GDI 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021

NOTE A - Description of the Plan:

The following description of the GDI 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General -

The Plan is a defined contribution plan covering most full-time employees of Glass and Door International, Inc. and Subsidiaries (the Company) that are at least 18 years of age. It is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA).

Contributions –

Each year participants may contribute up to 100% of the annual compensation as defined by the Plan. The amount of this salary deferral is limited to the amount allowed by law. In 2021 and 2020 the amounts were $19,500 and $19,500, exclusive of "catch-up" contributions for certain employees 50 years of age or more. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover contributions). Additionally, the Company makes "safe harbor" matching contributions of 100% of the first 3% of salary deferrals and 50% of the next 2% of salary deferrals. The Company may also make discretionary profit sharing contributions.

Participant Accounts –

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting –

Participants are immediately vested in their contributions and the actual earnings thereon. Participants are also 100% vested in all safe harbor matching contributions. Vesting in the Company's discretionary portion of their accounts (if any) plus actual earnings thereon is based on years of continuous service. The following schedule describes the participant's level of vesting after each year of service.

Number of Years of Completed Service	Percentage of Vested Interest
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

NOTE A – Description of Plan (Continued):

Investment Options –

Upon enrollment in the Plan, participants may direct the investment of their accounts among alternative investment funds provided under the Plan.

Payment of Benefits –

On termination of service due to death, disability or retirement, a participant or their beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount or in installments only to meet minimum distribution requirements. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures –

Forfeitures arise when participants terminate employment before being fully vested in matching and discretionary Company contributions. Forfeitures are maintained in a separate account and are first used to pay Plan expenses. After paying Plan expenses remaining forfeitures may be used to reduce any employer contributions of the Plan. The balance in the forfeiture account as of December 31, 2021 was $196.

Unallocated Funds –

Unallocated funds represent forfeitures that have not yet been allocated to participants or used for employer contributions or expenses. Unallocated funds as of December 31, 2021 and 2020 were $196 and $193, respectively.

Notes Receivable –

Participants may borrow from their accounts up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at market rates. Principal and interest are paid ratably through regular payroll deductions. Plan loans to participants were $145,888 and $163,562 as of December 31, 2021 and 2020, respectively.

Administrative Expenses –

The costs of administering the Plan are primarily paid for by the Company.

Basis of Accounting –

The financial statements of the plan are reported on the accrual basis of accounting.

GDI 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021

NOTE B – Summary of Significant Accounting Policies:

Estimates –

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income recognition

The Plan's investments are stated at fair value, except for fully benefit - responsive investment contracts. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit - responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Quoted market prices are used to value investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants –

Notes receivable from participants are measured at their unpaid principal balance plus accrued interest. Interest income is recorded on the accrual basis. If a participant does not make loan payments and the plan administrator considers the loan to be in default, the loan is considered to be a deemed distribution.to the participant. However, the loan balance and accrued interest remains as an asset of the Plan until there is a distributable event. Notes receivable from plan participants includes accrued interest income of $5,001 and $4,262 as of December 31, 2021 and 2020, respectively.

Payment of Benefits –

Benefits are recorded when paid.

Expenses –

Most of the expenses of operating the Plan are paid for by the Company and are excluded from these financial statements. Investment related expenses are included in the net appreciation or depreciation in fair value of the investments. Fees relating to administering loans to participants are charged directly to the participant's account.

GDI 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021

NOTE C – Fair Value Measurements:

Most of the Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets. Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

The fair values of mutual funds or pooled separate accounts is based on quoted net asset values of the shares as reported by the fund. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded. These are Level 1 inputs and comprise nearly all of the investments of the Plan.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair values as of December 31, 2021 and 2020:

	Assets at Fair Value as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts (Mutual Funds)	$ 5,576,408	$ -	$ -	$ 5,576,408
Total	$ 5,576,408	$ -	$ -	$ 5,576,408

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts (Mutual Funds)	$ 4,797,961	$$ -	$ -	$ 4,797,961
Total	$ 4,797,961	$ -	$ -	$ 4,797,961

NOTE D – Plan Termination and Partial Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE E – Guaranteed Investment Contract with Insurance Company (Fixed Account):

The plan has a traditional fully benefit-responsive guaranteed investment contract with Massachusetts Mutual Life Insurance Company (Mass Mutual). Mass Mutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the fixed account at December 31, 2021 and 2020, was $314,171 and $326,283, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, and was 1.65% and 1.95% as of December 31, 2021 and 2020, respectively. The fair value of the fixed account at December 31, 2021 and 2020, was $314,171 and $326,283, respectively. The fair value was based on Level 2 inputs (see Note C).

Certain events limit the Plan's ability to transact at contract value with Mass Mutual. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include (a) an uncured breach of the Plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of a material obligation under the contract, or (d) a material misrepresentation. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants or the issuer are probable of occurring.

NOTE F – Fidelity Bonding Requirements:

The Department of Labor (DOL Reg. 2580.412-11) requires the Plan Administrator to obtain fidelity bond coverage totaling at least $1,000 or 10% of funds handled at the beginning of the plan year not to exceed $500,000. This coverage provides protection to the Plan against loss by reason of acts of fraud or dishonesty on the part of such administrator, officer, or employee, directly or through connivance with others. The Company was in compliance with this regulation in 2021 and 2020.

NOTE G – Tax Status:

The Plan is a non-standardized prototype profit sharing/401(k) plan of July Business Services The Internal Revenue Service has determined and informed July Business Services that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore, believe that the Plan is qualified and the related trust is tax-exempt.

The Plan was amended in 2020 to require that all participant loans must come out of contribution sources in which the participant is 100% vested.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

NOTE H – Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The coronavirus outbreak leading to a global pandemic in the United States and throughout the world has resulted in substantial volatility in financial markets. The uncertainty of the pandemic results in a level of uncertainly in financial markets. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that may be recognized in subsequent periods, if any, cannot be determined.
