Report of Independent Auditors

Plan Sponsor
UPMC 401(a) Retirement Savings Plan

Opinion

We have audited the financial statements of UPMC 401(a) Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes (collectively referred to as the “financial statements”).

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2021 and 2020, and the changes in its net assets available for benefits for the year ended December 31, 2021, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion of the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2021, (referred to as the “supplemental schedule”), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

UPMC 401(a) Retirement Savings Plan

Notes to Financial Statements

December 31, 2021

1. Description of the Plan

The primary purpose of UPMC 401(a) Retirement Savings Plan (the Plan) is to accept matching contributions made by UPMC (the Employer) with respect to certain employees who have elected salary deferrals under the UPMC 403(b) Retirement Savings Plan or under the Plan. The Plan is a profit-sharing plan, intended to satisfy all of the requirements of Internal Revenue Code (the Code) Section 401(a). The Plan also allows for elective employee pretax contributions under the Code Section 401(k), as well as after-tax deferrals, of participants' eligible compensation up to the Code's limitations.

The Plan is a contributory pension plan offered to a significant number of employees of UPMC and its subsidiary corporations and affiliates. Periodically, UPMC subsidiary corporations and/or affiliates adopt the Plan and, in certain circumstances, the assets of a plan sponsored by the subsidiary or affiliated corporation may also be transferred to the Plan.

This description of the Plan provides only general information. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions and the additional information about the vesting and benefit provisions.

Contributions

In addition to the employee contributions described above, the Plan provides for an employer matching contribution, upon eligibility, each pay period that is equal to 50% of the employee's contribution up to a maximum of 4% of eligible pay (Community Design) or 6% of eligible pay (Urban Design), depending on which design was adopted by the respective employer (Match Account).

Effective June 1, 2016, eligible employees are automatically enrolled into the Plan at a rate of 6% of the participant's compensation beginning with the payroll period that starts immediately following the 30-day anniversary of his or her hire date. These pretax deferrals are invested in the Plan's default investment, which is the qualified default investment alternative or age appropriate target date fund.

UPMC 401(a) Retirement Savings Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participant Accounts

An individual account is maintained for each participating employee by the Plan's administrator/record-keeper, Alight. Each participant may elect to have his or her contributions

and the employer matching contributions invested in any of the funds offered by the Plan in multiples of 1.0% or as flat dollar amounts.

Vesting

A participant becomes fully vested in his or her Match Account upon and after his or her attainment of normal retirement age or in the event of death (while actively employed), permanent disability (while actively employed), or termination of employment for any reason prior to attainment of normal retirement age upon completion of three years of service. Distributions from the Match Account are permitted after the participant has vested and upon separation of service, or, if eligible and approved by the plan administrator for an in-service or hardship withdrawal. Participants are always fully vested in their pretax and after-tax contributions.

Forfeitures

Upon termination of employment, participants forfeit their nonvested balances. If a participant is rehired within a five-year period, the forfeited contributions are reinstated. At December 31, 2021 and 2020, there were no forfeited nonvested accounts. In 2021, employer contributions were reduced by \$3,283,483 from forfeited nonvested accounts.

Payment of Benefits

The benefit to which a participant is entitled is the vested balance in the participant's account.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 6 months to 5 years, except for loans for the purchase of a primary residence, which must be repaid within 15 years. The loans are secured by the balance in the participant's account and bear interest at rates between 4.25% and 11.69% at December 31, 2021. Principal and interest are paid ratably through regular payroll deductions.

UPMC 401(a) Retirement Savings Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Plan Termination

Although it has not expressed any intent to do so, UPMC has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee

Retirement Income Security Act of 1974 (ERISA). In the event of plan termination, participants will become 100% vested in their accounts.

Plan Merger and Transfers

The Home Health Resource Retirement Plan was merged into the Plan effective December 2021. Total net assets of \$944,018 transferred to the Plan and are reflected on the statement of changes in net assets available for benefits as a transfer from other qualified plans.

Effective January 1, 2021, it was approved by the UPMC Retirement Committee that a portion of the Plan's assets of approximately \$12 million related to certain transferred employees would be transferred as a spin-off to CarepathRX, Inc. 401(k) Plan and is reflected on the statement of changes in net assets available for benefits in transfers to other qualified plans, net.

The Plan permits participants to elect a plan-to-plan transfer from other plans sponsored by UPMC.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

UPMC 401(a) Retirement Savings Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 or 2020. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price) (see Note 4).

The Plan's investments consist of an interest in the UPMC Defined Contribution Plan Trust (Master Trust) held by BNY Mellon Bank, N.A. (see Note 3) and other investments trusted by the Teachers Insurance and Annuity Association – College Retirement Equities Fund (TIAA-CREF).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation/investment income includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent Events

Management evaluated subsequent events for the Plan through October 11, 2022, the date the accompanying financial statements were available to be issued.

UPMC 401(a) Retirement Savings Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

UPMC approved the merger of the HCMS 401(k) Profit Sharing Plan into the Plan, which is scheduled to occur on or before December 31, 2022.

Effective January 1, 2022, the administrative expenses UPMC charges to the Plan will change from a nine-basis-point to a seven-basis-point administrative fee.

New Accounting Pronouncements

In July 2018, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2018-09, *Codification Improvements*, which, among other things, amends an illustrative example of a fair value hierarchy disclosure to indicate that a certain type of investment should not always be considered to be eligible to use the net asset value per share practical expedient. Also, it further clarifies that an entity should evaluate whether a readily determinable fair value exists or whether its investments qualify for the net asset value per share practical expedient in accordance with Accounting Standards Codification (ASC) 820, *Fair Value Measurement*. Adoption of the amended guidance, which is to be applied prospectively, affects the fair value disclosures, but does not change the fair value measurement of the investments. The Plan adopted ASU 2018-09 for the year ended December 31, 2020.

3. Investments

Certain of the Plan's investments are held in a Master Trust, which was established for the investment of assets of the Plan and another UPMC-sponsored retirement plan. Each participating retirement plan's interest in the investment funds of the Master Trust is based on account balances of the participants and their elected investment funds. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to the fair value of the assets assigned to each plan, income and expenses resulting from the collective investment of the assets of the Master Trust.

4. Fair Value Measurements

Fair value is defined under ASC 820 as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.
- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either, directly or indirectly, for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar assets and liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in markets that are not active
 - Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management’s own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

UPMC 401(a) Retirement Savings Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Following is a description of the valuation techniques and inputs used for each general type of investment measured at fair value:

Cash is valued at amortized cost, which approximates fair value.

Registered investment companies are trusted by BNY Mellon Bank, N.A. and are valued based on quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end. The NAV is a quoted price in an active market.

Variable annuities (CREF Accounts) consist of eight investment portfolios: the Stock, Global Equities, Growth, Equity Index, Bond Market, Inflation-Linked Bond, Social Choice, and Money Market Accounts (individually referred to as the Account or collectively referred to as the Accounts). CREF is registered with the Securities and Exchange Commission under the Investment Company Act of 1940 as an open-end management investment company; however, the CREF Accounts themselves are not traded on an exchange in an active market. The Accounts invest principally in equity securities, fixed-income instruments, and short-term instruments in accordance with the Account's investment objective. The Account's underlying investments are primarily valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments, including matrix pricing, except for the Money Market Account, which is generally valued at amortized cost. Each Account determines fair value based on NAV as a practical expedient, on a daily basis and is redeemable at NAV on the valuation date.

Pooled separate account (PSA) (TIAA Real Estate Account) is valued at NAV as a practical expedient determined principally from the market value of the underlying real estate holdings or real estate-related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The PSA also sometimes holds securities, which are generally priced using values obtained from independent pricing sources. Unit values are calculated each day and the fund is redeemable at NAV. The PSA itself is not traded on an exchange in an active market.

Guaranteed annuity contract (TIAA Traditional fund) is a traditional investment contract offered to participants of the Plan through Retirement Annuity (RA) and Group Retirement Annuity (GRA) contracts, which are not fully benefit-responsive. The TIAA Traditional fund is valued at fair value, which approximates contract value. The contract value of the fund equals the accumulated cash contributions, interest credited to the Plan's contracts, and

UPMC 401(a) Retirement Savings Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

transfers, if any, less any withdrawals. Since the investment is not available for sale or transfer on any securities exchange, transactions in similar investment instruments are not observable. As a guaranteed annuity backed by TIAA's claims paying ability, the TIAA Traditional fund guarantees principal and a guaranteed minimum rate of interest, plus the opportunity for additional amounts in excess of the guaranteed rate. The guaranteed minimum interest rate during the accumulation phase is generally 3%. These guarantees of principal and minimum interest rates ensure that each participant's accumulation is protected from loss and will always increase in value. These additional amounts, when declared by the TIAA Board of Trustees, are determined on a year-by-year basis and remain in effect for the "declaration year." The declaration year begins each March 1 for accumulating annuities and each January 1 for lifetime payout annuities. Together, the guaranteed minimum and additional amounts make up the "crediting rate" in the accumulation phase of the account. TIAA uses a "vintage" method of crediting interest for funds in the TIAA Traditional fund. Because the yields available on new long-term investments tend to vary over time, TIAA groups the funds received over discrete time periods into vintages. The interest credited to each vintage reflects the investment returns initially obtained on TIAA's investments during each period. When the accumulation in the TIAA Traditional fund is converted to an annuity based on life expectancy, the present value of the stream of payments is equal to the accumulation.

In determining the reasonableness of the valuation technique, the plan sponsor evaluates a variety of factors, including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data.

^(a)The investment objective of this Account is to achieve a favorable long-term rate of return through capital appreciation and investment income by investing primarily in a broadly diversified portfolio of common stocks.

^(b)The investment objective of this Account is to achieve high current income consistent with maintaining liquidity and preserving capital. Substantially all of the Account's assets are invested in cash and U.S. government securities.

^(c)The investment objective of this Account is to achieve a favorable long-term rate of return that reflects the investment performance of the financial markets while giving special consideration to certain social criteria. The Account invests in a diversified set of domestic and foreign stocks and other equity securities, and bonds and other fixed-income securities, as well as money market instruments and other short-term debt instruments.

^(d)The investment objective of this Account is to achieve a favorable long-term rate of return through high current income consistent with preserving capital. The majority of the Account's assets are invested in U.S. treasury and agency securities, corporate bonds, and mortgage-backed or other asset-backed securities.

4. Fair Value Measurements (continued)

- ^(e)The investment objective of this Account is to achieve a favorable long-term rate of return through capital appreciation and investment income from a broadly diversified portfolio that consists of foreign and domestic stocks.
- ^(f)The investment objective of this Account is to achieve a favorable long-term rate of return, mainly through capital appreciation, primarily from a diversified portfolio of common stocks that present the opportunity for exceptional growth.
- ^(g)The investment objective of this Account is to achieve a favorable long-term rate of return from a diversified portfolio selected to track the overall market for common stocks publicly traded in the United States, as represented by a broad stock market index. The Account is designed to track the U.S. stock market as a whole and invests in stocks in its benchmark index, the Russell 3000 Index.
- ^(h)The investment objective of this Account is to achieve a favorable long-term rate of return that outpaces inflation, primarily through investment in inflation-indexed bonds – fixed-income securities whose returns are designed to track a specified inflation index over the life of the bond.
- ⁽ⁱ⁾The investment objective for this fund is to achieve long-term returns primarily through rental income and appreciation of real estate investments owned by the Account. The Account will also invest in publicly traded securities and short-term higher quality liquid investments that are easily converted to cash to enable the Account to meet participant redemption requests, purchase or improve properties or cover other expense needs. There are currently no redemption restrictions on this investment. Liquidity is guaranteed since the fund is backed by the TIAA general account.

Quantitative Information About Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following tables present the Plan's Level 3 investments, the valuation techniques used to measure the fair value, and the significant unobservable inputs and the ranges of values for those inputs:

December 31, 2021				
Investment (by General Type)	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range
Guaranteed annuity contract	\$ 17,860,281	Fair value equals contract value	Risk-adjusted discount rate applied*	RA – 3.00%–3.80% GRA – 3.00%–3.80%

4. Fair Value Measurements (continued)

December 31, 2020				
Investment (by General Type)	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range
Guaranteed annuity contract	\$ 18,251,474	Fair value equals contract value	Risk-adjusted discount rate applied*	RA – 3.00%–4.45% GRA – 3.00%–4.45%

*Unobservable inputs include discount rate applied.

TIAA Traditional fund’s account balances are reported at contract value. Contract value is the aggregation of contributions, plus interest, less withdrawals, if any. Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate. Additionally, the discretionary rate applied to contributions received during a reporting period may vary from the discretionary rate applied to account balances at the end of the prior reporting period. Contract value approximates a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate, which correlates closely with TIAA Traditional fund’s historical crediting rates.

The table below sets forth certain changes in the fair value of the Plan’s Level 3 assets for the year ended December 31, 2021:

	Guaranteed Annuity Contract
Purchases	\$ 144,010
Sales	(1,076,089)

5. Administrative Expenses

UPMC charges administrative expenses to the Plan based on a nine-basis-point administrative fee that is netted against the respective fund's investment income and is calculated based on the daily net asset value of each fund. The fee is capped at a \$12 minimum to \$429 maximum charge per person annually. A quarterly administrative fee of \$7.50 is charged to the accounts of terminated participants who elect to retain an account balance in the Plan. The amount of administrative fees charged in 2021 was \$151,046.

These fees are used to offset a portion of the Plan's administrative expenses. The Plan sponsor and the Plan pay the administrative expenses of the Plan. Investment fees are netted against the respective fund's investment income.

6. Related-Party and Party-in-Interest Transactions

Certain of the Plan's investments are managed by TIAA-CREF. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

7. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated May 15, 2014, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
