Fermi National Accelerator Laboratory Tax Sheltered Annuity Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We were engaged to perform an audit of the financial statements of Fermi National Accelerator Laboratory Tax Sheltered Annuity Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Disclaimer of Opinion on the 2021 Financial Statements

We do not express an opinion on the accompanying 2021 financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion for the 2021 Financial Statements section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

(Continued)

Basis for Disclaimer of Opinion on the 2021 Financial Statements

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 2 to the financial statements, the Plan has excluded from investments in the accompanying statement of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Other Matters

2021 Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion for the 2021 Financial Statements section of our report, it is inappropriate to and we do not express an opinion on this supplemental schedule.

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of Fermi National Accelerator Laboratory Tax Sheltered Annuitant Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by a qualified institution. Further, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

The Plan has excluded from the 2020 financial statements certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the 2020 financial statements. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the 2020 financial statements.

In our report dated September 30, 2021, we indicated that because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements.

FERMI NATIONAL ACCELERATOR LABORATORY
TAX SHELTERED ANNUITY PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Fermi National Accelerator Laboratory Tax Sheltered Annuity Plan (the Plan) is provided for general informational purposes only. Participants should refer to the Plan's description in the plan document for a more complete description of the Plan's provisions.

General: The Plan allows either or both deferred compensation and Roth designated contributions and satisfies the Internal Revenue Code (IRC) Section 403(b). The effective date of the Plan was July 1, 1975.

Plan Administration: The Plan is administered by Fermi Research Alliance, LLC (the Plan Sponsor). Assets of the Plan are held by Fidelity Management Trust Company (Fidelity), Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF) (collectively, TIAA-CREF), BNY Mellon Investment Management (BNY Mellon), and Newport Trust Company (Newport) (collectively, the Custodians and Recordkeepers).

On February 2, 2015, Fidelity became the sole Custodian and Recordkeeper for all future contributions to the Plan. As of this date, no new accounts are allowed to be opened or new contributions deposited with the other Custodians and Recordkeepers of the Plan. The participants had the option to either retain their accounts at Vanguard, BNY Mellon and TIAA-CREF or transfer them to Fidelity to the fund of their choice. For account balances not transferred to Fidelity funds, Newport, BNY Mellon and TIAA-CREF are the Custodians and Recordkeepers for those Plan assets.

On December 1, 2017 assets held by The Vanguard Trust Company were transferred to the Newport. Newport is the Custodian for those assets, while Vanguard remains the Recordkeeper.

Participants and Contributions: Substantially all employees of Fermi Research Alliance are eligible to join the Plan on their first day of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Each year participants may make tax deferred contributions as defined by the Plan, subject to the limitations of the IRC. Additionally, participants age 50 or older or who will attain age 50 during the plan year may make a "catch-up" contribution as defined by the IRC. The Plan Sponsor does not make any contributions to the Plan. The contributions made by participants to the Plan are made on a weekly or monthly basis.

Participant Accounts: A separate account is maintained for each participant. Each participant's account is credited with contributions and earnings thereon and charged with his or her withdrawals and an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct their contributions into a variety of investment options made available under the Plan.

Vesting: A participant's contributions, plus income and gains or losses from investment of such contributions, are fully vested and nonforfeitable at all times.

Payment of Benefits: Participants may receive all or a portion of their vested account balance upon reaching 59½ years of age or termination of employment. Participants can elect to receive all or a portion of their account balances including rollovers for financial hardship. Participants who terminate employment prior to retirement may elect to leave their accumulations in the funding vehicles or have their balance distributed in a lump sum or transferred to an individual retirement account or another employer's qualified plan. Generally, participants must begin taking minimum distributions upon April 1 following, the later of, reaching 72 years of age or retirement. Death benefits are paid according to the benefits election in effect at the time of death.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

CARES Act: On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was passed by Congress. Among other things, the CARES Act provides immediate and temporary relief for retirement plan participants with respect to distributions and participant loans. As permitted by the CARES Act, the Plan opted in to implement the following provisions for qualified individuals, as defined by the CARES Act:

- Through December 30, 2020, qualified individuals were permitted to take a distribution in an amount up to \$100,000 from the Plan without an early distribution penalty. Participants who take a qualified distribution have the option to have the distribution taxed over a three-year period, with the ability to recontribute up to the full amount of the distribution within three years and not be subject to federal income tax as a result.
- Required minimum distributions for calendar year 2020 were waived for retired and retirement-aged individuals.
- Through December 31, 2020, qualified individuals were able to suspend all plan loan repayments. The suspension was available for both new loans and loans taken before the act became law. Repayments must resume in January 2021, and the plan may extend the loan term by up to one year.
- Through September 22, 2020, qualified individuals who were eligible for a new loan from the Plan were permitted to request a loan of up to \$100,000 or 100% of the participant's vested account balance.

Plan Assets Pledged as Collateral: Participants with funds held in TIAA-CREF are permitted to obtain loans directly from TIAA. Adequate security is required and a portion of a participant's TIAA Traditional Annuity Account balance serves as collateral to cover 110% of the outstanding loan amount for the period of time the loan is outstanding in case of default. Effective January 1, 2022, TIAA-CREF stopped issuing collateralized loans.

At December 31, 2021 and 2020, participants had outstanding plan loan balances due to TIAA of \$23,127 and \$32,247, respectively. During 2021 and 2020, accumulations totaling \$444 and \$5,789, respectively, were used to satisfy plan loan defaults, which have been recorded as benefit payments in the accompanying statements of changes in net assets.

Notes Receivable from Participants: Participants contributing to Fidelity may borrow, from their before-tax account or rollover account, a minimum of \$1,000 up to a maximum equal to the lesser of (i) \$50,000, reduced for participants with prior loans by the highest outstanding balance of loans from the Plan during the one-year period ending on the day before the date the loan is made or (ii) 50.00% of their vested pretax and rollover account balance. Loans used to purchase a primary residence can be repaid over 15 years. Loans for all other purposes must be repaid within five years. Principal and interest are repaid monthly directly by participants. Participant loans are measured at their unpaid principal plus any accrued but unpaid interest.

Plan Termination: Although the Plan Sponsor has not expressed any intent to terminate the Plan, the Plan Sponsor is free to do so at any time, subject to the provisions of ERISA.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The accompanying financial statements have been prepared on the accrual basis of accounting.

(Continued)

FERMI NATIONAL ACCELERATOR LABORATORY
TAX SHELTERED ANNUITY PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

As discussed in Note 1, the Plan was established in 1975 and historically was viewed as an accumulation of individual custodial accounts and the Plan and its Custodians and TIAA-CREF did not maintain financial information at the plan level. As of December 31, 2008, the Plan's Custodians and TIAA-CREF began to provide the Plan Sponsor with annual certified statements summarizing the Plan's activities and holdings. Because certain historical records were not maintained or are not available at the plan level, the Plan may have excluded from investments in the accompanying statements of net assets available for benefits certain custodial accounts and annuity contracts, and the related activity, issued to former employees prior to January 1, 2009. The amount of these potentially excluded custodial accounts and annuity contracts and the related income and distributions are not determinable.

Contributions: Contributions by participants are accrued in the period in which they become payable to the Plan.

Investment Valuation and Income Recognition: The Plan's investments, other than fully benefit-responsive contracts, are reported at fair value, as further described in Note 6.

The unit values of the Plan's holdings in fully benefit-responsive investment contracts including certain TIAA Traditional Annuities and the New York Life Guaranteed Interest Account are reported at contract value, which equals the accumulated cash contributions and interest credited to the Plan's contracts, less any withdrawals. Contract value is the relevant measure for the Plan's fully benefit-responsive investment contracts, because contract value is the amount Plan participants generally receive when executing transactions under the terms of the contract and Plan provisions, as further described in Note 3.

Net realized and unrealized appreciation or depreciation in fair value of investments represents the Plan's gains and losses on investments bought and sold as well as held during the year, net of certain expenses. Purchases and sales of investment securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis as earned. Dividend income is recorded on the ex-dividend date.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties: The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market, liquidity, credit risks, and risks related to global events. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and changes in net assets available for benefits.

Payment of Benefits: Benefits are recorded when paid.

Administrative Expenses: Service fees necessary for the operation of the Custodians and Recordkeeper, including the rendering of investment advice, the administration of funds, and the distribution of annuity certificates, are deducted quarterly from the net assets of the funds, thereby reducing the value of a participant's account. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. The Plan Sponsor provides the Plan with certain other administrative services without charge and pays various other miscellaneous expenses on behalf of the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events: The Plan has evaluated subsequent events through October 7, 2022, the date the financial statements were available to be issued.

NOTE 3 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The plan holds fully benefit-responsive investment contracts. These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value.

Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds a direct interest in fully benefit-responsive contracts through the TIAA Traditional Annuity Account ("TAA") and the New York Life Guaranteed Interest Account ("GIA"). The Plan holds \$50,364,905 and \$55,974,295 in fully benefit-responsive investment contracts as of December 31, 2021 and 2020, respectively, through its investment holdings in TAA (TIAA, issuer) and GIA (New York Life Insurance Company ("NYLIC"), issuer) accounts.

The traditional investment contracts held by the Plan are guaranteed investment contracts. TIAA and NYLIC are contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the issuer. The crediting rate is reviewed periodically for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on TIAA and NYLIC's ability to meet its financial obligations. TIAA and NYLIC's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with TIAA and NYLIC. These events may be different under each contract. Examples of such events include the following:

- The Plan's failure to qualify under Section 403(b) of the Internal Revenue Code or the failure of the Plan to be tax-exempt under section 501(a) of the Internal Revenue Code
- Premature termination of the contracts
- Plan termination or merger
- Changes to the Plan's prohibition on competing investment options
- Bankruptcy of the plan sponsor or other plan sponsor events that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with TIAA and NYLIC and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow TIAA or NYLIC to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines
- A breach of a material obligation under the contract
- A material misrepresentation
- A material amendment to the agreements without the consent of the issuer

NOTE 4 - NEW YORK LIFE GUARANTEED INTEREST ACCOUNT

The GIA is a group annuity contract available as an investment option to plan participants. The GIA consists of a broadly diversified fixed income portfolio within NYLIC's general account and is intended to provide a stable crediting rate consistent with preservation of principal. Interest is accrued daily and credited monthly to the GIA and reflects the crediting rate declared in advance and guaranteed by NYLIC.

The key factors that impact the crediting rate under the group annuity contract are the timing and magnitude of the cash flows in and out of the general account as well as prevailing market rates on fixed income assets available for investment by the general account. The interest crediting rate may not be reset more frequently than semi-annually after the first contract year. The crediting rate is subject to a minimum rate provision as provided in the group annuity contract, but may never fall below 1% after deduction for any expenses.

The group annuity contract provides that, subject to certain limitations, withdrawals for benefit payments at death, retirement, disability, termination of employment, and for loans, hardship withdrawals or in-service withdrawals as permitted by the Plan are completed at contract value. Certain distributions, including but not limited to distributions resulting from employer-initiated events such as Plan termination, merger, spin-off, and early retirement incentives may be completed subject to a market value adjustment, however the Plan Administrator deems these employer-initiated events are not probable to occur.

The group annuity contract may be terminated by the contract holder at any time, provided written notice of termination is received by NYLIC at least 30 days but not more than 60 days prior to the intended termination date. At contract termination, the participant may elect to receive either an immediate lump sum distribution subject to a market value adjustment or receive a contract value distribution in 6 annual installments over a period of 5 years.

NOTE 5 - TIAA TRADITIONAL ACCOUNT

The TIAA Traditional Account is a guaranteed fixed annuity contract available as an investment option to plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The TIAA Traditional Individual Fixed Annuity Contracts are offered through a variety of contract types, including Retirement Annuities (RA), Group Retirement Annuities (GRA), Supplemental Retirement Annuities (SRA), and Group Supplemental Retirement Annuities (GSRA). The type of contract through which a participant invests in the TIAA Traditional Account determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement. There are certain restrictions on the RA and GRA contracts. Participants with RA and GRA contracts have certain restrictions over the availability of lump-sum withdrawals from the contracts as well as over the number of installments in which participant-initiated transfers and participant-initiated withdrawals are made. Based on these provisions, the RA and GRA contracts are considered to be non-fully benefit-responsive. As there are no comparable restrictions over the SRA and GSRA contracts, those contracts are considered fully benefit-responsive. Participants in the Plan hold investments in both non-fully benefit-responsive and fully benefit-responsive contracts through the TIAA Traditional Account.

All investment contracts through the TIAA Traditional Account are directly between TIAA and the participants. The contracts do not provide any provisions that would allow TIAA to terminate the contracts between TIAA and the participants.

NOTE 5 - TIAA TRADITIONAL ACCOUNT (Continued)

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Account during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claims paying ability and maintained by TIAA in its general account. Based upon recent credit ratings for TIAA, management believes no adjustment to contract value is required related to credit quality.

The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate. The crediting rates are based on an agreed-upon formula with the issuer, as defined in the contract agreement. The guaranteed annual interest rate is 3.00% for all premiums remitted since 1979 under the RA, GRA, SRA and GSRA contracts. Such interest rates are reviewed on a periodic basis and may from time to time have a new rate substituted for the one in the current certificate. A new rate will apply only to benefits arising from any premiums, additional amounts, and internal transfers applied to the Traditional Annuity while such rate schedule is in effect and will not affect any benefits purchased prior to the change, as defined in the contracts. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contracts; and the duration of the underlying investments backing the contracts.

The RA contract does not allow lump-sum cash withdrawals and transfers must be spread over 10 annual installments. With the GRA, SRA, and GSRA contracts, lump-sum withdrawals are available within 120 days of termination of employment. The GRA is also subject to a 2.50% surrender charge. All other withdrawals and transfers from RA, GRA, SRA, and GSRA contracts must be spread over 10 annual installments (5 annual installments for withdrawals after termination of employment). The SRA and GSRA contracts provide for full participant-directed liquidity. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statements of changes in assets available for benefits.

NOTE 6 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (and exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. FASB Accounting Standards Codification (ASC) 820, Fair Value Measurements, provides a framework for measuring fair value, which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 6 - FAIR VALUE MEASUREMENTS (Continued)

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the assets or liabilities
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual Funds: The fair values of mutual funds are based on the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price (Level 1).

Self-directed brokerage account: The self-directed brokerage accounts consist primarily of mutual funds that are valued on the basis of readily determinable market prices (Level 1).

Variable annuities and pooled separate account: The fair values of the Plan's interest in the CREF variable annuities and the TIAA Real Estate Account (a variable annuity pooled separate account) are determined by obtaining quoted prices on the NASDAQ Stock Market (Level 1).

TIAA Traditional Annuity: Investments in TIAA Traditional Annuity contracts (not fully benefit-responsive) are reported at contract value which has been determined to be the most reasonable estimate of fair value. As these investments are contract-based, observable prices for identical or similar investments do not exist, and accordingly, these investments are valued using unobservable inputs (Level 3). The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract. See also Note 5 for discussion of the TIAA Traditional Annuity contracts.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 7 - CERTIFIED INVESTMENTS

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2021 and 2020, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the years ended December 31, 2021 and 2020, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company and TIAA-CREF.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the plan, any party rendering service to the plan, the employer, and certain others. Certain plan investments are/were managed by Fidelity Investments, and BNY Mellon, as the Custodians, and other investments by Vanguard and TIAA-CREF, as the Recordkeepers. Therefore, the related investment transactions qualify as party-in-interest transactions. Notes receivable from participants also reflect party-in-interest transactions.

NOTE 9 - INCOME TAX STATUS

The Plan is intended to comply with the applicable requirements of Section 403(b) of IRC. A tax determination letter program is not yet available for IRC Section 403(b) plans through the Internal Revenue Service (IRS). The Plan Sponsor believes that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC and as such is exempt from federal income taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Sponsor believes it is no longer subject to income tax examinations for years prior to 2018.
