Pension Administration Committee of the
Pension Plan for Eaton Corporation Employees
Beachwood, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of the Pension Plan for Eaton Corporation Employees (the “Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan’s financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions, The Bank of New York Mellon/BNY Mellon, N.A. and State Street Bank and Trust Company, as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets Held for Investment Purposes at End of Year as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

INDEPENDENT AUDITOR'S REPORT

Pension Administration Committee of the
Pension Plan for Eaton Corporation Employees
Beachwood, Ohio

We were engaged to audit the accompanying statement of net assets available for benefits of the Pension Plan for Eaton Corporation Employees (the "Plan"), as of December 31, 2020, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the 2020 financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Bank of New York Mellon/BNY Mellon, N.A. and State Street Bank and Trust Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustees hold the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the trustees as of December 31, 2020 and for the year then ended, that the information provided to the Plan Administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2020 financial statements. Accordingly, we do not express an opinion on the 2020 financial statements.

NOTES TO FINANCIAL STATEMENTS

Eaton Corporation Pension Plan for Eaton Corporation Employees

1 Description of Plan

The following description of The Eaton Corporation Pension Plan for Eaton Corporation Employees ("Plan") provides only general information. Participants should refer to the Plan document and summary plan descriptions, which are available from the Company's Human Resources Department upon request, for a complete description of the Plan's provisions.

General:

The Plan, which began January 1, 1944, is a defined benefit plan that covers many employees of Eaton Corporation's ("Company" or "Plan Sponsor") United States operations. The Company is a subsidiary of Eaton Corporation plc ("Eaton"). The Plan provides for retirement and death benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective January 1, 2002, the Company amended the Plan to provide that the majority of non-bargaining employees hired subsequent to that date would participate in the Eaton Personal Pension Account (EPPA) Cash Balance Plan. In addition, participants who elected the cash balance plan as a one-time choice provided on January 1, 2003, also participate in the EPPA plan. The remainder of the participants are covered under an Hourly or Traditional benefit structure.

The Plan was amended to exclude from participation certain non-bargaining employees who are classified on and after April 1, 2013 as new hires, rehires and/or certain transfers. Effective June 1, 2018, certain bargaining employees who are classified on and after a specified effective date as new hires, rehires, and/or certain transfers are also excluded from participation in the Plan. On December 31, 2018, the Cooper Pension Plan was merged into the Plan.

During 2020, the Company amended the Plan to freeze benefit accruals effective January 1, 2021 for non-bargaining employees in the EPPA Cash Balance Plan and effective January 1, 2026 for non-bargaining employees covered under a Traditional benefit structure.

The Plan was amended and restated effective January 1, 2020. The Plan was most recently amended February 27, 2020, December 14, 2020, October 19, 2021 and December 23, 2021. Effective December 31, 2021, the Cobham Orchard Park Plan merged into the Plan. It is intended that the Plan, as amended, shall continue to qualify as a defined benefit plan under the Internal Revenue Code of 1986, including any later amendments to the Code. Benefit multiplier increases occurring during the 2021 and 2020 Plan Years have been reflected in the Plan's benefit obligation (see Note 5).

Funding Policy:

The Company makes contributions in amounts sufficient to maintain the Plan on a sound actuarial basis. The Plan has met the ERISA minimum funding requirements. The Company may also elect to make voluntary contributions to the Plan. The Company has the right to amend and/or terminate the Plan subject to the provisions of ERISA.

Certain Plan participants may elect to make contributions to the Plan each year based on a percentage of their compensation. Participants' accumulated contributions (including interest earned on those contributions) at December 31, 2021 and 2020 were \$4,148,986 and \$4,071,456, respectively, with interest rates on accumulated contributions ranging from 0.62% to 5.00% and 2.03% to 5.00%, respectively.

NOTES TO FINANCIAL STATEMENTS

Eaton Corporation Pension Plan for Eaton Corporation Employees

1 Description of Plan, Continued

Pension Benefits:

Participants are vested in their benefits earned under various methods defined in the Plan. Normal retirement age is 65. Participants may be entitled to early retirement payments based on the Plan document. Forms of payment include lump sum options and various annuity options depending on whether the participant has a spouse and what type of joint and survivor option the participant chooses.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Investment Valuation:

The fair value of the Plan's interest in the Eaton Corporation Master Retirement Trust ("Master Retirement Trust") is based on the beginning of the year value of the Plan's interest in the Master Retirement Trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses. Within the Master Retirement Trust, marketable securities are stated at fair value. Securities traded on a national securities exchange are valued at the closing price on the last business day of the Plan Year.

The fair value of participation units owned by the Master Retirement Trust in the collective trust funds is based on the closing price, as reported by the fund administrator on the last business day of the Plan's fiscal year. Fixed income securities consist of publicly traded United States and non-United States fixed interest obligations (principally corporate and government bonds and debentures). The fair value of corporate and government debt securities is determined through models that consider various assumptions, including time value, yield curves, credit ratings and current market prices. United States treasuries are valued at the closing price of each security.

Real estate and equity securities consist of direct investments in the stock of publicly traded companies. Real estate also includes investments in pooled funds that invest directly in real estate. The publicly traded companies are valued based on the closing price reported in an active market on which the individual securities are traded. The pooled funds rely on appraisal based valuations. Investments in limited partnerships are valued at the last quarterly valuation received by the trustee, adjusted for cash flows. Swaps and over-the-counter option contracts are valued based on the closing prices of futures contracts or indices as available on Bloomberg or similar service and, additionally for options, the implied volatility of similar exchange-traded options.

Bank Loans consist of senior secured term loans of publicly traded and privately held United States and non-United States floating rate obligations. The fair value is determined through third-party pricing models that primarily utilize dealer quoted current market prices. Private capital and hedge fund allocations consist of investments in limited partnerships. Values are based on the estimated fair value of the ownership interest in the investment as determined by the General Partner. Exchange traded funds are valued at the closing price of the exchange traded fund's shares.

NOTES TO FINANCIAL STATEMENTS

Eaton Corporation Pension Plan for Eaton Corporation Employees

2 Summary of Significant Accounting Policies, Continued

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

All administrative costs, management fees and expenses of the Plan are paid by the Trustee from the Master Retirement Trust unless such costs, fees and expenses are paid by the Company. The Company elected to pay certain administrative costs during 2021 and 2020 on behalf of the Plan. The administrative costs paid by the Plan are accounted for in setting the assumed rate of return on investments.

Actuarial Present Value of Accumulated Plan Benefits:

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits for most hourly employees under the Plan are based on employees' years of credited service multiplied by a monthly factor. The benefits for salaried employees in traditional plans are based on final average pay multiplied by a predetermined percentage and the employees' years of credited service. The benefits for employees in cash balance plans are based on the current value of the account balance.

Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits.

Payment of Benefits:

Benefit payments to participants are recorded upon distribution.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC). In the event that the Plan terminates, the net assets of the Plan shall be allocated among the participants and beneficiaries in accordance with the priorities mandated by ERISA. Whether a particular participant's accumulated Plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all. A full description of the defined benefit Plan termination priorities is available in the Plan document.

NOTES TO FINANCIAL STATEMENTS

Eaton Corporation Pension Plan for Eaton Corporation Employees

2 Summary of Significant Accounting Policies, Continued

Risks and Uncertainties:

The Plan's investments are exposed to varying degrees of risk, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Subsequent Events:

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through October 10, 2022, which is the date the financial statements were available to be issued.

3 Investment in the Master Retirement Trust

All investment information disclosed in the accompanying financial statements at the Plan and Master Retirement Trust level, including investments held at December 31, 2021 and 2020, and net appreciation or depreciation in fair value of investments, net investment gain or loss, and interest and dividends for the years then ended, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Bank of New York Mellon, the Trustee.

The Plan's investments are in the Master Retirement Trust. The Trustee is the custodian of the Master Retirement Trust's assets and records and buys and sells such assets in accordance with guidelines established by the Company. Each participating retirement plan has an undivided interest in the Master Retirement Trust. Certain administrative expenses are recorded in amounts directly expended by the Plan.

The following table presents the net assets for the Master Retirement Trust at December 31:

As of December 31, 2021 and 2020, the Plan had a 100.0% interest in the assets of the Master Retirement Trust.

Investment income and net appreciation or depreciation in the fair value of investments of the Master Retirement Trust are allocated to the individual plans based upon average monthly balances invested by each Plan. The following table sets forth the investment income and net appreciation or depreciation in the fair value of investments of the Master Retirement Trust allocated to the participating plans for the years ended December 31:

	<u>2021</u>	<u>2020</u>
Interest and dividend income	\$ 57,802,759	\$ 51,090,772
Net appreciation in fair value	<u>326,267,736</u>	<u>298,739,711</u>
	<u>\$ 384,070,495</u>	<u>\$ 349,830,483</u>

Investment outside the Master Retirement Trust:

The following information presents the investments of the Plan certified as complete and accurate by State Street Bank and Trust Company. For the years ended December 31, 2021 and 2020, the investments at fair value that are certified complete and accurate were \$8,563,503 and \$6,119,750, respectively. As of December 31, 2021, the Plan received assets held by Fidelity Investments with a fair value of \$29,808,879.

4 Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated July 22, 2021, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Sponsor believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2021 there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. Currently an audit for the 2019 tax period is in progress.

5 Accumulated Plan Benefits

The Plan's actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated Plan benefit information as of the beginning of the Plan Year is as follows:

	<u>January 1, 2021</u>
Actuarial present value of accumulated Plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 957,312,464
Other participants	<u>1,681,995,458</u>
	2,639,307,922
Non-vested benefits	<u>22,618,298</u>
Total	<u>\$ 2,661,926,220</u>

The changes in actuarial present value of accumulated Plan benefits are as follows:

Balance as of January 1, 2020	\$ 2,693,234,083
Benefits accumulated	97,375,830
Interest	184,143,037
Benefits paid	(312,121,213)
Plan amendments	(20,333,045)
Assumption changes	<u>19,627,528</u>
Balance as of January 1, 2021	<u>\$ 2,661,926,220</u>

5 Accumulated Plan Benefits, Continued

Significant assumptions underlying the actuarial computations are:

Actuarial cost method	Projected unit credit
Assumed rate of return on investments	7.25% (2021 and 2020)
Salary increase	3.00% (2021 and 2020)
Mortality	Eaton specific mortality projected from the base year of 2015 with a modified generational improvement scale based on the model described in the MP Improvement Scale reports published by the Society of Actuaries
Lump Sum mortality	The applicable IRS 417(e) table with the applicable Mortality Improvement Scales for expected payments in the current year and in later years

In addition, the following changes in assumptions were made since the last valuation:

Mortality projection scale	The mortality projection scale was updated from the Buck Modified MP-2019 Projection Scale (2020) to the Buck Modified MP-2020 Projection Scale (2021)
Cash Balance interest crediting rate	Cash balance interest crediting rates for Appendix CB, Appendix ASD, and for cash balance accounts under the former Cooper Pension Plan have been updated from the December 31, 2019 Bloomberg forward rates to the December 31, 2020 Bloomberg forward rates for 30-Year, 5-Year, and 1-Year Treasury Securities, respectively
Cash Balance annuity conversion rate	The cash balance annuity conversion rate for cash balance accounts under the former Cooper Pension Plan was updated from 3.50% (2020) to 3.25% (2021)
Lump Sum interest rate	The interest used to calculate lump sums changed from Forward rates implicit in the November 30, 2019 IRS 417(e) yield curve (2020) to Forward rates implicit in the November 30, 2020 IRS 417(e) yield curve (2021)

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

6 Party-in-Interest Transactions

During 2021 and 2020, internal costs attributed to certain accounting, treasury and legal services and external fees for certain professional services were paid by the Company on behalf of the Plan, while the Plan paid fees for PBGC premiums, trustee, actuarial, investment management and other professional services.

7 Fair Value Measurements

In accordance with United States generally accepted accounting principles Accounting Standards Codification 820, the Master Retirement Trust's financial instruments have been categorized, based on the degree of subjectivity inherent in the valuation technique, into a fair value hierarchy of three levels as follows:

- Level 1 - inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 - inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Common collective trusts: Valued at the net unit value of units held by the trust at year-end. The unit value is determined by dividing the total value of fund assets by the total number of units of the fund owned. The equity investments in collective trusts are predominantly in index funds for which the underlying securities are actively traded in public markets based upon readily measurable prices. The investments in other trusts are predominantly in exchange traded funds for which the underlying securities are actively traded in public markets based upon readily measurable prices. Common collective and other trusts measured at fair value using the net asset value per share practical expedient have not been categorized in the fair value hierarchy and are being presented in the tables to permit a reconciliation of the fair value hierarchy to the Master Retirement Trust's total assets.

Fixed income securities: These securities consist of publicly traded United States and non-United States fixed interest obligations (principally corporate and government bonds and debentures). The fair value of corporate and government debt securities is determined through third-party pricing models that consider various assumptions, including time value, yield curves, credit ratings, and current market prices. The Company verifies the results of trustees or custodians and evaluates the pricing classification of these securities by performing analyses using other third-party sources.

United States treasuries: Valued at the closing price of each security.

Bank loans: These securities consist of senior secured term loans of publicly traded and privately held United States and non-United States floating rate obligations (principally corporations of non-investment grade rating). The fair value is determined through third-party pricing models that primarily utilize dealer quoted current market prices. The Company verifies the results of trustees or custodians and evaluates the pricing classification of these securities by performing analyses using other third-party sources.

Equity securities: These securities consist of direct investments in the stock of publicly traded companies. Such investments are valued based on the closing price reported in an active market on which the individual securities are traded. As such, the direct investments are classified as Level 1.

Real estate: Consists of direct investments in the stock of publicly traded companies and investments in pooled funds that invest directly in real estate. The publicly traded companies are valued based on the closing price reported in an active market on which the individual securities are traded and as such are classified as Level 1. The pooled funds rely on appraisal based valuations and as such are classified as Level 3.

7 Fair Value Measurements, Continued

Cash equivalents: Primarily certificates of deposit, commercial paper, and repurchase agreements. Includes pending purchases and sales of assets and interest receivable.

Money market funds: Money market funds outside the Master Retirement Trust are measured at fair value using the net asset value per share practical expedient and have not been categorized in the fair value hierarchy.

Other: Primarily limited partner interests in private equity, private credit, private real asset and private real estate investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Retirement Trust's investments at fair value as of December 31, 2021.

		Level 1	Level 2	Level 3
	Totals	Fair Value	Fair Value	Fair Value
Fixed income securities	\$ 1,069,110,537	\$ -	\$ 1,069,110,537	\$ -

The Level 3 assets include private real estate, private credit, and private equity funds that generally have redemption notice periods of six months or longer, and are not eligible for redemption until the underlying assets are liquidated or distributed. The Company has elected to apply the practical expedient provided under ASU No. 2015-12 and report Level 3 assets as of September 30, 2021, the date closest to December 31, 2021 as of which assets were available for reporting. From September 30, 2021 to December 31, 2021, the Level 3 assets increased by approximately \$22 million due to investment valuation. The Company has unfunded commitments to these funds of approximately \$219 million at December 31, 2021, which will be satisfied by a reallocation of Master Retirement Trust assets.

The Plan's assets outside the Master Retirement Trust as of December 31, 2021 are measured at fair value using the net asset value per share practical expedient and have not been categorized in the fair value hierarchy.

Common collective money market funds measured at net asset value \$ 8,563,503

The Plan's assets outside the Master Retirement Trust as of December 31, 2021 held at Fidelity Investments in the amount of \$29,808,879 include money market funds, mutual funds and exchange traded funds categorized as Level 1.

Pension Plan for Eaton Corporation Employees

EIN/PN: 34-0196300 / 029

Schedule SB, Part V – Summary of Plan Provisions (continued)

Outline of principal provisions applicable to Employees Covered under Appendix CB of the Plan (EPPA)

Effective date

The Plan was effective January 1, 2002. Amended and restated as of January 1, 2010; amended to eliminate coverage for participants hired on or after April 1, 2013.

Eligibility

Non-union Aeroquip & Vickers participants on January 1, 2002. Summa participants on January 1, 2003. Non-union participants hired or rehired on or after January 1, 2002 but before April 1, 2013 with the exception of Actuator & Sensor employees in Rochester Hills and Ann Arbor as well as Three Rivers employees. Non-union participants who elected to participate in the EPPA as of January 1, 2003 through a pension choice process from Appendix A, Appendix B, Appendix D, Laurinburg hourly and Roxboro hourly.

Employee Contributions

The Company pays the full cost of the plan. No contributions are required from employees.

Pay-Based Credits

The basic cash balance account is accumulated with interest credits and pay credits. The pay-based credits are equal to a percent of earnings during each month. The percent of a participant's pay that the plan will credit to the cash balance account is based upon the number of age/service points accumulated up to that point. The percentage is based on the following table:

Age/Service Points	Percent of pay to be credited to the account
Less than 50	5.0%
50-59	6.0%
60-69	7.0%
70 or more	8.0%

Annual earnings are limited in accordance with IRC §401(a)(17).

Interest Credits

The Interest Credit interest rate applicable for January through June will be based on the monthly 30-year average Treasury bond rate of the November of the preceding calendar year. The Interest Credit interest rate applicable for July through December will be based on the monthly 30-year average Treasury bond rate of the May of the current calendar year.

Index Credits

Applicable for active participants who were former Appendix A, Appendix B or Appendix D participants who elected the EPPA during the choice process. The Index Credit rate applicable for January through June will be based on the rate of increase experienced in the Consumer Price Index from November 1 of the second preceding calendar year to October 31 of the immediately preceding calendar year. The Index Credit rate applicable for July through December will be based on the rate of increase experienced in the Consumer Price Index from May 1 of the immediately preceding calendar year to April 30 of the current calendar year. Index credits apply only to opening balances and during active employment.

An employee's normal retirement date is the first of the month coincident with or next following his 65th birthday.

Benefit

The monthly retirement benefit payable to a participant at any retirement date is equal to the actuarial equivalent of his account as of such date. Frozen benefit effective December 31, 2020.

Termination of Employment - Vesting

Eligibility

3 years of service.

Benefit

Full account payable at termination.

Long Term Disability Retirement

If a participant becomes totally and permanently disabled and receives disability benefit under Eaton Corporation's Long Term Disability (LTD) Plan, his account will continue to earn pay-based and interest credits. The pay-based credits are calculated based on the following pay formula: base pay in effect at the date of disability; plus a 3-year average of the executive incentive compensation; plus a 3-year average of the variable pay. During the disability, the participant will also continue to earn Service for purposes of vesting. When the participant reaches 65 or the LTD benefits end – whichever comes later – the participant will begin receiving benefits under any of the payment options offered by the plan.

Normal form of benefit

For non-married employees, a single life annuity paid monthly. For married participants, a joint and 50% surviving spouse annuity.

Optional Forms of Payment Available under the Plan

- a) Single Life Annuity
- b) 50% Joint and Survivor Annuity
- c) 66 2/3 % Joint and Survivor Annuity
- d) 75% Joint and Survivor Annuity
- e) 100% Joint and Survivor Annuity

Death Benefits

Pre-Commencement Death

Upon the participant's death, the vested portion of the account will be payable to the beneficiary. If the participant is married, the spouse will be automatically designated to be the beneficiary. If the participant is single, the participant may name anyone as beneficiary to receive the death benefit payable.

Benefit Limitations

In no event will the annual funded pension benefit exceed the limitation of IRC §415.

Pension Plan for Eaton Corporation Employees

EIN/PN: 34-0196300 / 029

Schedule SB, Part V – Summary of Plan Provisions (continued)

Outline of principal provisions applicable to Hutchinson Salaried Employees covered under Appendix D of the Plan

Eligibility

Salaried exempt employees of the Hutchinson operation who have attained age 20 and completed one year of service with 1,000 hours. As of 1/1/89, salaried non-exempt employees are also eligible for the plan.

Employee Contributions

None required or permitted after March 1, 1985.

Key Definitions

Average Final Annual Compensation

The highest average of total compensation in any five consecutive calendar years of the ten preceding retirement. If member has less than five years, then average includes entire period of service. Annual compensation is limited in accordance with IRC §401(a)(17).

Primary Social Security Benefit

The benefit payable at normal retirement date assuming earnings continue to normal retirement date at the same rate as in effect at date of termination, as long as this date is prior to normal retirement date.

Credited Service

Service earned after age 21. Credited service earned after February 28, 1985 is limited to 30 years.

Normal Retirement:

Eligibility

Age 65 with 5 years of credited service

Amount of annual pension

Sum of (a) through (c):

- Noncontributory portion: \$180 per year of credited service prior to March 1, 1985.
- Contributory portion: 2% of Average Final Annual Compensation in excess of \$8,000 per year of contributory credited service prior to March 1, 1985.
- Guaranteed Percentage of Average Final Annual Compensation minus Primary Social Security Benefit. Minimum benefit of \$360 per year of credited service after February 28, 1985.

Guaranteed Percentage is the following:

Final Average Compensation	Guaranteed Percentage
\$ 18,000 or less	80%
\$ 24,000	72%
\$ 36,000	65%
\$ 60,000	58%
\$ 96,000	54%
\$ 120,000 and over	50%

Schedule SB, Part V – Summary of Plan Provisions (continued)

Outline of principal provisions applicable to Hutchinson Salaried Employees covered under Appendix D of the Plan (continued)

Early Retirement:

Eligibility

Between ages 55 and 65 with 10 years of credited service.

Amount of annual pension

Benefit using normal retirement formula but based on credited service and Final Average Compensation at early retirement date. If projected credited service to normal retirement date after February 28, 1985 is greater than 30 years, then Primary Social Security Benefit is reduced by the ratio of (1) greater of 30 years or accrued credited service after February 28, 1985 to (2) projected credited service after February 28, 1985.

If benefit commences prior to normal retirement date, the reduction factor per year of early commencement is based on member's age plus years of credited service as follows:

Age Plus Credited Service	Reduction Factor
76 or less	6.0%
77 - 78	4.8%
79 - 80	4.2%
81 - 82	3.6%
83 - 84	3.0%
85 - 87	2.4%
88 and over	1.2%

Disability Retirement

Eligibility

Between ages 40 and 65 with minimum number of years of credited service as follows:

Attained Age	Years Credited Service
40	15
42	14
44	13
46	12
48	11
50 and over	10

Amount of annual pension

Benefit accrued to disability retirement date same as for early retirement. Unreduced for commencement prior to normal retirement date.

Vesting

If terminating employment after completion of five years of vesting service, benefit accrued to date of termination same as for early retirement and payable at normal retirement date. Reduced same as for early retirement for commencement prior to normal retirement date.

Death

Before Retirement

If a member dies while eligible for early retirement or while eligible for a vested benefit, the beneficiary will be entitled to the benefit that would have been payable had the member terminated employment on the date of death with payment of benefits to commence on the earliest date permitted thereafter and elected the 50% contingent annuitant option.

After Retirement

Depends on the form of pension elected; in any event, the excess, if any, of the death benefit payable just prior to retirement over the pension payments is paid to the beneficiary.

Benefit Limitations

In no event will the annual funded pension benefit exceed the limitation of IRC §415.

Pension Plan for Eaton Corporation Employees

EIN/PN: 34-0196300 / 029

Schedule SB, Part V – Summary of Plan Provisions (continued)

Outline of principal provisions applicable to Employees Covered under Appendix ASD of the Plan (Actuator and Sensor)

Effective date

The Plan was effective January 1, 1998. Amended and restated as of January 1, 2010; amended to eliminate coverage for participants hired on or after April 1, 2013.

Eligibility

All active employees of Eaton employed prior to April 1, 2013 by the Lectron Division become members on the date of hire, the first month coincident with or following the date the employee reaches age 21 or the date the plan applies to the employee's business unit.

Employee Contributions

The Company pays the full cost of the plan. No contributions are required from employees.

Pay-Based Credits

The basic cash balance account is accumulated with interest credits and pay credits. The pay-based credits are equal to a percent of earnings during the previous six months. The percent of a participant's pay that the plan will credit to the cash balance account is based upon the number of age/service points accumulated up to that point. The percentage is based on the following table:

Age/Service Points	Percent of pay to be credited to the account
Less than 30	3.00%
30-39	3.50%
40-49	4.00%
50-59	4.50%
60-69	5.00%
70-79	5.50%
80-89	6.00%
90 or more	6.50%

At termination, the employee will receive a final pay-based credit equal to a percent of pay credited since the previous June 30 or December 31 through the termination date. The final percent of pay will be based on the total amount of age/service points accumulated as of the termination date.

Annual earnings are limited in accordance with IRC §401(a)(17).

Interest Credits

Interest credits are set semi-annually as of June 30 and December 31, based on the account balance as of the beginning of the six-month period ending on those dates. The annual rate used to calculate the interest credit is determined as of the beginning of each calendar year. The rate for a given calendar year equals the average yield on five-year U.S. Treasury notes during the 12-month period ending on November 30 of the previous calendar year.

Normal Retirement

Requirement

An employee's normal retirement date is the first of the month coincident with or next following his 65th birthday.

Benefit

The monthly retirement benefit payable to a participant at any retirement date is equal to the actuarial equivalent of his account as of such date.

Termination of Employment - Vesting

Eligibility

3 years of service.

Benefit

Full account payable at termination.

Long Term Disability Retirement:

If a participant becomes totally and permanently disabled and receives disability benefit under Eaton Corporation's Long-Term Disability (LTD) Plan, his account will continue to earn pay-based and interest credits. The pay-based credits are calculated assuming that the participant earns compensation equal to an average of the compensation the participant earned during the five calendar years prior to the disability, calculated in accordance with Plan rules. During the disability, the participant will also continue to earn Service for purposes of vesting. When the participant reaches 65 or the LTD benefits end – whichever comes later – the participant will begin receiving benefits under any of the payment options offered by the plan.

Normal form of benefit

For non-married employees, a 10 years-certain single life annuity paid monthly. For married participants, a joint and 50% surviving spouse annuity.

Optional forms of payment

The participant, depending on marital status, may elect to receive the plan benefit under one of the following payment options:

1. Lump sum (automatic if benefit amount is \$5,000 or less).
2. 10 years certain and life annuity.
3. 50% joint and survivorship annuity.
4. 100% joint and survivorship annuity.

Death Benefits

Pre-Commencement Death

Upon the participant's death, the vested portion of the account will be payable to the beneficiary. If the participant is married, the spouse will be automatically designated to be the beneficiary. If the participant is single, the participant may name anyone as beneficiary to receive the death benefit payable.

Pension Plan for Eaton Corporation Employees

EIN/PN: 34-0196300 / 029

Schedule SB, Part V – Summary of Plan Provisions (continued)

Outline of principal provisions applicable to VJ Hourly Employees (continued)

Benefit

\$4.25 per month per year of credited service payable monthly on early retirement date until the first day of the month preceding 65th birthday or death.

Disability Retirement

None.

Vesting

Requirement

5 years of credited service.

Benefit

The benefit equals the accrued benefit plus, if applicable, any minimum pension benefit adjustment. The member may elect, at any time before benefit commencement, to receive the Cash Payment earned.

The benefit is reduced 3.5% from age 55 for each year that benefit commencement precedes normal retirement date.

If a member terminates before attaining vested status, the deferred benefit equals the benefit that can be purchased by the amount of Cash Payment. The member may elect, at any time before benefit commencement, to receive the Cash Payment.

Pre-Retirement Death Benefit

The benefit equals 50% of the deferred pension or the amount that would have been payable to the participant had he retired and elected a joint and survivor annuity, exclusive of early retirement supplement. This benefit may be reduced if the beneficiary receives a lump sum payment equal to the Cash Payment the participant could have received had he terminated employment.

Post-Retirement Death Benefit

If a retired member had at least 10 years of service at retirement, the beneficiary is eligible to receive a lump sum payment according to the following table:

Years Credited Service	Lump Sum Amount
10	\$ 1,750
20	\$ 2,250
30+	\$ 2,500

Forms of Retirement Income

The normal form is a modified cash refund life annuity which guarantees that the sum of the pension payments will be no less in aggregate than an amount equal to the Cash Payment the employee is able to elect.

The amount of the Cash Payment the Employees is able to elect equals 2.5% of each year's pay accumulated at an interest rate of 3.5% per annum.

If the member elects to receive a Cash Payment and remains entitled to the balance of the accrued pension, the normal form is a no refund life annuity (no minimum total guarantee).

Schedule SB, Part V – Summary of Plan Provisions (continued)

Outline of principal provisions applicable to the former Cooper Pension Plan (continued)

Normal Retirement

Eligibility

Age 65.

Amount of annual pension

Greater of (i) and (ii), less (iii):

- (i) 50% of final average earnings less 50% of Social Security PIA, with such difference pro-rated for less than 30 years of Benefit Service;
- (ii) \$144 times years of Benefit Service;
- (iii) The annuity equivalent of any Profit Sharing Plan balance.

Final average earnings are computed based on the highest five consecutive years of basic compensation out of the last 10 years of employment. All salaries are limited by the provisions of IRC Section 401(a)(17).

Various other benefit formulas were in effect for the Prior Plans.

All benefit accruals for all participants were frozen prior to or during the respective plan merger dates.

Early Retirement

Eligibility

Age 55 with 5 years of Vesting Service. Retirement provisions for former Participants of Prior Plans continue in effect.

Amount of annual pension

The Early Retirement Benefit is the accrued Normal Retirement Benefit reduced 0.6% for each of the first 60 months and 0.3% for each additional month that commencement precedes age 65. Applicable early retirement reductions under Prior Plans continue in effect.

Disability Retirement

Eligibility

Eligible upon total and permanent disability after 10 years of Vesting Service.

Amount of annual pension

The disability benefit is the Normal Retirement Benefit based on imputed service to age 65 and final average earnings, PIA benefit and Profit Sharing balance at date of disability, payable at age 65. Alternative disability provisions applicable to former participants of the Prior Plans continue in effect.

Termination Benefit

Eligibility

Eligible upon termination at any age and 5 years of Vesting Service. Effective July 1, 1993, any Participant who is terminated as a result of the plant closing will become 100% vested regardless of Service. This provision was extended to non-retired Reno participants during 1996.

Amount of annual pension

The vested termination benefit is the accrued Normal Retirement Benefit payable at age 65 or, alternatively, a reduced pension payable as early as age 55. Alternative vested termination provisions applicable to former Participants of the Prior Plans continue in effect.

Pre-Retirement Survivor Benefit

Eligibility

The surviving spouse becomes eligible upon death of a Participant or former Participant after completion of 5 years of Vesting Service, provided the Participant or former Participant has been married to his current spouse for at least one year. Amount of annual pension

The surviving spouse will receive the benefit payable assuming the decedent terminated on the date of death, survived to earliest retirement date, retired under the 50% Joint & Survivor form of payment and then died.

Alternative spousal coverage provisions applicable to former Participants of the Prior Plans continue in effect.

Form of Payment

The normal form of payment is a Single Life Annuity for single Participants and an actuarially equivalent 50% Joint & Survivor Annuity for married participants. Alternative forms of payment provisions applicable to former Participants of the Prior Plans continue in effect.

A participant may take the present value of his normal retirement benefit in the form of a lump sum upon termination if the present value does not exceed \$10,000.

Lump Sums not exceeding \$5,000 are mandatorily cashed out.

Actuarial Equivalence

The definition of Actuarial Equivalence varies by Prior Plan.

For lump-sums, the 417(e) interest rate for November of the prior year and 417(e) mortality.

Coverage and Participation

Prior to December 31, 2006, the first day of the Plan Year after an eligible employee attains age 21. The Plan was frozen on December 31, 2006, and no Eligible Employee can become a member after August 1, 2006.

Vesting Service

Vesting Service is equal to an employee's period of employment measured in years and days.

Compensation

All Compensation paid during a Plan Year including elective salary deferrals with the exception of: relocation expense differentials; mortgage interest differentials; fringe benefits; accrued or unused vacation pay paid with respect to a period following termination of employment; severance payments; auto allowance income; foreign service premiums; other deferred compensation; welfare benefits; sign-on bonuses; long term management incentive comp awards; patent awards; safety awards; and service awards.

Account Balance

The Account Balance for each Participant consists of the following:

Initial Balance

A Participant's employer-provided accrued benefit under a prior plan converted to a lump sum on July 1, 1986.

Basic Credits

Prior to December 31, 2006, the Participant shall receive a Basic Credit each pay period equal to 4.0% of Compensation, plus 4.0% of Compensation in excess of the Social Security Taxable Wage Base. The Plan was frozen on December 31, 2006, and no Participant can accrue additional Basic Credits after that date.

Transitional Credits

Participants who are Eligible Employees as of July 1, 1986 shall have additional pay credits added to their Account Balance each pay period through June 1987, 1988, 1989, 1990, or 1991, depending on the Participant's date of birth and years of service as of December 31, 1986.

Additional Credits

Prior to December 31, 2006, certain Participants employed on September 30, 1989 had their Account Balance credited on and after October 1, 1989 with an additional monthly credit ranging from \$10 to \$130 depending on the Participant's age at December 31, 1989 and whether or not retiree medical coverage was elected. Effective December 31, 2006, all remaining active Participants eligible for Additional Credits received a one-time additional Account Balance increase as a result of the Plan freeze effective December 31, 2006. The Plan was frozen on December 31, 2006, and no Participant can accrue Additional Credits after that date.

Interest Credits

The Account Balance increases each year with interest equal to the average yield on One-Year Treasury Constant Maturities for the November of the preceding year, rounded to the next highest quarter percentage point.

Effective December 31, 2006, certain Participants received a one-time increase to their Account Balance.

Minimum Grandfather Benefit

Participants who were Eligible Employees as of July 1, 1986 and who become eligible for a retirement benefit prior to July 1, 1991 shall have a minimum benefit equal to the lump sum value of their prior plan accrued benefit determined as if the Participant had continued in the prior plan for up to five years after July 1, 1986.

Minimum Benefit

Eligible to Participants hired before August 1, 2004.

Prior to December 31, 2006, the monthly Minimum Benefit payable as a single life annuity at Normal Retirement is equal to \$15 per year of service. The Plan was frozen on December 31, 2006, and no Employee can accrue additional years of service attributable to the Minimum Benefit after that date.

Termination Benefit

A Participant shall become 100% vested in the Initial Balance, Minimum Grandfather Benefit and Minimum Benefit upon completion of 5 years of service. All other benefits vest according to the following schedule:

Years of Vesting Service	Percent Vested
0 to 2	0.0%
3	33.3%
4	66.7%
5+	100.0%

Effective January 1, 2008, a Participant shall be 100% vested upon completion of 3 Years of Vesting Service.

Normal Retirement

Eligibility

Age 65.

Amount of annual pension

The monthly Normal Retirement Benefit is equal to the Account Balance at Normal Retirement.

Early Retirement

Eligibility

Age 55 with 10 years of Vesting Service.

Amount of annual pension

The monthly Early Retirement Benefit is equal to the Account Balance at Early Retirement.

Disability Retirement

Eligibility

Eligible after 1 year of Vesting Service and deemed to have a Total Disability per the Local Administrative Committee.

Amount of annual pension

A Temporary Benefit equal to 50% of base pay less 64% of the primary Social Security benefit, payable beginning five months after the date of disability until the earlier of death, recovery or retirement. The liability associated with the Temporary Benefit for a closed group of participants on LTD was transferred to an insurance company effective December 31, 2006. The Temporary Benefit was then eliminated effective December 31, 2006.

Each disabled Participant's account will be credited with interest credits, basic credits, transitional credits, and additional credits (if applicable) until attaining age 65 assuming continuous disability and assuming the member's compensation prior to disability remained unchanged. At age 65, a monthly benefit or an equivalent lump sum becomes payable.

Credits, other than interest credits, were frozen effective December 31, 2007 for currently disabled Participants. This provision was then eliminated effective December 31, 2007.

The Disability Retirement provisions of the Plan were eliminated for Participants not currently on LTD effective December 31, 2006.

Pre-Retirement Survivor Benefit

Eligibility

The surviving spouse becomes eligible upon the death of a Participant or former Participant who completed 3 or more years of Vesting Service.

Amount of annual pension

The surviving spouse will receive either a lump sum equal to the Participant's vested Account Balance, or an equivalent life annuity.

Form of Payment

The Normal Form of Payment is a Single Life Annuity for single Participants and an actuarially equivalent 50% Joint & Survivor Annuity for married Participants.

Optional Forms of Payment are:

- Single Life Annuity
- 50%, 75% and 100% Joint & Contingent Annuity
- Social Security Leveling at age 62
- Above forms with a full cash refund feature
- Lump sum
- 10 Year Certain & Continuous
- Increasing Life Annuity

Schedule SB, Part V – Summary of Plan Provisions (continued)

Outline of principal provisions applicable to the former Cooper Pension Plan (continued)

The Normal and Optional Forms of Payment for pre- cash balance terminated vested participants varies by Prior Plan.

A cash balance participant may take the present value of his normal retirement benefit in the form of a lump sum upon termination if the present value does not exceed \$15,000.

Lump Sums not exceeding \$5,000 are mandatorily cashed out.

Actuarial Equivalence

For converting account balances to annuities, the interest is based on the average of the PBGC rate under PBGC Table II for the 36-month period ending in October of the preceding Plan Year (rounded to the next highest $1\frac{1}{4}\%$ but not more than $\frac{1}{4}\%$ less or $\frac{1}{2}\%$ more than the year prior). Mortality is based on the 1971 Group Annuity Mortality Table projected to 1978 using scale E, further adjusted by .95. For conversions at ages between 60 and 65, the factor applicable to a conversion at age 65 shall be used and for a conversion at an age less than age 60, the applicable factor shall be the actual age plus 5 years.

Optional Forms of Payment based on Plan factors.

For traditional annuity lump-sums, the 417(e) interest rate for November of the prior year and 417(e) mortality.

Prescribed Funding Assumptions and Methods

The following assumptions and methods are prescribed by ERISA.

Funding interest rates

For 2021 Plan Year: Segment Rates with four-month lookback, constrained in accordance with relevant legislation as follows:

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	2.22%	4.75%
Second Segment Rate	3.38%	5.36%
Third Segment Rate	3.92%	6.11%
Effective Interest Rate	3.52%	5.55%

For 2020 Plan Year: Segment Rates with four-month lookback, constrained in accordance with relevant legislation as follows:

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	2.79%	4.75%
Second Segment Rate	3.92%	5.50%
Third Segment Rate	4.38%	6.27%
Effective Interest Rate	4.02%	5.69%

* Used for maximum tax-deduction purposes.

** Used for minimum funding and benefit restriction purposes.

Mortality

Non-disabled

Eaton specific mortality projected with MP-2019 Improvement Scale published by the Society of Actuaries (SOA) from the base year of 2015.

Disabled

Revenue Ruling 96-7 disabled mortality for males and females.

Mortality for purposes of calculating lump sums

For Eaton lump sum mortality is 2021 IRS 417(e) Applicable Mortality table. For Eaton Cooper lump sum mortality is not applicable.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan related expenses to be paid from plan assets during the year.

Pension Plan for Eaton Corporation Employees

EIN/PN: 34-0196300 / 029

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods

For Eaton the following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor with the actuary's advice and is an acceptable method under PPA.

For assumptions that apply to former Cooper Pension Plan participants, the current assumptions were set by the prior actuary. We believe the current assumptions to be reasonable.

Plan Expenses

Expected plan related expenses are equal to a 5-year average of expenses paid from the Plan outside of PBGC premiums plus the estimated PBGC premiums for the current year rounded up to the nearest thousand. For 2021 the estimated plan related expenses included in the Target Normal Cost are \$14,375,000.

Salary increase assumption

For Eaton wages and salaries are assumed to increase by 3.00% per annum. This assumption is based on guidance from Eaton Corporation's expectations for the coming year.

Inflation

For Eaton the annual inflation increase is 2.75%. This assumption is based on 25-year historical data excluding the period after the 2008 financial crisis but including expected future inflation.

Social Security

For Eaton the annual increase in maximum wage base is 2.75%. This assumption is based on the expected inflation assumption.

Cash Balance interest crediting rate

The interest crediting rate for Appendix CB is assumed to be equal to the forward rates for 30-Year Treasury Securities as published by Bloomberg as of December 31, 2020. The interest crediting rate for Appendix ASD is assumed to be equal to the forward rates for 5-Year Treasury Securities as published by Bloomberg as of December 31, 2020. The interest crediting rate applicable to cash balance accounts of former Cooper Pension Plan participants is assumed to be equal to the forward rates for 1-Year Treasury Securities as published by Bloomberg as of December 31, 2020.

Cash balance index credits

For opening account balances subject to indexing under Appendix CB are assumed to increase 2.75% per annum (in addition to interest credits) during active employment. This is assumed to be the same as inflation, which is in line with the basis for actual index credits to participant accounts as outlined in the plan document.

Cash Balance Annuity Conversion Rate

Conversion of cash balance accounts to annuity forms of payment for former Cooper Pension Plan participants is based on the following assumptions:

Interest - 3.25% for 2021 and 3.50% for 2020.

Mortality – Blended 1971 Group Annuity Mortality projected to 1978 with Scale E (95% male/ 5% female).

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods (continued)

Cost of Living Adjustment

For Eaton the cost of living increase is assumed to be 2.75%, when applicable. This is assumed to be the same as inflation, which is line with the basis for actual cost of living adjustments to participant benefits as outlined in the plan document.

Marital Percentage

It was assumed that 82.5% of the male salaried employees and 61.5% of the female salaried employees would be married at the time of retirement. For former Cooper Pension Plan participants, it was assumed that 80% of all participants are married and that husbands are 3 years older than their wives. For all other participants, 85% of the male and 65% of the female are assumed to be married. In each case the husband was assumed to be 3 years older than his wife.

Frequency of optional payment forms and assumed commencement ages

80% of cash balance participants are assumed to elect the lump sum option while 20% are assumed to take their annuity option. Of others who are eligible, 60% are assumed to elect the lump sum form of benefit payment. Other optional forms of payment were assumed based on the experience of each appendix over the last several years. Optional form elections are summarized in the tables below for actives and deferred vested participants.

Deferred vested participants are assumed to commence benefits at age 62, if they are eligible for unreduced retirement. Otherwise the assumed commencement age is 65. Assumed commencement ages for active participants vary based on the provisions of the applicable appendix. Active commencement ages are summarized in the chart below.

The commencement assumption for terminating Appendix CB participants is 50% immediate commencement and 50% deferred to age 62 commencement. For terminating Appendix CB participants over age 62, 100% immediate commencement will be assumed. The commencement assumption for Appendix CB participants who are assumed to become disabled is 75% immediate commencement and 25% deferred until normal retirement date.

With respect to former Cooper Pension Plan participants, 25% of with cash balance accounts are assumed to receive their benefit in the form of a single life annuity, and 75% are assumed to receive their benefit in the form of a lump sum. Deferred vested participants with traditional deferred annuities are assumed to receive their benefits in the form of a single life annuity. All future terminations with lump sum values under \$15,000 are assumed 100% to take an immediate lump sum.

Rates of Retirement

It is assumed that normal and early retirement will occur in accordance with the following rates. Hourly benefit structures have been arranged into three groups as follows:

- Structure (1) For employees eligible for 30-year retirement under benefit structures MA, W, CO and Columbia City.
- Structure (2) For employees eligible for supplements other than as described in Structure (1).
- Structure (3) For employees eligible for subsidized benefits without supplement.

The retirement assumption was set based on an experience study performed during 2012. The rates are monitored annually with updates made as deemed necessary. The most recent update was made to retirement rates for participants benefitting under Appendix B based on the annual update to the experience study performed in 2015.

Terminated vested participants with traditional deferred annuities are assumed to retire at age 65. Terminated vested participants with cash balance accounts are assumed to retire at age 60.

Eaton announced the sale of its Hydraulics business on January 21, 2020 with an expected close date by mid-2020. Participants who are expected to be impacted by the sale were assumed to terminate in the middle of the year.

Disability Rates

The plan's experience is too small to form the basis of a reliable assumption; however, the assumption remains appropriate given historic gain and loss experience of the plan, as well as general expectations for clients similar to Eaton.

Withdrawal rates for active participants not eligible for retirement

A moderate rate of termination of employment is assumed. For Salaried employees, such rate varies by sex and length of employment during the first five years of employment and by sex and attained age thereafter. For Hourly employees, such rate varies by length of employment during the first five years of employment and by attained age thereafter. The termination assumption was set based on an experience study performed during 2012. The rates are monitored annually with updates made as deemed necessary. No updates to termination rates have been made since 2012. A sample of rates, showing the percentage of participants assumed to terminate in the next year, is as follows:

Eaton announced the sale of its Hydraulics business on January 21, 2020 with an expected close date by mid-2020. Participants who are expected to be impacted by the sale were assumed to terminate in the middle of the year.

Asset valuation method

The Actuarial Value of Assets is determined using a method that spreads asset gains/(losses) over 24 months. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2021 Expected Return	7.25%	6.11%	6.11%
2020 Expected Return	7.25%	6.27%	6.27%
2019 Expected Return	7.25%	6.11%	6.11%

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods (continued)

The expected asset return assumption was based on an analysis of long term expected returns for the asset classes in which the plan's assets were invested as of the measurement date.

Use of Models

Actuarial Standard of Practice No. 56 ("ASOP 56") provides guidance to actuaries when performing actuarial services that involve designing, developing, selecting, modifying, using, reviewing, or evaluating models. Buck used third-party software to perform the calculations that underlie the actuarial information contained in this report. The model in the third party software calculated the actuarial information provided in this report using plan provisions, data, and assumptions as of a measurement date under rules applicable to the calculations. Buck has an extensive review process whereby the results of the calculations are checked using detailed sample output, changes from year to year are summarized by source, and significant deviations from expectations are investigated. Other outputs are similarly reviewed in detail and at a high level for accuracy, reasonability, and consistency with prior results. Buck also reviews the model when software changes occur. The review is performed by experts who are familiar with applicable rules and the way the model generates its output.

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report. However, in accordance with ASOP 51, an assessment of risks for the plan is provided in Appendix D of this report.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods (continued)

Summary of Changes from the January 1, 2020 Valuation

- The interest rates for funding purposes and the interest rates and mortality tables for valuing lump sums have been updated to the applicable rates for the current plan year in accordance with ARP.
- The mortality tables have been updated to the Eaton specific mortality projected with MP-2019 Improvement Scale published by the SOA from base year 2015.
- Cash balance interest crediting rates have been updated to the December 31, 2020 Bloomberg forward rates for 30-Year Treasury Securities for Appendix CB, the December 31, 2020 Bloomberg forward rates for 5-Year Treasury Securities for Appendix ASD, and the December 31, 2020 Bloomberg forward rates for 1-Year Treasury Securities for cash balance accounts under the former Cooper Pension Plan.
- The cash balance annuity conversion rate applicable to cash balance accounts under the former Cooper Pension Plan was updated from 3.50%.to 3.25% to reflect the administrative rate in effect for 2021 and to reflect the trend of the decrease in the basis for such rate, i.e. the average of the PBGC rate under PBGC Table II for the 36-month period ending in October of the year preceding such Plan Year, rounded to the next highest 1/4%, but shall not be more than 1/4% less nor 1/2% more than the Interest Rate in the immediately preceding Plan Year.
- Eaton announced the sale of its Hydraulics business on January 21, 2020 with an expected close date by mid-2020. Participants who are expected to be impacted by the sale were assumed to terminate in the middle of the year.
- For participants who have accrued benefits under Appendix CB who are assumed to become disabled, the commencement assumption has been updated to a 75% immediate commencement and 25% commencement at normal retirement age.
- The assumption changes listed above increased the Funding Target by approximately \$49.5 million.
- Expected administrative expenses included in Target Normal Cost decreased from \$14,562,000 to \$14,375,000.

Schedule SB, Line 23 – Information on Use of Substitute Mortality Tables

The substitute mortality table applies to all groups of plan participants, excluding disabled participants and thus only disabled participants use the prescribed mortality tables for the 2021 plan year. The mortality ratios used to develop the table are 1.055227 for male annuitants, 1.122307 for female annuitants, 0.887648 for male non-annuitants, and 1.1054317 for female non-annuitants. The tables are based on full credibility for male annuitants, 94% credibility for female annuitants, 39% credibility for male non-annuitants, and 21% credibility for female non-annuitants. The substitute mortality tables have been approved beginning with the plan year commencing January 1, 2019 and ending with the plan year commencing January 1, 2028.
