Independent Auditor's Report

Parker University 403(b) Committee
Parker University 403(b) DC Plan
Dallas, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of Parker University 403(b) DC Plan (Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the year ended December 31, 2021, stating that the certified investment information, as described in *Note 3* to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2021 financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of Parker University 403(b) DC Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Parker University 403(b) DC Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Parker University 403(b) DC Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Parker University 403(b) DC Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of Parker University 403(b) DC Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by qualified institutions. In our report dated October 13, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations under ERISA.

Parker University 403(b) DC Plan

Notes to Financial Statements

December 31, 2021 and 2020

Note 1: Description of the Plan

General

The following description of the Parker University 403(b) DC Plan (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that operates under Section 403(b) of the Internal Revenue Code (IRC). The Plan is sponsored by Parker University (University) to provide retirement benefits for participating employees. The Plan is subject to provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF), Reliance Trust Company (Reliance), Massachusetts Mutual Life Insurance Company (Mass Mutual), and Empower Retirement ("Empower") serve as Plan custodians.

The Parker University 403(b) Committee is responsible for the oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Employees are eligible to participate in the salary reduction arrangement in the Plan (unless in an excluded class) as of their employment commencement date if they have a work schedule of 20 hours per week. Effective January 1, 2019, the Plan was amended, and employees hired prior to January 1, 2019 (and not yet eligible to receive a University contribution by January 1, 2019), must complete a one year of service requirement to be eligible to receive a University contribution under the Plan. Such employees will enter the Plan for University contribution purposes on the first day of the payroll period coinciding with or next following satisfaction of the age 21 and one year of service eligibility requirements. Employees hired after January 1, 2019, must contribute at least 1% of eligible compensation to be eligible to receive a University contribution.

Contributions

The Plan includes a salary deferral arrangement allowed under Section 403(b) of the IRC. Eligible participants are permitted to elect to have a percentage, limited by Plan provisions, of their compensation contributed as pre-tax 403(b) contributions or as Roth contributions to the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation with a 1% increase annually up to 10%, and their contributions invested in the designated default fund until changed by the participant. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

Parker University 403(b) DC Plan

Notes to Financial Statements

December 31, 2021 and 2020

The Plan also allows University contributions of 6% for participants deferring 1% or greater of eligible compensation.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover) or conduit IRA's. Participants direct the investment of contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Investment Account Options

Participants direct the investment of their contributions and the University's contributions to selected investment options offered by the Plan. Participants may change their investment options daily should they choose.

Participant Accounts

Each participant's account is credited with the participant's contribution, the University's contribution and an allocation of Plan earnings and losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, or participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Vesting

Participants are vested immediately in their contributions, plus actual earnings thereon. Effective January 1, 2019, vesting in the University's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service.

Notes Receivable from Participants

The Plan Document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be \$1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the Plan Administrator.

Parker University 403(b) DC Plan

Notes to Financial Statements

December 31, 2021 and 2020

In 2020, the Plan Sponsor (University) adopted the *Coronavirus Aid, Relief, and Economic Security Act* (CARES Act) provisions for loan relief to 1) delay certain required loan repayments for one year and 2) increase loan limits to the lesser of \$100,000 or 100 percent of the participant's vested balance for coronavirus-related loans. The CARES Act provided for the increased loan limit for coronavirus-related loans issued from March 27, 2020 through September 22, 2020. The one-year suspension of loan repayments applies to qualified participants' loan payments due between March 27, 2020, and December 31, 2020. Following the suspension period, these loans will be re-amortized over the remaining period of the loans, plus the suspension period.

Plan Loans

Participants with investments held by TIAA and CREF may borrow from TIAA and CREF a minimum of \$1,000 and up to the lesser of \$50,000 or 50% of the vested portion of their account. These loans are direct loans between the participant and TIAA and CREF, the custodian, and as such they are not treated as a transfer from the investment funds to a note receivable from participant or as a plan asset. However, 110% of the outstanding loan balance is collateralized by the participant's account and this portion of their account is transferred at the time of the loan and maintained in the TIAA Traditional Annuity within the participant's account. Loans must be repaid to TIAA and CREF by the participant in accordance with the repayment terms of the agreement. In the event of default, foreclosure on the participant's account balance will not occur until a distributable event occurs in the Plan. Outstanding loans between Plan participants and TIAA and CREF totaled \$19,922 and \$28,296 as of December 31, 2021 and 2020, respectively.

Payment of Benefits

Upon termination of service, death, disability or retirement, a participant may elect to receive the value of the vested interest in his or her account in the form of a lump sum distribution, annuity, or installment. The Plan allows for in-service distributions if a participant reaches age 59 ½ and hardship distributions subject to Plan provisions.

In 2020, the Plan Sponsor (University) implemented *Coronavirus Aid, Relief, and Economic Security Act* (CARES Act) provisions for coronavirus-related distributions (CRD). Through December 30, 2020, qualified participants are permitted to take a CRD of up to \$100,000 from the Plan. Participants who take a CRD have the option to have the distribution taxed over a three-year period, with the ability to recontribute up to the full amount of the distribution within three years and not be subject to federal income tax as a result. The Plan also waived minimum distribution requirements for any distribution required to be made in 2020.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Parker University 403(b) DC Plan
Notes to Financial Statements
December 31, 2021 and 2020

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Quoted market prices, if available, are used to value investments. Mutual funds are valued at estimated fair value as provided by Reliance Trust, Massachusetts Mutual Life Insurance Company (Mass Mutual) and Empower Retirement (“Empower”).

Investment in the TIAA real estate pooled separate account is stated at estimated fair value in accordance with the policies and procedures reviewed by the investment committee of TIAA. The value of the units held in the pooled separate account is based on the market value of the underlying real estate holdings which are valued principally utilizing external appraisals and involve significant judgment.

For investment contracts that are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The contracts, consisting of fixed return contracts, are included in the accompanying financial statements at contract value. Contract value represents contributions made under the contract, plus earnings less withdrawals and administrative expenses.

Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Parker University 403(b) DC Plan
Notes to Financial Statements
December 31, 2021 and 2020

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 and 2020. Delinquent notes receivable are recorded as distributions on the basis of the terms of the Plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

New Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes Disclosure Requirements for Fair Value Measurement*. The new standard simplifies the disclosure requirements for fair value measurements and modified the disclosures required for Level 3 fair value measurements.

The Plan adopted this standard on January 1, 2020. The new accounting guidance removes the policy for timing of transfers between levels, the valuation process for Level 3 fair value measurements, and for nonpublic entities, the change in unrealized gains and losses for the period for recurring Level 3 fair value measurements held at the reporting period. In lieu of a rollforward for Level 3 fair value measurements, a non-public entity is required to disclose transfers into and out of Level 3 of the fair value hierarchy and purchases and issues of Level 3 assets and liabilities. Also, for investment in certain entities that calculate net asset value, an entity is required to disclose the timing of liquidation of an investee's assets and the date when restrictions from redemption might lapse only if the investee has communicated the timing to the entity or announced the timing publicly.

Note 3: Certification of Plan Custodians

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF), Reliance Trust Company (Reliance), Massachusetts Mutual Life Insurance Company (Mass Mutual) and Empower Retirement ("Empower"), qualified institutions, have certified the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

Parker University 403(b) DC Plan
Notes to Financial Statements
December 31, 2021 and 2020

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2021 and 2020.
- Investment income and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2021 and 2020.
- Investment information and notes receivable from participants included in the accompanying schedule of assets (held at end of year) as of December 31, 2021.

The Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

Note 4: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2021 and 2020:

Investments at fair value				

The following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2021 and 2020. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. See the table below for inputs and valuation techniques used for Level 3 securities.

Level 3 Valuation Process

Fair value determinations for Level 3 measurements of securities are the responsibility of the plan administrator. The plan administrator challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting standards generally accepted in the United States.

Unobservable (Level 3) Inputs

The following tables present quantitative information about unobservable inputs used in recurring Level 3 fair value measurements at December 31, 2021 and 2020:

	Fair Value	Valuation Technique	Unobservable Inputs	Range (Weighted- Average)
December 31, 2021				
TIAA traditional annuity contract	\$ 1,453,444	Discounted cash flow	Risk-adjusted discount rate applied	Retirement Annuities (RA) 3.25% - 4.75%
December 31, 2020				
TIAA traditional annuity contract	\$ 1,471,677	Discounted cash flow	Risk-adjusted discount rate applied	Retirement Annuities (RA) 3.25% - 4.75%

(A) Unobservable inputs were weighted by the relative fair value of the instruments. For mortgages, the average represents the arithmetic average of inputs and is not weighted by the relative fair value or notional amount.

Sensitivity of Significant Unobservable Inputs

The following is a description of the sensitivity of significant unobservable inputs, the interrelationships between those inputs and other unobservable inputs used in recurring fair value measurement and how those inputs might magnify or mitigate the effect of changes in the unobservable inputs on the fair value measurement.

TIAA Traditional Annuity Contract

The significant unobservable input used in the fair value measurement of the Plan's TIAA traditional annuity contract is the interest rate of the investment contract. Changes in the contractual interest rate would have resulted in a significant change in fair value to the extent the change deviates from changes in market interest rates. Generally, an increase (decrease) in the difference between the contractual interest rate and the market interest rate would have been accompanied by a directionally opposed change in the fair value.

Level 3 Activity

Activity, transfers into and out of Level 3, and the reasons for those transfers are as follows:

2021

Purchases	\$ 164,772
Sales	(227,181)
Transfers into Level 3	77,715
Transfers out of Level 3	(76,993)

2020

Purchases	105,778
Sales	(169,134)
Transfers into Level 3	\$ 38,992
Transfers out of Level 3	(60,378)

Note 5: Investment Contracts with Insurance Companies

TIAA Traditional Annuity Nonbenefit Responsive

The TIAA Traditional Annuity is a guaranteed fixed annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The Traditional Annuity is offered through one contract type, Retirement Annuities (RA). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement. Upon termination of the investment contract, the lump sum liquidation value of the general account portion of the participant's accumulation value shall be equal to the product of (a) the participant's general account accumulation value on the liquidation date, reduced by the liquidation charge applicable on the liquidation date and (b) a market value adjustment percentage.

Parker University 403(b) DC Plan

Notes to Financial Statements

December 31, 2021 and 2020

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years.

RA contracts may require withdrawals in the form of a lifetime payout annuity or in periodic installments over a 10-year period. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statement of changes in net assets available for benefits.

TIAA Traditional Annuity Benefit Responsive

The Plan entered into a fully benefit-responsive guaranteed investment contract with TIAA. The insurance company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Contract value, as reported to the Plan by the issuer, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against the contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The plan administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable. The fixed annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

MassMutual General Account

In 2017, the Plan entered into a fully benefit-responsive guaranteed investment contract with an insurance company. The insurance company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Contract value, as reported to the Plan by the issuer, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Investment contracts held by the Plan consist of the following at December 31:

	<u>2021</u>	<u>2020</u>
Investment contracts:		
Fully Benefit Responsive (Contract Value)	\$ 1,265,910	\$ 1,200,599
Nonbenefit Responsive (Fair Value)	1,453,444	1,471,677
Total investment contracts	<u>\$ 2,719,354</u>	<u>\$ 2,672,276</u>

Note 6: Plan Amendments

Effective November 11, 2021, the Plan was amended and restated ("Plan Amendment") and a new custodian of the Plan was appointed. Plan assets transferred to the new Custodian were transferred into funds comparable to those offered by the previous custodian. The conversion initiated a "Black Out" period beginning November 12, 2021 and continued through November 14, 2021. During this period, funds could not be applied to the employee-selected funds with the Custodian or withdrawn from the Plan until the Custodian had time to accurately complete the conversion. During this period, employee contributions continued to be made through payroll deductions and the contributions were deposited and held in the Equity Fund until the completion of the Black Out period. At the end of the Black Out period, these funds were transferred to the new Custodian and invested in funds as requested by each participant.

December 31, 2021 and 2020

Effective on the closing date of the transaction, Empower Retirement (“Empower”) acquired the Massachusetts Mutual Life Insurance Company’s (“MassMutual”) retirement business. Through this transaction, business written by MassMutual is reinsured by Great-West Life & Annuity Insurance Company (“GWL&A”), and in New York by Great-West Life & Annuity Insurance Company of New York. Concurrently, MassMutual retroceded business it reinsures from a cedent, which MassMutual assumed in a previous transaction.

On the closing date of the transaction, Empower will administer the business on MassMutual’s behalf, with certain administrative services being performed by MassMutual and its affiliates during a temporary transition period. Additionally, GWFS Equities, Inc., will be the distributor of the MassMutual insurance products sold on Empower’s platform.

Note 7: Related-Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

Certain plan investments are managed by the custodians, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The University provides certain administrative services at no cost to the Plan.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Note 10: Plan Termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 11: Tax Status

The Plan, together with the investment vehicles, is intended to be a tax-sheltered plan under Section 403(b) of the IRC of 1986, as amended. The Plan has not requested or obtained a determination letter, as the IRS does not currently provide that service for 403(b) plans. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and not subject to tax.

Note 12: Subsequent Events

Subsequent events have been evaluated through October 10, 2022, which is the date the financial statements were available to be issued.

Schedule C Soft Dollar Compensation Eligible Indirect Compensation Statement

Mutual fund investments of the plan (whether direct or indirect through a separate investment account) may have soft dollar arrangements pursuant to which the investment advisor or sub-advisor to the mutual fund (and/or its affiliates) may direct trades to certain brokers in exchange for research and other services, other than just trade execution. For plans investing directly or indirectly in the MassMutual Premier or Select Funds, MassMutual provided the required written disclosure regarding soft dollar compensation on the Schedule C Formula Description and/or EIC Statement Description Attachment. For all other mutual funds, MassMutual provided the required written disclosure in the Statement of Additional Information (“SAI”).

For additional information on soft dollar compensation, refer to the section of the mutual fund’s SAI that discusses brokerage allocation and other practices.
