Independent Auditors' Report

To the Participants and Plan Administrator of
Cherry Aerospace Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of Cherry Aerospace Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).

- The information in the 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 7, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of the Plan

The following description of the Cherry Aerospace Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan was a non-contributory defined benefit pension plan sponsored by Cherry Aerospace, a division of SPS Technologies, LLC (the Company), a wholly-owned subsidiary of Precision Castparts Corp. (PCC). The assets were invested in the Precision Castparts Corp. Master Trust (Master Trust) with The Bank of New York Mellon (BNYM). The Plan was subject to the provisions of the Employee Retirement Income Securities Act of 1974 (ERISA).

The Company appointed an administrative committee to oversee the administration of the Plan, with local human resources personnel providing day-to-day support functions. The Master Trust Investment Committee determined the appropriateness of the Plan's investments and monitored investment performance.

Effective December 31, 2021, the Plan merged into the Berkshire Hathaway Consolidated Pension Plan and all assets and obligations of the Plan were legally transferred to that plan as of that date.

Funding Policy

The Plan's funding policy was for the Company to contribute an amount which would meet or exceed the annual ERISA minimum funding requirement. No participant contributions were permitted. The minimum funding requirements of ERISA were met for 2021 and 2020.

Eligibility and Vesting

Participation and related future benefit accruals in the Plan were frozen as of August 31, 2009. Employees of the Cherry Aerospace division of the Company, who were employed prior to January 1, 2010, may also be eligible to participate in the SPS Technologies, LLC Retirement Income Plan. Participants who were involuntarily terminated at any time between January 1, 2009 and June 30, 2010, became immediately vested as of June 30, 2010. All other participants become 100% vested after five years of service.

Pension Benefits

Participants were entitled to annual pension benefits beginning at the normal retirement age of 65, calculated as detailed in the Plan document. The Plan permitted early retirement at any date after age 55 with 10 or more years of service, or for salaried participants, after age 60 with 20 years of service. Participants could elect to receive their pension benefits in the form of a single life annuity or as a joint and survivor annuity with payments continued to the participant's beneficiary at 50%, 75% or 100%. If participants terminated for any reason other than retirement, they would be entitled only to their vested, accrued benefits, which would begin with the first month following their normal retirement or early retirement date.

Death and Disability Benefits

If a married, vested participant died prior to retirement, his surviving spouse would be eligible to receive 50% of the benefit that would have been payable had the deceased participant retired on the day of death and elected the joint and 50% surviving spouse annuity. If a deceased hourly participant was not retirement eligible at death, the benefit would commence at his earliest retirement date as if he terminated at death, survived to his earliest retirement date and then retired. If a deceased salaried participant had less than 20 years of vesting service and was not yet age 55, then the benefit would commence when the participant would have attained age 55, reduced for early retirement whether the participant was eligible or not.

The beneficiary of a salaried participant who was eligible for benefit commencement at termination of employment would receive payments equal to the single life annuity that would have been payable for 60 months, less the number of months that retirement benefits have been in payment status. This death benefit was in addition to the surviving spouse benefit mentioned above or any benefit payable due to the form of benefit chosen.

Active salaried participants who become totally disabled continued to accrue service years while disabled until normal or early retirement age.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan were prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America required management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's interest in the Master Trust was reported at fair value based on the underlying investments. Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation in the value of investments were allocated by the Master Trust to the Plan based upon the Plan's daily weighted average percentage of net assets for a given month.

Payment of Benefits

Benefit payments to participants were recorded upon distribution.

Administrative Expenses

The Plan's expenses were paid either by the Plan or the Company, as provided by the plan document. Expenses that were paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that were paid by the Plan were recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses were included in the Plan's interest in the net investment income of the Master Trust presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that were attributable under the Plan's provisions to the service employees rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan were based on employees' service and, if applicable, compensation prior to August 31, 2009. The accumulated plan benefits for active employees equals the accumulation of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances such as retirement, death, disability and termination of employment are included, to the extent they are attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was determined by the Plan's independent actuary as of January 1, 2021 and was the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of January 1, 2021 was as follows:

Vested benefits:	
Participants and beneficiaries currently receiving payments	$ 35,548,555
Other participants	13,726,177
Total vested benefits	49,274,732
Nonvested benefits	40,033
Total actuarial present value of accumulated plan benefits	$ 49,314,765

The changes in the actuarial present value of the accumulated plan benefits for the year ended December 31, 2020 are summarized as follows:

Actuarial present value of accumulated plan benefits, at beginning of year	$ 48,386,610
Increase (decrease) during the year attributable to:	
Increase for interest due to decrease in discount period	3,366,101
Benefits paid	(3,984,968)
Change in actuarial assumptions	1,729,692
Actuarial gain	(182,670)
Actuarial present value of accumulated plan benefits, at end of year	$ 49,314,765

Significant assumptions underlying the actuarial computations are as follows:

a) Mortality - Pri-2012 Private Retirement Plans Healthy Blue Collar Mortality Tables projected with Scale MP 2020 on a generational basis.

b) Discount Rate - 6.75%

c) Eligible employees were assumed to retire according to the following table:

Retirement Age	Retirement Rate (%)
55-59	2.0
60-61	5.0
62	35.0
63-64	15.0
65	35.0
66-69	20.0
70	100.0

The foregoing actuarial assumptions were based on the presumption that the Plan will continue. On December 31, 2021, the Plan was merged into the Berkshire Hathaway Consolidated Pension Plan and all obligations of the Plan were legally transferred to that plan.

The mortality assumption was updated to incorporate a more recent mortality table and projection scale to reflect both current and expected mortality improvements. The interest rate was also changed from 7.25% to 6.75% and the administrative expense load component of the Target Normal Cost was updated. These changes resulted in an increase of approximately $1.7 million in the actuarial present value of accumulated benefits in 2021.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through October 5, 2022, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology were unadjusted quoted prices for identical assets or liabilities in active markets that the Plan had the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that were observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;

- inputs other than quoted prices that are observable for the asset or liability;
- inputs that were derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability had a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximized the use of relevant observables and minimized the use of unobservable inputs.

The following was a description of the valuation methodologies used for assets held in the Master Trust measured at fair value. The Plan was able to purchase or sell units of the Master Trust on a daily basis. The Master Trust asset allocation strategy was designed with the objective of achieving the asset return assumption consistently over the long-term in order to fund future payment obligations, while minimizing contributions and plan sponsor economic risk. The asset categories are described below, along with the valuation methodologies and investment level classifications. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Public Equity - Public equity investments consisted of publicly traded equity securities, as well as hedged equity investment strategies which may add short positions in equities or equity futures in order to generate absolute returns regardless of equity market direction. Equity investments held directly were valued based upon closing prices reported in active trading markets and classified as Level 1. Other fund investments were valued using the most recent net asset value (NAV) of the fund.

Private Equity - Private equity investments consisted of investments in nonpublic companies made directly or through limited partnerships or commingled vehicles with managers who purchased interests in nonpublic companies. Sub-categories of private equity would include venture capital, early stage, special situations or restructuring funds. Private equity typically had low liquidity, a 10 year or longer investment commitment, and valuation methodologies that required the use of significant unobservable inputs. Direct private equity investments were classified as Level 3, while investments made through funds were typically valued at the most recent NAV of the fund. As of December 31, 2021 and 2020, unfunded capital commitments to private equity investments were approximately $1 million and $4 million, respectively.

Alternative Strategies - Alternative strategies were investments with managers who sought specified levels of absolute returns with minimal correlation to market movements. Alternatives managers typically invested in futures, forwards or options on a variety of asset classes. Investments were typically made in investment funds with values stated at fund NAVs.

Fixed Income - Fixed income investments consisted of private fixed income securities of non-U.S. corporate issuers classified as Level 3, as well as publicly traded investment funds classified as Level 1.

Cash/Other - Cash and other investments include highly liquid money market securities, demand deposits and other cash equivalents. Cash and other investments are classified as Level 1, or stated at NAV for private money market funds.

4. Undivided Interest in the Precision Castparts Corp. Master Trust

All of the Plan's investments were in the Master Trust. The Plan's interest was calculated based on the fair value at the end of the previous period, plus any contributions and income received, less benefit payments and expenses paid for each plan during the period.

At December 31, 2020, the Plan's interest in the net assets of the Master Trust was 4.42%. Investment income and administrative expenses relating to the Master Trust were allocated to the individual plans based upon the amount of time the Plan's assets were invested in the Master Trust.

The following table presents the net assets of the Master Trust as of December 31, 2020:

	Master Trust	Plan's Proportionate Share
Equity:		
Long/hedged	$ 2,093,976,806	$ 92,566,105
Private	248,879,852	11,001,955
Alternative strategies	3,409,840	150,735
Fixed income	52,362,602	2,314,735
Cash/other	136,648,440	6,040,666
Total investments at fair value	2,535,277,540	112,074,196
Accrued interest and dividends	1,807,988	79,924
Total net assets of Master Trust	$ 2,537,085,528	
Plan interest in Master Trust		$ 112,154,120

Investment income for the Master Trust was as follows:

	2021	2020
Net appreciation in fair value of investments	$ 100,469,916	$ 767,214,565
Interest and dividends	31,238,157	41,191,425
Total investment income	$ 131,708,073	$ 808,405,990
Plan's interest in Master Trust investment income	$ 5,822,264	$ 35,748,265

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2020:

	Level 1	Level 2	Level 3	Total
Equity:				
Long	$ 2,092,770,849	$ -	$ -	$ 2,092,770,849
Private	-	-	86,578,058	86,578,058
Fixed income	20,005,476	-	32,357,126	52,362,602
Cash/other	124,918,819	-	-	124,918,819
Total assets in the fair value hierarchy	$ 2,237,695,144	$ -	$ 118,935,184	2,356,630,328
Investments measured at NAV (a)				178,647,212
Total investments at fair value				$ 2,535,277,540

(a) Certain investments measured at NAV have not been classified in the fair value hierarchy but are presented in this table to permit reconciliation of the amounts in the fair value hierarchy to the total investments held by the Master Trust.

The table below sets forth a summary of certain changes in the fair value of the Master Trust's Level 3 assets for the years ending December 31, 2021 and 2020:

	2021		
	Private Equity	Fixed Income	Total
Purchases	$ -	$ -	$ -
Issuances	-	-	-
Transfers in and/or out of Level 3	-	-	-

	2020		
	Private Equity	Fixed Income	Total
Purchases	$ -	$ -	$ -
Issuances	-	-	-
Transfers in and/or out of Level 3	(10,235,205)	-	(10,235,205)

Gains and losses (realized and unrealized) included in the change in net assets for the periods above were reported in plan interest in net investment income of Master Trust in the Statements of Changes in Net Assets Available for Benefits.

Transfers Between Levels - The availability of observable market data was monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. In 2021 and 2020, the Plan had $0 and $10,235,205 of transfers from Level 3 to Level 1, respectively.

5. Related-Party and Party In Interest Transactions

Prior to the merger, the Plan's investments were administered under a contract with BNYM, the trustee of the Plan. Contributions were held and managed by BNYM, who invested cash received, interest and dividend income and made distributions to participants. These transactions qualified as party in interest transactions which were exempt from the prohibited transactions rules of ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan were performed by officers or employees of the Company. No such officer or employee received compensation from the Plan.

6. Tax Status

The Internal Revenue Service (IRS) had determined and informed the Company by a letter dated July 21, 2017, that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator believed the Plan was designed and was operated in compliance with the applicable requirements of the IRC.

Management was required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan had taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Information Certified by Trustee

The Plan Administrator elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2021 and 2020. Accordingly, BNYM, the trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2021 and 2020 and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years then ended.

CHERRY AEROSPACE PENSION PLAN

ACTUARIAL ASSUMPTIONS AND METHODS

Discount Rates

- As selected by Precision Castparts Corp., the rates for calculating the PPA Funding Target are the January 2021 segment rates and do not reflect the American Rescue Plan Act of 2021. As prescribed by interest rate stabilization legislation, in 2021 these rates must be between 85% and 115% of the 25-year average rates published by the IRS.

Measurements using segment rates	PPA Funding Target
Segment 1 payments under 5 years	3.32%
Segment 2 payments between 5 and 20 years	4.79%
Segment 3 payments after 20 years	5.47%

Mortality

For calculating the Funding Target, mortality follows the RP-2014 annuitant and non-annuitant static mortality tables for 2021 as prescribed by the IRS.

Withdrawal

Withdrawals prior to retirement for reasons other than death were assumed to follow the 2003 SOA Pension Plan Turnover Study – Age Based Withdrawal rates. Sample rates are shown below:

Age	Withdrawal %
20	17.46
25	18.51
30	12.19
35	8.78
40	7.00
45	6.21
50	5.63
55	2.92

No withdrawals prior to retirement are assumed at ages 50 and above for salaried participants with at least 20 years of service.

Disability

For valuation purposes, no disabilities were assumed.

Retirement

Eligible employees were assumed to retire according to the following table:

Age	Retirement Rate (%)
55–59	2.0
60-61	5.0
62	35.0
63-64	15.0
65	35.0
66-69	20.0
70	100.0

Future retirees are assumed to elect a single life annuity.

Vested terminated employees are assumed to retire at age 65.

Future Participation and Service

It was assumed that each active participant would earn one year of participation in each future plan year prior to the year of retirement, death, disability, or withdrawal. No future years of service for the purpose of accruing benefits are earned after August 31, 2009.

Probability of Marriage

80% of non-retired participants are assumed to be married. A three-year age differential between spouses is assumed with the males being older.

Administrative Expenses

Annual non-investment expenses of $300,000 were assumed to be paid from the Trust. (Adopted January 1, 2021)

Actuarial Value of Assets

For funding requirements, the Plan uses the 24-month average value of assets per IRS Notice 2009-22 (adopted January 1, 2009).

Actuarial Cost Method

We calculate the actuarial present value of benefits accrued as of the beginning of the plan year. This cost method is typically referred to as the Unit Credit method

Changes in Actuarial Assumptions

- For the Funding Target calculations, the discount rates and mortality assumption were updated as required and as described above.
- The administrative expense load component of the Target Normal Cost was updated from $250,000 to $300,000.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

WEIGHTED RETIREMENT AGE			63.5836
ROUNDED WEIGHTED RETIREMENT AGE			64

The weighted average retirement age was calculated by multiplying each possible retirement age by the probability of not retiring prior to that age and then retiring. These products were then summed to produce the weighted average retirement age.

SUMMARY OF THE PLAN

Name

Cherry Aerospace Pension Plan

Effective Date

Created on February 23, 2007 as a separate plan, but as a continuation of the terms of Addenda A and B to the Acument Global Technologies, Inc. Pension Plan. The plan was restated effective January 1, 2016.

Type of Plan

Trusteed plan with a corporate trustee, administered by a committee appointed by the Company's Board of Directors.

Employer

Cherry Aerospace.

Employees Eligible to Participate

Employees who are not collectively bargained (unless the collectively bargained agreement specifically includes participation) and are scheduled to work at least 1,000 hours per year. Those not initially scheduled for at least 1,000 hours are eligible to participate after completing 1,000 hours of service in the first year of employment or any calendar year. Effective August 31, 2009, no new entrants shall be eligible to participate in the Plan.

Normal Retirement Date

A participant's normal retirement date shall be his 65th birthday.

Normal Retirement Benefit

For Hourly Participants, a monthly pension for the life of the participant equal to the product of Credited Service and the benefit multiplier. Effective January 1, 2006 the benefit multiplier is $23.00.

For Salaried Participants, a monthly pension for the life of the participant equal to:

(a) Credited Service up to 35 times 1.5% of average compensation in excess of Covered Compensation, plus
(b) Credited Service up to 35 times 1.0% of average compensation not in excess of Covered Compensation.

Salaried benefits cannot be less than Credited Service up to 5 times $50.

Credited Service was frozen effective August 31, 2009.

Average compensation is the highest average monthly compensation in any five consecutive calendar years prior to August 31, 2009. Compensation includes bonuses and certain deferred compensation amounts but excludes other items such as expense allowances, fringe benefits, and severance pay. Covered Compensation is defined as 82.5% of the 35-year average of Social Security taxable wage bases ending in the year of termination, or 2009, if earlier.

Optional Forms of Benefit

A married participant at retirement will receive a 50% spouse joint and survivor annuity unless he optionally chooses a 75% or 100% spouse joint and survivor annuity or, with spousal consent, a life annuity or a 50% or 100% survivor annuity. A non-married participant at retirement will receive a life annuity unless he elects a 50% or 100% survivor annuity. Tabular factors for form conversion are based on 7% interest and Rev. Ruling 2001-62 mortality.

Earliest Retirement Date

Participants who terminate after attaining age 55 and completing 10 years of Vesting Service are eligible to retire. Salaried Participants are also eligible if they terminate after attaining age 60 or after completing 20 years of Vesting Service.

Amount of Early Retirement Pension

For Hourly Participants, the basic retirement benefit is reduced by 1/2% for each month that early retirement precedes age 62. For Salaried Participants, the basic retirement benefit is reduced by 5/12% for each month that early retirement precedes age 62 down to age 57, and by tabular factors for earlier ages, and the $50 minimum benefit does not apply.

Pre-Retirement Death Benefits

If a married, vested participant dies prior to retirement, his surviving spouse will be eligible to receive 50% of the benefit that would have been payable had the deceased participant retired on the day of his death and elected the joint and 50% surviving spouse annuity. If a deceased Hourly Participant was not retirement eligible at death, the benefit will commence at his earliest retirement date as if he terminated at death, survived to his earliest retirement date and then retired. If a deceased Salaried Participant had less than 20 years of Vesting Service and was not yet age 55, then the benefit may commence when the Participant would have attained age 55, reduced for early retirement whether the Participant was eligible or not.

The beneficiary of a Salaried Participant who is or was eligible for benefit commencement at termination of employment shall receive payments equal to the single life annuity that is or would have been payable for 60 months, less the number of months that retirement benefits have been in payment status. This death benefit is in addition to the surviving spouse benefit mentioned above or any benefit payable due to the form of benefit chosen.

Vesting

A Participant will be vested after completing 5 years of Vesting Service. Benefits may commence at or after age 55.

Benefits for Hourly Participants equal the basic retirement benefit reduced by 1/2% for each month that early retirement precedes age 65. Benefits for Salaried Participants equal the basic retirement benefit reduced by 5/9% for each month that early retirement precedes age 65 down to age 60, and 5/18% for each month that early retirement precedes age 60 down to age 55, and the $50 minimum benefit does not apply.

Plan Changes

There were no changes to plan provisions with material impact to the valuation.

CHANGE IN ACTUARIAL ASSUMPTIONS

The administrative expense load component of the Target Normal Cost was updated from $250,000 to $300,000 to reflect recent and expected plan expenses.
