INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator of the
Reliable Castings Corporation Employee Stock Ownership Plan:

Opinion
We have audited the financial statements of the Reliable Castings Corporation Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021 and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Reliable Castings Corporation Employee Stock Ownership Plan as of December 31, 2021 and 2020, and the change in its net assets available for benefits for the year ended December 31, 2021, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Reliable Castings Corporation Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Reliable Castings Corporation Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements
Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Reliable Castings Corporation Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Reliable Castings Corporation Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA
Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Substantial Doubt about the Company’s Ability to Continue as a Going Concern
The accompanying financial statements have been prepared assuming the Company, the Plan Sponsor, will continue as a going concern. The Company has recurring losses from operations and has stated that substantial doubt exists about the Company’s ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified with respect to this matter.

1. DESCRIPTION OF THE PLAN:

General

The Reliable Castings Corporation (the "Company" or “Employer”) established the Reliable Castings Corporation Employee Stock Ownership Plan (the "Plan"), effective as of January 1, 1994. The Plan is a leveraged employee stock ownership plan (the “ESOP”) and is designed to comply with Section 4975(e)(7), and the regulations thereunder, of the Internal Revenue Code of 1986, as amended, (the "Code") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Effective as of December 1, 2021, the Company amended the plan document to freeze the Plan. As such, no further contributions will be made to the Plan, no further allocations of Company shares will be made to participant accounts, and no new employees can become eligible to participate in the Plan.

The Plan purchased Company common shares using the proceeds of a term loan agreement with the Company (see Note 5) and holds the stock in a trust established under the Plan. Due to the Plan freeze, the loan is deemed to be suspended. Prior to the Plan freeze, the loan was to be repaid over a period of twenty years by fully deductible company contributions to the trust fund. As the Plan made each payment of principal, an appropriate percentage of stock would be allocated to eligible employees' accounts in accordance with applicable regulations under the Code. Prior to the Plan freeze, shares vested over a period of six years as described in Note 1. Due to the Plan freeze, all participant accounts became 100% vested.

The loan was collateralized by the unallocated shares of stock and is guaranteed by the Company. The lender has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2021 and 2020, and for the year ended December 31, 2021, present separately the assets and liabilities and changes therein pertaining to:

a. the accounts of employees with vested rights in allocated stock (allocated) and

b. stock not yet allocated to employees (unallocated).

Participation

Prior to the freezing of the Plan, employees of the Company were eligible to participate in the Plan after ninety days of service. Participants who did not have at least 1,000 hours of service during such plan year or were not employed on the last working day of a plan year, were generally not eligible for an allocation of Company contributions for such year. Due to the freezing of the plan, no new employees can become eligible to participate in the Plan.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Prior to the freezing of the Plan, each participant's account was credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who were eligible employees of the Company as of the last day of the plan year received an allocation. Allocations were based on a participant's eligible compensation, relative to total eligible compensation.

Investment funds
The Plan's assets, which consist of Company common shares, are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, which invests cash received and other income and makes distributions to participants.

Voting rights
Plan provisions authorize the Plan Committee to vote the common shares held by the Plan participants.

Withdrawals and benefits
In 2021, the Plan was amended such that all future distributions will be made in Company stock. Prior to the amendment, upon normal or disability retirement, death, or termination, the participant or beneficiary could have elected to receive either a lump sum amount equal to the value of the funds allocated to his or her account (only the non-forfeitable portion of the account for terminations other than normal or disability retirement or death) or any mode of payment not prohibited by law or the terms of the Plan. Plan provisions require payments to participants or beneficiaries to commence the year after retirement or death and five years after termination in an amount equal to twenty percent of the vested balance. Payments continue at that rate until the account is fully disbursed.

Diversification
Prior to the Plan freeze, diversification was offered to participants close to retirement so that they could have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified.

Plan termination
The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Plan Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund.

Vesting
Due to the Plan freeze, all participant accounts became 100% vested. Prior to the Plan freeze, if a participant's employment with the Company ended for any reason other than retirement, permanent disability or death, he or she would vest in the balances in his or her account based on total years of service with the Company. Provided the participant had at least one hour of service under the Plan, the participant's Plan benefit would have been vested based on the following schedule:

Years of Service	Non-forfeitable Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Participant accounts and forfeitures
Prior to the Plan freeze, employer contributions and Plan forfeitures were allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. The remaining forfeitures of terminated non-vested account balances will be allocated to participants at December 31, 2021. The remaining unallocated forfeitures at December 31, 2021 and 2020, were $96,202 and $40,679, respectively. Plan earnings in 2021 consist of stock appreciation. Each participant's account received the share value increase based on the number of shares held.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting
The financial statements are prepared on the accrual basis of accounting.

Investment valuation and income recognition
The common shares of the Company are valued at estimated fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Employer contributions
Prior to the Plan freeze, the Company intended to make annual contributions to the Plan equal to the required debt service, plus additional amounts determined by the Company's Board of Directors based on profitability. Due to the Plan freeze, there were no Company contributions in 2021 and no further contributions will be made to the Plan.

Payment of benefits
Benefits are recognized when paid.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the Plan's financial statements and related notes. Actual results could differ from those estimates.

Risks and uncertainties
The Plan invests in common stock of the Company. This common stock is exposed to various risks, including a variety of risks associated with investing in an operating entity and the liquidity risk associated with investing in a private company. Due to the level of risk associated with the common stock, it is at least reasonably possible that changes in the values of investments in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in the net assets available for benefits.

Subsequent events evaluation
The Plan has evaluated subsequent events through October 12, 2022, the date financial statements were available to be issued.

3. INVESTMENTS:

The Plan's investment in Reliable Castings Corporation common stock, at December 31, is presented in the following table:

	2021		2020	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	99,293	66,837	99,263	66,837
Cost	$ 2,472,086	1,520,538	2,472,086	1,520,538
Estimated fair value	$ 1,519,186	1,022,603	1,424,853	959,109

4. FAIR VALUE MEASUREMENTS:

Accounting guidance for fair value measurements establishes a framework for measuring fair value and expanded disclosures regarding fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under fair value measurements are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020:

	Assets at Fair Value as of December 31, 2021	
	Level 3	Total
Reliable Castings Corporation		
Common stock	$ 2,541,789	2,541,789
Total assets at fair value	$ 2,541,789	2,541,789

	Assets at Fair Value as of December 31, 2020	
	Level 3	Total
Reliable Castings Corporation		
Common stock	$ 2,383,962	2,383,962
Total assets at fair value	$ 2,383,962	2,383,962

Changes in Fair Value of Level 3 Assets
The Plan distributed 0 shares of the Plan’s level 3 assets for the year ended December 31, 2021.

Following is a description of the valuation methodologies used for the assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

The Reliable Castings Corporation common stock held by the Plan is reported at fair value based upon an appraisal. This appraisal is based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table.

Instrument	2021 Fair Value	Valuation Techniques	Unobservable Input
Common stock	$ 2,541,789	Adjusted Balance Sheet	* Discount for lack of Marketability

Instrument	2020 Fair Value	Valuation Techniques	Unobservable Input
Common stock	$ 2,383,962	Capitalized Cash Flow Method and Guideline Public Company Method	* Normalized level of earnings * EBITDA * Cash flow capitalization factor * Discount for lack of Marketability

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. LOAN PAYABLE:

In 2008, the Plan entered into a $4,344,408 term loan agreement with the Company. The proceeds of the loan were used to purchase Reliable Castings Corporation common stock. Unallocated shares are collateral for the loan. Prior to the freezing and suspension of the loan, the agreement provided for the loan to be repaid in annual principal and interest installments over twenty years in the amount of $331,094 commencing on December 31, 2008. The balance in suspense at December 31, 2021 is $1,958,189. Interest had been charged at a fixed rate equal to 4.4% per annum.

6. ADMINISTRATION OF PLAN ASSETS:

The Plan's assets, which consist solely of Reliable Castings Corporation common stock, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received and interest income and makes distributions to participants. Prior to the freezing of the Plan, the Trustee also administered the payment of interest and principal on the loan, which was reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses are paid directly by the Company.

7. RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS:

The Plan invests in Company common stock and has indebtedness due to the Company. These transactions qualify as party-in-interest transactions. As described in Note 6, the Company pays all plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

8. TAX STATUS OF THE PLAN:

The Plan obtained its latest determination letter dated June 23, 2017, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. Although the Plan has been restated since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. PLAN OPERATIONS IMPACTED BY COVID-19:

On March 11, 2020, the World Health Organization declared the novel coronavirus ("COVID-19") outbreak a pandemic which has impacted the financial markets and global economy. The COVID-19 pandemic is on-going and the duration and extent of the related financial impact on the Plan's net assets available for benefits and changes in net assets available for benefits is uncertain and cannot be reasonably estimated at this time.

On March 27, 2020, the U.S. Congress passed the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The CARES Act provided temporary relief for retirement plan sponsors and their participants with respect to distributions and participant loans during 2020. The provisions of the CARES Act could be effective and operationalized immediately, prior to amending the plan document. The Company elected not to adopt the optional provisions of the CARES Act.

10. BASIS OF PRESENTATION:

As previously disclosed, the accompanying financial statements of the Plan have been prepared on an accrual basis of accounting. The financial statements and supplemental schedule have been prepared assuming that the Company, the Plan's sponsor, will continue as a going concern. The Company has recurring losses from operations and has stated that substantial doubt exists about the Company's ability to continue as a going concern. The uncertainty regarding the Company's ability to continue as a going concern raises substantial doubt about the Plan's continuation. The financial statements and the supplemental schedule do not include any adjustments that might result from the outcome of this uncertainty.
