INDEPENDENT AUDITOR'S REPORT

To the Participants and Board of Trustees of
Software Technology 401(k) Plan
Salt Lake City, Utah

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of Software Technology 401(k), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Software Technology 401(k)'s financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Software Technology 401(k) and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Software Technology 401(k)'s ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Software Technology 401(k)'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Software Technology 401(k)'s ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of Software Technology 401(k) Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated September 17, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulation for Reporting and Disclosure under ERISA.

Software Technology Group 401(k) Plan

Notes to Financial Statements

Years Ended December 31, 2021 and 2020

1. Description of Plan

The following brief description of the Software Technology Group 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all non-exempt employees of Software Technology Group (the Company). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Custodian and Administration of the Plan

The record-keeper of the Plan is DWC – The 401(k) Experts. The administrator of the Plan is the Plan Sponsor. Ascensus Trust (the "Custodian") holds the assets of the Plan and acts as the Custodian and Trustee. The Custodian holds all assets of the Plan in accordance with the provisions of the service provider contract with the Plan Sponsor.

Eligibility

Non-exempt employees of the Company, as defined in the Plan, become eligible to participate immediately on their date of hire.

Contributions

All eligible employees who elect to participate will have an automatic deferral amount equal to 3% of the participant's compensation each payroll unless the participant makes a contrary election. The participant may change their elective deferral contributions, subject to the statutory limitations, to the Plan. The Company makes matching contributions of 50% on employee elective deferral contributions each pay period, subject to a limitation of 6% of the employee's current earnings for each payroll. The Company's match also applies to catch-up contributions.

In-Plan Roth Conversions may only be made from contribution sources that are fully vested and must be at least \$1,000. A participant may not make an In-Plan Roth Conversion of any outstanding loan amount.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Software Technology Group 401(k) Plan
Notes to Financial Statements
Years Ended December 31, 2021 and 2020

1. Description of Plan (continued)

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest rates at approximately 2 percent over the current prime rate, which ranged between 5.25 % to 7.25% in the current year. The loans are to be repaid in monthly installments.

CARES and SECURE Act

The Plan has implemented certain requirements by the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which laws change the Plan to, among others, allow certain eligible individuals to receive coronavirus-related relief for loan repayment, suspend required minimum distributions, and delay the commencement date for required minimum distributions. The optional features within these acts were not implemented by the Plan.

Vesting

Participants are immediately vested in their elective deferral plus actual earnings thereon. Vesting in the Company's matching contribution is based on the number of years. A year of service requires at least 1,000 hours of service. The vesting schedule for matching contributions is as follows:

Years of Service	Vested Percentage
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years or more	100%

Payment of Benefits

On termination of service a participant may receive either a lump-sum amount equal to the value of their non-forfeitable benefit or have the payment paid as a "direct rollover" to an individual retirement account, an individual retirement annuity, or to another employer's tax qualified plan. Hardship distributions are permitted, subject to certain limitations, and in-service distributions may be made if the participant has reached age 59^{1/2}, which must be more than \$1,000 and only from sources in which the participant is 100% vested.

Investment Options

The Plan provides that participants may direct how their account balance is invested among the investment alternatives offered by the Plan. The Plan administrative committee selects the investment alternatives.

1. Description of Plan (continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments which include shares of mutual funds valued at the net asset value of shares held by the Plan at year-end. Participant loans are valued at their outstanding balances, which approximate fair value.

2. Significant Accounting Policies

Basis of Presentation & Use of Estimates

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting and present the net assets available for plan benefits and the changes in those net assets in accordance with accounting principles accepted in the United States of America. The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates and assumptions.

Contributions Receivable

The Plan records contributions receivable for any contributions owed to the Plan as of December 31, 2021, including those for payroll that were paid before year end, but the contributions were not yet funded.

Notes Receivable from Participants

Loans to participants are classified as receivables from participants, measured at their unpaid principal balance plus any accrued interest and net of any allowance. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document. Management of the Plan estimates that these notes receivable from participants are fully collectible and therefore no allowance has been provided.

2. Summary of Significant Accounting Policies (continued)

Forfeited Accounts

According to the plan document, forfeitures may be applied to reduce the employer matching contributions or to pay reasonable plan expenses. Forfeited non-vested accounts were applied to employer contributions in the amount of \$93,861 and \$122,316 for the years ended December 31, 2021 and 2020, respectively. As of December 31, 2021 and 2020, respectively, the Plan has \$8,184 and \$0 in forfeitures available to be used to reduce future employer contributions and pay administrative expense.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events

The Company evaluated all events or transactions that occurred after December 31, 2021 through October 11, 2022, the date the financial statements were available to be issued. In 2022, there was considerable volatility in the stock market, including a significant market decline due to various factors. This situation can materially affect participants' account and investment balances.

3. Information Prepared and Certified by Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the custodian of the Plan.

December 31,	2021	2020
Investments, at fair value:		
Mutual funds	16,310,158	14,331,602
Money market accounts	115,487	355,550
Notes receivable from participants	60,109	30,018

3. Information Prepared and Certified by Custodian (continued)

December 31,	2021
Investment Income	
Dividend and interest income	307,898
Net appreciation in fair value of investments	2,112,219
Loan interest	1,837

4. Income tax status

The Plan has not obtained a determination letter, but the volume-submitter plan document has received a letter dated June 30, 2020, from the IRS that its form is acceptable under section 401 of the Internal Revenue Code. The Plan has since been amended, but the Plan Trustees believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable tax authorities.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Because plan management believes that the Plan had no taxable income, no income tax returns have been filed for 2021 or prior years.

5. Related party transactions

Certain Plan investments are managed by Ascensus Trust. Ascensus Trust is the custodian and recordkeeper for the Plan and, therefore, these transactions qualify as party in interest transactions.

Ascensus Trust and its affiliates and the Plan's investment advisor(s) can receive 12(b)(1) fees or similar fees from plan investments for advisory services.

6. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

7. Fair value measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and

have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments.

The three levels of the fair value hierarchy are described below:

Level 1 – Fair values are based on unadjusted quoted prices in active markets for identical assets.

Level 2 – Fair values are based on inputs other than quoted prices within Level 1 that are observable for the asset, either directly or indirectly, or that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement of the Plan. Funds are disclosed using the market approach. There were no level 3 funds for the plan during the current year.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

7. Fair value measurements (continued)

The following describes the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during the year.

Mutual funds & money market accounts - Value based on unadjusted quoted market prices in actively traded markets. These mutual funds are required to be published or provide the daily valuation information.

The following sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2021.
