Independent Auditor's Report

Members of the Tribal Council and Plan Participants
Chitimacha Tribe of Louisiana
401(k) Profit Sharing Plan

Opinion

We have audited the financial statements of Chitimacha Tribe of Louisiana 401(k) Profit Sharing Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of fiduciary net position as of December 31, 2021 and 2020, the related statement of changes in fiduciary net position for the year ended December 31, 2021, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the fiduciary net position of Chitimacha Tribe of Louisiana 401(k) Profit Sharing Plan as of December 31, 2021 and 2020, and the changes in its fiduciary net position for the year ended December 31, 2021, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the plan financial statements. Such missing information, although not a part of the plan financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the plan financial statements in an appropriate operational, economic or historical context. Our opinion on the plan financial statements is not affected by this missing information.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Chitimacha Tribe of Louisiana 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the Chitimacha Tribe of Louisiana (the Sponsor) 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering governmental and tribal enterprise employees of Chitimacha Tribe of Louisiana at least 18 years of age or older. Initial eligibility requirements are consistent among all contribution types. New full-time employees must complete six consecutive months of service from their first date of employment to be eligible for the Plan. If a full-time employee does not complete six consecutive months of service, they can meet the service requirement after being credited with a year of service. Part-time employees who meet the year of service requirement are eligible as well. An employee must work more than 1,000 hours to meet the year of service requirement. Effective July 15, 2020, part-time employees have the same eligibility requirements as full-time employees outlined above.

The Plan does not include tribal enterprise employees of Keta Group, LLC, Raintree Market, LLC, Sitimaxa Holdings, LLC or Trading Post, LLC. The Tribal Council is responsible for oversight of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan has been established by the Chitimacha Tribe of Louisiana Tribal Council.

Contributions: Participants may elect to contribute up to 100% of their annual compensation, as defined in the Plan. Participants may also elect to contribute to a Roth 401(k) that would allow the participant to make after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). Such contributions are subject to the provisions of the internal revenue code (IRC). Employee contributions are recorded as Plan assets in the period the Sponsor makes the related payroll deductions from Plan participants. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants had their deferral rate set at 2% of eligible compensation. Deferral percentages for eligible participants increase by 1% each January 1 until their deferral reaches 6%. Effective January 15, 2020, the service requirement for part-time employees changed to six months and re-hires will be automatically enrolled at 2%. Eligible employees are automatically enrolled quarterly in the Plan.

The Sponsor's Tribal Council has elected to match 50% of the participant's elective deferral, but limited to deferrals up to 6% of the participant's compensation. The Sponsor's matching contributions are determined at each payroll period and equal a percentage of the participant's elective deferral amount. For the Plan year ended December 31, 2021, the matching contribution was \$448,282.

Profit sharing contributions, if any, are determined annually at the discretion of the Sponsor's Tribal Council. A participant must complete 500 hours of service during the Plan year to receive an allocation of the profit sharing contribution. No profit sharing contributions were approved for the Plan year ended December 31, 2021.

Chitimacha Tribe of Louisiana 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Participant accounts: Each participant's account is credited with the participant's contributions, an allocation of the Sponsor's contributions, allocations of Plan administrative expenses and Plan earnings. Allocations are based on participant account balances or compensation as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options: Upon enrollment, a participant may direct contributions in a variety of investment options, as more fully described in the Plan's literature. Participants may change their investment options daily over the phone or the internet. If a participant does not make investment selections, their contributions will be deposited into a MyCompass Moderate Series Fund, based on the participant's current age and a retirement age of 65.

Notes receivable from participants: Participants may borrow funds from their accounts for a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance upon approval of the Plan Administrator. A participant cannot have more than two loans outstanding at any one time. Loan terms range up to five years or over ten years for the purchase of a participant's primary residence. The loans are collateralized by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan Administrator. These rates range from 4.25% to 6.50% on loans outstanding at December 31, 2021, and mature through 2029. Principal and interest payments must be made, at least quarterly under a level amortization schedule through regular payroll deductions.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Sponsor's contributions portion of their account plus earnings thereon is based on years of service. A year of service is credited after completing 1,000 or more hours of service. A participant's vesting percentage is based on years of service, according to the following:

Years of Service	Percentage
1	25%
2	50%
3	100%

Forfeitures: Forfeitures of the Sponsor's matching contributions may be used to pay Plan expenses with any remaining amount available to reduce future matching contributions. There were approximately \$11,400 and \$5,600 of forfeitures available for the years ended December 31, 2021 and 2020. During the year ended December 31, 2021, approximately \$8,300 of forfeitures were used to reduce Plan expenses or Sponsor's matching contributions.

Payment of benefits: On termination of service, a participant may receive an amount equal to the value of the participant's vested interest in his or her account as a lump-sum distribution or partial withdrawals. If the value of the participant's vested account balance has not exceeded \$5,000, the entire account balance shall be payable in a single sum upon termination of service. In-service distributions are allowed for active participants age 59½ and older, and are limited to two per plan year.

Participants are also allowed to withdraw benefits in the event of financial hardship. Hardship withdrawals are limited to the participant's elective contributions and earnings thereon. Effective December 12, 2019, the Plan was amended to allow hardship withdrawals to be taken from qualified matching contributions and qualified nonelective contributions and terminated the six-month suspension of elective deferrals.

Chitimacha Tribe of Louisiana 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Other: During 2020, the Plan allowed participants to take advantage of the provisions of the Coronavirus Aid, Relief, and Economic Security (CARES) Act to help provide financial stability and relief for eligible participants. The CARES Act provisions that were implemented allowed for special coronavirus-related distributions and waiver of 2020 required minimum distributions. There were no CARES Act provisions in 2021.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The Plan's financial statements are prepared under the accrual method of accounting based on the accounting standards as promulgated by the Governmental Accounting Standards Board (GASB).

Accounting estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value, except for the fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is a market-based measurement, not an entity-specific measurement. For some assets and liabilities, observable market transactions or market information might be available; for others, it might not be available. However, the objective of a fair value measurement in both cases is the same—that is, to determine the price at which an orderly transaction to sell the asset or to transfer the liability would take place between the market and participants at the measurement date under current market conditions. Fair value is an exit price at the measurement date from the perspective of a market participant that controls the asset or is obligated for the liability. See Note 3 for a discussion of fair value measurements.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement for the portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participant account balances and the amounts reported in the statements of fiduciary net position.

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants: Notes receivable from participants are measured at unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make the scheduled repayments and the Plan Administrator deems the participant to be in default, the participant's note receivable is reduced and a benefit payment is recorded based on the terms of the Plan. No allowance for credit losses has been recorded as of December 31, 2021 and 2020.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in supplemental schedule, Schedule H, Line 4i—Schedule of assets (held at end of year).

Payment of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Administrative expenses include fees related to the administration of notes receivable that are charged directly to the participant's account and certain recordkeeping fees paid by the Plan. Investment related expenses are included in net appreciation in fair value of investments.

Note 3. Investment Information

The following is a summary of assets, as of December 31, 2021 and 2020, with those individually exceeding 5% of net position available for benefits, reflected separately:

Note 3. Investment Information (Continued)

Fair value measurements: GASB Statement No. 72, *Fair Value Measurement and Application*, provides guidance for determining a fair value measurement for financial reporting purposes. The Plan categorizes its assets and liabilities measured at fair value within the hierarchy established by accounting principles generally accepted in the United States of America. Assets and liabilities valued at fair value are categorized based on inputs to valuation techniques as follows:

Level 1: Inputs are quoted prices for identical assets or liabilities in an active market that an entity has the ability to access.

Level 2: Inputs—other than quoted prices included within Level 1—are observable for an asset or liability either directly or indirectly.

Level 3: Inputs are unobservable for the asset or liability, which are typically based upon the Plan's own assumptions, as there is little, if any, related market activity.

Hierarchy: The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs.

Inputs: If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Common collective trusts: Common collective trusts are valued at the daily unit value, which is published on NASDAQ. The funds are not traded on this exchange. The value of the unit holder's investment rises and falls with the returns on the underlying assets in the funds.

The Plan invested in the Wells Fargo Stable Return Fund C as of December 31, 2020. The funds invest solely in Wells Fargo Stable Return Fund G, a common collective trust fund and valued at NAV. The NAV is used as a practical expedient to estimate fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3. Investment Information (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020:

	Investments at Fair Value as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Common collective trust funds	\$ 20,477,464	\$ -	\$ -	\$ 20,477,464

	Investments at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Common collective trust funds	\$ 18,404,101	\$ -	\$ -	\$ 18,404,101
Investments measured at net asset value				579,904
Investments at fair value				\$ 18,984,005

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits.

For the year ended December 31, 2021, there were no significant transfers between levels and no transfers in or out of Level 3.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share as of December 31, 2021 and 2020:

Investment	Fair Value		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2021	2020			
Common collective trust fund	\$ -	\$ 579,904	\$ -	Immediate	None

Note 4. Fully Benefit-Responsive Investment Contract

The Plan holds a traditional investment contract with Voya Retirement Insurance and Annuity Company (Voya) that is reported at contract value. Voya maintains the contributions in a general account. The account is credited with contributions, earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer, but may not be less than 1.00%. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

Notes to Financial Statements

Note 4. Fully Benefit-Responsive Investment Contract (Continued)

The Plan's ability to receive amounts due in accordance with a fully benefit-responsive investment contract is dependent on the third-party issuer's ability to meet its contractual obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the IRC or the failure of the trust to be tax-exempt under Section 501(a) of the IRC
2. Premature termination of the contract
3. Plan termination or merger
4. Changes to the Plan's prohibition on competing investment options
5. Bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the agreements without the consent of the issuer

Note 5. Investment Risk Disclosures

Investment policy: The objective of the Plan's investment policy is to offer participants with investment choices from various asset classes in an attempt to provide a sufficient level of overall diversification. The Tribal Council determines guidelines used to select appropriate investment managers, determine guidelines used to monitor investment managers within the Plan, control and account for all costs of managing investments and appropriately educate Plan participants about the various investment choices available to them in the Plan. It is the Plan's policy that the portfolio should be well diversified in an attempt to reduce the overall risk of the portfolio.

Interest rate risk: Interest rate risk is the risk that changes in the market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of a debt type investment means the greater the sensitivity of debt type fair value to changes in market interest rates. The Plan's investment policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The common collective trust fund is not subject to interest rate risk given they have no maturities. The funds in the common collective trusts may be withdrawn at any time.

Notes to Financial Statements

Note 5. Investment Risk Disclosures (Continued)

Credit risk: Generally, credit risk is the risk that the issuer of an investment will not fulfill its obligation to the holder of the investment. The Plan's investment in the common collective trust fund has not been assigned a rating.

Concentration of credit risk: All of the Plan's investments are in the common collective trust fund. The common collective trust fund is not subject to concentration of credit risk.

Custodial credit risk: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a Plan will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a Plan will not be able to recover the value of its investment or collateral securities that are in the possession of another party. All of the Plan's assets consist of the common collective trust fund, which are not subject to custodial credit risk for deposits or investments.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their Sponsor contributions.

Note 7. Income Tax Status

The Plan adopted a volume submitter plan sponsored by Voya Retirement Insurance and Annuity Company. The volume submitter sponsor received an Internal Revenue Service opinion letter dated September 1, 2014, approving the form of the volume submitter plan as an acceptable plan for employers to use for the benefit of their employees. The volume submitter plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken any significant uncertain tax positions that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Related-Party Transactions

Voya Retirement Insurance Annuity Company is the Plan trustee; therefore, transactions with this trustee qualify as party-in-interest transactions. Fees paid by the Plan to the trustee amounted to \$89,142 for the year ended December 31, 2021. The Sponsor also paid certain administrative expenses of the Plan.

Note 9. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 10, 2022, the date the financial statements were available to be issued.
