Supplemental Schedule
December 31, 2021

Independent Auditor's Report

To the Plan Trustees
Seiler Instrument & Manufacturing Co., Inc. 401(k) Plan
St. Louis, Missouri

Opinion

We have audited the accompanying financial statements of Seiler Instrument & Manufacturing Co., Inc. 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Seiler Instrument & Manufacturing Co., Inc. 401(k) Plan as of December 31, 2021 and 2020, and the changes in net assets available for benefits for the year ended December 31, 2021 in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Seiler Instrument & Manufacturing Co., Inc. 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Seiler Instrument & Manufacturing Co., Inc. 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Seiler Instrument & Manufacturing Co., Inc. 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Seiler Instrument & Manufacturing Co., Inc. 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

Supplemental Schedule Required by ERISA (continued)

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Seiler Instrument & Manufacturing Co., Inc. 401(k) Plan

Notes to the financial statements

Note 1: Description of Plan

The following description of the Seiler Instrument & Manufacturing Co., Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan, which was adopted on January 1, 1992 and restated January 1, 2015, by Seiler Instrument & Manufacturing Co., Inc. (the Plan Sponsor), is a defined contribution plan covering all employees of the Plan Sponsor who have three months of consecutive service. An employee will become eligible for participation after meeting the Plan's eligibility requirements, as listed in the Plan document. The Plan allows automatic enrollment at a rate of 3% of compensation after three months of service are completed for individuals hired after July 1, 2014. Employees who opt out of automatic enrollment must complete a form to decline participation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may defer up to an annual maximum of the lesser of 90% of eligible compensation or the amount specified by the Internal Revenue Service (IRS) for the years ended December 31, 2021 and 2020. Individuals who have attained age 50 before the end of the Plan year are also eligible to defer additional amounts, called catch-up contributions.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Any rollover contributions are kept in a separate rollover contribution account established on the employee's behalf. Participants direct the investment of their contributions into various investment options offered by the Plan. The employee will have a 100% vested interest in all amounts credited to the rollover contribution account. At December 31, 2021, there were \$84,749 of rollover contributions into the Plan.

The Plan Sponsor may make discretionary matching contributions equal to an annually determined, uniform percentage of the individuals salary deferrals. For the year ended December 31, 2021, the Plan Sponsor made a matching contribution of 100% of employee deferrals up to an annual maximum of \$1,040 per employee.

Effective January 1, 2020, the Plan was amended to allow Roth elective deferrals for eligible employees.

Seiler Instrument & Manufacturing Co., Inc. 401(k) Plan

Notes to the financial statements

Note 1: Description of Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and employer matching contributions, if any, and an allocation of the Plan's earnings. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings (losses) thereon. Vesting in the remainder of their account balance is based on years of continuous service from the Entry Date. After two years of credited service, participants vest in their employer contributions plus actual earnings thereon at a rate of 20% per year and are fully vest after six years of credited service.

Investment Options

Upon enrollment in the Plan, participants may direct contributions to any of the applicable investment options available to the Plan participants.

Notes Receivable From Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued interest. Notes receivable are made in any amount greater than \$1,000, but less than 50% of the participant's vested account balance. In no event can the participant borrow more than \$50,000. Note receivable transactions are treated as transfers from the investment funds to the participant loan accounts. Note receivable terms range from one to five years or up to 20 years for the purchase of a primary residence. The notes receivable are secured by the balance in the participant's account and bear interest at a rate of 0.5% above Prime, as determined by the Plan Administrator. Interest rates were between 3.75% and 6.00% during 2021. Principal and interest are paid ratably through weekly payroll deductions.

Payment of Benefits

The Plan provides for retirement benefits to begin upon retirement. Retirement age for the Plan is 65. Upon death or disability of a participant while employed, the account balance becomes fully vested.

On termination of service, if the total vested account balance does not exceed \$5,000, the participant's vested account balance is distributed automatically in a lump sum. If the total vested account balance equals or exceeds \$5,000, participants may elect to receive a lump sum amount equal to the value of their vested account balance or installments with respect to minimum required distributions over a determinable period of time, as described under the Plan document.

Note 1: Description of Plan (Continued)

Payment of Benefits (Continued)

In addition, participants may withdraw from the Plan the portion of their account resulting from participant salary deferrals in the event of undue financial hardship as defined by ERISA. A hardship distribution cannot exceed the amount of the participant's immediate and heavy financial need. Before receiving a hardship withdrawal, a participant must obtain all distributions and all non-taxable loans under the Plan. Effective January 1, 2020, the Plan was amended to remove the loan requirement prior to receiving a hardship withdrawal. Participants are also no longer required to suspend contributions after taking a hardship withdrawal.

Forfeitures

Participants who terminate their employment and are less than 100% vested in their employer account will forfeit their non-vested portion. The Plan Sponsor may use these funds to reduce their contributions to the Plan. At December 31, 2021 and 2020, there were no forfeited non-vested accounts. Forfeitures of \$20,017 were used to reduce employer contributions during the year ended December 31, 2021.

Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their employer contributions.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Administrative expenses of the Plan are paid both by the Plan Sponsor and the participants of the Plan. During the year ended December 31, 2021, \$2,350 of administrative expenses were paid by the Plan.

Seiler Instrument & Manufacturing Co., Inc. 401(k) Plan

Notes to the financial statements

Note 2: Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements, in conformity with U.S. GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimated amounts.

Subsequent Events

The Plan has evaluated subsequent events through October 4, 2022, which is the date the financial statements were available to be issued.

Note 3: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I) and the lowest priority to unobservable inputs (Level III). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification (ASC) 820 are described as follows:

Level I - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level II - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level II input must be observable for substantially the full term of the asset or liability.

Level III - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value.

Registered investment companies: Valued at the daily closing price as reported by the registered investment companies. Registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. The registered investment companies held by the Plan are deemed to be actively traded.

Note 3: Fair Value Measurements (Continued)

Common collective trust: Comprised of investment contracts that are valued at net asset value of the units of the fund's collective trust. The net asset value is used as a practical expedient to estimate fair value. The practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an account different from the reported net asset value. Participant transactions (purchases and sales) may occur daily.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020.

Investments Measured at Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share as a practical expedient as of December 31, 2021 and 2020, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trust	\$2,462,248	Daily	Daily	N/A

Note 4: Tax Status

The Plan is a volume submitter Plan that received a favorable opinion letter from the Internal Revenue Service on June 20, 2020, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2018.

Note 5: Related Party Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Seiler Instrument & Manufacturing Co., Inc. 401(k) Plan

Notes to the financial statements

Note 5: Related Party Transactions (Continued)

Ekon Benefits is the trustee of the Plan therefore; these transactions qualify as party-in-interest transactions. The fees paid to Ekon Benefits for the year ended December 31, 2021 for investment management and recordkeeping services are netted with the investment income (loss) on each investment option of the Plan for the year ended December 31, 2021.

Note 6: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
