Independent Auditor's Report

BASF Corporation as Plan Administrator of the
BASF Corporation Bargaining Unit Employees' Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of BASF Corporation Consolidated Bargaining Unit Employees' Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C)"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements ("2021 Financial Statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 Financial Statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the 2021 Financial Statements* section:

- The amounts and disclosures in the accompanying 2021 Financial Statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2021 Financial Statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the 2021 Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a significant likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 Financial Statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 1, 2021 we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

(1) Description of the Plan

The following description of BASF Corporation Consolidated Bargaining Unit Employees' Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the provisions of the Plan and detailed definitions of various Plan terms.

BASF Corporation (the Sponsor) administers the Plan through its Pension and Savings Plan Committee (the Plan Administrator) under the authority of the Pension and Benefits Committee of the Sponsor's Board of Directors. Effective as of August 31, 2017, the Plan has an agreement with J.P. Morgan Chase Bank, N.A. (the Trustee) whereby the assets of the Plan are held in the BASF Corporation Master Trust (the Master Trust). The Master Trust was established by the Sponsor and is administered by the Trustee. The trust fund distributes the benefits to participants in accordance with the provisions of the Plan. The assets of the Plan are managed by the Trustee and several investment managers of the Sponsor.

a) General

The Plan is a defined benefit pension plan providing retirement benefits to the Sponsor's eligible, collectively bargained for, hourly employees at various plant locations of BASF Americas Corporation (the Company), or any of its subsidiaries or affiliates which have adopted the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Benefit accruals have ceased for all union and hourly plans.

At the close of business on April 1, 2020, the Pension Plan for Hourly Employees of Vidalia, Louisiana Facility merged into the Plan.

b) Sponsor Contributions

The Plan is noncontributory on the part of the employees. The Company contributes such amounts as are necessary to meet or exceed the minimum funding requirements as prescribed by any applicable law. No contributions for 2021 and 2020 were deemed necessary based on the January 1, 2021 and 2020 valuation reports prepared by Willis Towers Watson (the Actuary) and the Sponsor met or exceeded the minimum funding requirements of ERISA.

c) Distributions

Normal retirement is at age 65. The benefit is calculated based upon fixed benefit levels and the participant's years of credited service. Early retirement is available at age 55 with 10 years of vesting service. The early retirement benefit is the normal retirement benefit earned to date of retirement reduced by 5/12 of 1% for each calendar month that the benefit commencement date precedes the normal retirement date.

The normal form of retirement benefit payment is a life annuity. However, if an employee is married on the date their benefit payments commence, their retirement benefit is paid in the form of a 50% joint and survivor annuity. There are also several optional forms of retirement benefit payments, all of which are actuarial equivalents to the life annuity. These optional forms of payment include: joint and survivor election of 50% or 100% and, effective January 1, 2008, the participant may also elect 75% and Social Security adjusted annuities. According to the Plan document, under the 100%, 75% or 50% joint and survivor annuity option, the participant designates the beneficiary to receive a continued monthly pension, after his or her death and for the life of the other person, in the selected percentage. The participant's benefit is reduced to reflect payout over two lifetimes, the greater the continuation percentage, the greater the reduction. Further details on these optional payment methods can be found in the Plan document.

The Plan also provides permanent disability benefits and death benefits under certain circumstances.

Participants who are also hourly employees of Louisville, Kentucky Facility are subject to the following distribution terms: Normal retirement is at age 65. The monthly benefit is calculated based on an amount per month, as specified in the Plan for each year of credited service. Early retirement is available at age 55 with 10 years of credited service. If the participant has less than 25 years of credited service, the reduction amount is 3/10 of 1% per month for every month retired prior to attaining age 65. Otherwise, the reduction amount is 3/10 of 1% per month for every month retired prior to attaining age 62.

The normal form of retirement benefit payment is a life annuity. However, if an employee is married on the date their benefit payments commence, his or her retirement benefit is paid in the form of a 50% joint and survivor annuity – unless the member elects not to receive it in this form, and has obtained the spouse's written consent. There are also several optional forms of retirement benefit payments, all of which are actuarial equivalents to the life annuity. These optional forms of payment include: Social Security adjusted, 10-year period certain, Restoration Joint and Survivor Annuity (50% only), and Joint and Survivor Annuity 100%, 75%, 66-2/3%, and 50% contingent annuities. According to the Plan document, under the 100%, 75%, 66-2/3%, and 50% contingent annuity option, the participant designates another person (usually a spouse) to receive a continued monthly pension, after his or her death and for the life of the other person (the contingent annuitant), in the selected percentage. The participant's benefit is reduced to reflect payout over two lifetimes. The greater the continuation percentage, the greater the reduction will be. Further details on these optional payment methods can be found in the Plan document.

Any member whose service is terminated other than by death or retirement and who has completed 5 years of service is eligible to receive a vested retirement allowance commencing at age 65. Total and permanent disability benefits are provided for any qualified participant with 10 years of credited service. The disability pension ceases at age

65, at which time the employee receives the normal retirement pension based on credited service to date of disability. Automatic death benefits are payable to the surviving spouse of an employee who dies in active service and who has completed 5 years of active service. The monthly benefit is equal to 50% of the normal benefit accrued to date of death. Benefit commences immediately if the participant is age 55 or older, or when the participant would have reached 55.

d) Vesting

Benefits become vested after 5 years of service to the Company.

(2) Summary of Significant Accounting Policies

a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America (GAAP).

b) Valuation of Investments

The Plan's investment in the Master Trust has been presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See "Note 6 Fair Value Measurements" for discussion of fair value measurement.

c) Security Transactions

Purchases and sales of securities are recorded on a trade date basis. Net investment gain includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d) Investment Income

Dividend income is recorded on the ex-dividend date; interest is recorded as earned on the accrual basis.

e) Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and

(In thousand dollars)

changes therein, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

f) Payment of Benefits

Benefit payments to participants are recorded upon distribution.

g) Administrative Costs

All administrative expenses of the Master Trust, such as trustee, custodian and accounting services, are paid by the Master Trust and then allocated to the participating plans.

h) Risk and Uncertainties

The Plan utilizes various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

In early 2020, an outbreak of a novel strain of coronavirus ("COVID-19") emerged globally. As a result, events have occurred domestically in the United States and globally, including mandates from federal, state and local authorities, leading to an overall decline in economic activity. The continuation of the effects of COVID-19 could result in significant disruption of global financial markets, however, the ultimate impact of COVID-19 on the financial performance of the Plan's investments cannot be reasonably estimated at this time.

i) Subsequent Events

The Plan has evaluated events through September 28, 2022, the date the financial statements were available to be issued.

(3) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on the number of credited service years ending on the date the benefit information is presented (the valuation date) and the corresponding monthly benefit amount does include future Plan increases.

Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The significant actuarial assumptions used in determining the present value of accumulated plan benefits as of December 31, 2020 were as follows:

Discount rate	4.80%
Mortality rate	RP-2018 Mortality Table
Actuarial cost method	Projected Unit Credit Cost Method
Average retirement age	63

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2021. Had the valuations been performed as of December 31, there would be no material differences.

The actuarial present value of accumulated plan benefits, determined by Willis Towers Watson for 2020 is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and the expected date of payment.

(In thousand dollars)

The status of the estimated actuarially determined present value of the accumulated benefits under the Plan as of December 31, 2020 is:

Vested benefits:		
Participants / beneficiaries currently receiving	\$	326,359
Other participants		<u>114,813</u>
		441,172
Nonvested benefits		<u>2,456</u>
Total actuarial present value of accumulated plan	\$	<u><u>443,628</u></u>

The changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2020 were:

Actuarial present value of accumulated plan benefits as of January 1, 2020	\$	418,157
Increase (decrease) attributable to:		
Decrease in the discount period		23,280
Benefits paid		(34,045)
Assumption changes and plan amendments		<u>36,236</u>
Actuarial present value of accumulated plan benefits as of December 31, 2020	\$	<u><u>443,628</u></u>

(4) Federal Income Tax Status

The Internal Revenue Service has determined and informed the Sponsor by a letter dated May 18, 2017 that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (the Code). The Plan has been amended since receiving the determination letter. The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the Code. Accordingly, the Plan's financial statements do not include a provision for income taxes.

(5) Interest in the Master Trust

The Plan has an agreement with the Trustee whereby substantially all the assets of the Plan are held in the Master Trust. The assets are maintained in a commingled account by the Trustee and are not separately identified as to ownership. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses. Investment income (loss) and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly

balances invested by each plan. The Plan had a percentage interest in the Master Trust of approximately 19% as of December 31, 2021 and 2020.

As of December 31, 2021, the following benefit plans participated in the Master Trust:

BASF Corporation Consolidated Bargaining Unit Employees' Pension Plan
BASF Corporation Salaried Employees' Pension Plan

(6) Fair Value Measurements

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|--|
| Level 1 | Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs. |
| Level 2 | Observable prices that are based on inputs not quoted on active markets, but corroborated by market data. |
| Level 3 | Unobservable inputs are used when little or no market data is available which are significant to the fair value measurements. The fair value hierarchy gives the lowest priority to Level 3 inputs. |

In determining fair value, the Master Trust utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, as well as considers counterparty credit risk in its assessment of fair value. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Corporate Stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Money Market: Valued at amortized cost, which approximates fair value.

Notes to Financial Statements
December 31, 2021 and 2020
(In thousand dollars)

U.S. Government Securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Corporate Debt Instruments: Corporate bond securities traded on national securities exchanges are valued at the last reported sales price on the last business day of the year. Securities traded in the over-the-counter market and listed securities for which no sales were reported on that date are valued at the last reported bid price.

Common/collective Trusts and 103-12 Investments: The Plan's interest in the common/collective trusts and 103-12 investments are valued at the NAV. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

Partnerships/Joint Ventures: The Plan's interest in partnerships/joint venture funds are valued at the NAV. The NAV, as provided by the investment advisor, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

Futures Contracts: Valued at the last sale price (or, if there is no sale on the valuation day, bid price) in the market where such contracts are principally traded.

Swap Agreements: Valued based on the net present value of all estimated future cash flows. Swaps may be valued in terms of bond prices or as a portfolio of forwards contracts.

Cerberus Institutional Real Estate Partners III, L.P. - A real estate limited partnership that invests in commercial real estate. The strategy is to buy properties that need some "value add," such as increasing occupancy, making enhancements to reposition buildings, etc. This investment can never be redeemed. Instead, the nature of the investment is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held, it is estimated that the underlying assets of the fund would be liquidated within 6 years.

(8) Party-in-Interest Transactions

Certain Plan investments are shares or units of funds managed by J.P. Morgan Chase Bank, N.A., the Plan's Trustee, as of December 31, 2021 and 2020. Transactions in these funds qualify as permitted party-in-interest transactions

(9) Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

For single employees, a single life annuity

For married employees, 40% are assumed to take a life annuity and 60% take a 50% contingent annuity.

The table below shows full detail on the percentage of participants assumed to elect each of the available optional forms of benefit payment under the plan.

Form of Payment	Single	Married
Single Life Annuity	100%	40%
50% Contingent Annuity (QJSA)	0%	60%
75% Contingent Annuity	0%	0%
Deminimis lump sum	0%	0%

Since all annuity forms are actuarially equivalent, no explicit assumption is made for annuity forms other than the Single Life Annuity and 50% Contingent Annuity Option (QJSA).

Percent married

85% of males; 55% of females

Spouse age

Wives 2 years younger than husbands

Administrative
expenses

Noninvestment expenses paid from the Trust are assumed to be 0.50% of the Fair Value of Assets

Methods

Valuation date

First day of plan year

Funding target

Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost

Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of
assets

Actuarial value of assets is equal to the market value of assets on the valuation date (including any receivables).

Sources of Data and Other Information

BASF and its third party administrator furnished participant census data as of 1/1/2021. Information on assets, contributions and plan provisions was supplied by BASF. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with BASF, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with BASF, assumptions were made for missing or apparently inconsistent data elements as described in the Data Action Plan provided on July 26, 2021.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions for Contributions

Discount rate The basis chosen was selected by BASF from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Lump sum conversion rate No explicit assumption. As required by IRC§430, lump sum benefits are valued using “annuity substitution”, so that the valuation interest rates structure is used to value both annuities and lump sums.

Rates of increase in:

- **Compensation** Not applicable.
- **National average wages (NAW) (e.g., Social Security wage bases)** Consistent with a modest premium for assumed real wage growth in excess of long term price inflation assumption.
- **Increases in statutory limits (CPI)** The assumed CPI is based on a combination of current conditions and future forecasts by economists.

Administrative and investment expenses Administrative expenses are estimated by determining the expected actual expenses for the coming year, reflecting items like expected PBGC premiums.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	The assumptions used for funding purposes are selected by the plan sponsor from among the options prescribed by IRC §430(h).
Disabled Mortality	The assumptions used for funding purposes are selected by the plan sponsor from among the options prescribed by IRC §430(h).
Termination	The assumption represents an estimate of future experience reflecting considerations including an experience study conducted in 2018.
Disability	The assumption chosen is a table in prevalent use and does not reflect any plan specific experience given the population size and rates of disability are not expected to generate credible experience.
Retirement	The assumptions represent an estimate of future experience reflecting considerations including an experience study conducted in 2018, early retirement subsidies and other plan provisions.
Benefit commencement date for deferred benefits:	
■ Deferred vested benefit:	<p>Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement.</p> <p>The assumptions represent an estimate of future experience reflecting considerations including an experience study conducted in 2018.</p>
Form of payment	<p>The assumed form and timing of benefit payments varies by plan and within plans by formula.</p> <p>The assumptions represent an estimate of future experience reflecting considerations including an experience study conducted in 2018.</p>
Percent married	The assumptions represent an estimate of future experience reflecting considerations including an experience study conducted in 2018.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described herein, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by BASF from a range of methods permitted by IRC §430.

Changes in Assumptions, Methods and Estimation Techniques

Change in assumptions since prior valuation - contributions

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The required mortality table used to calculate the funding target and target normal cost was updated to reflect an update in the projected scale as required by IRC §430.

The administrative expense load decreased from 0.55% of the Fair Value of Assets in 2020 to 0.50% of the Fair Value of Assets in 2021 to account for lower expected expenses to be paid from the trust.

Change in methods since prior valuation

There have been no change in methods since prior valuation.

Independent Auditor's Report

BASF Corporation as Plan Administrator of the
BASF Corporation Bargaining Unit Employees' Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of BASF Corporation Consolidated Bargaining Unit Employees' Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C)"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements ("2021 Financial Statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 Financial Statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the 2021 Financial Statements* section:

- The amounts and disclosures in the accompanying 2021 Financial Statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2021 Financial Statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the 2021 Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a significant likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 Financial Statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 1, 2021 we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Monthly Preretirement Spouse Benefit

If the death occurs after early retirement eligibility, the beneficiary receives an amount equal to the benefit that the participant would have received had he retired on the day immediately preceding his death and elected the 100% contingent annuitant option. However, a participant can elect, upon eligibility for early retirement that the death benefit be payable as a five-year certain annuity.

If the death occurs before early retirement eligibility, the beneficiary receives 50% of the amount that the participant would have received as a 50% contingent annuitant option, had he terminated on the day immediately preceding his death and elected to commence benefits on his earliest retirement date.

Spouses can defer until participant's age 65, however, non-spouse beneficiaries must commence immediately. There is no charge for this coverage.

Eligibility for Benefits

Normal Retirement	Retire at NRD.
Early Retirement	Age 50 and 15 years of Vesting Service.
Postponed retirement	Retire after Normal Retirement Date.
Deferred vested	Terminate for reasons other than death or retirement after completing five years of Vesting Service.
Preretirement spouse benefit	Beneficiaries of vested participants who die prior to commencement of benefit payments.
Disability benefit	Participants who become totally and permanently disabled.

Benefits Paid Upon the Following Events

Normal retirement	Monthly Pension Benefit determined as of NRD.
Early retirement	Monthly Pension Benefit determined as of early retirement date reduced by 3% for each year that payment begins prior to age 65.
Postponed retirement	Monthly Pension Benefit determined as of actual retirement date.
Deferred vested termination	Monthly Pension Benefit payable at Normal Retirement Date. Participants with 15 years of Vesting Service may elect to start benefits after attaining age 50, and receive an actuarially reduced benefit.
Death with preretirement spouse benefits	Monthly Preretirement Spouse Benefit.
Disability	Monthly Pension Benefit, determined as of the date of disability, actuarially reduced for early commencement.

Summary of Pension Benefit Levels

If the last day of service is on or before January 28, 2002, the monthly benefit is calculated by multiplying years of Credited Service as of the retirement date by the applicable Monthly Benefit Rate shown in the following table:

Monthly Benefit Rate	Date of Retirement
\$22	01/29/1988 – 01/28/1989
\$24	01/29/1989 – 01/28/1991
\$27	01/29/1991 – 01/28/1993
\$29	01/29/1993 – 01/28/1995
\$30	01/29/1995 – 01/28/1996
\$31	01/29/1996 – 01/28/1997
\$32	01/29/1997 – 01/28/1998
\$36	01/29/1998 – 01/28/2002

Retirements after January 28, 2002 but before January 28, 2006: monthly benefit equals the sum of: years of Credited Service through January 28, 2002 times \$38, plus years of Credited Service from January 29, 2002 forward multiplied by \$42.

Retirements after January 28, 2006: monthly benefit equals the sum of: years of Credited Service through January 28, 2002 times \$41, plus years of Credited Service from January 28, 2002 through the date of termination (or November 30, 2012, if earlier) times \$42.

Pursuant to collective bargaining, BASF prospectively eliminated all benefit accruals after November 30, 2012.

Forms of payment	<p>Preretirement death benefits are payable only as described above. Monthly Pension Benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. A lump sum is paid if the benefit is under \$5,000. The normal form for Berea is 5 year certain and continuous, for both single and married participants.</p> <p>Optional forms are also available. Refer to the Assumptions and Methods section for a list of all available forms. See Appendix I for actuarial equivalence basis used to adjust benefit amount for optional forms of payment.</p>
Maximum on benefits and pay	<p>All benefits for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are not assumed for determining contributions.</p>
