Independent Auditors' Report

To the Participants and Plan Administrator of
Wyman-Gordon Company Retirement Income Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of Wyman-Gordon Company Retirement Income Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 8, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Wyman-Gordon Company Retirement Income Plan

Notes to Financial Statements

December 31, 2021 and 2020

1. Description of the Plan

The following description of the Wyman-Gordon Company Retirement Income Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan was created to provide pension benefits for eligible employees of Wyman-Gordon Company and PCC Specialty Products, Inc. (the Companies), wholly owned subsidiaries of Precision Castparts Corp. (PCC). The Plan was a single employer, noncontributory (with the exception of those participants of PCC Specialty Products, Inc.), defined benefit plan. The assets were invested in the Precision Castparts Corp. Master Trust (Master Trust) with The Bank of New York Mellon (BNYM). There were also assets invested in Principal Life Insurance Company (Principal). The Plan was subject to the provisions of the Employee Retirement Income Securities Act of 1974 (ERISA).

The Companies appointed an administrative committee to oversee the administration of the Plan, with local human resources personnel providing day-to-day support functions. The Master Trust Investment Committee determined the appropriateness of the Plan's investments and monitored investment performance.

The PCC Specialty Products, Inc. Contributory Retirement Plan merged into the Wyman-Gordon Retirement Income Plan effective December 31, 2007, resulting in a transfer of net assets to the Plan. Assets of the PCC Specialty Products, Inc. Contributory Retirement Plan were held in the Master Trust, as well as with Principal. In 2009, the Plan froze accruals for participants in the PCC Specialty Products, Inc. Contributory Retirement Plan component of the Plan.

In 2011, the Plan closed plan participation to members of United Steelworkers of America Local No. 2285 hired on or after December 11, 2011. The Plan further closed plan participation to all nonbargaining unit employees hired after June 30, 2012. In 2014, the Plan closed plan participation to members of the International Association of Machinists and Aerospace Workers hired on or after September 1, 2014 and to members of the International Brotherhood of Electrical Workers hired on or after October 1, 2014. Therefore, effective October 1, 2014, the Plan has closed plan participation to all employees of the Companies.

Effective December 31, 2021, the Plan merged into the Berkshire Hathaway Consolidated Pension Plan and all assets and obligations of the Plan were legally transferred to that plan as of that date.

Funding Policy

The Plan's funding policy was for the Companies to contribute an amount which would meet or exceed the annual ERISA minimum funding requirement. The Companies' contributions were based on actuarial calculations as determined under the Unit Credit Actuarial Cost Method with amortization of past service cost over the period of time required to satisfy minimum funding requirements. No participant contributions were permitted. The minimum funding requirements of ERISA were met for 2021 and 2020.

Eligibility and Vesting

Except as indicated above, employees of Wyman-Gordon Company, Wyman-Gordon Forgings, Inc. and PCC Specialty Products, Inc. (including relevant predecessor companies) were eligible to participate in the Plan. Former employees of GSC Foundries, Inc., employees in the GSC Foundries division of Wyman-Gordon Investment Castings, Inc. and employees in the McWilliams Forge Company were excluded from eligibility, although eligible participants who transferred to these companies were eligible to participate.

Wyman-Gordon Company Retirement Income Plan

Notes to Financial Statements

December 31, 2021 and 2020

Participants, who were employees of the Wyman-Gordon Company, who retired prior to January 1, 1989, were 100% vested in their benefits after ten years of service in accordance with the provisions of the Plan. Participants who retired after December 31, 1988, were 100% vested after five years of service.

Participants, who were employees of PCC Specialty Products, Inc., were 100% vested in the employer contributions after completing five years of service.

Pension Benefits

Generally, participants from the Wyman-Gordon Company were entitled to pension benefits beginning on the first day of the employee's birthday month or the first of the following month at which full entitlement to social security retirement benefits was applicable, or the fifth anniversary of employment, whichever occurred later. A participant could elect to retire early on the first of any month coincident with or following their 55th birthday provided they completed five years of credited service. Depending upon the schedule used to calculate the participant's benefit, the participant was entitled to elect among the form of a single life annuity and contingent annuity options with payments continued to the participant's spouse at a rate of 100%, 75% or 50% of the participant's benefit. Period certain options were also available under some schedules. See schedules for more details.

Under the general terms of the Plan, participants from PCC Specialty Products, Inc. who reached age 65 were entitled to normal pension benefits. Nonsalaried participants of the Eldorado Division who reached age 65 and completed ten years of service could elect early retirement and receive reduced normal retirement benefits as defined by the Plan. Benefits were paid in the form of a single life annuity, although salaried employees received payments in the form of a ten-year certain and life annuity.

Death and Disability Benefits

If a vested participant died before normal or early retirement age and was not eligible for the surviving spouse benefit, then on the date of death the participant's beneficiary would receive the total deposits made by the participant to the Plan, plus interest through the date of death. If a vested participant died before normal or early retirement age and was married for at least one year at the time of death, a death benefit equal to the actuarial equivalent of 50% of the value of the participant's accumulated retirement benefits was paid to the surviving spouse. Active employees who became totally disabled after reaching age 55 and completing at least ten years of service were entitled to elect early retirement and receive the corresponding benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan were prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America required management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Wyman-Gordon Company Retirement Income Plan

Notes to Financial Statements

December 31, 2021 and 2020

Investment Valuation and Income Recognition

Investments were reported at fair value. The Plan's interest in the Master Trust was reported at fair value based on the underlying investments. Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation in the value of investments were allocated by the Master Trust to the Plan based upon the Plan's daily weighted average percentage of net assets for a given month. Net appreciation (depreciation) includes the gains and losses on investments with Principal bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants were recorded upon distribution.

Administrative Expenses

The Plan's expenses were paid either by the Plan or the Companies, as provided by the plan document. Expenses that were paid directly by the Companies are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that were paid by the Plan were recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses were included in the Plan's interest in the net investment income of the Master Trust presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Vested benefits are benefits to which participants are entitled regardless of future service with the Companies. Nonvested benefits are dependent on future service.

The actuarial present value of accumulated plan benefits was determined by the Plan's independent actuary as of January 1, 2021 and was that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of January 1, 2021 is as follows:

Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 237,186,232
Other participants	<u>135,320,607</u>
Total vested benefits	372,506,839
Nonvested benefits	<u>340,842</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 372,847,681</u>

Wyman-Gordon Company Retirement Income Plan

Notes to Financial Statements

December 31, 2021 and 2020

The changes in the actuarial present value of the accumulated plan benefits for the year ended December 31, 2020 are summarized as follows:

Actuarial present value of accumulated plan benefits, at beginning of year	\$ 356,782,616
Increase (decrease) during the year attributable to:	
Benefits accumulated	3,886,403
Increase for interest due to decrease in discount period	25,189,095
Benefits paid	(26,937,775)
Change in actuarial assumption	15,890,568
Actuarial gain	<u>(1,963,226)</u>
Actuarial present value of accumulated plan benefits, at end of year	<u>\$ 372,847,681</u>

Significant assumptions underlying the actuarial computations are as follows:

- a) Mortality - Pri-2012 Private Retirement Plans Healthy Blue Collar Mortality Tables projected with Scale MP 2020 on a generational basis.
- b) Discount Rate - 6.75%
- c) Eligible employees were assumed to retire according to the following table:

Age	Steelworkers and PCC Specialty Products	Houston Hourly
55-58	1.0 %	1.0 %
59	2.0	2.0
60	3.0	5.0
61	15.0	5.0
62	25.0	15.0
63	20.0	10.0
64	30.0	10.0
65	35.0	25.0
66	35.0	20.0
67-68	40.0	20.0
69	50.0	30.0
70	100.0	100.0

December 31, 2021 and 2020

- d) Different retirement rates were assumed to apply based on the participant's social security normal retirement age.

Age	Social Security Normal Retirement Age	
	66	67
55-59	2.0 %	2.0 %
60	7.5	7.5
61	7.5	7.5
62	12.0	12.0
63	15.0	12.0
64	10.0	15.0
65	35.0	10.0
66	40.0	35.0
67	30.0	40.0
68	30.0	30.0
69	30.0	30.0
70	100.0	100.0

The foregoing actuarial assumptions were based on the presumption that the Plan would continue. On December 31, 2021, the Plan was merged into the Berkshire Hathaway Consolidated Pension Plan and all obligations of the Plan were legally transferred to that plan.

The mortality assumption was updated to incorporate a more recent mortality table and projection scale to reflect both current and expected mortality improvements. The interest rate was also changed from 7.25% to 6.75%. These changes resulted in an increase of approximately \$15.9 million in the actuarial present value of accumulated benefits in 2020.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through October 5, 2022, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Wyman-Gordon Company Retirement Income Plan

Notes to Financial Statements

December 31, 2021 and 2020

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets held in the Master Trust measured at fair value. The Plan is able to purchase or sell units of the Master Trust on a daily basis. The Master Trust asset allocation strategy is designed with the objective of achieving the asset return assumption consistently over the long-term in order to fund future payment obligations, while minimizing contributions and plan sponsor economic risk. The asset categories are described below, along with the valuation methodologies and investment level classifications. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Public Equity - Public equity investments consist of publicly traded equity securities, as well as hedged equity investment strategies which may add short positions in equities or equity futures in order to generate absolute returns regardless of equity market direction. Equity investments held directly are valued based upon closing prices reported in active trading markets and classified as Level 1. Other fund investments are valued using the most recent net asset value (NAV) of the fund.

Private Equity - Private equity investments consist of investments in nonpublic companies made directly or through limited partnerships or commingled vehicles with managers who purchase interests in nonpublic companies. Sub-categories of private equity may include venture capital, early stage, special situations or restructuring funds. Private equity typically has low liquidity, a ten year or longer investment commitment and valuation methodologies that require the use of significant unobservable inputs. Direct private equity investments are classified as Level 3, while investments made through funds are typically valued at the most recent NAV of the fund. As of December 31, 2021 and 2020, unfunded capital commitments to private equity investments were approximately \$1 million and \$4 million, respectively.

Alternative Strategies - Alternative strategies are investments with managers who seek specified levels of absolute returns with minimal correlation to market movements. Alternatives managers typically invest in futures, forwards or options on a variety of asset classes. Investments are typically made in investment funds with values stated at fund NAVs.

Fixed Income - Fixed income investments consist of private fixed income securities of non U.S. corporate issuers classified as Level 3, as well as publicly traded investment funds classified as Level 1.

Cash/Other - Cash and other investments include highly liquid money market securities, demand deposits and other cash equivalents. Cash and other investments are classified as Level 1, or stated at NAV for private money market funds.

4. Undivided Interest in the Precision Castparts Corp. Master Trust

The majority of the Plan's investments were in the Master Trust. The Plan's interest was calculated based on the fair value at the end of the previous period, plus any contributions and income received, less benefit payments and expenses paid for each plan during the period.

At December 31, 2020, the Plan's interest in the net assets of the Master Trust was 31.70%. Investment income and administrative expenses relating to the Master Trust were allocated to the individual plans based upon the amount of time the Plan's assets were invested in the Master Trust.

Notes to Financial Statements

December 31, 2021 and 2020

The table below sets forth a summary of certain changes in the fair value of the Master Trust's Level 3 assets for the years ended December 31, 2021 and 2020:

	2021		
	Private Equity	Fixed Income	Total
Purchases	\$ -	\$ -	\$ -
Issuances	-	-	-
Transfers in and/or out of Level 3	-	-	-
	2020		
	Private Equity	Fixed Income	Total
Purchases	\$ -	\$ -	\$ -
Issuances	-	-	-
Transfers in and/or out of Level 3	(10,235,205)	-	(10,235,205)

Gains and losses (realized and unrealized) included in the change in net assets for the periods above were reported in plan interest in net investment income of Master Trust in the Statements of Changes in Net Assets Available for Benefits.

Transfers Between Levels - The availability of observable market data was monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. In 2021 and 2020, the Plan had \$0 and \$10,235,205 of transfers from Level 3 to Level 1, respectively.

5. Valuation of Investments Held by Principal

The Plan held a guaranteed investment contract with Principal. The guaranteed investment contract was valued at fair value by Principal by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The Plan also held investments in pooled separate accounts valued at NAV that invested in bonds and other liquid assets. Such investments could have been redeemed immediately without notice at the current NAV per share based on the fair value of the underlying assets.

The following table sets forth by level, within the fair value hierarchy, the assets held with Principal at fair value as of December 31, 2020:

	Level 1	Level 2	Level 3	Total
Guaranteed investment contract	\$ -	\$ 532,234	\$ -	\$ 532,234
Investments measured at NAV (a)				1,241,668
Total investments at fair value				\$ 1,773,902

6. Related-Party and Party In Interest Transactions

Prior to the merger, the Plan's investments were administered under a contract with BNYM and Principal, the trustees of the Plan. Contributions were held and managed by BNYM and Principal, who invested cash received, interest and dividend income and made distributions to participants. These transactions qualified as party in interest transactions which were exempt from the prohibited transactions rules of ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan were performed by officers or employees of the Companies. No such officer or employee received compensation from the Plan.

7. Tax Status

The Internal Revenue Service (IRS) had determined and informed the Companies by a letter dated June 23, 2017, that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator believed the Plan was designed and was operated in compliance with the applicable requirements of the IRC.

Management was required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan had taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Information Certified by Trustees

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2021 and 2020. Accordingly, BNYM and Principal, the trustees of the Plan, have certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2021 and 2020 and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years then ended.

As selected by PCC, the rates for calculating the PPA Funding Target are the January 2021 segment rates. As prescribed by Segment Rate Stabilization legislation, in 2021 these rates must be between 85% and 115% of the 25-year average rates published by the IRS.

– Segment 1 payments under 5 years	3.32%
– Segment 2 payments between 5 and 20 years	4.79%

Mortality

For calculating the Funding Target, mortality follows the RP-2014 annuitant and non-annuitant static mortality tables for 2021 as prescribed by the IRS.

Benefit Commencement Age For Inactive Participants With A Vested Deferred Benefit
(Adopted January 1, 2000)

Salaried Forgings participants are assumed to commence pension payments three years prior to Normal Retirement Age (age 62, 63 or 64, depending on the participant's Normal Retirement Age).

Salaried Castings participants are assumed to commence pension payments at age 65.

Participants from Steelworkers, Houston Hourly and other closed Hourly locations are assumed to commence benefits at age 62.

Participants from Johnston Pump/General Valve are assumed to commence benefits at age 62 if eligible for Early Retirement; otherwise, they are assumed to retire at Normal Retirement Age.

For PCC Specialty Products, participants from Olofsson Union or Non-Union are assumed to commence benefits at age 60 if eligible for Early Retirement; otherwise, they are assumed to retire at age 62. Participants from other divisions are assumed to commence benefits at age 65.

Future Participation and Service

It was assumed that each active participant would earn one year of participation and one year of service in each future plan year prior to the year of retirement, death, or withdrawal.

Probability of Marriage (Adopted January 1, 2014)

75% of non-retired participants are assumed to be married. A three-year age differential between spouses is assumed with the males being older.

Expenses (Adopted January 1, 2020)

Administrative expenses paid from the Trust are assumed to be \$1,000,000 annually, payable at the beginning of year.

Social Security (Adopted January 1, 2000)

The Social Security taxable wage base is assumed to increase 4.5% per year.

Actuarial Value of Assets (adopted January 1, 2009)

For funding requirements, the Plan uses the 24 month average value of assets per IRS Notice 2009-22.

Actuarial Cost Method

For purposes of calculating the Funding Target, we generally calculate the actuarial present value of benefits accrued as of the beginning of the plan year. This cost method is typically referred to as the Unit Credit method. A limited exception to this applies for current and future disability benefits, where Funding Target liability is calculated in accordance with IRS regulations.

Employee Contributions (Adopted January 1, 2010)

PCC Specialty Products employees no longer contribute to the plan. Accounts for active members are assumed to earn 8.00% interest in the future.

Redemption of Employee Contributions

PCC Specialty Products active employees who terminate prior to attaining eligibility for Early Retirement are assumed to withdraw their employee deposits with interest at termination. For determining the employer provided benefit after withdrawal, the benefit attributable to the employee deposits is subtracted from the total benefit. Account balances are projected to age 65 at 6.50% and converted to a single life annuity using the mortality specified in Revenue Ruling 2001-62 at 6.50%.

Active employees who retire are assumed to receive the greater of the formula benefit or the account balance as an annuity. Account balances are converted to a single life annuity using the mortality specified in Revenue Ruling 2001-62 at 6.50%.

Liabilities for Eldorado, Merriman, Quamco and Reed Rico vested terminated participants in PCC Specialty Products were increased 2.00% (adopted January 1, 2004) to better estimate the cost for participants who withdraw their account balances at a later date, but prior to retirement.

Election of Form of Payment

Steelworkers non-retired participants are assumed to elect the life annuity with 10 years guaranteed upon retirement. Salaried Forgings and Castings and Houston Hourly non-retired participants are assumed to elect the single life annuity upon retirement.

Houston Hourly Employees

Employees Eligible to Participate

Any hourly employee who is a member of the collective bargaining unit (IBEW #716, IAM #15) with which Wyman-Gordon Company has entered into a collective bargaining agreement which provides for coverage and benefit accruals under the plan. Generally, these employees are located in Houston, Texas.

An eligible employee will begin participation on his date of hire. However, no new entrants are permitted on or after October 1, 2014.

Normal Retirement Date

A participant's Normal Retirement Date is the participant's 65th birthday.

Compensation

Compensation is the basic wage rate in effect and paid by the Employer. Compensation includes lead man, trainer and shift premiums, but excludes overtime and deferrals.

Average Monthly Compensation

Average Monthly Compensation is the aggregate amount of Compensation received by a participant after June 30, 1991 divided by the number of months of employment after June 30, 1991.

Benefit Service

A year of Benefit Service is granted for each calendar year in which a participant is credited with at least 1,000 Hours of Service. Partial Years of Benefit Service are granted only in the year of hire and the year of termination of employment, with 1/12th year of Benefit Service for every month with an Hour of Service credited. Benefit Service is granted for prior service with Cameron Ironworks USA.

Normal Retirement Benefit

A monthly amount equal to 1.5% of Average Monthly Compensation multiplied by years of Benefit Service, offset by the frozen accrued benefit under the Cameron Ironworks USA, Inc. Retirement plan for Hourly Employees through May 27, 1994.

Normal Form of Benefit

The normal form of benefit is a single life annuity. If a participant is married at the time of his retirement and does not elect otherwise, he will receive his monthly benefit in a 50% joint & survivor form.

Optional Forms of Payment

A participant at retirement may select from the following forms of payment:

- Single Life Annuity
- Joint & Survivor Annuity (50%, 75%, or 100% Joint Annuitant Continuation)
- Life Annuity with Guaranteed Payment Period (10, 15, or 20 years guaranteed)

Following is a reasonably representative sample of optional form conversion factors. Factors shown are multiplied by the amount of the immediately payable single life annuity.

10-year certain and life annuity: 0.97159 at age 55, 0.94312 at age 62, 0.92053 at age 65
15-year certain and life annuity: 0.94425 at age 55, 0.89102 at age 62, 0.85423 at age 65
20-year certain and life annuity: 0.91319 at age 55, 0.83938 at age 62, 0.79349 at age 65

75%	0.85700	0.87500	0.89400
100%	0.81700	0.84000	0.86300

Earliest Retirement Date

First day of any designated month after the later of the date on which a participant attains age 55 or becomes vested.

Amount of Early Retirement Pension

For each month that the Annuity Commencement Date precedes the Normal Retirement Date, there is a 0.3% reduction of the normal retirement pension amount.

Deferred Retirement Date

Any day after the Normal Retirement Date.

Amount of Deferred Retirement Benefit

A participant working past Normal Retirement Date will be notified in writing that benefits will not be started except for minimum required distributions. The amount of the Deferred Retirement Benefit is determined in the same manner as the Normal Retirement Benefit, but is based on Benefit Years and Average Monthly Compensation through the Deferred Retirement Date

Disability

To be declared disabled, a participant must be unable to perform the normal duties of his employment (during the first 28 months of disability) or be unable to engage in any employment or occupation (after the first 28 months of disability).

While disabled, a participant is credited with Benefit Service and Vesting Service as though his active employment had continued during the period of disability. Also, compensation shall be deemed to continue at the highest rate for the pay bracket of the job classification in which the employee was employed when the period of disability commenced.

Pre-Retirement Death Benefits

If a vested participant dies prior to reaching age 55, his spouse receives a monthly benefit payable on the first day of the month following the date the participant would have attained age 55. This monthly benefit shall be the monthly benefit that would have been payable to the spouse if the participant had terminated

on his date of death, survived to and retired early at age 55 with a 50% joint & survivor annuity, and then died the following day.

If the participant dies after having reached age 55, the spouse benefit starts on the first of the month following the date of death, with the benefit amount the spouse would have received if the participant had retired on his date of death and had elected a 50% joint & survivor annuity.

Vesting

A participant will be 100% vested upon the completion of 5 Years of Service, or attainment of age 65.

Vested Pension on Termination

The vested pension benefit on termination is equal to the normal retirement benefit accrued to the date of termination. The participant may elect to receive the benefit prior to his Normal Retirement Date. This benefit will be the benefit he would receive under the plan's early retirement provisions.
