Independent Auditor's Report

To the Plan Administrator
The Cleveland Museum of Art Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of The Cleveland Museum of Art Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021 and the related statement of changes in net assets available for benefits for the year then ended and the related notes to the financial statements (2021 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2021 and for the year then ended stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the 2021 Financial Statements* section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the 2021 Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

PRAXITY™
Empowering Business Globally

To the Plan Administrator
The Cleveland Museum of Art Pension Plan

Emphasis of Matter

As explained in Note 6, the financial statements include investments valued at approximately $36,029,000 at December 31, 2021 and $31,849,000 at December 31, 2020, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by John Hancock Life Insurance Company (U.S.A.). Our opinion is not modified with respect to this matter.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

2021 Supplemental Schedule Required by ERISA

The supplemental schedule of assets held at end of year as of December 31, 2021 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 8, 2021, we indicated that, (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion, and, accordingly, we did not express an opinion on the Plan's 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements, other than that derived from the certified information, were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Plan Description

The following description of The Cleveland Museum of Art Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan covering all employees of The Cleveland Museum of Art (the "Museum") who have completed 1,000 hours of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits

Participants shall accrue yearly benefit payments in an amount equal to 1 percent of the career average compensation multiplied by the number of years of service credited. As of December 31, 2010, employees who had not attained age 45 with at least 5 years of service under the Plan and whose age plus years of service under the Plan did not total at least 60 ceased to accrue additional benefits. Those employees who had attained the above qualifications were able to make a one-time irrevocable election to continue to accrue additional benefits under the Plan. The Plan permits early retirement at age 55 with at least 10 years of service. If employees terminate before rendering 5 years of service, they forfeit the right to receive a benefit. Employees may elect to receive the value of their accumulated plan benefits as a life annuity payable monthly from retirement. Employees may also elect to receive their pension benefits in the form of a joint and survivor annuity. Employees whose accrued benefits are $5,000 or less upon termination or retirement will receive the value of their accumulated plan benefits as a lump-sum distribution.

Death Benefits

If an active or terminated married employee who has a vested interest in the Plan dies prior to his or her benefit commencement, a death benefit equal to the benefit the employee would have received under the qualified joint and survivor annuity form, had he or she retired on the day immediately preceding the date of his or her death, will be paid to the surviving spouse. A beneficiary of employees (either married for at least one year or single) will at least receive a cash payment equal to the employee's contribution accumulation.

Funding

Contributions are made by the Museum in actuarially determined amounts. The Museum's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA.

Funding Policy

The Plan no longer allows participant contributions.

Accumulated employee contributions of nonretired participants are approximately $2,304,000 and $2,797,000 as of December 31, 2021 and 2020, respectively, including related investment income. Interest on amounts contributed to the Plan subsequent to January 1, 1988 is determined based on 120 percent of the federal midterm rate in effect as of the first month of the plan year (0.62 and 2.03 percent as of January 1, 2021 and 2020, respectively).

Vesting

A participant is fully vested in his or her employer pension benefit after five years of credited service. Participants are immediately vested in their employee contributions and any income thereon.

Note 1 - Plan Description (Continued)

Administration

The Museum is the sponsor of the Plan. The pension committee, as provided in the plan agreement, is the plan administrator and has responsibility for the administration of the Plan. John Hancock Life Insurance Company (U.S.A.) functions as trustee and investment manager. Investment management fees and trustee fees are paid by the Plan in accordance with the plan agreement.

Party-in-interest Transactions

The Plan invests in a group annuity contract managed by John Hancock Life Insurance Company (U.S.A.) or its affiliates. John Hancock Life Insurance Company (U.S.A.) is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value. The estimated fair value of the group annuity contract is based on contract value, adjusted for certain contractual provisions. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. See Note 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Museum. These transactions qualify as party-in-interest transactions.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments that are attributable, under the Plan’s provisions, to the services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to the following:

(a) Retired or terminated employees or their beneficiaries

(b) Present employees or their beneficiaries

(c) Beneficiaries of employees who have died

Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee services rendered to the valuation date.

Note 2 - Summary of Significant Accounting Policies (Continued)

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary from Findley as of the beginning of each plan year and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2021 are summarized as follows:

Actuarial cost method	Entry age normal actuarial cost method
Assumed rate of return	5 percent per annum
Mortality basis	Pri-2012 Total Dataset Amount-Weighted Mortality projected forward generationally using a modification of the MP-2018 scale with separate rates for employees, retirees, and contingent survivors. The ultimate long-term improvement scale percentages are 0.80 percent for all ages through 85, then grade linearly to 0.00 percent at age 105. The select period (prior to application of the ultimate long-term improvement scale) uses the MP-2018 scale for 2019-2028 and converges linearly to the ultimate long-term improvement scale over 10 years, reaching that scale in 2028.
Retirement	Age 60 through 80

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and that, due to the uncertainties inherent in setting assumptions, the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the statement of net assets available for benefits.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 23, 2022, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Investment Information

John Hancock Life Insurance Company (U.S.A.) (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment results included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Trustee.

Note 4 - Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries from Findley as of the beginning of each plan year. The calculation of the estimated present value of accumulated plan benefits attributable to participants in the Plan, which was made as of January 1, 2021, the most recent actuarial valuation, is as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving benefit payments	$ 18,175,448
Other vested participants	18,142,648
Total vested benefits	36,318,096
Nonvested benefits	125,019
Total actuarial present value of accumulated plan benefits	$ 36,443,115

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended January 1, 2021 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	$ 35,967,426
Increase (decrease) during the year attributable to:	
Benefits accumulated	795,681
Interest due to the decrease in the discount period	1,747,319
Benefits paid	(2,067,311)
Net increase	475,689
Actuarial present value of accumulated plan benefits - End of year	$ 36,443,115

Note 5 - Group Annuity Contract

The Plan invests in an unallocated immediate participation guarantee group annuity contract with John Hancock Life Insurance Company (U.S.A.). The insurer credits the Plan's deposits that are intended to provide future benefits to present employees in an account that is invested with other assets of the insurer. The account is credited with its share of actual income over the fixed-rate income and mortality experience. When a participant retires, benefit payments are made directly from the account. The balance of the account must be maintained at the amount required, according to a premium schedule in the contract, to provide for the remaining pension benefits for all current retirees. This portion of the account is referred to as the retired life fund.

In addition to the group annuity contract recorded in the accompanying statement of net assets available for benefits, there is a contingency account with a fair value of approximately $634,000 and $675,000 at December 31, 2021 and 2020, respectively, that is not an asset of the Plan and, therefore, is not included in the financial statements. This contingency account, however, is a contractual asset of the insurer and is considered an asset for actuarial reporting purposes. The income earned on the account may only be used to reduce future employer contributions. The group annuity contract recognized income of approximately $23,000 for 2021 and approximately $24,000 for 2020 (included in interest income) from the contingency account. The group annuity contract provides for periodic dividends at John Hancock Life Insurance Company (U.S.A.)'s discretion on the basis of its experience under the contract. No dividends were received in 2021 or 2020.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2021 and 2020:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2021	
	Investments (at Fair Value)	Level 2
Group annuity contract	$ 36,029,039	$ 36,029,039

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2020	
	Investments (at Fair Value)	Level 2
Group annuity contract	$ 31,849,396	$ 31,849,396

Note 7 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Note 8 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Accordingly, no provision for income taxes has been made in the accompanying financial statements.

Appendix B
Statement of Actuarial Assumptions and Methods

Minimum Funding Annual Interest Rates

24-month segment rates averaged through the end of August 2020 and published in September 2020 (as prescribed by IRC 430) and adjusted to reflect ARPA:

- Segment 1 (0 – 5 years) 4.75%
- Segment 2 (5 to 20 years) 5.36%
- Segment 3 (more than 20 years) 6.11%
- Effective Interest Rate 5.55%

Maximum Deductible Annual Interest Rates

24-month segment rates averaged through the end of August 2020 and published in September 2020 (as prescribed by IRC 430) as follows:

- Segment 1 (0 – 5 years) 2.22%
- Segment 2 (5 to 20 years) 3.38%
- Segment 3 (more than 20 years) 3.92%
- Effective Interest Rate 3.52%

Annual Expected Return on Assets

Interest Rate for developing Actuarial Value of Assets; limited to third segment rate 5.00%

Rationale: Selected by the Plan Sponsor based on a review of historical and expected returns on various asset categories held by the plan as well as information provided by the plan's investment advisor.

PBGC Annual Interest Rates

24-month segment rates averaged through the end of August 2020 and published in September 2020 using the Standard Method (as prescribed by IRC 430) as follows:

- Segment 1 (0 – 5 years) 0.51%
- Segment 2 (5 to 20 years) 2.26%
- Segment 3 (more than 20 years) 3.01%
- Effective Interest Rate 2.49%

Salary Scale

Future pays are projected using a salary scale of 3.00%. For accrued benefits actual individual pay histories have been used with missing years filled in using 3.00%.

Rationale: Based on an experience study completed in 2018 covering the period from January 1, 2012 to December 31, 2016. The plan sponsor believes that this period will be representative of anticipated future experience.

Appendix B (Continued)

Mortality

Funding: Mortality as provided in Notice 2019-26, male and female, with different rates for annuitants and nonannuitants (as prescribed by IRC 430).

Rationale: Based on the most recent mortality study by the Society of Actuaries and a Findley projection scale developed from the Society of Actuaries MP-2018 scale. A collar specific table was not applicable for the population considered.

Rates of Retirement

Age(s)	Rate
60-64	5.00%
65-69	20.00
70-79	25.00
80+	100.00

Weighted Average Retirement Age is 68. This is the average retirement age for someone eligible to retire at all ages using the assumed rates and no other decrements.

Rationale: Based on an experience study completed in 2018 covering the period from January 1, 2012 to December 31, 2016. The plan sponsor believes that this period will be representative of anticipated future experience.

Rates of Disability

100% of the 1955 UAW (male and female). Sample rates and ages are as follows.

Age(s)	Rate
25	.030%
40	.070
55	.036

Rates of Turnover

Based on 2003 SOA Pension Turnover study. Sample rates and ages are as follows:

Age(s)	Rate
25	18.51%
35	8.78
45	6.21
55	2.92

Rationale: Based on an experience study completed in 2018 covering the period from January 1, 2012 to December 31, 2016. Due to the small number of active participants, the experience analysis was fitted to a standard Society of Actuaries table.

Appendix B (Continued)

Assumptions Made In Valuing Spouse's Benefit	Ninety percent of the male and seventy-five percent of the female employees included in the valuation are assumed to be married. These percentages are used as the probabilities that survivor benefits will be payable due to preretirement deaths. The wife is assumed to be four years younger than the husband.
Optional Form Selection	All participants are assumed to elect a life annuity, which is actuarially equivalent to all other payment forms.
Annual Increase to Social Security	None assumed.
Provision for Expenses	The expected administrative (i.e. non-investment) expenses that will be paid from plan assets, which were assumed to equal actual expenses during the prior year, were included in the Target Normal Cost for minimum contribution purposes. Rationale: Based on prior year's actual administrative expenses.
Standing Elections	The client has not signed an election that provides for the automatic use of the Carryover Balance and/or Prefunding Balance if necessary to meet the minimum funding requirement.
Asset Method	Funding: Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date plus an adjustment to defer full recognition of investment losses and gains over a two-year period. The investment (gain)/loss for every year equals the market value at the beginning of the year projected to the end of the year using the interest rate above, but no greater than the third segment rate for the plan year, minus the end of the year actual market value. The actuarial value of assets will be no less than 90% and no more than 110% of the market value (including interest-adjusted accrued but unpaid contributions).
Employees Valued	Only participants as of the valuation date were valued.
Changes in Assumptions and Methods since the Last Actuarial Valuation	The interest rates used for determining the funding target were 3.64%, 5.21% and 5.94%. These rates were updated to the rates required for the current plan year and updated to reflect ARPA. The mortality table for the funding target was changed as required under PPA '06.
Justification for Changes in Actuarial Assumptions	The only assumption changes were to prescribed actuarial assumptions or as a result of At-Risk status. Therefore, the plan did not need IRS approval to change assumptions and there is no need to disclose any "Change in Actuarial Assumptions."

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Appendix A
Summary of Principal Plan Provisions

Plan Sponsor	The Cleveland Museum of Art
EIN/PN	34-0714336/001
Effective Date	Amended and restated effective January 1, 2012.
Plan Year	The 12-month period beginning each January 1.
Participation	Each employee participates on the January 1 or July 1 following the date he has both attained age 21 and completed one Year of Service. Plan participation was frozen as of December 31, 2010.
Compensation	Earnings for service rendered, including elective deferrals under 402(g) or 403(b) but excluding all compensation received in excess of basic salary, as limited by IRC Section 401(a)(17). Compensation is not recognized on and after January 1, 2010 for any participant who had not attained the age of 45 with 5 years of service or whose sum of age and years of service was less than 60 as of December 31, 2010.
Average Annual Compensation	Average compensation for the last 5 years of employment. No earnings after December 31, 2009 shall be considered.
Career Average Compensation	Average compensation over an employee's entire period of employment, but excluding earnings prior to January 1, 2009.
Years of Service	One year of service is earned for each plan year in which 1,000 hours are worked. For any participant who had not attained the age of 45 with 5 years of service or whose sum of age and years of service was less than 60 as of December 31, 2010, no Years of Service shall be earned after December 31, 2010 for purposes of benefit accrual.
Contribution Years of Service	For an employee who became a participant of the plan before December 31, 2001 the number of years of service in which the participant made contributions to the plan plus 1. For an employee who became a participant on or after January 1, 2002, their contribution years of service equals zero. No Contribution Years of Service shall be earned after June 30, 2009.
Non-Contribution Years of Service	The excess, if any, of a participant's Years of Service less a participant's Contribution Years of Service.

Appendix A (Continued)

Participant Contributions

The contribution made by a participant for a plan year equals 3% multiplied by his rate of compensation on December 1st up to $6,600 plus 4 ½% multiplied by his rate of compensation on December 1st in excess of $6,600. Starting January 1, 2002 no new participant may contribute and current participants can elect to stop contributing. Effective July 1, 2009 no participants shall be allowed to contribute.

Accrued Benefit

For service earned prior to July 1, 2009:

One twelfth (1/12) of the greater of (a) or (b) plus (c)

(a) ½ of the aggregate amount of participant contributions made by the participant after January 1, 1960,

(b) The participant's Average Annual Compensation multiplied the sum of

(i) 2% times the number of Contribution Years of Service up to 20, plus

(ii) 1% times the number of Contribution Years of Service in excess of 20 but up to 30, plus

(iii) 0.5% times the number of Contribution Years of Service in excess of 30 but up to 40,

(c) The participant's Average Annual Compensation multiplied by 1% multiplied by the participant's number of Non-Contribution Years of Service as of June 30, 2009.

For service after July 1, 2009:

(a) The participant's Career Average Compensation multiplied by 1% multiplied by the participant's number of Non-Contribution Years of Service earned after June 30, 2009. For any participant who had not attained the age of 45 with 5 years of service or whose sum of age and years of service was less than 60 as of December 31, 2010, no benefits will accrue after December 31, 2010.

Normal Retirement Benefit

Eligibility:

Age 65 or, if later, fifth anniversary of joining the Plan.

Monthly Benefit:

The Accrued Benefit.

Appendix A (Continued)

Early Retirement Benefit	*Eligibility:* Age 55 and 10 Years of Service. *Monthly Benefit:* The Accrued Benefit at early retirement multiplied by the appropriate factor. Sample factors are 46.4% at age 55, 65.9% at age 60, and 77.2% at age 62.
Disability Retirement Benefit	*Eligibility:* Permanent and total disability after attaining age 40 with 15 Years of Service. *Monthly Benefit:* The Accrued Benefit.
Termination Benefit	*Eligibility:* Upon termination of employment prior to retirement after completion of at least five Years of Service. *Benefit Payable:* The vested benefit commences in full at age 65, or in a reduced amount under the early retirement provisions. Participants can elect to withdraw their contributions and doing so would reduce the benefits payable at age 65.
Death Benefit	*Eligibility:* 100% vested and married for at least one year. *Monthly Benefit:* A monthly benefit for life commencing at the time the participant would have been eligible for retirement. The benefit is equal to 50% of the benefit vested on the date of death, adjusted as appropriate for early commencement and the 50% Joint and Survivor Annuity form of payment.
Normal Form of Benefit	Single Life Annuity – This form provides monthly payments during the Participant's lifetime. No payments are made after the Participant dies.

Appendix A (Continued)

Optional Forms of Benefit	50%, 67%, 75% and 100% Joint & Survivor Annuity – This form provides reduced monthly payments during the Participant's lifetime with monthly payments to the surviving spouse after the Participant's death equal to 50%, 67%, 75% and 100%, respectively, of the amount paid during the participant's lifetime. The payments are the actuarial equivalent value of the Normal Form of Benefit. 10 Year Certain and Continuous Annuity – This form provides monthly payments during the Participants lifetime with 120 guaranteed payments to the retiree or his designated beneficiary. The payments are the actuarial equivalent value of the Normal Form of Benefit. Social Security Adjustment Option – This form provides for larger monthly payments prior to the start of Social Security payments such that once Social Security benefits commence the total benefits received (from this plan and Social Security) is approximately the same throughout retirement. Annuity forms of payment are converted from the life annuity form using the 1994 Group Annuity Reserving Mortality Table (male) setback three years and 7.00% interest. Lump sum forms of payment are converted from the life annuity form using the Commissioner's Standard Mortality Table as outlined under IRS Code Section 417(e) and the three-tiered transitional segment rates (as outlined under IRS Code Section 417(e)) for the month of November in the calendar year preceding the year of determination.
Benefits Available as Lump Sums	This plan pays only small benefit amounts (lump sums less than $5,000).
Maximum Benefit Limit	The Internal Revenue Code Section 415 Maximum Benefit payable as a life annuity at Social Security Normal Retirement Age.
Plan Compensation Limit	The Section 401(a)(17) Maximum Compensation that can be recognized for benefit calculation purposes.
Changes in Plan Provisions	The automatic changes, if any, in the plan compensation limit and maximum benefit limit were recognized as amendments for funding purposes.
