Independent Auditors' Report

To the Participants and Plan Administrator of
SPS Technologies Waterford Company Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the December 31, 2021 Financial Statements

We have performed an audit of the financial statements of SPS Technologies Waterford Company Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the period February 1, 2021 to December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's December 31, 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2021 and for the period February 1, 2021 to December 31, 2021, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion on the December 31, 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the December 31, 2021 Financial Statements section:

- The amounts and disclosures in the December 31, 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the December 31, 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the December 31, 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the December 31, 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the December 31, 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the December 31, 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the December 31, 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the December 31, 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Auditors' Report on the January 31, 2021 Financial Statements

We were engaged to audit the January 31, 2021 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated November 5, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the January 31, 2021 financial statements, and (b) the form and content of the information included in the January 31, 2021 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

December 31, 2021 and January 31, 2021

1. Description of the Plan

The following description of the SPS Technologies Waterford Company Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan was a noncontributory defined benefit pension plan sponsored by SPS International Investment Company (the Company), a wholly-owned subsidiary of Precision Castparts Corp. (PCC). The assets were invested in the Precision Castparts Corp. Master Trust (Master Trust) with The Bank of New York Mellon (BNYM). The Plan was subject to the provisions of the Employee Retirement Income Securities Act of 1974 (ERISA).

The Company appointed an administrative committee to oversee the administration of the Plan, with local human resources personnel providing day-to-day support functions. The Master Trust Investment Committee determined the appropriateness of the Plan's investments and monitored investment performance.

Effective December 31, 2021, the Plan merged into the Berkshire Hathaway Consolidated Pension Plan and all assets and obligations of the Plan were legally transferred to that plan as of that date.

Funding Policy

The Plan's funding policy was for the Company to contribute an amount which would meet or exceed the annual ERISA minimum funding requirement. No participant contributions were permitted. The minimum funding requirements of ERISA were met for the period ended December 31, 2021 and the year ended January 31, 2021.

Eligibility and Vesting

Participation and related future benefit accruals in the Plan were frozen as of December 31, 2009. Employees of the Company, who were employed prior to December 31, 2009, attained age 21 and completed one year of service, were eligible to participate in Plan.

Pension Benefits

Participants vested in a pension benefit after five years of service and were entitled to a full benefit equal to 30% of their average compensation after ten years of service beginning at age 65. Employees with more than five but less than ten years of service received a fraction thereof. The Plan permitted a reduced early retirement benefit beginning at age 55 with at least ten years of service. Participants could elect to receive their benefit in the form of a single life annuity or joint and survivor annuity.

Death and Disability Benefits

If an active employee died, their beneficiaries would receive either a pre-retirement survivor income or a death benefit equal to 100 times the monthly retirement benefit the deceased participant would have received on his normal retirement date, but not both. The benefit could not exceed \$60,000.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan were prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America required management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's interest in the Master Trust was reported at fair value based on the underlying investments. Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation in the value of investments was allocated by the Master Trust to the Plan based upon the Plan's daily weighted average percentage of net assets for a given month.

Payment of Benefits

Benefit payments to participants were recorded upon distribution.

Administrative Expenses

The Plan's expenses were paid either by the Plan or the Company, as provided by the plan document. Expenses that were paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that were paid by the Plan were recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses were included in the Plan's interest in the net investment income of the Master Trust presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits were those future periodic payments, including lump-sum distributions that were attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan were based on employees' service prior to December 31, 2009. The accumulated plan benefits for active employees equaled the accumulation of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances such as retirement, death, disability and termination of employment were included, to the extent they were attributable to employee service rendered to the valuation date.

SPS Technologies Waterford Company Pension Plan

Notes to Financial Statements

December 31, 2021 and January 31, 2021

The actuarial present value of accumulated plan benefits was determined by the Plan's independent actuary as of February 1, 2021 and was that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of February 1, 2021 was as follows:

Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 2,996,378
Other participants	<u>4,496,041</u>
Total vested benefits and actuarial present value of accumulated plan benefits	<u>\$ 7,492,419</u>

The changes in the actuarial present value of the accumulated plan benefits for the year ended January 31, 2021 were as follows:

Actuarial present value of accumulated plan benefits, at beginning of year	\$ 7,173,989
Increase (decrease) during the year attributable to:	
Increase for interest due to decrease in discount period	502,954
Benefits paid	(481,809)
Change in actuarial assumptions	361,916
Actuarial gain	<u>(64,631)</u>
Actuarial present value of accumulated plan benefits, at end of year	<u>\$ 7,492,419</u>

Significant assumptions underlying the actuarial computations were as follows:

- Mortality - Pri-2012 Private Retirement Plans Healthy Blue Collar Mortality Tables projected with Scale MP 2020, applied post-retirement only.
- Discount Rate – 6.75%
- Vested inactive participants were assumed to retire at age 62 if eligible for early retirement, otherwise at age 65.

The foregoing actuarial assumptions were based on the presumption that the Plan will continue. On December 31, 2021, the Plan was merged into the Berkshire Hathaway Consolidated Pension Plan and all obligations of the Plan were legally transferred to that plan.

The mortality assumption was updated to incorporate a more recent mortality table and projection scale to reflect both current and expected mortality improvements. The interest rate was also changed from 7.25% to 6.75%. These changes resulted in an increase of approximately \$65,000 in the actuarial present value of accumulated benefits in the February 1, 2021 valuation.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through October 5, 2022, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets held in the Master Trust measured at fair value. The Plan is able to purchase or sell units of the Master Trust on a daily basis. The Master Trust asset allocation strategy is designed with the objective of achieving the asset return assumption consistently over the long-term in order to fund future payment obligations, while minimizing contributions and plan sponsor economic risk. The asset categories are described below, along with the valuation methodologies and investment level classifications. There have been no changes in the methodologies used at December 31, 2021 and January 31, 2021.

Public Equity - Public equity investments consist of publicly traded equity securities, as well as hedged equity investment strategies which may add short positions in equities or equity futures in order to generate absolute returns regardless of equity market direction. Equity investments held directly are valued based upon closing prices reported in active trading markets and classified as Level 1. Other fund investments are valued using the most recent net asset value (NAV) of the fund.

Private Equity - Private equity investments consist of investments in nonpublic companies made directly or through limited partnerships or commingled vehicles with managers who purchase interests in nonpublic companies. Sub-categories of private equity may include venture capital, early stage, special situations or restructuring funds. Private equity typically has low liquidity, a 10 year or longer investment commitment, and valuation methodologies that require the use of significant unobservable inputs. Direct private equity investments are classified as Level 3, while investments made through funds are typically valued at the most recent NAV of the fund. As of December 31, 2021 and January 31, 2021, unfunded capital commitments to private equity investments were approximately \$1 million and \$2 million, respectively.

SPS Technologies Waterford Company Pension Plan

Notes to Financial Statements

December 31, 2021 and January 31, 2021

Alternative Strategies - Alternative strategies are investments with managers who seek specified levels of absolute returns with minimal correlation to market movements. Alternatives managers typically invest in futures, forwards or options on a variety of asset classes. Investments are typically made in investment funds with values stated at fund NAVs.

Fixed Income - Fixed income investments consist of private fixed income securities of non-U.S. corporate issuers classified as Level 3, as well as publicly traded investment funds classified as Level 1.

Cash/Other - Cash and other investments include highly liquid money market securities, demand deposits and other cash equivalents. Cash and other investments are classified as Level 1, or stated at NAV for private money market funds.

4. Undivided Interest in the Precision Castparts Corp. Master Trust

All of the Plan's investments were in the Master Trust. The Plan's interest was calculated based on the fair value at the end of the previous period, plus any contributions and income received, less benefit payments and expenses paid for each plan during the period.

At January 31, 2021, the Plan's interest in the net assets of the Master Trust was 0.76%. Investment income and administrative expenses relating to the Master Trust were allocated to the individual plans based upon the amount of time the Plan's assets were invested in the Master Trust.

The following table presents the net assets of the Master Trust as of January 31, 2021:

	Master Trust	Plan's Proportionate Share
Equity:		
Public	\$ 2,048,655,329	\$ 15,544,409
Private	233,101,940	1,768,688
Alternative strategies	3,409,840	25,873

Investment income for the Master Trust is as follows:

	Period From February 1, 2021 to December 31, 2021	Year Ended January 31, 2021
Net appreciation in fair value of investments	\$ 119,181,600	\$ 774,784,212
Interest and dividends	30,172,372	38,246,500
Total investment income	<u>\$ 149,353,972</u>	<u>\$ 813,030,712</u>
Plan's interest in Master Trust investment income	<u>\$ 1,133,475</u>	<u>\$ 6,138,305</u>

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of January 31, 2021:

	Level 1	Level 2	Level 3	Total
Equity:				
Public	\$ 2,047,449,372	\$ -	\$ -	\$ 2,047,449,372

Total assets in the fair value hierarchy	<u>\$ 2,212,329,438</u>	<u>\$ -</u>	<u>\$ 118,936,430</u>	2,331,265,868
Investments measured at NAV (a)				<u>180,886,113</u>
Total investments at fair value				<u>\$ 2,512,151,981</u>

- (a) Certain investments measured at NAV have not been classified in the fair value hierarchy but are presented in this table to permit reconciliation of the amounts in the fair value hierarchy to the total investments held by the Master Trust.

The table below sets forth a summary of certain changes in the fair value of the Master Trust's Level 3 assets for the period February 1, 2021 to December 31, 2021 and for the year ended January 31, 2021:

	Period From February 1, 2021 to December 31, 2021

	Year Ended January 31, 2021		
	Private Equity	Fixed Income	Total
Purchases	\$ -	\$ -	\$ -
Issuances	-	-	-
Transfers in and/or out of Level 3	(10,235,205)	-	(10,235,205)

Gains and losses (realized and unrealized) included in the change in net assets for the periods above were reported in plan interest in net investment income of Master Trust in the Statements of Changes in Net Assets Available for Benefits.

Transfers Between Levels - The availability of observable market data was monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the period from February 1, 2021 to December 31, 2021 and for the year ended January 31, 2021 the Plan had \$0 and \$10,235,205 of transfers from Level 3 to Level 1, respectively.

5. Related-Party and Party in Interest Transactions

Prior to the merger, the Plan's investments were administered under a contract with BNYM, the trustee of the Plan. Contributions were held and managed by BNYM, who invested cash received, interest and dividend income and made distributions to participants. These transactions qualified as party in interest transactions which were exempt from the prohibited transactions rules of ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan were performed by officers or employees of the Company. No such officer or employee received compensation from the Plan.

6. Tax Status

The Internal Revenue Service (IRS) had determined and informed the Company by a letter dated August 14, 2015, that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator believed the Plan was designed and was operated in compliance with the applicable requirements of the IRC.

Management was required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan had taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for the period February 1, 2021 to December 31, 2021 and the year ended January 31, 2021. Accordingly, BNYM, the trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2021 and January 31, 2021 and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the period February 1, 2021 to December 31, 2021 and the year ended January 31, 2021.

ACTUARIAL ASSUMPTIONS AND METHODS

Discount Rates

As selected by Precision Castparts Corp., the rates for calculating the PPA Funding Target are the February 2021 segment rates without the American Rescue Plan Act of 2021. As prescribed by interest rate stabilization legislation, in 2021 these rates must be between 85% and 115% of the 25-year average rates published by the IRS.

Measurements using segment rates:	PPA Funding Target
Segment 1 payments under 5 years	3.32%
Segment 2 payments between 5 and 20 years	4.79%
Segment 3 payments after 20 years	5.47%

Mortality

For calculating the Funding Target, mortality follows the RP-2014 annuitant and non-annuitant static mortality tables for 2021 as prescribed by the IRS. However, due to the nature of the pre-retirement death benefit, computationally no deaths are assumed prior to retirement.

Retirement

Vested inactive participants are assumed to retire at age 62 if eligible for early retirement, otherwise at age 65. Future retirees are assumed to elect a single life annuity.

Probability of Marriage

100% of non-retired participants were assumed married. Spouses were assumed to be the same age as participants.

Administrative Expenses

It is assumed that the Plan's non-investment expenses will total \$80,000 annually, payable at the beginning of the year (adopted February 1, 2021).

Actuarial Value of Assets

For funding requirements, the Plan uses the 24-month average value of assets per IRS Notice 2009-22 (adopted February 1, 2009).

Actuarial Cost Method

We calculate the actuarial present value of benefits accrued as of the beginning of the plan year. This cost method is typically referred to as the Unit Credit method.

Changes in Actuarial Assumptions

- The discount rates and mortality assumption were updated as required and as described above.
- Assumed expenses were increased from \$70,000 annually, payable at the beginning of the year to \$80,000 annually, payable at the beginning of the year to reflect recent and expected experience.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Terminated vested participants are assumed to retire at age 62 (or current age if greater) if eligible for early retirement, or at age 65 if not eligible for early retirement. The counts of expected retirement ages are shown above. The weighted average retirement age was determined using the counts as weights.

SUMMARY OF THE PLAN

Name

SPS Technologies Waterford Company Pension Plan

Effective Date

February 1, 1974. Amended and restated effective February 1, 2014.

Type of Plan

Trusteed plan with a corporate trustee, administered by a committee appointed by the Company's Board of Directors.

Employees Eligible to Participate

Participation was frozen effective December 31, 2009. The Plan has no active participants.

Normal Retirement Date

A participant's normal retirement date shall be the first day of the month on or after the later of his 65th birthday or the fifth anniversary of the date on which the participant commenced participation in the plan.

Normal Retirement Benefit

A participant's Normal Retirement Benefit is a monthly pension for the life of the participant equal to 30% of the participant's Average Monthly Compensation, reduced by 1/10 for each year credited service is less than ten years.

Credited service was frozen effective December 31, 2009.

Average Monthly Compensation is the total of a participant's annual compensation during the first five consecutive years out of the participant's last 10 years of vesting service prior to December 31, 2009, divided by 60. If a participant has less than 10 years of vesting service as of December 31, 2009, his Average Monthly Compensation is based on his compensation from his employment date to December 31, 2009, provided that no more than the first 60 months are considered. Compensation is total wages, subject to the annual 401(a)(17) compensation limits.

Accrued Benefit

A participant's Accrued Benefit is the Normal Retirement Benefit based on Average Monthly Compensation on the determination date and assuming service to normal retirement, multiplied by the ratio of credited service over expected credited service if service continued to normal retirement.

Optional Forms of Benefit

If a participant is married at retirement and does not elect otherwise, he will receive a reduced monthly benefit for his life and, upon his death, his spouse will receive 50% of that amount monthly for the remainder of the spouse's life. A married participant may optionally select a life annuity or a spousal annuity which continues 75% or 100% of a reduced amount to the spouse after the participant's death. The spousal annuities are actuarially equivalent to the life annuity based on 1971 Group Annuity Mortality and 9.0% Interest. A non-married participant will receive a life annuity.

Earliest Retirement Date

The first day of any month on or after the date on which a member attains age 55 and completes 10 Years of Vesting Service.

Amount of Early Retirement Pension

Basic Retirement Benefit reduced by 1/2% for each month that early retirement precedes his normal retirement date.

Disability Pension

A participant who becomes totally disabled will be eligible to receive an immediate monthly benefit equal to the vested portion of his accrued benefit, actuarially reduced for early commencement.

Preretirement Death Benefits

If a participant dies while an active employee and before his normal retirement age, his beneficiary may receive a lump sum death benefit or, if vested and married, his spouse may receive a surviving spouse's benefit. The lump sum benefit is generally the lesser of \$60,000 or 100 times the deceased participant's accrued benefit as of the January 31 immediately preceding the participant's death. The surviving spouse's benefit is the benefit that would have been payable to the spouse had the deceased participant terminated on the day of his death, survived to the earliest retirement date, retired under the 50% contingent beneficiary option, and died immediately.

If a vested terminated participant dies prior to commencing benefits, his beneficiary may receive the present value of the participant's vested accrued benefit, or if married, his spouse may receive a surviving spouse's benefit, as described above.

Vesting

A participant will be vested in their accrued benefit upon the earliest of:

- a) Completion of 5 years of vesting service.
- b) Attainment of normal retirement age.

A year of vesting service is earned for each plan year in which the participant worked at least 1,000 hours.

Plan Changes

There were no changes to the Plan that were known to have a material impact on the valuation.
