INDEPENDENT AUDITORS' REPORT

To the Pension Committee and Participants of the Vitesco Technologies Hourly Pension Plan:

Opinion

We have audited the financial statements of Vitesco Technologies Hourly Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021 and 2020, and the changes in net assets available for benefits for the years then ended in accordance with generally accepted accounting principles in the United States of America ("GAAP").

Basis for Opinion

We conducted our audits in accordance with generally accepted auditing standards in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

• First 5 years	4.75%	2.22%
• Next 15 years	5.36%	3.38%
• Over 20 years	6.11%	3.92%
Mortality sponsor elections		
• Healthy participants	Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2006 mortality tables with IRS developed adjustments and projected with mortality improvements scale MP-2019.	
• Pre-1994 disabilities	Revenue Ruling 96-7 table for participants who became disabled after 1994 and are eligible for Social Security disability benefits.	
Other economic assumptions		
• Expected investment return	4.75% per year for calendar year 2019, 4.00% per year for calendar year 2020 and 3.25% per year for calendar year 2021.	
• Expenses	\$241,000 added to current year normal cost	

Rationale for significant economic assumptions

- Expected investment return – The expected rate of return on plan assets is based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix. The expected return on assets assumption is net of an adjustment of 8 bps for investment expenses assumed to be paid from plan assets.
- Expenses – Equal to prior year's actual administrative expenses rounded to the nearest \$1,000, adjusted for increase in anticipated PBGC premiums.

Demographic assumptions		
• Withdrawal	140% of the Mercer modified 2003 SOA Turnover Table. See table of sample rates.	
• Disability incidence	82% of the 1985 Pension Disability Table class - 2. See table of sample rates. 100% of participants becoming disabled are assumed to be eligible for Social Security disability benefits.

60	4.76%	2.27%	1.79%
65	0.00%	3.03%	2.10%

Rationale for significant demographic assumptions

- Withdrawal rates, retirement rates and form of payment assumptions are based on the experience study Continental Automotive, Inc. Pension Plans Actuarial Assumptions Review report dated December 31, 2015 using data from 2012 through 2014 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- The benefit commencement age assumption is based on the plan's lack of early retirement subsidy that suggests terminated participants will defer commencement until age 65.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- The disability decrement assumption is 82% of the 1985 Pension Disability Table – Class 2. The plan's relatively small size would not support a credible decrement study therefore use of a standard table is appropriate.

Actuarial methods for funding**Asset methods**

The asset valuation method is an average of the adjusted market value for each month during the last 6 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's target normal cost is the sum of the individual target normal costs, and the plan's funding target is the sum of the individual funding targets for all participants under the plan.

Schedule SB, line 24 — Change in Actuarial Assumptions

Actuarial assumption changes since prior valuation

The following assumption changes have occurred since the January 1, 2020 valuation.

- Interest discount rates were updated from 2020 to 2021 in accordance with PPA and the plan sponsor's election to reflect the stabilized interest rate relief provided by the American Relief Plan Act of 2021.
- The expense component of normal cost decreased from \$229,000 to \$241,000 reflect our expectations for the current plan year.
- Expected investment return decreased from 4.00% for 2020 to 3.25% for 2021.

Early retirement		
• Eligibility	Age 60 with 10 years of Eligibility Service	
• Benefit	The annual pension is the benefit accrued to Early Retirement date reduced by a certain percentage to reflect early commencement. This percentage is 5/9 of the 1% for each month prior to Normal Retirement date.	

Schedule SB, Part V — Summary of Plan Provisions

Deferred vested	
• Eligibility	Age 60 with 10 years of Eligibility Service
• Benefit	The annual pension is the accrued benefit deferred to age 65 or, if the participant elects, a reduced pension to begin any time between age 60 and 65. The reduction for early commencement is described in the Early Retirement section above.
Disability	
• Eligibility	Ten years of Eligibility Service and eligible for Social Security disability benefits.
• Benefit	The annual pension payable immediately is computed as under Normal Retirement. A temporary benefit is also payable until age 65 and is computed under Normal Retirement, not to exceed \$212.50.
Pre-retirement death	
• Benefit prior to early retirement	50% Joint & Survivor benefit payable to beneficiary at later of date of participant's death or participant's attainment of age 60, unless pre-retirement death benefit coverage waived by employee.
Form of benefits	
• Automatic form for unmarried participants	Life Annuity
• Late retirement factor	UP 1984 Mortality Table and 7% Interest Rate
• Automatic form for married participants	50% Joint and Survivor
• Optional forms	75% Joint and Survivor
• Lump sum cash-out	Benefit paid immediately to participant as a lump sum if the Actuarial Equivalent of the age-65 monthly retirement benefit payable as a Life Annuity is less than \$5,000.
• Optional form conversion factors	IRC Section 417(e) mortality table for the applicable year and interest based on 3-segment yield curve with 4 month look-back, but not less than IRC Section 417(e) mortality table and 7% interest rate or UP 1984 mortality table and 7% interest rate.
Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. When the plan benefits were frozen, the limit was \$165,000.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2015 are included in this valuation.

- **Most recent plan amendments included:** January 1, 2019 amendment changed the name of the plan.
- **Plan amendments excluded:** None

Schedule SB, Part V — Summary of Plan Provisions

- **Late retirement increases:**

- *Active participants:* The plan applies late retirement actuarial increases for all participants who defer retirement beyond their normal retirement date and this valuation includes those increases.
- *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.

- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**

- *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits for events that occurred before the valuation date but includes contingent event benefits for events that are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

INDEPENDENT AUDITORS' REPORT

To the Pension Committee and Participants of the Vitesco Technologies Hourly Pension Plan:

Opinion

We have audited the financial statements of Vitesco Technologies Hourly Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021 and 2020, and the changes in net assets available for benefits for the years then ended in accordance with generally accepted accounting principles in the United States of America ("GAAP").

Basis for Opinion

We conducted our audits in accordance with generally accepted auditing standards in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

VITESCO TECHNOLOGIES HOURLY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

1. DESCRIPTION OF PLAN

The following description of the Vitesco Technologies Hourly Pension Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a noncontributory defined benefit plan sponsored by Vitesco Technologies USA, LLC ("the Employer"). The Plan commenced October 1, 1988. Effective December 31, 2004, the Plan was frozen, and accordingly, there will be no further benefit accruals with respect to any employee after December 31, 2004, and no new employees may enter the Plan after December 31, 2004. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Master Trust - For the period from January 1, 2020 to June 30, 2021, the assets of the Plan are maintained, for investment purposes only, on a commingled basis with the assets of the Pension Plan for Hourly-Paid Employees of Continental Automotive, Inc. and Certain Affiliated Companies, the Pension Plan for Salaried Employees of Continental Automotive, Inc. and Certain Affiliated Companies, the Continental NA Pension Plan, the Continental NA Automotive Union Pension Plan (Huntsville), the ContiTech USA, Inc. Defined Benefit Plan and the Vitesco Technologies USA, LLC Pension Plan (collectively, the Participating Plans") in the Continental Automotive, Inc. Master Trust ("Continental Master Trust"). These plans own specific assets of the Continental Automotive, Inc. Master Trust. Investment earnings for each plan was allocated based on the ownership interest of the specific assets of each plan in the Continental Master Trust.

For the period from July 1, 2021 to December 31, 2021, the assets of the Plan are maintained, for investment purposes only, on a commingled basis with the assets of the Vitesco Technologies USA, LLC Pension Plan in the Vitesco Technologies USA, LLC Master Trust ("Vitesco Master Trust"). These plans own specific assets of the Vitesco Master Trust. Investment earnings for each plan was allocated based on the ownership interest of the specific assets of each plan in the Vitesco Master Trust.

Funding Policy - The Plan's funding policy is for the Employer to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. For the years ended December 31, 2021 and 2020, no contributions were necessary to meet the minimum funding requirements of ERISA.

Pension Benefits - Participants with at least five years of eligible service, as defined in the plan document, who retire after January 1, 1997 at normal retirement age 65, are entitled to monthly pension benefits for life equal to a specified dollar amount ranging from \$16 to \$30 for each year of credited service. If the present value of vested benefit is less than \$1,000, then the Plan provides for lump sum payments of accumulated pension benefits to participants.

The Plan permits early retirement provided the participant has reached age 60 and has completed at least ten years of eligible service. Eligible participants may elect to receive monthly early retirement benefits which are payable after age 60 but prior to age 65, in the amount of \$300 per month. Eligible participants who are age 63 and seven months or older on the date employment is terminated may elect to receive a lump sum payment of \$5,000 in lieu of the \$300 monthly amount.

Death and Disability Benefits - Unless a participant elects otherwise, in the event of a participant's death, the Plan also provides for a life annuity to a participant's surviving spouse equal to 50% of the reduced monthly benefit amount to which the participant was entitled under the Plan at the time of the participant's death. Benefits commence on the first day that the participant would have been eligible for early retirement.

Participants disabled prior to age 65, having completed at least ten years of employment and eligible for Social Security disability benefits, are eligible for disability benefits. The amount is equal to the normal retirement benefit based upon years of credited service at the disability retirement date, plus an additional benefit in the same amount payable during the period from the disability retirement date until age 65 or the date the participant becomes eligible for full disability insurance benefits under the Federal Social Security Act, whichever comes first.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements have been prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Concentration of Credit Risk - As of December 31, 2021 and 2020, the Vitesco Master Trust, the Continental Master Trust, and the Plan place their temporary cash and cash equivalents with high credit quality financial institutions. At times, such cash may be in excess of the Federal Depository Insurance Corporation insurance limit. Management believes these financial institutions have strong credit ratings and that credit risk related to these deposits is minimal.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. See Note 3 for disclosure of fair value measurements.

Investments, and the income and losses therein, are allocated to the Participating Plans based on each plan's participation in investment options within the Continental Master Trust and the Vitesco Master Trust. Accordingly, the Plan's investment income includes its allocable share of the Continental Master Trust and the Vitesco Master Trust's interest and dividend income and net appreciation in fair value of investments.

The Plan's interest-bearing cash held outside of the Master Trust record purchases and sales of securities on a trade-date basis. Interest income is recorded on the accrual basis.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - The Plan's expenses are paid either by the Plan or by the Employer, as provided in the plan document. Expenses that are paid directly by the Employer are excluded from the accompanying financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are reflected as a reduction of the Plan's interest in the Continental Master Trust and Vitesco Master Trust's income in the accompanying statements of changes in net assets available for benefits.

Subsequent Events - Management has evaluated subsequent events through October 5, 2022, which is the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust and the Plan have the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used as of December 31, 2021 and 2020.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Government and corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issues with similar credit ratings.

Collective trust funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by State Street Bank and Trust Company ("State Street"), the Trustee of the Continental Master Trust and the Vitesco Master Trust, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Continental Master Trust or the Vitesco Master Trust to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments as of December 31, 2021 and 2020.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Interest-bearing cash and cash equivalents: Valued as of the ending cash balance plus any accrued interest held by the Plan as of year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management believes the Master Trust's and the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2021. The following table does not include the Plan's interest in the Master Trust because that information is presented in a separate table (Note 4).

4. INTEREST IN MASTER TRUST

The value of the Plan's interest in the Continental Master Trust and the Vitesco Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Continental Master Trust and the Vitesco Master Trust are allocated to the individual plans based upon the amount of the time the Plan's assets were invested in the Continental Master Trust and the Vitesco Master Trust.

As discussed in Note 1, the assets of the Plan were transferred from the Continental Master Trust to the Vitesco Master Trust effective July 1, 2021. The following is a summary of the net assets of the Continental Master Trust as of December 31, 2020, and for the period from January 1, 2021 to June 30, 2021 and the year ended December 31, 2020, that was prepared by, or derived from, information prepared by State Street and furnished to management.

5. RISKS AND UNCERTAINTIES

The Continental Master Trust and Vitesco Master Trust and the Plan's investments include funds which invest in various types of investment securities and in various companies within various markets. Investment securities are exposed to several risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

6. TAX STATUS

The Internal Revenue Service has determined and informed the Employer by a letter dated October 18, 2016, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, management and the Plan's tax counsel, believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax period in progress.

7. PLAN TERMINATION

Although it has not expressed any intention to do so, the Employer has the right under the Plan, pending approval of applicable requirements under the collective bargaining agreements, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding the Plan's termination.
- Other vested benefits insured by the Pension Benefits Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations.
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

Any funds remaining after the satisfaction of all liabilities under the Plan with respect to participants, transferred retirees or their beneficiaries shall be returned to the Employer. In the event of a partial termination of the Plan, the interests in the Plan of all participants affected by such partial termination shall be fully vested and non-forfeitable to the extent funded as of the date of such partial termination.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Employer and the level of benefits guaranteed by the PBGC.

8. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain investments of the Continental Master Trust, the Vitesco Master Trust, and the Plan are managed by the State Street and KeyBank National Association. State Street and KeyBank National Association are Trustees of the Continental Master Trust, the Vitesco Master Trust, and the Plan, as defined by the master trust agreements and plan document, and therefore, these transactions qualify as exempt party in interest transactions. The Trustees receive investment and administrative fees as a result of these activities. Certain other third party administrative expenses were paid by the Employer on behalf of the Plan. These transactions qualify as exempt party in interest transactions.

9. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2021. Had the valuation been performed as of December 31, 2020, there would be no material differences.

The significant actuarial assumptions used in the valuations as of December 31, 2020 were:

Discount rate	2.40%
Mortality basis after normal retirement age	Pri-2012 sex-distinct, separate employee and retiree tables with contingent survivor adjustments for existing survivors and no collar adjustments applied with future improvement using the MP-2020 projection scale
Expected long-term return on assets	2.40%, net of expenses in the amount of \$193,000

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The total actuarial present value of accumulated plan benefits as of December 31, 2020, was as follows:

Vested benefits:	
Active participants	\$ 5,210,655
Inactive participants with deferred benefits	4,485,618
Inactive participants receiving benefits	<u>14,405,453</u>
Total vested benefits	24,101,726
Nonvested benefits	<u>63,441</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 24,165,167</u>

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2020, was as follows:

Actuarial present value of accumulated plan benefits as of beginning of year:	<u>\$ 22,341,342</u>
Increase (decrease) during the year attributable to:	
Increase for interest due to decrease in discount period	716,035
Change in actuarial assumptions	2,133,311
Benefits paid	(1,187,655)
Benefits accumulated and losses	<u>162,134</u>
Net change	<u>1,823,825</u>
Actuarial present value of accumulated plan benefits as of end of year:	<u>\$ 24,165,167</u>
