INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
Cornwell Quality Tools Company
Employee Stock Ownership Plan

Opinion

We have audited the financial statements of Cornwell Quality Tools Company Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021 and 2020, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Cornwell Quality Tools Company Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Emphasis of Matter

As described in Note 2, the financial statements include investments valued at approximately \$58,660,250 (97% of net assets) at December 31, 2021 and approximately \$49,654,750 (98% of net assets) at December 31, 2020, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by independent consultants. Our opinion is not modified with respect to this matter.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) and schedule of reportable transactions as of or for the year ended December 31, 2021 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

EMPLOYEE STOCK OWNERSHIP PLAN**

NOTES TO FINANCIAL STATEMENTS

December 31, 2021 and 2020

1. DESCRIPTION OF PLAN

The following description of the Cornwell Quality Tools Company Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

Cornwell Quality Tools Company (the Company) established the Plan effective January 1, 1998. The Plan operates as an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by an administrative committee comprised of individuals appointed by the Company's Board of Directors. Mills, Potoczak & Company serves as the Plan's trustee.

Contributions

The Company contributed common shares of stock to the Plan which is held in a trust established under the Plan. Employees are not permitted to make contributions. For the years ended December 31, 2021 and 2020, the Company made a contribution of \$5,000,000 and \$4,000,000, which equaled approximately 24% and 23% of each participant's compensation in 2021 and 2020, respectively. Allocations are made to eligible participants in the ratio that each participant's eligible compensation for the Plan year bears to the total eligible compensation paid to all participants during the Plan year.

Eligibility

Employees of the Company are generally eligible to participate in the Plan after working at least 1,000 hours during a calendar year, have 6 months of employment and are at least 21 years of age. Participants who do not have at least 1,000 hours of service and have 6 months of employment during such calendar year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

CORNWELL QUALITY TOOLS COMPANY
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

1. DESCRIPTION OF PLAN (Continued)

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock and cash contributions and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance. All common shares of stock held by the Plan are allocated to participant accounts and there were no unallocated assets or liabilities as of December 31, 2021 and 2020. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

A participant's account becomes fully vested and non-forfeitable after six years of service has been credited to the participant in accordance with the following schedule:

<u>Years of Service</u>	<u>Vested Amount</u>
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of Benefits

Upon termination of service, death, disability, retirement or other reasons, participants with a vested interest in their account of \$100,000 or less will receive a lump-sum distribution. Participants with a vested interest in their account of more than \$100,000 can receive their distribution in annual installments over a period not to exceed five years at the discretion of the Company.

The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock.

The Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations.

CORNWELL QUALITY TOOLS COMPANY
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

1. DESCRIPTION OF PLAN (Continued)

Forfeitures

Forfeited non-vested accounts totaled \$170,535 in 2021 and \$200,840 in 2020. Forfeitures are allocated to eligible participants in the same ratio as Company contributions. There were no unallocated forfeitures as of December 31, 2021 and 2020.

Voting Rights

With respect to matters (subject to Ohio law or the Company's Articles of Incorporation or Code of Regulations) which must be voted upon by plan participants, each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses of the Plan.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradeable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a five-year period. In each of the first five years, a participant may diversify up to 25% of the balance in their stock account, less any amounts previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify can receive a cash distribution or roll over amounts into another qualified account.

EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America (US GAAP) and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, independent appraiser and trustee. The investment in the Company common shares is valued as of December 31, 2021 and 2020 at \$58,660,250 and \$49,654,750 (\$28,270 and \$23,930 per share), respectively, based upon an appraisal performed by an independent valuation firm, and approved by the Plan's management. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividend income is accrued on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Dividends

When declared, dividends paid by the Company on shares allocated to a participant's account are accrued and distributed quarterly to the participants unless a participant elects to reinvest his or her dividends. The election to reinvest some or all dividends paid with respect to the Company common stock is available to participants as soon as they become eligible under the Plan and may be changed 30 days prior to the beginning of a calendar quarter. Participants are fully vested in all reinvested dividends. The Company paid dividends at a rate of \$73.55 and \$59.70 per share for the years ended December 31, 2021 and 2020, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events

Subsequent events are events or transactions that occur after year end but before financial statements are issued or are available to be issued. These events and transactions either provide additional evidence about conditions that existed at year end, including the estimates inherent in the process of preparing financial statements (that is, recognized subsequent events), or provide evidence about conditions that did not exist at year end but arose after that date (that is, non-recognized subsequent events).

The Plan has evaluated subsequent events through October 5, 2022, which was the date that these financial statements were available for issuance and determined that there were no significant non-recognized subsequent events through that date.

3. ADMINISTRATION OF TRUST ASSETS

The Plan's assets, which consist principally of Cornwell Quality Tools Company common stock, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash or stock received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company who make up the Administrative Committee. No such officer or employee receives compensation from the Plan or trust. Administrative expenses for the trustee's fees are paid as determined by the Company's Board of Directors and are not included in the Plan's financial statements.

4. EMPLOYER CONTRIBUTIONS

The Company is obligated to make contributions in cash or stock to the Plan as determined by the Company's Board of Directors. Company contributions during any Plan year may not exceed 25% of the aggregate compensation of all participants during the Plan year unless a portion of the Company's contributions is applied to repay a portion of an acquisition loan.

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

5. FAIR VALUE MEASUREMENTS (Continued)

Level 2: Inputs to the valuation methodology other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- a. Quoted prices for similar assets or liabilities in active markets,
- b. Quoted prices for identical or similar assets or liabilities in inactive markets,
- c. Inputs other than quoted prices that are observable for the asset or liability,
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2021 and 2020.

Demand deposit accounts: Valued at the deposit account balances, payable on demand.

Investment in employer stock: Valued at the fair market value of shares held by the Plan at year end as determined by an independent appraiser. In approaching the value a variety of factors are taken into consideration, including:

- a. The nature and history of the business, its current position, and its outlook,
- b. The general and relevant economic conditions prevailing at the time of the appraisal;
and
- c. The current conditions and outlook in the market in which the subject company competes.

The approach to determining fair value of the common stock involved the following:

CORNWELL QUALITY TOOLS COMPANY
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

5. FAIR VALUE MEASUREMENTS (Continued)

- a. Determine estimated fair value of shares of common stock using the Guideline Public Traded Company Method. Comparative valuation analysis is a technique that determines a value based on a direct comparison of the subject company to publicly traded companies where pricing and other financial data are available.
- b. Apply a Marketability Discount to the results. Applying a discount to reflect the lack of marketability.

Plan management accumulates the data as requested by the Trustee and its independent financial advisor from the audited financial statements of the Company. The Trustee's independent advisor prepares a preliminary report which the Trustee reviews in detail, discusses and approves. The results of this process are documented by the Trustee.

These policies and procedures are reassessed annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third party information.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

Description	Assets at Fair Value as of December 31, 2021			
	Level 1	Level 2	Level 3	Total

Changes in Fair Value of Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2021 and 2020, there were no such transfers.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31:

	Investment in Employer Common Stock	
	2021	2020
Balance, beginning of year	\$ 49,654,750	\$ 41,002,000
Unrealized gains	9,005,500	8,652,750
Balance, end of year	<u>\$ 58,660,250</u>	<u>\$ 49,654,750</u>

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statements of Changes in Net Assets Available for Benefits.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will become 100% vested and will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Internal Revenue Code (IRC).

7. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated July 21, 2017, that the Plan is designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

US GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. PARTY-IN-INTEREST TRANSACTIONS

The Plan's assets, which include principally 2,075 shares of the Company's common stock, are held by the trustees of the Plan. Transactions involving the funds administered by the Company are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 4089(b) of the ERISA regulations. Employees of the Company provide administrative services to the Plan for which no fees are charged.

9. RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits, statements of changes in net assets available for benefits and participants' individual account balances. As of December 31, 2021 and 2020, approximately 97% and 98%, respectively, of the Plan's net assets available for benefits were invested in shares of the Company common stock.
