Independent Auditor's Report

To the Plan Administrator
Larson Manufacturing and Affiliates 401(k) Plan
Brookings, South Dakota

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Larson Manufacturing and Affiliates 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Larson Manufacturing and Affiliates 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Larson Manufacturing and Affiliates 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Larson Manufacturing and Affiliates 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Larson Manufacturing and Affiliates 401(k) Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Larson Manufacturing and Affiliates 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Larson Manufacturing and Affiliates 401(k) Plan

Notes to Financial Statements

Note 1: Description of Plan

The following description of the Larson Manufacturing and Affiliates 401(k) Plan (the "Plan") is provided for general information purposes. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan was a multiple employer defined contribution plan covering all employees of Larson Manufacturing, Inc, Larson Manufacturing Company of Iowa Inc, AEI, LLC, Comfort Bilt, LLC, and Superior Homes, LLC (collectively the "Company") originally effective January 1, 2002. The Plan had been amended throughout the years to comply with tax legislation. The Plan excluded leased employees. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Board of Trustees was responsible for the oversight of the plan. The investment committee determined the appropriateness of the Plan's investment offerings, monitored investment performance, and reported to the Plan's Board of Trustees.

The Plan has adopted certain provisions of the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") that was signed into law on March 27, 2020, which were immediately available for coronavirus-related distributions, suspended participant loan payments and increased loan payments and increased loan limits, and waiver of required minimum distribution that were due during 2020.

Plan Merger

Effective July 1, 2020, the assets of Comfort Bilt, LLC 401(k) Plan were merged into the Plan. The eligible employees of the Comfort Bilt, LLC 401(k) Plan became immediately eligible to participate in the Plan.

Effective December 31, 2021, the Company elected to freeze the Plan and merge the assets of the Plan with the Fortune Brands Home & Security Hourly Employee Retirement Savings Plan and Fortune Brands Home & Security Retirement Savings Plan.

Eligibility

Employees were eligible to participate in the salary reduction arrangement in the Plan after attaining age 18 and completion of 60 days of service. Employees automatically entered the Plan on the first day of the month following the completion of the eligibility requirements, unless they affirmatively elected not to participate in the Plan. However, AEI, LLC employees were not subject to the automatic enrollment in the Plan. As of May 1, 2018, employees of AEI, LLC were participants of the Plan regardless of length of service or age. The Plan credited service with Comfort Bilt LLC as service for eligibility purposes. Nonelective contributions were only allocated to employees still employed on the last day of the plan year and who had obtained 1,000 hours of service.

Note 1: Description of Plan (Continued)

Contributions

The Plan included a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code (IRC). Eligible participants were permitted to elect to have a percentage, limited to 90% by plan provisions, of their compensation contributed as pre-tax 401(k) or Roth contributions to the Plan. Participants who had attained age 50 before the end of the plan year were eligible to make catch-up contributions.

The Company could, at its discretion, elect to make qualified matching or nonelective contributions to the Plan. Each employer separately determined its matching and nonelective formula for contributions. Matching contributions were only allocated to employees of the contributing employer. However, nonelective contributions were allocated pro rata as a uniform percentage of participant contributions for all employers. For the years ended December 31, 2021 and 2020, Larson Manufacturing, Inc., Larson Manufacturing Company of Iowa, Inc., and AEI, LLC elected not to make matching or nonelective contributions. However, for years ended December 31, 2021 and 2020, Comfort Bilt, LLC elected to provide a 25% match of employee contributions up to the first 6% of compensation. For 2021 and 2020, the employer's matching contributions were \$92,015 and \$46,636, respectively.

Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants directed the investment of contributions into various investment options offered by the Plan. Contributions were subject to certain Internal Revenue Service (IRS) limitations. Participants could change their investment options at any time by accessing their account online. They could also make changes through the benefits help line using a toll-free number.

Participant Accounts

Each participant account was credited with the participant's contribution, Company discretionary matching contributions, and allocations of the Company's discretionary non-elective contribution, and plan earnings (losses). Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account.

Notes to Financial Statements

Note 1: Description of Plan (Continued)

Vesting

Participants were immediately vested in their contributions and the Company discretionary matching contributions plus actual earnings (losses) thereon. Vesting in the Company's discretionary non-elective contribution portion of a participant's account was based on the number of years of service, as follows:

<i>Years of service</i>	<i>Vesting percentage</i>
Less than 2 years	- %
2 years	20 %
3 years	40 %
4 years	60 %
5 years	80 %
6 or more	100 %

All participants become fully vested upon death or disability.

Notes Receivable from Participants

Participants could borrow from their accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance. The notes were secured by the balance in the participant's account and had interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest were paid ratably through payroll deductions. Loan terms ranged from one to five years or longer for the purchase of a primary residence. The maximum number of loans a participant could have outstanding at any one time is two. As of December 31, 2021 and 2020 interest rates ranged from 4.25% to 5.75%.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant or beneficiary with a vested account balance in excess of \$5,000 could elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or periodic installments over a specified period of time. If a participant terminated employment and the participant's account balance was less than \$1,000, the plan administrator would authorize the benefit payment without the participant's consent. For termination of service due to other reasons, a participant could receive the value of the vested interest in his or her account as a lump-sum distribution. In order to receive a distribution of company matching or nonelective funds, a participant needed to be at least 55 years of age. In addition, hardship distributions were permitted if certain criteria were met. The Plan also allowed for in-service distributions upon attaining age 59 1/2.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

Use of Estimates

The preparation of the financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when they were incurred. No allowance for credit losses has been recorded as of December 31, 2021 or 2020. Delinquent participant notes receivable were recorded as benefit payments on the basis of the terms of the plan document.

Payment of Benefits

Benefits were recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan were paid directly by the Company and were excluded from these financial statements. Fees related to participant recordkeeping and specific participant transactions were charged directly to the participants account and were included in administrative expenses. Investment-related expenses were allocated proportionately to plan participants based on their respective account balances and were included in administrative expenses.

Notes to Financial Statements

Note 2: Summary of Significant Accounting Policies (Continued)

Subsequent Events

The Plan has evaluated subsequent events through October 10, 2022, which is the date the financial statements were available to be issued.

Note 3: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs that are unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies is used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2021 and 2020.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Larson Manufacturing and Affiliates 401(k) Plan

Notes to Financial Statements

Note 3: Fair Value Measurements (Continued)

Common/collective trust funds: Valued at the NAV of the units of a bank collective trust. The NAV, as provided by the trustees, is used as a practical expedient to estimate fair value. The NAV is based on the fair values of the underlying investments held by the funds less their liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There were no unfunded commitments.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2020. There were no investment assets as of December 31, 2021. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Mutual funds - Total investment assets in the fair value hierarchy	\$ 23,802,102	\$ -	\$ -	\$ 23,802,102
Investment assets measured at NAV				11,093,895
Total investment assets at fair value				\$ 34,895,997

Note 4: Information Prepared and Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2021 and 2020, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the Trustee of the Plan.

Note 5: Tax Status

The Company adopted a nonstandard prototype document with an IRS notification letter which states the prototype plan document is in compliance with applicable sections of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Larson Manufacturing and Affiliates 401(k) Plan

Notes to Financial Statements

Note 6: Risks and Uncertainties

The Plan invested in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 7: Related-Party Transactions and Party-In-Interest Transactions

Principal Trust Company is the Trustee as defined by the Plan. Therefore, these investment transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services were paid directly by the Plan. In 2021 and 2020, the Plan made direct payments to the Trustee for recordkeeping and investment management services of \$133,447 and \$123,843, respectively. The Company pays directly any other fees related to the Plan's operations.
