Independent Auditor's Report

Participants and Board of Trustees
Austin College Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We were engaged to perform an audit of the financial statements of Austin College Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certification from a qualified institution as of and for the year ended December 31, 2021 stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Disclaimer of Opinion on the 2021 Financial Statements

We do not express an opinion on the accompanying 2021 financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion on the 2021 Financial Statements

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, it is inappropriate to and we do not express an opinion on this supplemental schedule.

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by qualified institutions. Further, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

In our report dated August 24, 2021, we indicated that because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements.

Austin College Retirement Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Austin College Retirement Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description (SPD) for a more complete description of the Plan's provisions.

General and eligibility: The Plan is a defined contribution plan that operates under Section 403(b) of the Internal Revenue Code (IRC). The Plan is sponsored by Austin College (the College) to provide retirement benefits for participating employees. Employees are eligible if they are not in an excluded class, have completed one consecutive year of service, as defined, and are age 21 or older. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Eligible employees are required to make a mandatory yearly contribution of 2% of eligible compensation, as defined in the Plan agreement. The College makes a yearly contribution based on the employee's compensation. During the year ended December 31, 2021, the College contributed 8% of the employee's compensation. Rollover contributions are also allowed by the Plan. Employees may also elect to participate in the Austin College Tax-Deferred Annuity Plan.

Participant accounts: Each participant's account is credited with the participant's contributions, rollover contributions, employer match and allocation of investment results, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Participants are responsible for directing the investment of their plan assets within the approved plan investment options.

Participant investment options: Participants direct the investment of their contributions and the College's contributions to selected investment options offered by the Plan. Participants may change their investment options daily should they choose.

Investment contracts: For both fully benefit-responsive and nonfully benefit-responsive contracts, participants are permitted to transfer funds between their CREF variable annuity and pooled separate accounts and into their TIAA annuity accounts at any time. However, transfers out of the TIAA annuity accounts into any CREF account held by an active participant can only be made through a Transfer Payout Annuity, which provides for the transfer of funds in substantially equal installments over a period of 10 years.

Vesting: Participants are immediately vested in their contributions, rollover contributions and employer matching contributions plus actual earnings thereon.

Payment of benefits: Participants may request a distribution of contributions from their mandatory deferrals, as well as their matching contributions, upon separation of employment. Hardship distributions may be made from deferrals in an annuity contract to satisfy certain immediate and heavy financial needs a participant may have, subject to certain limitations as defined in the Plan Agreement. Distributions may be provided in a lump sum, partial payment, installment payments or, in some instances, annuity contracts. If a participant's vested balance is less than \$1,000, benefits shall be distributed to the participant through a lump-sum distribution.

Note 2. Summary of Significant Accounting Policies

The Plan's significant accounting policies are as follows:

Basis of accounting: The accompanying financial statements are prepared under the accrual method of accounting.

Austin College Retirement Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount the participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation: Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for certain investment options are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain administrative functions are performed by officers or employees of the College. No such officer or employee receives compensation from the Plan. Certain other administrative expenses of the Plan, including third-party administrator fees and audit fees, are paid by the College, and are excluded from these financial statements.

Note 3. Party-in-Interest Transactions

Parties-in-interest are defined under the Department of Labor's (DOL) regulations as any fiduciary of the Plan or party rendering services to the Plan, the employer and certain others. As such, transactions conducted with the College, or TIAA and CREF, the issuers/agents of the Plan, qualify as party-in-interest transactions. The issuers/agents, TIAA and CREF, receive compensation through TIAA and CREF's arrangements with the various investment funds, which are offered as investment options to the Plan participants. Investment fees related to management and operations of the investment funds are charged to participants based on the funds invested in and in proportion to the amount of the investment. These fees are not deducted directly from participant accounts; they are paid indirectly through what is known as an expense ratio. An expense ratio is the percentage of assets an investment provider charges each year in exchange for its services. It goes towards expenses to run the fund, accounting and legal fees, fund manager's compensation and advertising. An expense ratio is deducted from the fund's assets and participants' total returns are "net" of these funds. Participant's returns are calculated after these fees have been deducted from the fund. Fees paid by the Plan for investment management services are included as a reduction of the return earned on each fund. Net plan fees and compensation paid to TIAA and CREF totaled approximately \$125,000 for the year ended December 31, 2021.

Note 4. Information Certified and Provided by TIAA and CREF

The following is a summary of the information as of December 31, 2021 and 2020, and for the year ended December 31, 2021, included throughout the Plan's financial statements and ERISA-required supplemental schedule, obtained by management and agreed to or derived from information provided by TIAA and CREF, as issuers for certain investments and as agents for TIAA, FSB, a custodian for certain other Plan investments. The Plan Administrator has obtained certification from TIAA and CREF that the information provided to the Plan Administrator by the issuers/agents related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and ERISA-required supplemental schedule related to the following assets:

	2021	2020
Investments at fair value:		
Fixed annuity contracts	\$ 20,083,377	\$ 19,852,969
Variable annuity contracts	25,378,567	24,861,309
Pooled separate account	3,706,946	3,202,509
Mutual funds	15,875,731	12,051,386
Investments at contract value:		
Fixed annuity contract	33,891	26,181
	<u>\$ 65,078,512</u>	<u>\$ 59,994,354</u>

The issuers/agents also certified to the completeness and accuracy of \$1,823,635 of interest and dividends related to the aforementioned investments, \$75,401 of other income and \$5,185,621 of net appreciation in fair value/contract value of investments for the year ended December 31, 2021.

Note 5. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic of the Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Austin College Retirement Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

- **Mutual funds:** Mutual funds are reported at the daily closing price, as reported by each fund, based on daily net asset value (NAV), and are classified within Level 1 of the valuation hierarchy.
- **Variable annuity contracts:** Variable annuity contracts are primarily made up of "CREF" funds that invest principally in equity securities, fixed-income instruments and short-term investments in accordance with each portfolios' investment objectives. The "CREF" funds are valued at the daily unit value published on NASDAQ. The funds are not actively traded on this exchange. The value of the unit holder's investment rises and falls with the returns on the underlying assets in the funds. As these funds are listed on the NASDAQ, they are determined to have a readily determinable fair value and are classified within Level 1 of the valuation hierarchy.
- **Pooled separate account:** The pooled separate account is made up of the TIAA Real Estate fund (Real Estate Account). The Real Estate Account is a pooled separate account in which daily unit values are published on NASDAQ. The fund is not traded on this exchange. The value of the unit holder's investment rises and falls with the return on the underlying assets in the account. As this fund is listed on the NASDAQ, it is determined to have a readily determinable fair value and is classified within Level 1 of the valuation hierarchy.
- **Fixed annuity contracts:** Fixed annuity contracts are made up of investments in the TIAA Traditional contract and TIAA Stable Value Fund. The TIAA Traditional contract is reported at contract value, which approximates fair value (see Note 6). This determination is based on TIAA's credit rating and yield during 2021 and 2020 being comparable to similar alternative investments and the interest rate being comparable to a 10-year treasury bond. This contract is classified within Level 3 of the valuation hierarchy.

The stable value fund is composed primarily of fully benefit-responsive contracts that are valued at the NAV of units of the fixed annuity contract. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020:

		2021				
		Level 1	Level 2	Level 3	Total

Total investments at fair value	\$	40,115,204	\$	-	\$ 19,168,430	\$ 59,968,173

- (i) In accordance with ASC 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the items presented in the statement of net assets available for benefits.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2021 and 2020:

	Fair Value 2021	Fair Value 2020	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Fixed annuity contract (a)	\$ 888,840	\$ 684,539	None	Immediately	None

- (a) This asset is comprised of a stable value fund which invests its assets in underlying separate accounts and seeks to stabilize fund performance by providing guaranteed minimum interest between 1% and 3%.

Note 5. Fair Value Measurements (Continued)

The table below sets forth a summary of purchases and settlements of the Plan's Level 3 assets for the year ended December 31, 2021:

	Fixed Annuity Contracts
Purchases	\$ 131,253
Settlements	(958,398)
Interest credited	172,970
Net gains and losses (realized and unrealized)	680,282

Gains and losses for the period above are reported in investment results, net appreciation in fair value/contract value of investments on the statement of net assets available for benefits.

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments and the significant unobservable inputs and the ranges of values for those inputs:

2021					
Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
TIAA traditional annuity contract	<u>\$ 19,194,537</u>	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	3.00% - 3.80%	3.25%
2020					
Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
TIAA traditional annuity contract	<u>\$ 19,168,430</u>	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	3.00% - 4.45%	3.33%

Note 6. Investment Contract With Insurance Company

The Plan has fixed annuity investment contracts with TIAA and CREF. TIAA and CREF maintain the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

For investment contracts that are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. These contracts are included in the financial statements at contract value, as reported to the Plan by TIAA and CREF. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Austin College Retirement Plan

Notes to Financial Statements

Note 6. Investment Contract With Insurance Company (Continued)

Investment contracts that are not fully benefit responsive are included in the financial statements at contract value, as reported by TIAA and CREF. TIAA and CREF indicate that contract value approximates fair value for these investments at December 31, 2021 and 2020.

For both fully benefit-responsive and nonfully benefit-responsive contracts, there are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer but, as of December 31, 2020, it may not be less than 3%. The weighted-average crediting rate for all investment contracts was 3.25% and the average yield based on interest rates credited to participants was 3.55% for the year ended December 31, 2021. Such interest rates are viewed on an annual basis for resetting.

For both fully benefit-responsive and nonfully benefit-responsive contracts, certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

For both fully benefit-responsive and nonfully benefit-responsive contracts, the contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 7. Tax Status

The Plan has been drafted to satisfy the requirements under the Internal Revenue Code (the Code) as they pertain to 403(b) plans. The Plan is required to operate in accordance with the Code to maintain the exclusion from tax for plan participants. Plan management believes the Plan is currently designed and operated in compliance with the applicable requirements of the Code.

The Plan applies the standards on accounting for uncertainty in income taxes. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustments to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 8. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2021 statement of net assets available for benefits.

Approximately 29% and 32% of the Plan's investments are held in one account with TIAA and CREF at December 31, 2021 and 2020, respectively, as noted below. As such, this is considered to be a concentration of credit risk.

Austin College Retirement Plan

Notes to Financial Statements

Note 8. Risk and Uncertainties (Continued)

	2021		2020	
	Fair Value	Percent of Total Investments	Fair Value	Percent of Total Investments
Contracts held with insurance company:				
TIAA annuity contract nonbenefit-responsive	<u>\$ 19,194,537</u>	29.49%	<u>\$ 19,168,430</u>	31.95%

Note 9. Plan Termination

Although it has not expressed any intent to do so, the College has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 10. Subsequent Events

Management has evaluated subsequent events through October 10, 2022, the date the financial statements were available to be issued.

Note 11. Net Assets Available for Benefits

In November 2007, the DOL issued amended regulations eliminating an exemption granted to 403(b) plans from annual 5500 reporting, disclosure and audit requirements under Title I of ERISA. The removal of this exemption subjected the Plan to audit and expanded Form 5500 reporting requirements for the first time beginning with the Plan's year ended December 31, 2009. The Plan and TIAA and CREF have not maintained sufficiently detailed accounting records related to the Plan's annuity and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, the completeness of the Plan's net assets available for benefits as of December 31, 2021 and 2020, and changes in net assets available for benefits for the year ended December 31, 2021, could not be verified.
