To the Board of Trustees
Gateway First Bank 401(k) Retirement Plan
Jenks, Oklahoma

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of Gateway First Bank 401(k) Retirement Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits (modified cash basis) as of December 31, 2021, and the related statement of changes in net assets available for benefits (modified cash basis) for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2021, and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the 2021 financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting as described in Note 2.
- The information in the 2021 financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements and supplemental schedule were prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting as described in Note 2, and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time, which is generally one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of or for the year ended December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated August 30, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS

December 31, 2021 and 2020

1. Description of the Plan

The following description of Gateway First Bank 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan whereby eligible employees of Gateway First Bank ("the Plan Sponsor") and participating employers related to the Plan Sponsor: Reliable Appraisal Management, LLC, Windsor Steele Homes, LP d/b/a Castletree Homes, and Echo Mortgage, LLC (collectively referred to as "the Company"), are permitted to make contributions under section 401(k) of the Internal Revenue Code (the "Code"). The Plan was originally adopted January 1, 2002 and is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by a Plan Administrator and overseen by the Plan's Board of Trustees. The Plan's Investments Committee determines the appropriateness of the Plan's investments, monitors investment performance, and reports to the Plan's Board of Trustees.

As discussed in the Plan amendments at Note 10, during 2020, the Plan adopted certain changes pursuant to the Setting Every Community Up for Retirement Enhancement ("SECURE") Act enacted on December 20, 2019, the Coronavirus Aid, Relief and Economic Security ("CARES") Act enacted on March 27, 2020, and Internal Revenue Service ("IRS") regulations.

Eligibility

All non-excluded employees of the Company who have attained 18 years of age are eligible to join the Plan. An eligible employee must complete six months of service to receive employer matching contributions, and one year of service (or 1,000 hours) to receive Qualified Non-elective Employer Contributions.

Contributions

Participants who have satisfied the Plan's eligibility requirements may contribute up to 90% of eligible compensation, subject to certain maximum limitations imposed by the Internal Revenue Code ("the Code"), as defined in the Plan. Participants may elect to make pre-tax deferrals or Roth deferrals. Roth deferral contributions cannot be re-characterized as pre-tax deferral contributions once elected. Participants who have attained age 50 before the close of the plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the Code. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Plan Sponsor elected for the Plan to be treated as a "Safe Harbor plan." Under these provisions, the Company makes matching contributions based on a participant's deferral contributions in an amount equal to 100% of the first three percent of compensation contributed to the Plan by a participant, plus 50% of the next two percent of compensation contributed to the Plan by the participant.

A participating employer may make Discretionary nonelective contributions to the Plan on behalf of its eligible participants. The discretionary nonelective contribution shall be allocated to a participant's account based on a formula that takes Social Security into account as specified in the Plan document.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's matching and discretionary contributions and Plan earnings and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant's investment elections and earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investment Options

Participants direct the investment of their contributions and the Company's contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, a common/collective trust, and self-directed brokerage accounts as investment options for participants. Participants may change their investment options at any time throughout the year via internet or direct phone access to the Plan's trustee. The Plan's qualified default investment alternative ("QDIA") is the T. Rowe Price retirement target funds.

GATEWAY FIRST BANK 401(k) RETIREMENT PLAN

Vesting

Participants are always 100% vested in their Rollover Contributions, Qualified Nonelective Contributions, Deferral Contributions, Safe Harbor Matching Employer Contributions and any earnings thereon. Participants receive Safe Harbor Matching Contributions after completing one year of service. Vesting of Employer Nonelective Contributions plus earnings is based on years of service according to the terms of the Plan. The vested balance in a participant's account representing the Employer Nonelective Contributions becomes 20% upon completion of 2 years of service, 40% after 3 years of service, 60% after 4 years of service, 80% after 5 years of service, and 100% after 6 years of service. Upon termination of service, the non-vested portion is subject to forfeiture rules under the Plan.

Forfeited Accounts

Terminated participants may forfeit the non-vested portion of their Employer Account balance. A forfeiture will occur in the Plan Year that a terminated participant receives a distribution of the entire vested Account, or after five consecutive one-year breaks in service for terminated participants who do not receive a distribution. However, forfeited account balances of a terminated participant will be restored according to the Plan when the participant is re-employed by the Company before incurring five consecutive one-year breaks in service, and the participant repays the full amount of the distribution before the end of the five-year period that begins on the date of re-employment. Unrestored forfeitures are retained in the Plan and are used to first pay for administrative expenses then to reduce future Employer contributions payable under the Plan. At December 31, 2021 and 2020, forfeited nonvested accounts totaled \$105,212 and \$121,043, respectively. These accounts will be used to reduce future administrative expenses or Employer contributions. During 2021, the Plan used forfeitures in the amount of \$20,521.

Notes Receivable from Participants

Participants may borrow from their accounts an amount not to exceed the lesser of: (a) one-half of the participant's vested account balance or (b) \$50,000 reduced by the participant's greatest outstanding loan balance during the 12 months preceding the date of the loan. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 6.50%, which is commensurate with local prevailing rates as determined by the Plan administrator. Loans are required to be repaid within five years of the date the loan proceeds are received except in the case of certain loans to acquire a principal residence, which may be repaid over a period not to exceed 10 years. Principal and interest are repaid ratably through periodic payroll deductions. Participants may only have one outstanding loan at any time.

As discussed in the Plan amendments at Note 10, during 2020, the Plan adopted certain financial relief measures related to participant loans pursuant to the CARES Act.

Payments of Benefits

Benefits under the Plan will generally be paid to participants or their beneficiaries in cash. Distributions to participants with vested account balances between \$1,000 and \$5,000 may be made in a single lump-sum payment equal to the value of the participant's vested interest in their account or rolled over to an individual retirement account designated by the Plan Administrator. Participants with vested account balances more than \$5,000 may defer distributions or elect to receive distributions.

Upon termination of service due to death, disability or retirement, participants may receive a lump sum payment equal to their vested account balance. Participants who are also active employees can request a hardship withdrawal up to their vested account balance, subject to certain conditions and restrictions.

As discussed in the Plan amendments at Note 10, during 2020, the Plan adopted changes related to: the age for required minimum distributions pursuant to the SECURE Act, certain financial relief measures related to distributions pursuant to the CARES Act, and hardship distributions to comply with the SECURE Act and IRS regulations.

2. Summary of Significant Accounting Policies

Date of Management's Review and Subsequent Events

The Plan has evaluated events and transactions for potential recognition or disclosure through October 6, 2022, which is the date the financial statements were available to be issued.

As a result of the spread of the COVID-19 pandemic, economic uncertainties continue to present risks and uncertainty with respect to the Plan's operation, the Plan's investment performance, and the Plan's financial results. Therefore, it is at least reasonably possible for changes in the fair value of investments, that could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits, to occur in the near term. As of the date of this report, Plan Administration is unable to estimate the total impact that COVID-19 may have on the Plan.

Basis of Accounting

The financial statements of the Plan are presented on the modified cash basis of accounting, which is a basis of accounting other than generally accepted accounting principles. Consequently, certain additions and the related assets are recognized when received rather than when earned and certain deductions are recognized when paid rather than when the obligation is incurred.

Use of Estimates

The preparation of financial statements in conformity with a basis of accounting other than accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments of the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 5 for discussion of fair value measurements.

The net appreciation (depreciation) in the fair value of investments consists of the realized gains and losses on investments bought and sold as well as held during the year and unrealized appreciation (depreciation) of investments. The net change in unrealized appreciation (depreciation) in the fair value of investments is determined by the change in fair value from the beginning of the year to the end of the year or change in fair value from date of the purchase to the end of the year.

Purchases and sales are recorded on a trade date basis. Interest income and dividends are recorded when received.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2021 and 2020, no allowance for credit losses has been recorded.

If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document. The fair value disclosures for financial instruments are not required for participant loans. Also, participant loans continue to be considered as investments for Form 5500 reporting purposes.

Contributions

Contributions are recorded when the cash is received by Fidelity Management Trust Company, the trustee of the Plan. Participants' contributions of \$186,842 and employer contributions of \$79,196 related to the 2020 plan year were received by the trustee of the Plan on January 4, 2021 and have been included in the 2021 statement of changes in net assets available for benefits. Had the Plan's financial statements as of and for the year ended December 31, 2020 been prepared using the accrual basis of accounting principles generally accepted in the United States of America, participants' contributions receivable and the employer contribution in the amounts of \$186,842 and \$79,196, respectively, would have been recognized to accrue the 2020 contributions received by the Plan subsequent to December 31, 2020.

There were no participants' or employer contributions related to the 2021 plan year received by the trustee of the Plan subsequent to December 31, 2021.

GATEWAY FIRST BANK 401(k) RETIREMENT PLAN

Benefits Payments

Benefits are recorded when paid.

Administrative Expenses

Officers or employees of the Company perform certain administrative functions of the Plan. However, such officers and employees receive no compensation from the Plan. Fees and expenses charged under a participant's account fall into three basic categories.

Investment fees are generally assessed as a percentage of assets invested and are deducted directly from the participant's investment returns as applicable.

Plan administration fees cover the day-to-day expenses of the Plan for recordkeeping, accounting, legal and trustee services, as well as additional services that may be available under the Plan. In certain cases, Plan administration costs are covered by investment fees that are deducted directly from investment returns. In other cases, plan administrative fees are either paid directly by the Employer, or are passed to the Plan participants, in which case a recordkeeping fee is deducted from a participant's account.

Transaction-based fees are associated with optional services offered under the Plan and are charged directly to the individual participants' account who use the feature available under the Plan.

Excess Contributions

Excess contributions originated in the current reporting period and refunded to participants during the reporting period are offset in participant contributions and benefit payments to participants on the statement of changes in net assets available for benefits. Excess contributions originated in the current reporting period and refunded to participants before or after March 15 of the following reporting period are accrued as liabilities on the statements of net assets available for benefits. Excess contributions are presented as corrective distributions in expenses section on Schedule H of Form 5500.

During 2021, excess contributions originated during the current reporting period amounted to \$115,069. These excess contributions have been offset in participant contributions and benefit payments to participants on the statement of changes in net assets available for benefits as they were refunded to participants during the current reporting period.

Reclassification

Certain amounts previously reported have been reclassified to conform to the current format. The reclassifications had no impact on the statement of changes in net assets available for benefits.

3. Information Certified by Trustee

4. Investment Contract with Fidelity Management Trust Company

The Plan entered into a benefit-responsive guaranteed investment contract with Fidelity Management Trust Company, the Plan trustee. The Morley Stable Value Fund (the “Fund”) is a stable value fund that is sponsored and managed by Principal Global Investors Trust Company (“PGI”) formerly known as Union Bond & Trust Company. The Fund is comprised of a cash, guaranteed investment contracts (traditional GICs), separate account contracts, and synthetic investment contracts. The principal value of the Fund is intended to provide stable value regardless of financial market fluctuations. Each of the separate account contracts and synthetic investment contracts have a wrap contract that provides a minimum guaranteed rate of return for the term of the contracts. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the Fund, plus credited earnings, less participant withdrawals.

The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at net asset value (“NAV”) based on the fair value of the underlying investments of the trust as a practical expedient to estimate fair value in arriving at net assets available for benefits. Fair value, as reported to the Plan by Fidelity Management Trust Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses adjusted to fair value using a factor determined by Fidelity Management Trust Company. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value of the investment contract at December 31, 2021 and 2020 was \$1,323,061 and \$1,508,450, respectively. The crediting interest rate is based on a formula agreed upon with the issuer but may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with PGI. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

5. Fair Value Measurements

ASC Topic 820, *Fair Value Measurements and Disclosures* establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three broad levels of the fair value hierarchy are as follows:

- Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority.
- Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1).
- Level 3 inputs consist of unobservable inputs and have the lowest priority.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs are not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs are not available. During 2021 and 2020, no Plan investments required the use of Level 3 inputs.

Level 1 Fair Value Measurements

Money market funds - The money market fund is valued using pricing models maximizing the use of observable inputs for similar securities. Although a money market fund seeks to preserve the value of \$1 of investment at \$1 per share (unit), it is possible to lose money by investing in such a fund.

Mutual funds - The fair value of mutual funds is based on quoted net asset value (“NAV”) of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily NAV and transact at that price. The mutual funds held by the Plan are considered to be actively traded.

GATEWAY FIRST BANK 401(k) RETIREMENT PLAN

Self-directed brokerage accounts - The fair value of the Plan's investment in the self-directed (Brokerage Link) accounts is based on the fair value of the underlying investments adjusted for any indirect support fee paid to Fidelity Investments by the fund family. Brokerage Link is the self-directed brokerage option for participants in a Fidelity client's retirement plan. An individual brokerage account is established and maintained by Fidelity Brokerage Services, Inc. (FBSI). Participants using Brokerage Link also can invest their assets in all other available investment options offered in the plan. FBSI sends an automated daily feed to the Fidelity Participant Recordkeeping System (FPRS) reflecting the net change in market value of the self-directed investments for the day. The FPRS posts this activity to the participants' Brokerage Link 'fund' as an 'Adjustment' so the balances on the FPRS will accurately reflect the market value in the FBSI brokerage accounts. The Brokerage Link accounts are currently comprised of mutual funds, corporate common stocks, money market funds, and government agency bonds. The fair value measurement technique for the money market funds and mutual funds is described above. The fair values of the common stocks are based on the closing price reported on the active market where the individual securities are traded. The fair value of the U.S. government securities is valued using a market approach on yields currently available on comparable securities of issuers with similar credit ratings.

Level 2 Fair Value Measurements

The Plan's interest in the common/collective trust is based on the NAV of units of a common/collective trust. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The fair value of the investment contracts is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate at the end of the year. Individual assets of the synthetic investment contracts are generally valued at representative quoted market prices. Debt securities are valued based on valuations furnished by a pricing service approved by the stable value fund trustee based on market transactions for comparable securities and various relationships generally recognized by institutional traders. Accrued interest on the underlying investments, if any, is added to the fair value of the investments for presentation purposes.

The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common/collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust to ensure that securities liquidations will be conducted in an orderly business manner.

The following table set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2021 and 2020:

	Fair Value Measurements Using:		
	Quoted Prices in Active Markets for Identical Assets	Other Observable Inputs	Fair Value
	(Level 1)	(Level 2)	
December 31, 2021:			
Common/collective trust	\$ -	\$ 1,323,061	\$ 1,323,061
Mutual funds	70,138,477	-	70,138,477
Self-directed brokerage accounts	1,075,515	-	1,075,515
Total investments, at fair value	<u>\$ 71,213,992</u>	<u>\$ 1,323,061</u>	<u>\$ 72,537,053</u>
December 31, 2020:			
Common/collective trust	\$ -	\$ 1,508,450	\$ 1,508,450
Mutual funds	52,988,067	-	52,988,067
Self-directed brokerage accounts	1,739,483	-	1,739,483
Total investments, at fair value	<u>\$ 54,727,550</u>	<u>\$ 1,508,450</u>	<u>\$ 56,236,000</u>

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2021 are reported in net appreciation (depreciation) in fair value of investments.

6. Party-In-Interest Transactions

Certain Plan investments are units of common/collective trust funds, and shares or unit of mutual funds and money market funds sponsored and managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the Plan trustee and custodian as defined by the Plan. Therefore, Fidelity is a party-in-interest under ERISA and transactions with Fidelity qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments on the accompanying statement of changes in net assets available for benefits, as they are paid through revenue sharing rather than a direct payment.

Plan transactions and records are administered by Fidelity Investments Institutional Operations Company, Inc. ("FIIIO"), an affiliate of Fidelity, the Plan Trustee. FIIIO is the record keeper of the Plan; therefore, transactions with FIIIO qualify as party-in-interest transactions. During 2021, fees incurred by the Plan for record keeping services totaled \$103,042 and are presented in Administrative expenses on the accompanying statement of changes in net assets available for benefits.

The Commerce Trust Company ("TCTC") is the Plan's third-party provider of investments advisory services. Therefore, TCTC is a party-in-interest under ERISA and transactions with TCTC qualify as party-in-interest transactions. During 2021, the Plan paid \$127,955 in investment advisory fees to TCTC. These fees are presented as investment advisory fees within the Investment income caption on the accompanying statement of changes in net assets available for benefits.

Payne & Smith, LLC is the Plan's independent public accountant ("IQPA") as defined by the Plan. Therefore, the IQPA is a party-in-interest under ERISA and transactions with the IQPA qualify as party-in-interest transactions. Fees incurred by the Plan for audit and nonattest services provided by the IQPA are paid by the Company and are therefore, neither disclosed nor included or accrued on the accompanying statements of net assets available for benefits and statement of changes in net assets available for benefits.

These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

7. Tax Status

The Plan has adopted a Volume Submitter Profit Sharing Plan with CODA sponsored by Fidelity Management & Research Company (Fidelity). The Fidelity volume submitter profit sharing plan received its latest determination letter, dated March 31, 2008, from the Internal Revenue Service as to the plan's qualified status. The volume submitter profit sharing plan opinion letter has been relied upon by the Plan. The Plan has been amended since receiving the opinion letter; however, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

8. Plan Termination

While there is no intention to do so, the Company reserves the right to terminate the Plan. In the event of termination of the Plan, the participants become fully vested in their employer contribution balances, and the net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

9. Risks and Uncertainties

The Plan provides for various investment options in investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risks associated with investment securities, and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and changes in net assets available for benefits.

The following table presents concentrations of investments that represented 5% or more of the Plan's net assets at December 31, 2021 and 2020:

	<u>2021</u>	<u>2020</u>
Mutual funds:		
Fidelity Contrafund	\$ 5,559,476	\$ 4,436,320
Fidelity Total Market Index Fund	4,959,945	3,471,003
T. Rowe Price Retirement 2025 Fund	7,085,213	5,368,624
T. Rowe Price Retirement 2030 Fund	8,727,799	7,434,004
T. Rowe Price Retirement 2035 Fund	7,085,913	5,402,057
T. Rowe Price Retirement 2040 Fund	7,649,829	5,572,052
T. Rowe Price Retirement 2045 Fund	6,526,933	4,288,433
T. Rowe Price Retirement 2050 Fund	4,958,697	3,145,575

See Date of Management's Review and Subsequent Events caption at Note 2 for additional disclosure of risks and uncertainty presented by the spread of the COVID-19 pandemic.

10. Plan Amendments

Effective January 1, 2020, certain provisions of the Plan were amended to adopt changes pursuant to the Setting Every Community Up for Retirement Enhancement Act (SECURE Act) enacted on December 20, 2019. Accordingly, the Plan increased the age for required minimum distributions (RMDs) from age 70½ to 72 for RMDs to Plan participants born after June 30, 1949. The Plan was also amended to comply with the SECURE Act and IRS regulations regarding hardship distributions.

On April 5, 2020, the Plan adopted the following rule changes to the Plan pursuant to the Coronavirus Aid, Relief and Economic Security Act of 2020 (CARES Act) enacted into law on March 27, 2020:

- (a) For distributions made between January 1, 2020 and December 31, 2020, the Plan allowed impacted plan participants to take distributions up to \$100,000 from their vested account balances free of the mandatory 20% withholding and the 10% early distribution tax normally applied to payments made prior to age 59½. The income taxes due on the distribution may be repaid to the Plan, an eligible retirement plan or IRA within three years of taking the distribution.
- (b) As mandated by the CARES Act, the Plan temporarily waived RMD rules in 2020 and extended the RMD waiver eligibility to participants who turned age 70½ in 2019 who had not yet received their 2019 distributions.
- (c) Effective March 27, 2020, the Plan temporarily increased the maximum loan amount that impacted participants could borrow from their vested accounts in the Plan from 50% to 100% of their total vested balance, up to \$100,000 (from \$50,000 pre-CARES Act). Impacted participants could also have their loan repayments suspended for up to 12 months for repayment due dates between March 27, 2020 through December 31, 2020.

The CARES Act permitted retirement plans to adopt these rules immediately provided the Plan is amended on or before the last day of the first Plan year beginning on or after January 1, 2022, or later if prescribed by the US Secretary of the Treasury. Plan Administration is in the process of formally amending the Plan document.
