INDEPENDENT AUDITOR'S REPORT

To the Participants and Administrator of
The Canandaigua National Bank and Trust Company
Employee Stock Ownership Plan

Opinion
We have audited the financial statements of The Canandaigua National Bank and Trust Company Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021 and 2020, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements
Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that,

individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA
Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 1. DESCRIPTION OF THE PLAN

The following brief description of the Canandaigua National Bank and Trust Company Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: Canandaigua National Bank and Trust Company (the Plan Sponsor), a wholly owned subsidiary of Canandaigua National Corporation (the Corporation), established the Plan effective January 1, 1988 for the employees of the Corporation, and its affiliates. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Retirement Plan Committee appointed by the Corporation's Board of Directors. The Corporation has serviced as the Plan's trustee since inception of the Plan.

Eligibility: The Plan covers all non-union employees on the first day of the calendar month coinciding with or next following their first day of employment. Participants who do not have at least 1,000 hours of service during a Plan year or who are not employed on the last working day of the Plan year are generally not eligible for an allocation of Corporation contributions for that Plan year.

Contributions: The Plan Sponsor contributes to the Plan at the discretion of the Board of Directors in either cash or common stock of the Corporation. Contributions for the 2021 and 2020 plan years were made in cash. Participant contributions are not permitted.

Participant Accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of the cash or shares of the Corporation's common stock, and with an allocation of common stock released from the forfeitures of terminated participants' non-vested accounts. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

Unrealized appreciation of employer securities is allocated to participants based upon the shares included in the participant's account balance. Plan earnings are allocated to each participant's account balance based on the ratio of the participant's beginning of year account balance to all participants' beginning of year account balances.

Vesting: Participants in the Plan become 20% vested in the value of their participant accounts after two years of service, 40% vested after three years of service, 67% vested after four years of service, and 100% vested after five years of service. Participants become 100% vested in the event of plan termination, permanent disability, death, or attainment of normal retirement age.

Withdrawals and Distributions: Upon termination of service, a participant may elect to receive either a lump-sum cash amount equal to the value of his or her account, or whole shares of stock of the Corporation plus cash in lieu of any fractional shares. All distributions are made as of the plan year end using the applicable year end fair value. Shares distributed to a participant are subject to a "put" option whereby the participant may cause the Corporation to purchase the shares at fair value. Normal retirement age is the later of age 65 or the participant's fifth anniversary of plan participation. A participant who ceases to be an employee after attaining his normal retirement age, or after attaining age 60 if they have earned 5 years of vesting service, may elect to defer distribution of their account balance until they attain age 72.

Forfeitures: Upon incurring five consecutive one-year breaks in service, the non-vested portion of a participant's account is forfeited and reallocated among the accounts of other participants in the same manner as Plan Sponsor's contribution. Forfeited, non-vested accounts to be allocated to participant accounts in future years amounted to $46,227 as of December 31, 2021 ($41,975 - 2020). $7,229 cash forfeitures were allocated to participants during the year ended December 31, 2021. No cash forfeitures were allocated to participants during the year ended December 31, 2020. During the year ended December 31, 2021, there were 34.83527 forfeited shares reallocated to participant accounts (33.06499 - 2020).

NOTE 1. DESCRIPTION OF THE PLAN (CONTINUED)

Put Option: Under federal income tax regulations, the employer stock that is held by the participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Corporation buy any shares of its stock distributed to participants for which there is a limited or no market. The put price is representative of the current appraised value of the stock. The Corporation can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Corporation stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify will have the portion of their account subject to the election transferred to the Plan Sponsor's 401(k) Plan within ninety days after the end of the election period. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

Voting Rights: Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated shares for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries. The Plan's shares were all allocated at December 31, 2021 and 2020.

Administrative Expenses: As provided in the Plan Agreement, administrative expenses may be paid by either the Plan or the Plan Sponsor. Expenses paid by the Plan amounted to $3,180 for the year ended December 31, 2021 ($11,674 - 2020).

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The Plan prepares its financial statements on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The common shares of the Corporation are valued at fair value. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividend income is accrued on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties: The Plan investments consist primarily of the Corporation's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimations and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Payment of Benefits: Benefits are recorded when paid.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events: The Plan has evaluated subsequent events through October 5, 2022, the date the financial statements were available to be issued.

NOTE 3. TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated April 14, 2006, stating that the Plan is qualified under the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter, however, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB), *Accounting Standards Codification* (ASC) 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021, and 2020:

	Investments at Fair Value as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Investment in common stock of Canandaigua National Corporation	**$ -**	**$ -**	**$10,644,480**	**$10,644,480**

	Investments at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Investment in common stock of Canandaigua National Corporation	$ -	$ -	$ 8,092,980	$ 8,092,980

Changes in Fair Value of Level 3 Investments

The Plan distributed 406 shares valued at $109,620 of the Plan's level 3 investments for the year ended December 31, 2021. The Plan purchased 400 shares valued at $90,932 which increased the Plan's level 3 investments for the year ended December 31, 2020.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Canandaigua National Corporation common stock held by the Plan is reported at fair value based upon an independent appraisal. This appraisal was based upon a combination of the price/core earnings, present value, tangible book multiple and market valuation techniques consistent with prior years as illustrated in the following table.

	Level 3 Assets
Balance as of January 1, 2020	$ 7,984,980
Shares purchased (400 shares)	90,932
Unrealized gain relating to shares held at the reporting date	17,068
Balance as of December 31, 2020	$ 8,092,980
Shares distributed (406 shares)	(109,620)
Realized gain on shares sold (406 shares)	92,568
Unrealized gain relating to shares held at the reporting date	2,568,552
Balance as of December 31, 2021	**$ 10,644,480**

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs
Canandaigua National Bank and Trust common stock	$10,644,480	Guideline Public Companies – 50%	Public comparables EBITDA multiple
		Discounted Cash Flow – 25%	EBITDA Projected free cash flows Weighted average cost of capital Discount rate Cost of Debt
		Capitalized Cash Flow – 25%	Implied EBITDA Company specific risk premium Company management projections Discount rate Cost of Debt

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5. CORPORATION DIVIDENDS

The Corporation paid two dividends to the Plan of $3.60 per share and $4.00 per share or $107,906 and $119,896 during the year ended December 31, 2021, and two dividends of $3.50 per share or $103,509 for a total of $207,018 during the year ended December 31, 2020. Dividends received by the Plan are distributed annually to participants in the form of cash.

NOTE 6. PLAN TERMINATION

Although the Plan Sponsor has not expressed any intent to do so, it has the right to terminate the Plan at any time and at its sole discretion, subject to the provisions of ERISA and the Plan. Upon termination of the Plan or permanent discontinuance of contributions thereunder, the accounts of all participants automatically become 100% vested. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

NOTE 7. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of the Corporation common stock. Transactions related to these investments qualify as party-in-interest transactions. As described in Note 1, the Plan Sponsor may pay the Plan's expenses at its discretion and has the right to request reimbursement from the Plan. The Plan has a number of service providers, which are parties-in-interest under ERISA.
