INDEPENDENT AUDITOR'S REPORT

To the Trustee, Participants and Administrator of the
Group Delta Consultants, Inc. Employee Stock Ownership Plan:

Opinion

We have audited the financial statements of Group Delta Consultants, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2021 (Liquidation Basis) and December 31, 2020, the related statement of changes in net assets available for benefits (Liquidation Basis) for the year ended December 31, 2021, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021 (Liquidation Basis) and December 31, 2020, and the changes in net assets available for benefits (Liquidation Basis) for the year ended December 31, 2021, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter – Terminating Plan and Liquidation Basis of Accounting

As discussed in Note 1 to the financial statements, during the year ended December 31, 2021, the trustees of the Plan elected to terminate the Plan. As a result, the Plan has changed its basis of accounting from the going-concern basis of accounting used in presenting the 2020 financial statements to the liquidation basis of accounting used in presenting the 2021 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for twelve months from the date these financial statements were issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2021 AND DECEMBER 31, 2020

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION

The following description of the Group Delta Consultants, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provision.

General

Group Delta Consultants, Inc. (the Company) established the Plan in 2001. The employee stock ownership plan (ESOP) was designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the IRC) and was subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan purchased shares of Company common stock through several transactions beginning in 2004. These shares were purchased using employer contributions received by the Plan. Accordingly, all shares of Company common stock are presented as allocated in the financial statements.

Plan Termination

On August 8, 2019, the trustees of the Plan elected to freeze the Plan, effective January 1, 2019. The Plan was frozen such that no new participants could enter the Plan and no further contributions would be made. All participants became fully vested in their account balances effective January 1, 2019.

Effective July 1, 2021, the trustees of the Plan elected to terminate the Plan. The Plan's trustees completed the process of terminating the ESOP and distributing all Company common stock and interest-bearing cash to the participants by December 31, 2021. Under the put option provisions, the Company purchased the distributed shares of Company common stock from participants at the fair market value as of the most recent valuation date, December 31, 2020. The notes to the financial statements provide general information regarding the Plan's provisions up until the Plan terminated, upon which the liquidation basis of accounting was applied unless otherwise indicated.

Plan Administration

The Plan's assets, which consisted primarily of Company common stock, were held by the trustees. The trustees of the Plan are officers of the Company. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustees' fees are paid directly by the Company.

Payment of Benefits

In connection with the Plan's termination, 100% of a participant's account was distributed during the year ended December 31, 2021.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2021 AND DECEMBER 31, 2020

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION – (Continued)

Put Option

Under federal income tax regulations, the Company common stock held by the Plan and its participants, and that are not readily tradable on an established market, or that are subject to trading limitations, include a put option (liquidity put). The liquidity put is a right to demand that the Company buy shares of its common stock held by the participant for which there is no market. The put price is representative of the fair market value of the common stock. The Company may pay for the purchase with interest not exceeding a period of five years. The purpose of the liquidity put is to ensure that the participant has the ability to ultimately obtain cash. In addition, if the Company elects to pay the purchase price of the common stock option under the installment method then the Company shall give the participant who is exercising the put option the Company's promissory note for the full unpaid balance of the purchase price.

Right of First Refusal

An agreement between the Company, the Plan and all participants who receive a distribution of employer stock, places restrictions on the transfer or sale of employer stock. Shares cannot be sold or transferred without first offering them to the Company at a per-share price no greater than that tendered by a prospective third party purchaser or the last ESOP valuation. If the Company does not exercise its right to purchase the shares, then the shares must be offered to the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

As discussed in Note 1, in 2021 the Plan's trustees terminated the Plan and distributed all Company common stock and interest-bearing cash to the participants. As a result, the Plan has changed its basis of accounting to the liquidation basis of accounting in the financial statements as of and for the year ended December 31, 2021. The estimated net realizable value of Plan investments as of December 31, 2021 would be equivalent to fair value and no material adjustment was required in the change in basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Payment of Benefits

Benefits are recorded when paid.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Plan Fees and Administrative Expenses

Plan fees and administrative expenses are generally paid by the Company, unless paid by the Plan. Expenses that are paid by the Company are excluded from these financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates. Significant estimates included the valuation of Company common stock.

Risks and Uncertainties

The Plan invests in the common stock of the Company, which is exposed to various risks, such as interest rate risk, credit risk and market risks, as well as valuation assumptions based on earnings, cash flows or other techniques. Due to the level of risk associated with this investment and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of this investment will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditor's report, which is the date the accompanying financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under this framework are described as follows:

<u>Level 1</u>	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
----------------	---

GROUP DELTA CONSULTANTS, INC.
EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2021 AND DECEMBER 31, 2020

3. FAIR VALUE MEASUREMENTS – (Continued)

Level 2

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020.

Company common stock: The fair value of the Company's common stock was determined by an independent appraisal. This appraisal was based upon a combination of the income and market valuation techniques. The appraiser took into account historical and projected cash flows and market comparables. Plan management has concluded that a market participant would also recognize a discount for lack of marketability and lack of control. This investment is classified within level 3 of the valuation hierarchy because the asset value is not based on an active market with quoted prices and was determined using significant unobservable inputs.

Interest-bearing cash: Interest-bearing cash consists of money market investments. The carrying value is believed to be representative of its fair value based on its short term nature and is classified within level 1 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2021 AND DECEMBER 31, 2020

3. FAIR VALUE MEASUREMENTS – (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020:

<u>Description</u>	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Company common stock	\$ 2,229,694	\$ -	\$ -	\$ 2,229,694
Interest-bearing cash	23,928	23,928	-	-
Total assets	<u>\$ 2,253,622</u>	<u>\$ 23,928</u>	<u>\$ -</u>	<u>\$ 2,229,694</u>

In regards to the classification of investment options offered by the Plan, there were no reclassifications between Levels 1, 2 and 3 during the year ended December 31, 2020.

The Plan distributed all of its level 3 assets during 2021, with no changes in fair value during the year.

4. INVESTMENTS

The following table summarizes the investment in the Company's common stock at December 31, 2020:

Company common stock shares:	
Number of shares	24,360
Cost	\$ 1,260,658
Market	\$ 2,229,694

5. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. The Plan invests in Company common stock. These transactions qualify as party in interest transactions for which a statutory exemption exists.

6. TAX STATUS

The Company received a favorable determination letter from the Internal Revenue Service (IRS), on January 5, 2015, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The plan has since been amended. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GROUP DELTA CONSULTANTS, INC.
EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2021 AND DECEMBER 31, 2020

6. TAX STATUS – (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
