INDEPENDENT AUDITORS' REPORT

TO THE PLAN ADMINISTRATOR OF
JARO TRANSPORTATION SERVICES, INC.
401(K) PROFIT SHARING PLAN & TRUST
WARREN, OHIO

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of Jaro Transportation Services, Inc. 401(k) Profit Sharing Plan & Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Jaro Transportation Services, Inc. 401(k) Profit Sharing Plan & Trust's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in the notes to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Jaro Transportation Services, Inc. 401(k) Profit Sharing Plan & Trust and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Jaro Transportation Services, Inc. 401(k) Profit Sharing Plan & Trust's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

NOTES TO FINANCIAL STATEMENTS

December 31, 2021 and 2020

DESCRIPTION OF PLAN

The following description of Jaro Transportation Services, Inc. 401(k) Profit Sharing Plan & Trust ("the Plan") provides only general information. Participants should refer to the Plan agreement and summary plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which was originally established January 1, 1999 and restated as of December 31, 2021. The purpose of the Plan is to provide retirement income to eligible employees of Jaro Transportation Services, Inc. (the "Company" or the "Employer") through salary reduction and Company matching contributions. The Plan is subject to Section 401(k) of the Internal Revenue Code and the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). As of December 31, 2021 Farmers Trust Company is the Plan's third party administrator and trustee, and Great-West Trust Company, LLC is the custodian and recordkeeper.

Participation

All employees of the Company who have attained the age of 21 and who have completed at least 90 days of service are eligible for participation in the Plan. Each eligible employee who elects to participate in the Plan may contribute the maximum amount which will not cause the Plan to violate the actual deferral percentage test, the maximum annual additions allowed pursuant to the Internal Revenue Code or cause the Plan to exceed the maximum allowable amount as a deduction under Internal Revenue Code Section 404 on a tax-deferred basis. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of all contributions and earnings into various investment options offered by the Plan.

Forfeitures

Forfeitures attributable to Employer matching contributions are retained in the Plan and used to reduce future Employer contributions. Forfeitures retained in the Plan and used to reduce future Employer contributions aggregated \$6,350 and \$7,021 for the years ended December 31, 2021 and 2020, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits

On termination of service, a participant may elect to receive the distribution in either a lump-sum amount equal to the value of his or her vested account balance, or on an installment basis over a period not to exceed the life expectancy of the participant or the joint and last survivor expectancy of the participant and his or her designated beneficiary. A participant may also apply the vested portion of his or her account towards the purchase of an annuity contract. Participants are granted 100% vesting and may withdraw all funds from their account at 65 years of age. A non-terminated employee may make a withdrawal upon reaching 59 1/2 years of age.

Vesting

Participants are immediately vested in their elective wage deferrals plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is as follows:

<u>Years of Service</u>	<u>Vesting %</u>
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accounting records of the Plan are maintained on the accrual basis.

Payment of Benefits

Benefits are recorded when paid.

Investments

Investments in mutual funds are stated at the aggregate current value based upon quoted redemption values as of the last business day of the Plan's year. Investments in fixed annuities are valued based on the valuation method disclosed in the annuity contract and calculated by the annuity provider.

Purchases and sales of investments are reflected on a trade-date basis. Gain or loss on sale of investments is based on the identified or average cost methods. Interest income is accrued as earned. Dividend income is recorded on the ex-dividend date.

The Plan presents in its statement of changes in net assets available for benefits the net appreciation in the fair value of its investments, which consists of the net realized gains, net unrealized appreciation on those investments, and dividend and interest income.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Plan Expenses

Certain administrative functions are performed by officers and employees of Jaro Transportation Services, Inc. No such officer or employee receives compensation from the Plan. As of December 31, 2021 and 2020 certain administrative costs were paid by the Company, while others were paid directly by the Plan.

**SUMMARY OF SIGNIFICANT
ACCOUNTING POLICIES (continued)**

Risks and Uncertainties

The Plan provides for various investment options in any combination of mutual funds and fixed annuities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Contributions

Employee contributions are recorded in the period the Employer withholds payroll deductions from Plan participants. The Company will make matching contributions equal to 50% of the participants' elective deferral, not to exceed 6% of the participant's compensation. The Company's matching portion was \$125,276 for the year ended December 31, 2021 and \$109,132 for the year ended December 31, 2020. The Company may also make a non-elective contribution to be determined on an annual basis. The contribution is made to the individual accounts of only participants who are not highly compensated employees and is allocated to the participant's account in the proportion that each participant's compensation for the Plan year bears to the total compensation of all non-highly compensated participants for such year. The Company did not make a non-elective contribution for the years ended December 31, 2021 and 2020.

Reclassification

Certain items in the financial statements for the year ended December 31, 2020 have been reclassified to conform to the year 2021 presentation.

FAIR VALUE MEASUREMENTS

FASB ASC 820-10, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds – Valued at the net asset value ("NAV") of shares held by the plan at year end.
