Independent Auditors' Report

To the Plan Administrator of
The University of Vermont Medical Center Pension Plan
Burlington, Vermont

Opinion

We have audited the accompanying financial statements of The University of Vermont Medical Center Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for plan benefits as of December 31, 2021 and 2020 (in liquidation), and the related statements of changes in net assets available for plan benefits for the years then ended (in liquidation), and the related notes to the financial statements.

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the net assets available for plan benefits of The University of Vermont Medical Center Pension Plan as of December 31, 2021 and 2020 (in liquidation), and the changes in its net assets available for plan benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter – Basis of Accounting

As discussed in Note 1 to the financial statements, the Plan terminated effective June 30, 2020. As a result, the accompanying financial statements for the years ended December 31, 2021 and 2020 are prepared on the liquidation basis. Our opinion is not modified with respect to that matter. Subsequent to the termination date, the Plan is no longer a going concern.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The University of Vermont Medical Center Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Notes to Financial Statements

December 31, 2021 and 2020

(1) Description of Plan

The following description of The University of Vermont Medical Center Pension Plan (the “Plan”) was provided for general information purposes only. Participants should refer to the Plan Document for more complete information.

- (a) **General** – The Plan was a defined benefit pension plan covering certain employees of The University of Vermont Medical Center (the “Company”) except house staff, chaplains, and as described below. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was amended effective January 1, 1995 to close the Plan participation except for those eligible employees who were members of the Plan on December 31, 1994. In addition, effective July 1, 1996, the accrual of benefits was frozen for participants who did not meet certain eligibility criteria.

In May 2020, the Plan sent an intent to terminate letter to all participants in the Plan. The effective date of Plan termination was June 30, 2020. The two participants accruing benefits were frozen as of that date. The actuary, Willis Towers Watson, performed analysis to estimate participants’ distributions upon plan termination. Effective December 10, 2021, all plan assets have been distributed and all plan obligations have been satisfied. The Plan has ceased to exist.

- (b) **Pension Benefits** – Participants with five years of continuous service, as defined by the Plan, were entitled to pension benefits upon retirement. Pension benefits were provided to participants under several types of retirement options based upon years of continuous service and age. Retirement benefits were paid to pensioners or beneficiaries in various forms of joint and survivor annuities, including a lump-sum payment option.
- (c) **Administration** – The Plan administrator was the Benefits Manager of the Company and was responsible for the general administration of the Plan and for carrying out the Plan’s provisions.

(2) Summary of Significant Accounting Policies

- (a) **Basis of Accounting** – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (generally accepted accounting principles). Effective January 1, 2020, the financial statements are presented on the liquidation basis of accounting.
- (b) **Use of Estimates** – The preparation of financial statements in conformity with generally accepted accounting principles in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

The University of Vermont Medical Center Pension Plan

Notes to Financial Statements

December 31, 2021 and 2020

Summary of Significant Accounting Policies (continued)

- (c) **Risks and Uncertainties** – The Plan utilized various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it was reasonably possible that changes in the values of investment securities would occur in the near term and that such changes could have materially affected the amounts reported in the financial statements.

Plan contributions were made and the actuarial present value of accumulated plan benefits were reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which were subject to change. Due to uncertainties inherent in the estimations and assumptions process, it was at least reasonably possible that changes in these estimates and assumptions in the near term could have been material to the financial statements.

- (d) **Investment Valuation and Income Recognition** – Investments were stated at fair value. Fair value of a financial investment is the amount that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. Shares of fixed income and money market funds were carried at the net asset value, which approximates fair value. Shares of mutual funds were valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the mutual funds and money market funds were deducted from income earned on a daily basis and were not separately reflected. Consequently, management fees and operating expenses on the mutual funds and money market funds were reflected as a reduction of investment return for such investments. Management fees for the common collective trusts were paid quarterly by the Plan and are reflected in the administrative expenses account.

- (e) **Expenses** – Direct administrative expenses of the Plan were paid by the Plan, as provided in the Plan Document. Expenses include investment management fees, trustee fees, Pension Benefit Guaranty Corporation (PBGC) insurance premiums, and expenses for professional services incurred by the Plan. Administrative expenses paid by the Plan were recorded on the accrual basis. The Company provides accounting and other administrative services to the Plan at no charge.

- (f) **Payment of Benefits** – Benefit payments were recorded upon distribution.

- (g) **Subsequent Events** – The Plan evaluated subsequent events through September 23, 2022, the date the Plan's financial statements were available to be issued.

The University of Vermont Medical Center Pension Plan

Notes to Financial Statements

December 31, 2021 and 2020

(3) Funding Policy

Contributions to provide benefits under the Plan were made solely by the Company. The Company's funding policy was to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2021 and 2020.

(4) Accumulated Plan Benefits

Accumulated plan benefits were those future periodic payments, including lump-sum distributions that were attributable under the Plan's provisions to services rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The January 1, 2020 actuarial present value of accumulated plan benefits was determined by an independent actuary. It was the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. There was no actuarial valuation performed for the year beginning January 1, 2021 as it was in liquidation.

The effect of Plan amendments on accumulated plan benefits was recognized during the year in which such amendments become effective.

The actuarial present value of accumulated plan benefits as of January 1, 2021 and 2020 were as follows:

	2021	2020
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants and/or beneficiaries		
currently receiving benefits	\$ -	\$ 69,686,496
Deferred vested	-	14,824,165
Active participants	-	28,626,553
Total vested benefits	-	113,137,214
Nonvested benefits	-	663,767
Total actuarial present value of accumulated plan benefits	\$ -	\$ 113,800,981

The University of Vermont Medical Center Pension Plan

Notes to Financial Statements

December 31, 2021 and 2020

Accumulated Plan Benefits (continued)

The change in actuarial present value of accumulated plan benefits for the years ended January 1, 2021 and 2020 were as follows:

	2021	2020
Actuarial present value of accumulated plan benefits at beginning of year	\$ 113,800,981	\$ 89,530,208
Benefits accumulated	-	25,471
Actuarial (gains)/losses	-	(568,434)
Decrease in discount period	-	4,726,732
Benefits paid and obligations satisfied	(113,800,981)	(7,230,189)
Change in assumptions	-	27,317,193
Actuarial present value of accumulated plan benefits at end of plan year	\$ -	\$ 113,800,981

The significant actuarial assumptions used in the January 1, 2021 and 2020 valuations were as follows:

Mortality: The mortality assumptions for January 1, 2020 were based on the Pri-2012 mortality tables (blue collar adjustment; separate rates for males/females, annuitants/non-annuitants) with generational mortality improvement projected using MP-2020 mortality improvement scale. For the valuation January 1, 2019, the PR-2014 mortality tables (separate rates for males/females, annuitants/non-annuitants) adjusted back to 2006 with Scale MP-2014 and then projected generationally using Scale MP-2018 for future mortality improvements from 2006 on.

Retirement age: Expected retirement of 5% for ages 55–61, 15% at age 62, 10% at ages 63 and 64, 25% retire at age 65-69, and all remaining at age 70.

Discount rate: 2% and 5.5% as of January 1, 2021 and 2020, respectively.

The January 1, 2021 and 2020 actuarial assumptions were based on Plan termination information. The changes in actuarial assumptions include a change in discount rate as well a change in other assumptions to reflect experience.

(5) Fair Value Measurements

Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The University of Vermont Medical Center Pension Plan

Notes to Financial Statements

December 31, 2021 and 2020

Fair Value Measurements (continued)

The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual and money market funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Fixed-income bonds: Valued based on recent trading activity and other observable information, including, but not limited to, market interest rate curves, referenced credit spreads and estimated prepayment rates where applicable.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The University of Vermont Medical Center Pension Plan

Notes to Financial Statements

December 31, 2021 and 2020

Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020:

<u>Assets at Fair Value as of December 31, 2021</u>				
	<u>(Level 1)</u>	<u>(Level 2)</u>	<u>(Level 3)</u>	<u>Total</u>
Fixed income- bonds	\$ -	\$ -	\$ -	\$ -

Total investments	<u>\$ 110,077,542</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 110,077,542</u>

(6) Master Trust Reporting

The Plan's investments were held in the UVM Health Network Master Trust, ("UVMHN Trust"), which was established in 2018 for the investment of assets of the Plan and several other UVM Health Network Hospital's sponsored retirement plans. Each participating retirement plan has an individual interest in the UVMHN Trust. The assets of the UVMHN Trust are held by The Northern Trust Company (Trustee).

The value of the Plan's interest in the UVMHN Trust in 2021 and 2020 was based on actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2021 and 2020, the Plan's interest in the net assets of the UVMHN Trust was approximately 0% and 9%, respectively. Total investment income (including net appreciation in the fair value of investments) of the UVMHN Trust is allocated to the individual plans based upon the amount of the time the Plan's assets were invested in the master trust. The net asset balances and activity reported on the financial statements are reflective of master trust related activity. The Plan was part of one master trust and therefore, funds were not allocated between master trusts.

The fair value measurement levels of the UVMHN Trust are consistent with the levels reflected in Note 5.

Master Trust Reporting (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies used at December 31, 2021 and 2020:

Partnerships: Valued based on the capital position reported on the most recent K-1 schedule received by the Northern Trust Company.

The other assets measured are defined in Note 5.

The following table presents the investments and other assets and liabilities of the UVMHN Trust as of December 31, 2021 and 2020:

(7) Tax Status

The Plan obtained its latest determination letter on February 3, 2016, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). There are plan amendments not covered by the latest determination letter. However, the plan administrator believes that the Plan was currently designed and was being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes was included in the Plan's financial statements.

Tax Status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The plan administrator has concluded that as of December 31, 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) for disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2018.

(8) Plan Termination

The Plan was effectively terminated on June 30, 2020, at which date the benefits stopped accruing (see Note 1 for additional information on the Plan termination). The Plan liquidated in August of 2021.

The net assets of the Plan were to be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years.

The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

- (b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).

- (c) All other vested benefits (that is, vested benefits not insured by the PBGC).

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan were guaranteed at the level in effect on the date of the Plan's termination. However, there was a statutory ceiling, which was adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2021 and 2020 that ceiling was \$6,034 and \$5,813, respectively. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

(9) Related Parties

The Plan had several arrangements with service providers. These service providers were considered party-in-interest transactions under ERISA.
