 10, 2022, the date the financial statements were available to be issued.
