NOTES TO FINANCIAL STATEMENTS

NOTE A- Description of Plan

The following description of the Jesco, Inc. Savings and Investment Plan (hereinafter as "The Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Company established the Plan to provide non-union employees with a systematic means of saving and investing for the future. All employees who are 19 years of age and have completed six months of service are eligible to participate in the plan on entry date after attaining six months of service. Entry dates are the first day of month after the service obligation is met, or the day the service obligation is met if it falls on the first of the month. The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Assets of the Plan are allocated to participant accounts based on specific contributions made by each participant and respective matches made by the Company. Investment income (loss) is credited to each account based on appreciation (depreciation) of specific assets held in each participant account and any earnings thereon.

2. Contributions

Participants may contribute from 1 percent to 50 percent of compensation by means of payroll deductions, subject to certain discrimination tests prescribed by the Internal Revenue Code and other limitations specified in the Plan. The Company may make a discretionary matching contribution equal to a uniform percentage of salary deferrals.

3. Participant Accounts

Each participant's account is credited with participant's contributions, allocations of the Company's matching contributions and Plan gains or losses. Allocations of earnings and losses for each fund are based on the ratio of weighted average participant account balances per fund to the total weighted average of all participant account balances. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's accounts.

4. Vesting

Participants are immediately vested in their voluntary contributions, Company matching contributions and actual earnings thereon. However, vesting in Company matching contributions is based on years of service. Prior to normal retirement age, a participant's interest in the contributions of the employer becomes 100 percent vested after three years of service.

5. Distributions

Upon retirement, disability or death, a participant or beneficiary receives the amount credited to the participant's account in either a lump sum or, at the participant's election, in installments. Upon termination, other than retirement, disability or death, a participant becomes eligible to receive the current value of the participants' vested account in a lump sum.

6. Participant Investment Rollovers

Participants are allowed to transfer or rollover funds into the Plan from other qualified plans.

NOTE A- Description of Plan (continued)

7. Participant Notes Receivable

Participants may borrow from their account balances with interest charged at a rate equal to the "prime rate" plus 1 percent, which remains in effect for the duration of the loan. Loan terms range from 1 to 5 years or up to 25 years for the purchase of a primary residence. The minimum loan is \$1,000 and the maximum loan is the lesser of \$50,000 less the highest outstanding loan balance during the one year period prior to the new loan application date, or 50 percent of the participant's account balance less any current outstanding loan balance. The loans are secured by the balance in the participants' account. Principal and interest are paid ratably through payroll deductions. Participants may only take out one loan during any 12 month period and may only have two loans outstanding at any time. As of December 31, 2021 and 2020, the Plan had loans receivable from participants with principal balances plus any accrued and unpaid interest totaling \$123,300 and \$95,273 respectively, which are included in the accompanying Statements of Net Assets Available for Benefits.

8. Forfeited Accounts

At December 31, 2021 and 2020, forfeited nonvested accounts totaled \$5,084 and \$5,101, respectively. These accounts will be used to reduce future employer contributions.

NOTE B- Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America.

Use of Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of certain assets, liabilities and disclosures. Accordingly, the actual amounts could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

NOTES TO FINANCIAL STATEMENTS

NOTE B- Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

All investments of the Plan are held at Great-West Trust Company, LLC. The investments are comprised of open ended mutual funds selected by the participants.

Great-West Trust Company, LLC uses quoted market prices to value investments. Shares of mutual funds are valued at quoted market prices. Notes receivable from participants are reported at their unpaid principal balances plus any accrued interest.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation in fair value of investments.

The change in net unrealized appreciation/depreciation of investments held from the beginning of the plan year is included with realized gains/losses reported in the accompanying statement of changes in net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are paid by the participant are excluded from these financial statements.

Payment of Benefits

Benefits are recorded when paid.

Contributions

Contributions from the employees and the Company are recorded in the period in which the Company makes the payroll deductions from participant earnings.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

NOTE C- Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets

JESCO, INC. SAVINGS AND INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE C- Fair Value Measurements (continued)

- Quoted prices for identical assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the assets or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan's investments are held in trust and administered by the Trustee. All investment information presented in the accompanying financial statements and supplemental schedules, including investments held and net appreciation/depreciation in fair value of investments and interest and dividends, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

- *Open End Mutual funds* - Valued at the net asset value (NAV) of shares held by the plan at year end.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020:

NOTES TO FINANCIAL STATEMENTS

NOTE D- Fixed Annuity Contract

The Plan has entered into a fixed annuity with Key Guaranteed Portfolio Fund totaling \$1,236,087 for 2021 and \$633,376 for 2020. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. This contract meets the fully-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for the fully-responsive investment contracts because this is the amount received by participants if they were permitted to initiate transactions under the terms of the Plan. Contract value, as reported by Great-West Trust Company, LLC represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE E- Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated March 11, 2011 stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has not been amended since receiving the determination letter. Plan management believes the Plan is currently designed and operated in compliance with the applicable requirements of the Code. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax asset or liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2016.

NOTE F- Certified Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2021 and 2020, and net appreciation in fair value of investments and investment income for the year ended December 31, 2021, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Great-West Trust Company, LLC, the trustee of the Plan.

NOTE G- Rollover Contributions

The Plan allows for rollover contributions for employees. All rollover contributions become 100% vested on the day of the rollover contribution. Rollover contributions for the year ended December 31, 2021 were \$1,366,987 and are recorded on the statement of changes in net assets available for benefits.

Other notable related party transactions and party-in-interest transactions for services provided to the Plan by the affiliated disclosed.

NOTE I- Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE J – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes on the values of investment securities will occur in the near term and that such changes could materially affect participants' accounts balances and the amounts reported in the statement of net changes available for benefits.

NOTE K – Subsequent Events

The plan has evaluated subsequent events through September 30, 2022, the date the financial statements were available to be issued. No additional subsequent events have occurred that would require disclosure in the financial statements with the exception below.

On February 24, 2022, a war in the Ukraine began and this has caused significant global economic uncertainty and volatility. This uncertainty and volatility could have a significant impact on the Association's investment market value but is not expected to have a negative long-term impact.
