Independent Auditors' Report

To the Participants and Plan Administrator of
TIMET Defined Benefit Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of TIMET Defined Benefit Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 9 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 7, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

TIMET Defined Benefit Retirement Plan

Notes to Financial Statements
December 31, 2021 and 2020

1. Description of the Plan

The following description of the TIMET Defined Benefit Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan sponsored by Titanium Metals Corporation (the Company), a wholly owned subsidiary of Precision Castparts Corp. (PCC). The assets are invested in the Precision Castparts Corp. Master Trust (Master Trust) with The Bank of New York Mellon (BNYM). The Plan is subject to the provisions of the Employee Retirement Income Securities Act of 1974 (ERISA).

The Company has appointed an administrative committee to oversee the administration of the Plan, with local human resources personnel providing day-to-day support functions. The Master Trust Investment Committee determines the appropriateness of the Plan's investments and monitors investment performance.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirements. No participant contributions are permitted. The minimum funding requirements of ERISA were met for 2021 and 2020.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Eligibility and Vesting

Salaried employees hired from January 1, 1987 through December 31, 1988, who attained the age of 21 and completed one year of continuous service, were eligible to participate in the Plan. Effective January 1, 1989, the Plan was closed to new participants, and participants ceased accruing additional service credit under the Plan. Effective April 2, 1994, participants also ceased accruing credit for additional salary increases. Benefits accruing to salaried employees prior to January 1, 1987, were provided through the TMC Retirement Plan (the Prior Plan) and were fully vested as of December 31, 1986. Such accrued benefits are funded by annuities purchased from Metropolitan Life Insurance Company and American International Life Assurance Company of New York as discussed further below.

The Plan also provides benefits to substantially all individuals who were hourly employees of the Company at the Toronto, Ohio and Henderson, Nevada plants prior to July 1, 1995 and April 1, 1994, respectively. The Plan was closed to new participants effective July 1, 1995 for the Toronto, Ohio plant and effective April 1, 1994 for the Henderson, Nevada plant. Hourly employees at the applicable plants who attained the age of 21 and completed one year of continuous service prior to the closure dates were eligible to participate in the Plan.

The Company has the right to alter, amend or terminate the Plan at any time.

Pension Benefits

Monthly benefit payments are determined for each participant according to the retirement option selected. Pension benefits for salaried participants are based on compensation through April 2, 1994 and years of service in the Plan through December 31, 1988. Pension benefits for hourly participants are based on years of continuous service, as defined by the Plan agreement, multiplied by specified dollar amounts. Specific terms of the Plan provide other retirement options with a combination of age and years of credited service factors. Vesting occurs upon the completion of five years of service or age 65. Monthly benefit payments by the Plan are reduced by amounts funded by annuity contracts purchased from insurance companies to provide for benefits accrued prior to December 31, 1986, under the Prior Plan.

Annuities were purchased to fund certain benefits accrued under the Prior Plan. The insurance companies remit funds to the Plan's trust account on a monthly basis and payments to participants for benefits accrued under the Prior Plan are made from the respective trust accounts. Benefits paid to participants are shown net of \$1,145,785 and \$1,229,414 of funds received from the insurance companies for the years ended December 31, 2021 and 2020, respectively, as these funds are immediately remitted to the retirees and are not obligations of the Plan.

Death and Disability Benefits

If a vested participant dies before normal or early retirement age, a death benefit equal to the actuarial equivalent of 50% of the value of the participant's accumulated retirement benefits is paid to the participant's beneficiary in the form of a straight life annuity. Active participants who become totally disabled will continue to accrue service years while disabled until normal retirement age. Benefits shall be determined on the basis of years of service and the applicable monthly regular pension factor. At the participant's election, in lieu of a disability retirement pension, the participant may elect to commence receipt of a 62/10 retirement pension, 55/10 retirement pension or a 55/30 retirement pension.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's interest in the Master Trust is reported at fair value based on the underlying investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the value of investments is allocated by the Master Trust to the Plan based upon the Plan's daily weighted average percentage of net assets for a given month.

TIMET Defined Benefit Retirement Plan

Notes to Financial Statements
December 31, 2021 and 2020

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in the Plan's interest in the net investment income of the Master Trust presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are based on years of credited service and employee compensation. The accumulated plan benefits for active employees will equal the accumulation of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances such as retirement, death, disability and termination of employment are included, to the extent they are attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary as of January 1, 2021 and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of January 1, 2021 is as follows:

Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 47,312,840
Other participants	<u>10,331,534</u>
Total vested benefits	57,644,374
Nonvested benefits	<u>7,437</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 57,651,811</u></u>

TIMET Defined Benefit Retirement Plan

Notes to Financial Statements
December 31, 2021 and 2020

The changes in the actuarial present value of the accumulated plan benefits for the year ended December 31, 2020 are summarized as follows:

Actuarial present value of accumulated plan benefits, at beginning of year	\$ 57,999,204
Increase (decrease) during the year attributable to:	
Benefits accumulated	225,186
Increase for interest due to decrease in discount period	3,989,194
Benefits paid	(6,057,652)
Change in actuarial assumptions	1,702,447
Actuarial gain	<u>(206,568)</u>
Actuarial present value of accumulated plan benefits, at end of year	<u>\$ 57,651,811</u>

Significant assumptions underlying the actuarial computations are as follows:

- a) Mortality - Pri-2012 Private Retirement Plans Healthy Blue Collar Mortality Tables projected with Scale MP 2020 on a generational basis.
- b) Discount Rate - 6.75%
- c) Eligible employees were assumed to retire according to the following table:

Retirement Age	Retirement Rate Percentage
55 - 59	3.0 %
60 - 61	10.0
62	25.0
63 - 64	10.0
65 - 69	30.0
70	100.0

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The mortality assumption was updated to incorporate a more recent mortality table and projection scale to reflect both current and expected mortality improvements. The interest rate was also changed from 7.25% to 6.75%. These changes resulted in an increase of approximately \$1.7 million in the actuarial present value of accumulated benefits in 2021.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through October 5, 2022, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets held in the Master Trust measured at fair value. The Plan is able to purchase or sell units of the Master Trust on a daily basis. The Master Trust asset allocation strategy is designed with the objective of achieving the asset return assumption consistently over the long-term in order to fund future payment obligations, while minimizing contributions and plan sponsor economic risk. The asset categories are described below, along with the valuation methodologies and investment level classifications. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Public Equity - Public equity investments consist of publicly traded equity securities, as well as hedged equity investment strategies which may add short positions in equities or equity futures in order to generate absolute returns regardless of equity market direction. Equity investments held directly are valued based upon closing prices reported in active trading markets and classified as Level 1. Other fund investments are valued using the most recent net asset value (NAV) of the fund.

Private Equity - Private equity investments consist of investments in nonpublic companies made directly or through limited partnerships or commingled vehicles with managers who purchase interests in nonpublic companies. Sub-categories of private equity may include venture capital, early stage, special situations or restructuring funds. Private equity typically has low liquidity, a ten year or longer investment commitment, and valuation methodologies that require the use of significant unobservable inputs. Direct private equity investments are classified as Level 3, while investments made through funds are typically valued at the most recent NAV of the fund. As of December 31, 2021 and 2020, unfunded capital commitments to private equity investments were approximately \$1 million and \$4 million, respectively.

TIMET Defined Benefit Retirement Plan

Notes to Financial Statements
December 31, 2021 and 2020

Alternative Strategies - Alternative strategies are investments with managers who seek specified levels of absolute returns with minimal correlation to market movements. Alternatives managers typically invest in futures, forwards or options on a variety of asset classes. Investments are typically made in investment funds with values stated at fund NAVs.

Fixed Income - Fixed income investments consist of private fixed income securities of non-U.S. corporate issuers classified as Level 3, as well as publicly traded investment funds classified as Level 1.

Cash/Other - Cash and other investments include highly liquid money market securities, demand deposits and other cash equivalents. Cash and other investments are classified as Level 1, or stated at NAV for private money market funds.

4. Undivided Interest in the Precision Castparts Corp. Master Trust

All of the Plan's investments are in the Master Trust. The Plan's interest is calculated based on the fair value at the end of the previous period, plus any contributions and income received, less benefit payments and expenses paid for each plan during the period.

At December 31, 2021 and 2020, the Plan's interest in the net assets of the Master Trust was 5.89% and 5.93%, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon the amount of time the Plan's assets were invested in the Master Trust.

The following table presents the net assets of the Master Trust as of December 31, 2021 and 2020:

	2021		2020	
	Master Trust	Plan's Proportionate Share	Master Trust	Plan's Proportionate Share

TIMET Defined Benefit Retirement Plan

Notes to Financial Statements
December 31, 2021 and 2020

The table below sets forth a summary of certain changes in the fair value of the Master Trust's Level 3 assets for the years ending December 31, 2021 and 2020:

	2021		
	Private Equity	Fixed Income	Total
Purchases	\$ -	\$ -	\$ -
Issuances	-	-	-
Transfers in and/or out of Level 3	-	-	-

	2020		
	Private Equity	Fixed Income	Total
Purchases	\$ -	\$ -	\$ -
Issuances	-	-	-
Transfers in and/or out of Level 3	(10,235,205)	-	(10,235,205)

Gains and losses (realized and unrealized) included in the change in net assets for the periods above are reported in plan interest in net investment income of Master Trust in the Statements of Changes in Net Assets Available for Benefits.

Transfers Between Levels - The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. In 2021 and 2020, the Plan had \$0 and \$10,235,205 of transfers from Level 3 to Level 1, respectively.

5. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
- c) All other vested benefits (that is, vested benefits not insured by PBGC).
- d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

Notes to Financial Statements

December 31, 2021 and 2020

6. Related-Party and Party In Interest Transactions

The Plan's investments are administered under a contract with BNYM, the trustee of the Plan. Contributions are held and managed by BNYM, who invests cash received, interest and dividend income and make distributions to participants. These transactions qualify as party in interest transactions which are exempt from the prohibited transactions rules of ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated July 21, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict, which could impact the value of investment securities. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

9. Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2021 and 2020. Accordingly, BNYM, the trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2021 and 2020 and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years then ended.

Actuarial Cost Method

For purposes of calculating the Funding Target, we calculated the actuarial present value of benefits accrued as of the beginning of the plan year. This cost method is typically referred to as the Unit Credit method.

Actuarial Value of Assets

For funding requirements, the Plan uses the 24-month average value of assets per IRS Notice 2009-22.

Discount Rates

As selected by TIMET, the rates for calculating the PPA Funding Target are the September 2020 segment rates and do not reflect the American Rescue Plan Act of 2021. As prescribed by segment rate stabilization legislation without the American Rescue Plan Act, in 2021 these rates must be between 85% and 115% of the 25-year average rates published by the IRS.

▪ Segment 1 payments under 5 years	3.32%
▪ Segment 2 payments between 5 and 20 years	4.79%
▪ Segment 3 payments after 20 years	5.47%

Salary Scale

Pay rates were assumed to increase 3.00% per year for Toronto, Ohio, and Henderson, Nevada, bargaining plant participants. Pay rates are included in the calculation of the Special Payment Benefit.

Compensation for salaried members was frozen April 1, 1994, so the salary scale does not apply.

Future Service

Each active participant is assumed to earn one year of service in each future plan year prior to the year of retirement, death, or withdrawal.

Withdrawal

Withdrawals prior to retirement for reasons other than death were assumed to follow the 2003 SOA Pension Plan Turnover Study Small Plan Service Table. Withdrawal rates at sample ages are shown below:

Service	Withdrawal Rate
0	19.8%
1	18.1%
2	16.5%
5	12.3%
10	7.4%
15	4.4%
20	2.5%
25	1.4%
30	0.8%
50	0.1%

Retirement

Eligible employees were assumed to retire according to the following table:

Age(s)	Retirement Rate
55-59	3.0%
60-61	10.0%
62	25.0%
63-64	10.0%
65-69	30.0%
70	100.0%

Assumed retirement dates for vested terminated participants were provided by the plan administrator.

Mortality

For calculating the Funding Target, mortality follows the RP-2014 annuitant and non-annuitant static mortality tables for 2021 as prescribed by the IRS for all participants.

Disability

No employees were assumed to terminate due to disability.

Administrative Expenses

Administrative expenses are estimated to be the sum of the prior year expenses, less the prior year PBGC premium, plus the current year PBGC premium, payable at the beginning of the year.

Probability of Marriage

85% of non-retired participants are assumed to be married. A three-year age difference between spouses is assumed with the males being older.

Form of Benefit

Non-retired participants are assumed to elect from the following forms of payment at retirement at the rates shown:

Probability	Form of Payment
40%	Single Life Annuity
60%	50% Joint & Survivor Annuity

Change in Actuarial Assumptions

- The Funding Target discount rates and mortality assumption were updated as required and as described above.

Name

TIMET Defined Benefit Retirement Plan

Effective Dates

January 1, 1987; amended and restated effective January 1, 2016. The latest Plan amendment reflected in the valuation was Amendment 3, effective August 1, 2020.

Type of Plan

Trusted plan with a corporate trustee, administered by the Employer.

Employer

Titanium Metals Corporation (TIMET).

Employees Eligible to Participate

Plan participation required one year of service and attaining age 21 years prior to the applicable participation freeze date shown below.

January 1, 1989 - Salaried employees not covered by a collective bargaining agreement.

July 1, 1995 – Hourly union employees at Toronto, OH.

April 1, 1994 – Hourly union employees at Henderson, NV.

Plan Changes

The Plan was amended effective August 1, 2020 to include terms regarding allowed retirement income payment forms for participants who stop receiving a disability pension due to subsequent reemployment. The amendment did not impact the Plan's liabilities.

Salaried Employees

Benefit Service

Benefit Service was frozen effective December 31, 1988. Service on or after that date is counted only to determine eligibility for an Age and Service Retirement or a Surviving Spouse's Benefit.

Vesting

Effective April 2, 1994, all salaried participants with an accrued benefit were immediately vested.

Normal Retirement Date

A participant's normal retirement date shall be his 65th birthday.

Final Average Compensation

Final Average Compensation is the highest average monthly compensation in the five consecutive calendar years out of the last ten Years of Service prior to April 1, 1994. Compensation means the total cash remuneration before any deferrals to a 401(k) plan, including bonuses, overtime and commissions.

Normal Retirement Benefit

A participant's basic benefit is a monthly pension for the life of the participant equal to the sum of the following:

- Benefit Service as of December 31, 1988 up to a maximum of 40, times 1.0% of Final Average Compensation, plus
- Benefit Service as of December 31, 1988 up to maximum of 35, times 0.5% of Final Average Compensation in excess of Social Security Covered Compensation

However, in no case will the annual benefit be less than the greater of the benefit accrued under the plan as of December 31, 1988, or Benefit Service as of December 31, 1988 times \$180.

Optional Forms of Benefit

In lieu of a single life annuity, participants may elect a joint and survivor annuity with 25%, 50%, 75%, or 100% continued to a beneficiary. All optional forms are actuarially equivalent to the life annuity using 5% interest and the applicable Code Section 417(e)(3) mortality table for the year of commencement.

Earliest Retirement Dates

55 & 30 Retirement: After a participant has completed 30 years and attained age 55, he or she may retire and receive the retirement benefit accrued to his or her date of early retirement reduced for early commencement of benefits prior to age 62. In addition, a \$225 monthly supplement is payable to age 62.

55 & 10 Retirement: After a participant has completed 10 years and attained age 55, he or she may retire and receive the retirement benefit accrued to his or her date of early retirement reduced for early commencement of benefits prior to age 65.

Salaried Employees (continued)

Amount of Early Retirement Pension

The basic pension benefit for participants eligible for a pension under the Final Average Compensation formula is reduced by 1/2% for each month that early retirement precedes the normal retirement date.

For early retirements under the flat dollar formula, the accrued benefit is reduced by graduated percentages ranging from 44.11% at age 55 to 0.00% at age 62.

Disability Pension

Participants who become disabled and are in continuous receipt of benefits under the employer's long-term disability plan and under Title II of the Social Security Act until age 65 are eligible to receive a disability benefit commencing at age 65, equal to the normal retirement benefit accrued as of April 1, 1994.

Preretirement Death Benefits

If a vested participant dies prior to retirement, his surviving spouse will be eligible to receive a retirement benefit equal to the monthly benefit that would have been payable to the spouse had the deceased participant retired on the day of his death and elected the 50% spouse joint and survivor annuity.

Surviving Spouse's Benefit

If a participant who is still accruing service and has completed at least 15 Years of Service or has attained age 55 and at least 10 Years of Service dies prior to retirement, his surviving spouse will be eligible to receive a retirement benefit equal to 50% of his accrued benefit, less 50% of the amount of any widow's benefit payable under a public pension. This Surviving Spouse's Benefit will not be less than \$107.50 for any month prior to eligibility for a widow's benefit under a public pension nor less than \$57.50 for any later month.

Special Retirement Payment

Each participant receiving benefits under all cases of retirement except for disability and deferred vested retirement is eligible for the Special Retirement Payment. The benefit is a lump sum equal to the product of the following:

- The participant's standard hourly vacation rate as of April 2, 1994, times
- Regularly scheduled weekly hours, times
- 8 if continuous service is greater than 20; 9 if continuous service is greater than 10, but less than 20; and 10 if continuous service is less than 10.

This payment is made in lieu of the first three regular monthly pension payments, but may not be less than the sum of the first three regular monthly pension payments.

Toronto, OH Bargaining Employees

Continuous Service

The elapsed time method of crediting service is used to determine the accrued benefit. Service only accrues while the employee is covered as an employee under a Basic Agreement.

Vesting

A terminated participant who has completed at least five Years of Continuous Service will be entitled to a deferred retirement benefit.

Normal Retirement Date

A participant's normal retirement date shall be the later of age 65 or the date the participant has completed five Years of Continuous Service.

Normal Retirement Benefit

For retirement on or after July 1, 2014, the monthly benefit payable at Normal Retirement is equal to the sum of the Years of Continuous Service times the corresponding multiplier for each period below.

Years of Continuous Service	Multiplier	For Retirement or Death Occurring
Prior to July 1, 2014	\$38.50	
From July 1, 2014 to June 30, 2019	\$39.50	July 1, 2014 to June 30, 2016

Optional Forms of Benefit

In lieu of a single life annuity, participants may elect a joint and survivor annuity with 50%, 75%, or 100% continued to a beneficiary. All optional forms are actuarially equivalent to the life annuity using 5% interest and the applicable Code Section 417(e)(3) mortality table for the year of commencement.

Earliest Retirement Dates

60 & 10 Retirement: After a participant has completed 10 years and attained age 60, he or she may retire and receive an early retirement benefit.

70/80 Retirement: Any participant whose continuous service is broken by reason of: i) the permanent shutdown of a plant, department or a subdivision or ii) a layoff or physical disability; and who also has 15 Years of Continuous Service and has either i) attained age 55 or ii) whose combined age and service equals 80 or more, may retire and receive the retirement benefit accrued to his or her date of retirement.

Amount of Early Retirement Pension

60 & 10 Retirement: The benefit is reduced by graduated percentages ranging from 16.18% at age 60 to 0.00% at age 62.

Disability Pension

Participants with at least 10 Years of Continuous Service at the time of permanent disability are eligible to receive a monthly benefit equal to their normal retirement benefit based on continuous service at the date of disability. In addition, disabled participants receive a Social Security Supplement.

Preretirement Death Benefits

If a vested participant dies prior to retirement, his surviving spouse will be eligible to receive a retirement benefit equal to the benefit that would have been payable to the spouse had the deceased participant retired on the day of his death and elected the 50% spouse joint and survivor annuity.

Additional Death Benefits

If an active participant with more than 15 Years of Continuous Service or a participant who is no longer employed but eligible for or receiving a benefit other than a deferred vested benefit dies, a benefit is immediately payable to their spouse. For those participants receiving retirement benefits, the spouse receives 50% of the benefit. For other eligible participants, the spouse receives 50% of the participant's accrued benefit. The minimum benefit payable is \$140 per month. These benefits are payable until the spouse is eligible for a Social Security widow or widower's benefit; however, the minimum benefit payable is \$90 per month. These benefits are payable in addition to any other death benefits payable under the plan.

Special Retirement Payment

Each participant receiving benefits under all cases of retirement except for disability and deferred vested retirement is eligible for the Special Retirement Payment. The benefit is a lump sum equal to the product of the following:

- The participant's standard hourly vacation rate in excess of \$5.05, times
- Regularly scheduled weekly hours (maximum of 44), times
- 9 if continuous service is greater than 17; 10 if continuous service is greater than 10, but less than 17; and 11 if continuous service is less than 10.

This payment is made in lieu of the first three regular monthly pension payments, but may not be less than the sum of the first three regular pension payments.
