INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the PPG Industries, Inc. Retirement Plan C:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of PPG Industries, Inc. Retirement Plan C (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 Financial Statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 10 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- the amounts and disclosures in the accompanying 2021 Financial Statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- the information in the accompanying 2021 Financial Statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 6, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 1 - DESCRIPTION OF THE PLAN

The following brief description of the PPG Industries, Inc. (Company) Retirement Plan C (Plan) is provided for general information purposes only. Participants should refer to the Plan document for complete information.

General and Eligibility - The Plan, as amended, is a defined benefit pension plan that was established on January 28, 2013 and provides for participants whose benefits were previously provided under the PPG Industries, Inc. Retirement Income Plan and the PPG Industries, Inc. Retirement Pension Plan (collectively referred to herein as the Former Plans), and who are determined to be eligible based on requirements as defined in the appropriate appendix of the Plan document. The Former Plans were frozen to new entrants in 2006. Additionally, participants no longer accrue benefits as of December 31, 2011 or December 31, 2020, depending on the participants' combined age and service to the Company.

The Global Benefits Leader of the Company is the Plan administrator who controls and manages the operation and administration of the Plan. The Bank of New York Mellon/BNY Mellon, N.A. (BNY Mellon) serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Benefits - Eligible employees become vested after five years of continuous service and are entitled to pension benefits upon retirement as defined by the Plan document. The Plan provides for normal retirement upon reaching normal retirement age, as defined in the Plan document, and has provisions for early retirement and disability benefits for those persons who are eligible to receive such benefits. Monthly benefits under the Plan for all former hourly employees are equal to those benefits determined under terms of the appropriate index in the Plan document, as amended to the date of retirement or termination. Monthly benefits under the Plan for all salaried employees vary depending on the employee's date of retirement, final average monthly earnings and the years of continuous service, as defined by the appropriate index in the Plan document. Such benefits may be reduced by early retirement, survivor benefits or other elected options.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by the Plan administrator in the preparation of the accompanying financial statements is as follows:

Basis of Accounting - The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Accounting Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, the actuarial present value of accumulated plan benefits and the changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition - The Plan's investment in the PPG Industries, Inc. Pension Plan Trust Commingled Fund (Trust) is reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's U.S. Benefits Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, trustee and insurance company. See Note 4 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date by the Trust. Interest income is recorded on the accrual basis by the Trust. Dividends are recorded on the ex-dividend date by the Trust. The Plan's interest in PPG Industries, Inc. Pension Plan Trust Commingled Fund investment income includes the Plan's gains and losses on investments bought and sold as well as held during the year, along with interest and dividends.

Risks and Uncertainties - The Plan utilizes various investment instruments, including equity securities, debt securities, real estate, other assets and interest-bearing cash. Investment securities, in general, are exposed to various risks, such as interest rate, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made, and the actuarial present value of accumulated plan benefits is reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Expenses - The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment-related expenses are included in Plan interest in PPG Industries, Inc. Pension Plan Trust Commingled Fund investment income presented in the accompanying statement of changes in net assets available for benefits.

Subsequent Events - Subsequent events are defined as events or transactions that occur after the statement of net assets available for benefits date, but before the financial statements are issued or are available to be issued. The Plan administrator has evaluated subsequent events through October 11, 2022, the date that the financial statements were issued and determined that there have been no events that have occurred that would require adjustment to the disclosures in the financial statements.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service that employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired, terminated or transferred employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances, including retirement, death, disability and termination of employment, are included to the extent that they are deemed attributable to employee service rendered to the date upon which the benefit information is presented.

As of December 31, the actuarial present value of accumulated plan benefits is as follows:

	2021	2020
Vested benefits:		
Active participants	$ 238	$ 267
Inactive participants with deferred benefits	20	18
Inactive participants receiving benefits	247	201
	505	486
Nonvested benefits	10	17
	$ 515	$ 503

The changes in the actuarial value of accumulated plan benefits for the year ended December 31, 2021 were as follows:

Actuarial present value of accumulated plan benefits	
Beginning of year, January 1	$ 503
Increase (decrease) during the year attributable to:	
Benefits accumulated and losses	2
Increase for interest due to decrease in discount period	39
Benefits paid directly to participants	(29)
Net change	12
Actuarial present value of accumulated plan benefits end of year, December 31	$ 515

The actuarial present value of accumulated plan benefits was determined by the Plan's actuary, Mercer, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal or retirement) between the valuation date and the expected dates of payment.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The significant actuarial assumptions used in determining accumulated plan benefits were (a) the PRI-2012 mortality tables at December 31, 2021 and 2020, (b) the Mercer developed projection scale (MMP-2021) and the Mercer developed projection scale (MMP-2019) at December 31, 2021 and 2020, respectively, (c) an assumed average retirement age of 61 at December 31, 2021 and 2020, and (d) an interest rate of 8.00% as of December 31, 2021 and 2020.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 4 - INTEREST IN PPG INDUSTRIES, INC. PENSION PLAN TRUST COMMINGLED FUND

The Plan's investments are in the Trust, which was established for the investment of assets of the Plan and with one other Company-sponsored retirement plan. Each participating retirement plan has an undivided interest in the Trust. The assets of the Trust are held by BNY Mellon. The Plan is allocated its interest in the assets and earnings of the Trust. The investment assets of the Plan consist of an undivided interest in the Total Combined PPG Fund (Fund) of the Trust. Use of the Fund permits the commingling of the Trust assets of the pension plans of the Company for investment and administrative purposes.

The value of the Plan's interest in the Trust is based on the beginning-of-year value of the Plan's interest in the Trust plus actual contributions and allocated investment income and losses less actual distributions and allocated administrative expenses. Investment gains and losses and administrative expenses relating to the Trust are allocated to the individual plans based on the amount of time that the Plan's assets were invested in the Trust. At December 31, 2021 and 2020, the Plan's interest in the net assets of the Trust was approximately 50.6% and 48.6%, respectively.

The following table presents the net assets of the Trust and the Plan's interest in those assets as of December 31:

	2021		2020	
	Master Trust Balances	Plan's Interest in Master Trust Balances	Master Trust Balances	Plan's Interest in Master Trust Balances

Income receivable	7	3	33	16
Net assets available for benefits	$ 1,332	$ 674	$ 1,335	$ 649

Investment income of the Trust for the year ended December 31, 2021 was as follows:

Net appreciation in fair value of investments	$ 56
Interest and dividends	21
Investment advisory and management fees	(3)
Net investment income	$ 74

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the assets or liabilities;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTE 4 - INTEREST IN PPG INDUSTRIES, INC. PENSION PLAN TRUST COMMINGLED FUND (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Equity Securities - Valued at the closing price reported on the active market on which the individual securities are traded. Holdings in publicly traded equity securities of issuers in both developed markets and emerging economies are valued using pricing models maximizing the use of observable inputs for similar securities.

Debt Securities - Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar securities, inputs used for the valuation can include a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that might not be observable, such as credit and liquidity risks or a broker quote if available.

Real Estate - Valued using external appraisals that are performed at least annually by reputable, independent appraisal firms. External appraisals are performed in accordance with the Uniform Standards of Professional Appraisal Practices. Key inputs and assumptions to determine fair value include, among others, rental revenue and expense amounts and the related revenue and expense growth rates, terminal capitalization rates and discount rates. Property valuations are also reviewed on a regular basis and are adjusted if there has been a significant change in circumstances related to the property since the last valuation.

Other Assets - Consists of small investments in private equity funds and senior secured debt obligations of non-investment grade borrowers. Key inputs to determine fair value include, but are not limited to, the enterprise value of a portfolio company, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons to publicly traded securities, and changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made.

Interest-Bearing Cash - Valued using net asset value, which approximates fair value based upon the short-term nature of this investment.

NOTE 4 - INTEREST IN PPG INDUSTRIES, INC. PENSION PLAN TRUST COMMINGLED FUND (Continued)

The investments of the Trust that are reported at fair value on a recurring basis as of December 31 are as follows:

	2021			
	Level 1	Level 2	Level 3	Total
Equity securities	$ 233	$ 333	-	$ 566
Debt securities	66	465	$ 100	631

Securities lending collateral:				
Interest-bearing cash	-	13	-	13
Total investments at fair value	$ 273	$ 886	$ 189	$ 1,348

During the years ended December 31, 2021 and 2020, purchases of Level 3 assets were $95 and $64, respectively. During the years ended December 31, 2021 and 2020, sales of Level 3 assets were $69 and $54, respectively. There were no transfers into or out of Level 3 for the years ended December 31, 2021 and 2020.

NOTE 5 - SECURITIES LENDING

The Trust is authorized to engage in the lending of certain investments under the terms of a Securities Lending Authorization Agreement. Securities lending is an investment management enhancement that utilizes certain existing securities of the Trust to earn additional income. Securities lending involves the loaning of securities to approved banks and broker/dealers. In return for the loaned securities, the trustee, prior to or simultaneous with the delivery of the loaned securities to the borrower, receives collateral in the form of cash or U.S. government securities as a safeguard against possible default of any borrower on the return of the loan under terms that permit the Trust to repledge or sell the securities. The collateral is marked to market on a daily basis. In the event the counterparty is unable to meet its contractual obligation under the Securities Lending Authorization Agreement, the Plan may incur losses equal to the amount by which the market value of the securities differ from the amount of collateral held. The Plan mitigates credit risk associated with securities lending arrangements by monitoring the fair value of the securities loaned on a daily basis, with additional collateral obtained or refunded as necessary.

The Trust maintains full ownership rights to the securities loaned and, accordingly, classifies loaned securities as investments. Because the securities received as collateral may be repledged or sold, the Trust recognizes the amount of collateral received and a corresponding obligation to return such collateral on the statements of net assets available for benefits. (See Note 4.) The fair value of securities on loan was approximately $9 and $12 and the fair value of collateral was approximately $9 and $13 at December 31, 2021 and 2020, respectively.

	Gross Amounts of Recognized Liabilities	Net Amount of Liabilities Presented in the Financial Statements	Gross Amounts Not Offset in Financial Statements		Net Amount
			Financial Instruments	Cash Collateral Pledged

December 31, 2020

Mellon Bank, N.A.	$ 13	$ 13	$ 12	N/A	$ 1

NOTE 6 - FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make contributions to the Plan based on the calculations of the Plan's actuary using the unit credit cost method, which consists of normal cost, plus amortization of unfunded prior service costs over a 40-year period or less.

NOTE 6 - FUNDING POLICY (Continued)

The Company met the minimum funding requirements of ERISA for the years ended December 31, 2021 and 2020.

NOTE 7 - PLAN TERMINATION

Although the Company has not expressed any intention to do so, it has the right under the Plan to discontinue its contributions to the Plan at any time and terminate the Plan subject to the provisions set forth in the Plan document and ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.

2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire within that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the three years preceding Plan termination.

3. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.

4. All other vested benefits (that is, vested benefits not insured by the PBGC).

5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 8 - TAX STATUS

The Plan obtained its latest determination letter on March 28, 2017, in which the Internal Revenue Service (IRS) states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2018.

NOTE 9 - RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in certain funds managed by BNY Mellon. The Plan paid certain expenses related to Plan operations and investment activity to the various service providers and the Company, including an allocation of salaries of employees who perform administrative functions on behalf of the Plan. These transactions are party-in-interest transactions under ERISA.

NOTE 10 - CERTIFIED INVESTMENTS (UNAUDITED)

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, BNY Mellon, a qualified institution, has certified that the following investment information included in the accompanying financial statements is complete and accurate.

- Plan interest in PPG Industries, Inc. Pension Plan Trust Commingled Fund as shown in the statements of net assets available for benefits as of December 31, 2021 and 2020.

- Plan interest in PPG Industries, Inc. Pension Plan Trust Commingled Fund investment income as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2021.

At the request of the Plan administrator, the Plan's independent auditor did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements.

NOTE 11 - CONTINGENCIES

The Plan periodically is subject to claims that arise in the ordinary course of operations. It is the opinion of management that the disposition or ultimate resolution of such claims will not have a material adverse effect on the statements of net assets available for benefits or statements of changes in net assets available for benefits. However, the ultimate outcome is unknown as of the date of the independent auditor's report.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, line 24 — Change in Actuarial Assumptions

Actuarial assumption changes since prior valuation

- Segment rates and mortality rates were updated from 2020 to 2021 in accordance with PPA. The 2021 stabilized segment rates reflect the relief contained in the American Rescue Plan Act of 2021.
- The expense component of normal cost was updated to reflect our expectations for the current plan year. The decrease in administrative expenses is due to the decrease in PBGC premiums expected in 2021 compared to 2020.
- The expected investment return assumption was updated from 7.50% to 7.00%.

Schedule SB, line 32 — Schedule of Amortization Bases

The total shortfall amortization charge is the sum of the individual shortfall amortization installment for each plan year covered under PPA. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than $0.

Actuarial methods

Asset methods

The asset valuation method is an average of the adjusted market value for the last year preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on employees participating in the plan as of the valuation date.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts**: The plan does not have any insurance contracts.

[2] Annual rate per 1,000 participants.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Summary of major plan provisions

The following is a summary of what we understand to be the most relevant plan provisions for purposes of actuarial valuations. This summary should not be used for purposes of determining plan benefits under the plan.

The Retirement Income Plan and the Retirement Pension Plan were restructured effective as of January 28, 2013. As a result of the restructuring, the Retirement Income Plan and Retirement Pension Plan were replaced by six separate pension plans.

- PPG Industries, Inc. Retirement Plan A
- PPG Industries, Inc. Retirement Plan B
- PPG Industries, Inc. Retirement Plan C
- PPG Industries, Inc. Retirement Plan D
- PPG Industries, Inc. Retirement Plan E
- PPG Industries, Inc. Retirement Plan F

The PPG Industries, Inc. Retirement Plan D was terminated on March 31, 2014 with assets distributed on June 30, 2014.

The PPG Industries, Inc. Retirement Plan E was merged into the PPG Industries, Inc. Retirement Plan F on July 31, 2016.

The PPG Industries, Inc. Retirement Plan A was merged into the PPG Industries, Inc. Retirement Plan C on December 31, 2016.

The PPG Industries, Inc. Retirement Plan B was merged into the PPG Industries, Inc. Retirement Plan F on December 31, 2017.

The chart below outlines a description of the appendices for the Plans in effect as of the valuation date. Further details on each appendix are also provided in this Section.

– April 1, 2000 Change in Plan Provisions	The regular formula was changed from (.950% FAE + .650% FAE in excess of Social Security Covered Compensation) x Credited Service (maximum 35 years) to (.855% FAE + .585% FAE in excess of Social Security Covered Compensation) x Credited Service (maximum 35 years) The early retirement reduction factors were changed from the rates described in Exhibit A to:

Schedule SB, Part V — Summary of Plan Provisions

	• Regular formula – 3% per year from 4 years prior to Social Security Normal Retirement Age • Alternate formula – 5% per year from 4 years prior to Social Security Normal Retirement Age However, at retirement, all participants hired on or before April 1, 2000 will have a minimum benefit equal to (a) + (b) where: a) the benefit under the old regular formula (.950%/.650%) using final average earnings at retirement and service at April 1, 2000. b) the benefit under the new regular formula (.855%/.585%) using final average earnings at retirement and service since April 1, 2000. Benefits earned under (a) are reduced from early retirement by the factors in Exhibit A and benefits earned under (b) are reduced from early retirement by 3% for each year retirement occurs prior to four years before Social Security Age.
• Social Security Covered Compensation	Based on Social Security Act in effect at date of computation, the average monthly earnings subject to Social Security taxes assuming that the participant, for each year through and including the year prior to SSNRA, earns an amount at least equal to the Social Security taxable wage base for each year.
• Special Minimum Death Benefit	For any participant who made contributions under the prior plan, a minimum lump sum death benefit equal to contributions plus credited interest (to earlier of date of death or benefit commencement date) less benefits paid to participant and joint annuitant, if any.
• Special Premium for Pilots	For any pilot who retires on or after his 60th birthday, benefits will be calculated using "Pilot's Credited Service" (Credited Service plus two years) and "Pilot's Final Average Salary" (Final Average Salary calculated assuming salary at termination date continued for two years). Additionally, a temporary monthly supplement of $400 will be paid from benefit commencement date to the earlier of date of death or attainment of age 62.
• Auto Glass Divestiture	In accordance with the terms of the divestiture of the auto glass business, affected salaried employees with 80 points at date of sale receive salary increases of 1.50% per year during continued employment with PGW.

In early 1998, employees at Tipton were offered a voluntary limited program of severance. Any employee who applied for the limited program of severance who was eligible for a retirement benefit under the pension plan on the date of severance, was eligible for a monthly special pension benefit. The monthly special pension benefit was an amount equal to the accrued pension benefit the employee has earned under the pension plan provisions at the date of severance. The monthly special pension benefit is payable through the end of the month the employee becomes 62 years of age. The special pension benefit payable to an employee under this program is capped at one and one-half times (1-1/2) the severance benefit.

Employees who elected to participate in the voluntary limited program of severance and who were eligible to receive the special pension benefit shall be eligible to receive the special early retirement benefit upon attainment of age 62. The special early retirement benefit is payable from age 62 to age 65 under the provisions of the pension plan. At age 65, the pension benefit will be adjusted to normal rates.

[15] Also includes the Special 30-Year Benefit.

Maximum annual benefits

Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2021, the limit is $230,000.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through the measurement date, are included in this valuation.

- **Most recent plan amendment included:** Amendments adopted by the valuation date or effective by the end of the plan year are included in this valuation.
- **Plan amendments excluded:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Late retirement increases:**
  - *Active participants:* Current active participants over normal retirement age are valued using their accrued benefit. PPG provides suspension of benefit notices so actives are not entitled to late retirement increases until after age 70.5. Therefore, late retirement actuarial increases are deemed to be immaterial for the purposes of this valuation.
  - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Sections 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value

for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

- IRC Section 436 benefit restrictions:
  - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
  - Plan amendments: See above.
  - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
  - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

- For Delaware participants the temporary supplement was increased from $550 to $700 per month payable until age 62 for 55/85 retirements.
- A plan amendment restored salaried participants benefit accruals due to a period of reduced salaries from 5/1/2020 (or 4/1/2020 for certain individuals) until 8/1/2020. This included qualified plan accruals for certain HCEs being restored in the PPG SERP plan.
- Lump sums were offered to terminated vested participants in the plan during December 2020.
- As per the prior amendment, accruals froze for all participants as of December 31, 2020
