Independent Auditors' Report

The Participants and Plan Administrator
Farmland Foods, Inc. Employee Retirement Plan
Smithfield, Virginia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of Farmland Foods, Inc. Employee Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the 2021 financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of Farmland Foods, Inc. Employee Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter

As discussed in Note 1 to the financial statements, as of December 31, 2021, the net assets of Farmland Foods, Inc. Employee Retirement Plan merged into the Smithfield Foods Salaried Pension Plan.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Farmland Foods, Inc. Employee Retirement Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Farmland Foods, Inc. Employee Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Farmland Foods, Inc. Employee Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of Farmland Foods, Inc. Employee Retirement Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 11, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

FARMLAND FOODS, INC. EMPLOYEE RETIREMENT PLAN

Notes to Financial Statements December 31, 2021 and 2020

(1) Description of Plan

The following description of the Farmland Foods, Inc. Employee Retirement Plan (the Plan) provides general information only. Participants should refer to the plan agreement for a more complete description of the plan provisions.

General

The Plan was established January 1, 1946 as a defined benefit plan covering substantially all eligible employees of Farmland Industries, Inc. A subsidiary of Farmland Industries, Inc., Farmland Foods, Inc. (the Company) was purchased by Smithfield Foods, Inc. (Smithfield) on October 28, 2003. At that time, all benefits for non-Farmland Foods, Inc. employees were frozen.

The Company is a wholly-owned subsidiary of Smithfield, and Smithfield has assumed the obligations under the Plan. Participation is mandatory for union employees who have attained the age of 35 following completion of the first hour of service. Non-union employees must complete 1,000 hours of service and have attained the age of 21 to participate in the Plan. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective January 1, 2018, no newly hired or re-hired employees of Smithfield Foods, Inc. are eligible to participate in this Plan.

Effective January 1, 2021, the lump sum benefit payment option is for any participant whose termination date is on or after January 1, 2000.

Effective June 30, 2021, Plan was amended to cease all benefit accruals for non-union employees.

Effective December 31, 2021, the net assets of the Plan were merged in the Smithfield Foods Salaried Pension Plan. The Smithfield Foods Salaried Pension Plan assumed the related pension liability for participants of the Plan and each employee who was a participant in the Plan became a participant the Smithfield Foods Salaried Pension Plan as of December 31, 2021.

The Plan invests solely in the Smithfield Foods Master Trust (the Master Trust). The Master Trust was created to hold investment assets of the Plan as well as investment assets of several other plans sponsored by Smithfield or its subsidiaries (collectively, the Participating Plans).

(1) Description of Plan, Continued

Plan Administration

Overall responsibility for administering the Plan rests with Smithfield. The Smithfield Foods, Inc. Administrative Committee and Investment Committee (the Committees) are responsible for oversight of the Plan, determine the appropriateness of the Plan's investment holdings, monitor investment performance, and control and manage the operation and administration of the Plan. The Committees report directly to the audit committee of the Board of Directors.

Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in the amount required under government regulations, plus amounts necessary to maintain at least an 80% funded status in order to avoid benefit restrictions under the Pension Protection Act. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2021 and 2020.

Prior to April 2004, employee contributions were made to the Plan. As a result, accumulated contributions as of the benefit information date, January 1, 2021, are approximately \$17,300,000. The balances earn interest at the rate of 120% of the Federal mid-term rate in effect on the first month of the trust year. Interest was credited at .62% for the year ended January 1, 2021, the date of the actuarial valuation.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Pension Benefits

Certain union employees with 5 or more years of service are entitled to monthly pension benefits beginning at normal retirement age (65) equal to 1.75% of their final average wage base for each year of creditable service. Other union employees, as well as non-union employees with 5 or more years of service, are entitled to monthly pension benefits beginning at normal retirement age (65) equal to the greatest pension benefit resulting from application of varying rates, as outlined in the Plan. The Plan permits early retirement at ages 55 to 64 with reduced benefits. Retirement benefits are usually paid in equal monthly installments, at varying rates, depending on the benefit option selected by the retiree. The participant may elect to receive a lump sum payment if the value of all payments is less than a specified amount.

(1) Description of Plan, Continued

Death and Disability Benefits

The spouse of an active participant who dies with at least five years of service is eligible for a death benefit. The benefit is payable at early retirement as if the participant had survived to retirement and elected the joint annuity option.

Certain union participants with three years of service, who are totally and permanently disabled, are eligible for a benefit equal to the greater of their accumulated pension benefit (fully vested) or 25% of final wage base as of the date of disability. Other union and non-union participants, after age 45 and ten years of service, are eligible for a benefit equal to the normal retirement benefit based on service at disability.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committees determine the Plan's valuation policies utilizing information provided by its investment advisors and trustee. See Notes 4 and 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains on investments bought and sold as well as held during the year.

FARMLAND FOODS, INC. EMPLOYEE RETIREMENT PLAN

Notes to Financial Statements December 31, 2021 and 2020

(2) Summary of Significant Accounting Policies, Continued

Smithfield Foods Master Trust

The fair value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses.

Net investment income from the Master Trust includes the Plan's share of interest, dividends, and net realized and unrealized appreciation of the fair value of the Master Trust's investments. Although the investment assets of the Participating Plans are commingled in the Master Trust, the trustee maintains supporting records for the purpose of allocating the net investment income of the Master Trust to the Participating Plans. All interest, dividends, and net appreciation of the Master Trust are allocated in accordance with the Master Trust's investment asset pools.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

The Plan's administrative expenses are paid by either the Master Trust or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Certain expenses of maintaining the Plan were paid by the Company during 2021 and 2020.

Subsequent Events

The Plan has evaluated subsequent events through October 5, 2022, the date the financial statements were available to be issued.

(3) Financial Information Certified by the Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by The Bank of New York Mellon/BNY Mellon, N.A. (BNY Mellon), the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements. The trustee has certified the following as complete and accurate:

- The investments at fair value at December 31, 2021 and 2020.
- Net investment income from Smithfield Foods Master Trust for the years ended December 31, 2021 and 2020.

(4) Fair Value Measurements

FASB *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

FARMLAND FOODS, INC. EMPLOYEE RETIREMENT PLAN

Notes to Financial Statements December 31, 2021 and 2020

(4) Fair Value Measurements, Continued

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Plan's interest in the Master Trust: See Note 5 for valuation methodology.

As of December 31, 2021 and 2020, the Plan did not hold investments outside the Master Trust.

(5) Interest in Master Trust (Unaudited)

The Plan invests its plan assets in the Master Trust. The Master Trust was created to hold the investment assets of the Participating Plans. The assets of the Master Trust are held by BNY Mellon as of and for the years ended December 31, 2021 and 2020. The Plan's interest in the net assets of the Master Trust was approximately 46% at December 31, 2020. As December 31, 2021, the Plan did not have an interest in the net assets of the Master Trust after the Plan merged into the Smithfield Foods Salary Pension Plan (see Note 1).

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by BNY Mellon, the trustee of the Master Trust, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements.

The trustee has certified to the accuracy and completeness of the investment in the net assets of the Master Trust at fair value as of December 31, 2021 and 2020, and the net investment income of the Master Trust for the years then ended, as summarized below.

(5) Interest in Master Trust (Unaudited), Continued

Following is a description of the valuation methodologies used for assets measured at fair value held by the Master Trust.

Common collective trusts: Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV, is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Were the Master Trust to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Limited partnerships: The fair values of the investments in limited partnerships are estimated using the NAV of the Master Trust's ownership interest in partners' capital. For the majority of the limited partnerships, redemptions are not permitted, except those received through distributions, at such time as determined by the partnerships, which are expected through various fund termination through December 31, 2031.

Registered investment companies: Valued at the daily closing price as reported by the registered investment company. Registered investment companies held by the Master Trust are open end mutual funds that are registered with the Securities and Exchange Commission. These investments are required to publish their daily NAV and to transact at that price. The mutual funds held by the Master Trust are deemed to be actively traded.

Corporate debt and U.S. government and agency securities: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings, recently executed transactions, market price quotations (where observable), bond spreads or credit default swap spreads.

Cash equivalents: Valued at the closing price reported on the active market on which the individual securities are traded.

Preferred stock: Represents investments in preferred stock valued at fair value using recent activity for similar instruments.

- (bb) The fund invests in stabilized, income producing properties in the student housing, senior housing, medical office and storage segments of the market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(6) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Participant benefits are based on a set dollar amount multiplied by years of benefit service, as defined in the plan document.

(6) Actuarial Present Value of Accumulated Plan Benefits, Continued

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary, Mercer Human Resource Consulting, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions underlying the valuations as of January 1, 2021 and 2020 were as follows:

Rate of return	6.25%
Discount rate	2.76% for 2021; 3.46% for 2020
Mortality:	
Healthy Participants:	
Non-annuitants	For 2021, the PRI-2012 sex distinct employee tables with no contingent survivor adjustment and no collar adjustments, projected generationally using the mortality improvement scale MMP-2019. For 2020, the PRI-2012 sex distinct employee tables with no contingent survivor adjustment and no collar adjustments, projected generationally using the mortality improvement scale MMP-2019.
Annuitants	For 2021, based on Club Vita's 2019 US VitaCurves model. For 2020, based on Club Vita's 2019 US VitaCurves model.
Disabled Participants	Revenue Ruling 96-7 tables for disabled participants
Retirement age	Attained age 65
Funding method	Unit Credit Actuarial Cost Method

The actuarial present value of accumulated plan benefits is as follows as of January 1:

	2021	2020
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Active participants	\$ 183,027,922	\$ 181,667,389
Inactive participants with deferred benefits	68,455,128	68,097,351
Inactive participants receiving benefits	409,901,276	403,283,889
	661,384,326	653,048,629
Nonvested benefits	9,373,634	11,022,951
Total actuarial present value of accumulated plan benefits	\$ 670,757,960	\$ 664,071,580

(6) Actuarial Present Value of Accumulated Plan Benefits, Continued

The change in the actuarial present value of accumulated plan benefits is as follows for the years ended January 1:

	2021	2020
Actuarial present value of accumulated plan benefits at beginning of year	\$ 664,071,580	\$ 672,877,739
Increase (decrease) during the year attributable to:		
Benefits accumulated and losses	11,605,509	20,690,150
Increase for interest due to decrease in discount period	39,633,290	41,972,524
Benefits paid	(51,172,942)	(82,674,054)
Change in actuarial assumptions	6,620,523	11,205,221
Net increase (decrease)	6,686,380	(8,806,159)
Actuarial present value of accumulated plan benefits at end of year	\$ 670,757,960	\$ 664,071,580

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2021 and 2020. Had the valuations been performed as of December 31, there would be no material differences.

On March 1, 1987, the Plan purchased annuity contracts in the amounts of \$87,381,311 and \$80,998,263 through Prudential Insurance Company of America (Prudential) and Transamerica Occidental Life Insurance Company (Transamerica), respectively, to provide monthly benefits to substantially all employees participating in the Plan as of December 31, 1986. In accordance with the annuity contracts, monthly benefit payments made to beneficiaries are paid out of the Plan and reimbursed by Prudential and Transamerica. The Plan is liable for such monthly benefits should Prudential or Transamerica default on payments for any reason. The liability for these benefits and the related annuity contracts have been excluded from these financial statements.

Due to the merger of the Plan on December 31, 2021, the actuarial present value of accumulated plan benefits obligations was assumed by the Smithfield Foods Salary Pension Plan.

FARMLAND FOODS, INC. EMPLOYEE RETIREMENT PLAN

Notes to Financial Statements December 31, 2021 and 2020

(7) Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits, should the Plan be terminated at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

FARMLAND FOODS, INC. EMPLOYEE RETIREMENT PLAN

Notes to Financial Statements December 31, 2021 and 2020

(8) Tax Status

The Internal Revenue Service (IRS) has determined and informed Smithfield by a letter dated April 2, 2014, that the Plan and related trust are designed in accordance with applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(9) Related Party and Party-In-Interest Transactions

The Plan invests in the Master Trust, which is managed by Smithfield. The Master Trust invests in a money market fund managed by the trustee and common stock of the trustee.

The Master Trust pays fees to various parties-in-interest on behalf of the Participating Plans. Fees paid to parties-in-interest for 2021 and 2020 were as follows:

	2021	2020
Investment management	\$ 5,214,927	\$ 7,640,266
Consulting	32,542	47,290
	<u>\$ 5,247,469</u>	<u>\$ 7,687,556</u>

(10) Risks and Uncertainties

The Plan, through its interest in the Master Trust, invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

• Expenses	\$0 added to current year normal cost		

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Rationale for economic assumptions**

- **Discount Rate**– Funding discount rates are prescribed by the IRS with the specific methodology selected by Smithfield Foods, Inc.
- **Mortality** – Funding mortality tables are prescribed by the IRS with the specific methodology selected by Smithfield Foods, Inc.
- **Salary increases** – This assumption is based on experience studies performed in 2012 and 2016.
- **Social Security taxable wage base increases** – This assumption is based on inflation plus estimated real wage increases in the U.S. economy (75 bps).
- **Inflation** – This assumption is based on the long-term expectations for inflation published in Mercer Investment Consulting's Capital Market Outlook (2.20%) rounded up to the nearest 25 basis points.
- **Expected investment return** – The expected rate of return on plan assets is based on a blend of the hypothetical past performance of the plan's target asset mix and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Market Outlook for the plan's target asset mix. The expected investment return assumption is net of an adjustment for investment expenses assumed to be paid from the plan assets.
- **Expenses** – Plan administrative expenses are not paid from the trust and have no impact on minimum funding for the current valuation.

Demographic assumptions

- **Withdrawal** Client specific table. See table of sample rates.

- The withdrawal, disability, retirement/benefit commencement age and form of payment assumptions are based on experience studies performed in 2012 and 2016.

² Disability terminations are taken into account in the retirement rates after age 64.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods for funding****Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined by IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees who have met the eligibility requirements as of the valuation date. No actuarial liability is included for participants who terminated nonvested prior to the valuation node.
- **Transferred participants:** The liabilities for employees who have transferred into another plan of the plan sponsor have been included with the liabilities for terminated vested participants.
- **Disabled participants:** The liabilities for participants on long-term disability have been included with the liabilities for terminated vested participants.

To our knowledge, no benefits are excluded from liabilities presented in the valuation.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Total sponsor contribution allocation method**

The total contribution made by Smithfield Foods, Inc. to its qualified defined benefit pension plans is allocated among the individual plans to first eliminate any existing unfunded PBGC premium funding target. Then the remaining amount of the planned contribution is allocated in accordance with each plan's portion of the total unfunded benefit obligation (combined for the three qualified plans) calculated for financial accounting purposes. The Farmland contributions are split between Farmland Foods and Industries based on first allocating contributions attributable to the Farmland Foods service cost and then any additional contributions are split based on the proportion of each plan's unfunded projected benefit obligation as of the applicable date.

Effective date and plan year	Original plan effective date: September 8, 1946. Last restated: January 1, 2016 Last amended: June 30, 2021 (Amendment #5) Plan year: January 1 through December 31
Applicable Effective Date	• Non-Union participants: April 1, 2004 • Union New Benefit participants - Denison Iowa plant: January 1, 2005 - Crete Nebraska plant: July 1, 2005 - Wichita Kansas plant: January 1, 2006
Status of the plan	Effective December 31, 2021, Farmland Foods, Inc. Employee Retirement Plan was merged into Smithfield Foods Salaried Pension Plan. Effective June 30, 2021, the plan is closed to new non-union participants and all benefit accruals for non-union participants under the plan are frozen. The union participants will continue to accrue benefits and new or rehired union employees are eligible to participate in the plan. Effective January 1, 2018, no newly hired or rehired employees of Smithfield Foods, Inc. shall be eligible to participate in this plan, except: - Current or former hourly employees at Crete, Wichita and Denison locations. - Current employees of Monmouth, IL, Lincoln, NE, Salt, Lake City, UT, or Milan, MO locations.
Significant events that occurred during the year	Effective December 31, 2021, Farmland Foods, Inc. Employee Retirement Plan was merged into Smithfield Foods Salaried Pension Plan. Effective June 30, 2021, the plan is closed to new non-union participants and all benefit accruals for non-union participants under the plan are frozen.

Schedule SB, Part V — Summary of Plan Provisions**Definitions for participants hired prior to January 1, 2013****Definitions**

• Eligibility	Full-time union employees become a participant in the plan on April 1 or October 1, depending on month of hire, following completion of the first hour of service. Mandatory participation is April 1 or October 1 following the 34th birthday. Effective on the Applicable Effective Date, Non-Union employees must complete 1,000 hours of service and attained age 21 to participant in the plan. Effective June 30, 2021, the plan will no longer accept new non-union entrants.
• Participant contributions	Prior to the Applicable Effective Date, participants contributed 2% of Wage Base. Union Old Benefit participants shall continue to contribute 2% of Wage Base. Effective on the applicable effective date, Non-Union and Union New Benefit participants are not required or permitted to make contributions.
• Service Considered	For Union Old Benefit employees, employment from hire date to termination date measured in years and months. For Non-Union and Union New Benefit participants, each calendar year during which the employee completed at least 1,000 hours.
• Creditable Service	Years and months of Participating Service. Following the Applicable Effective Date, Non-Union and Union New Benefit participants will earn Years of Benefit Service rather than Creditable Service.
• Year of Benefit Service	Calendar Year during which the employee completed at least 1,000 hours of service. Effective June 30, 2021, no additional benefit service will be earned by non-union participants under the plan.
• Final average earnings	Average of the highest five consecutive calendar years of earnings out of the last ten calendar years prior to termination. No compensation earned in 2021 or subsequent calendar years by non-union participants will be considered for benefit accrual purposes.
• Final Average Wage Base	Average of the highest four wage bases of the last ten consecutive wage bases prior to termination. Wage base is defined as W-2 compensation with adjustments for certain expenses and contributions to benefit plans.
• Normal Retirement Benefit	A lifetime monthly benefit payable at the later of age 65 or 5 years of participation. For Union Old Benefit employees: 1.75% of Final Average Wage Base times Creditable Service, where creditable service is years and months of participating service. For Non-Union and Union New Benefit participants, equal to the greater of (a), (b), and (c): (a) The sum of (i) 0.8% of Final Average Earnings and (ii) 0.9% of Final Average Earnings in excess of Social Security Covered Compensation. The sum is multiplied by the sum of Creditable Service as of the Applicable Effective Date, and Years of Benefit Service after the Applicable Effective Date.

Schedule SB, Part V — Summary of Plan Provisions

(b) The sum of the amount determined under (a) above, but based on Years of Benefit Service beginning after the Applicable Effective Date and Participant's accrued benefit as of the Applicable Effective Date. The accrued benefit for non-union and union new benefit employees as of the Applicable Effective Date is defined as 1.75% of Final Average Wage Base as of the Applicable Effective Date times Creditable Service at the Applicable Effective Date. For grandfathered, Non-Union or Union New Benefit participants (defined as being age 50 with 10 years of Creditable Service as of the Applicable Effective Date) the Final Average Wage used to determine the accrued benefit is to be determined at the date of termination from employment.

(c) \$75. The \$75 minimum benefit is phased in over 5 years for Non-Union employees hired on or after the Applicable Effective Date.

- **Late Retirement Benefit** A lifetime monthly benefit equal to the Accrued Benefit, based on Creditable Service or Years of Benefit Service, payable to a participant whose separation from service date follows his normal retirement date.

- **Early Retirement Benefit** A participant is eligible to receive an early retirement annuity after separation from service following age 55 with 5 years of vesting service. For Union Old Benefit participants, the early retirement annuity is equal to the accrued benefit times the percentage based on age below:

Age	Percentage
62+	100%
61	93
60	86
59	79
58	72
57	65
56	58
55	50

For a Non-Union or a Union New Benefit participant, early retirement benefits accrued before the Applicable Effective Date shall be calculated the same as for Union Old Benefit participants as above and early retirement benefits accrued after the Applicable Effective Date shall be equal to the accrued benefit after the Applicable Effective Date times the percentage based on age below:

Age	Percentage
65	100%
64	94
63	88
62	82
61	76

Schedule SB, Part V — Summary of Plan Provisions

	56	54
	55	50
• Disability Retirement Benefit	An active Union Old Benefit participant is eligible upon total and permanent disability after completion of 3 years of participating service. The monthly benefit is equal to the greater of i) the accrued benefit (unreduced for age) at the date of disability and ii) 25% of final wage base as of the date of disability. An active Non-Union or Union New Benefit participant is eligible upon total and permanent disability after age 45 and 10 Years of Benefit Service. The monthly benefit shall be computed in the same manner as normal retirement benefits based on service at disability. There is no reduction for early payment.	
• Deferred Vested Benefit	<u>Option A</u> A participant not eligible for Normal, Early, or Deferred retirement is eligible to receive a termination annuity at age 65 equal to the sum of (a) and (b) or the actuarial equivalent as early as age 55: (a) Employee contributions with interest in the form of an annuity deferred to age 65 (b) Accrued Benefit at 65 times 100% for 5 years of Vesting Service (0% otherwise) minus the amount described in (a) above. <u>Option B</u> A participant not eligible for Normal, Early, or Deferred retirement is eligible to receive an immediate refund of employee contributions with interest (lump sum or life annuity) plus a termination annuity at age 65 equal to the amount described in (b) above, or the actuarial equivalent as early as age 55.	
• Pre-retirement Death Benefit	The spouse of an active or terminated vested participant who dies with at least five years of Vesting Service after age 55 is eligible for a death benefit. The benefit is payable immediately as if the participant had retired on the date of death and elected a 100% Joint Annuity payment option. If death occurs before age 55, the spouse may choose Option A or Option B, with the annuity commencing on the date the participant would have attained age 55. If the participant dies with less than five years of Vesting Service, employee contributions with interest will be refunded.	
• Post-Retirement Benefit	Upon the death of a Union Old Benefit participant who retired on or after age 62, the spouse is eligible to receive a supplemental lump sum benefit equal to 24% of the final Wage Base times Credible Service (up to 10 years). The lump sum shall not be less than \$1,000 and no more than \$10,000. A Non-Union or a Union New Benefit participant who was not eligible for early retirement on the Applicable Effective Date shall not be eligible to receive the above supplemental lump sum.	
• Normal Form of Benefit	Single Life Annuity. Married participants receive an actuarially reduced 50% Joint Annuity.	

Schedule SB, Part V — Summary of Plan Provisions

Definitions for participants hired on or after January 1, 2013**Definitions**

Participant	Employees must have completed 1,000 hours of service or attained age 21 to participate in the plan. Effective June 30, 2021, the plan will no longer accept new non-union entrants.
Employee Contributions	None required or permitted.
Vesting Service	Employment from hire date to termination date measured in whole and fractional years.
Credited Service	Employment from hire date to termination date measured in whole and fractional years. Effective June 30, 2021, no additional credited service will be earned by non-union participants under the plan.
Pensionable earnings	The total compensation paid to an employee by the employer during any calendar year as reported on Internal Revenue Service Form W-2, Box 1 or such successor box which describes "wages, tips, other compensation" and any amount which is contributed by the employer to a plan pursuant to a salary reduction agreement and which is not included in the gross income of the participant. This plan shall not consider a participant's annual compensation for any plan year in excess of the Section 401(a)(17) Limitation.
Final average earnings	The participant's average annual compensation received during the five (5) highest consecutive calendar years during which the participant completes 1,000 Hours of Service out of the ten (10) calendar years prior to or including his termination of employment which produce the highest average; or if the participant has fewer than five (5) consecutive calendar years during which the participant completes 1,000 Hours of Service, the average annual compensation received from the employer during all calendar years during which the participant completes 1,000 hours of service prior to his termination of employment; provided however, that for a participant who transfers to this plan from a reciprocal plan, final average earnings shall be determined based on the average annual compensation received only while a participant in this plan. No compensation earned in 2021 or subsequent calendar years by non-union participants will be considered for benefit accrual purposes.
Covered Compensation	Shall mean for a plan year the average of the taxable wage bases in effect for each calendar year during the thirty-five (35) year period ending in the year

Schedule SB, Part V — Summary of Plan Provisions

	which the participant attains (or will attain) Social Security Retirement Age. In determining a participant's covered compensation for a plan year, the taxable wage base for the current plan year and any subsequent plan year shall be assumed to be the same as the taxable wage base in effect as of the beginning of the plan year in which the participant terminated employment or the 2021 plan year, whichever is earlier.
• Accrued Benefit	Shall mean a participant's earned benefit, commencing at the participant's normal retirement age in the form of a life annuity, determined in the same manner as the participant's normal retirement pension and based on the participant's years of benefit service, final average earnings and covered compensation at the date the accrued benefit is being calculated. A participant's accrued benefit shall never be less than the accrued benefit on any prior date. Effective June 30, 2021, all benefit accruals for non-union participants under the plan are frozen.
• Normal retirement³

Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2021, the limit is \$290,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415(b). This limit is indexed annually. For 2021, the limit is \$230,000.

Benefits included or excluded

Unless noted below, all benefits provided by the plan are included in this valuation:

- **Most recent plan amendments included:** All amendments through December 31, 2020 have been reflected in this valuation.
- **Plan amendments excluded:** The Amendment #5 to freeze the plan participation and benefit accruals for non-union participants effective June 30, 2021 was excluded for the minimum funding and plan accounting (ASC 960) purposes because it was adopted after the valuation/measurement date.
- **Late retirement increases:**
 - *Active participants:* The plan applies late retirement actuarial increases for all participants who defer retirement beyond their normal retirement date and this valuation includes those increases.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**

Schedule SB, Part V — Summary of Plan Provisions

- *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits for events that occurred before the valuation date but includes contingent event benefits for events that are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

- Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2020 to 2021.
- Effective June 30, 2021, the plan is closed to new non-union participants and all benefit accruals for non-union participants under the plan are frozen. This plan change is reflected for employer accounting only (under ASC 715/IAS 19) starting with the April 30, 2021 remeasured funded status and expense determination for the remainder of the fiscal year ending January 2, 2022.
- Effective December 31, 2021, Farmland Foods, Inc. Employee Retirement Plan was merged into Smithfield Foods Salaried Pension Plan.

Schedule SB, line 24 — Change in Actuarial Assumptions**Actuarial assumption changes since prior valuation**

The expected investment return for funding was changed from 5.94% for 2020 to 6.11% for 2021. The rate each year is the lessor of the long-term rate of return on assets (6.25% per year for 2020 and 2021) and the 3rd stabilized segment rate for the applicable plan year (5.94% for 2020, 6.11% for 2021).
