**Change in Actuarial Cost Method**

The following change in funding method occurred during the Plan Year ending 12/31/2021 and is entitled to automatic approval pursuant to Rev. Proc. 2017-56 Section 4.02.

The business organization providing actuarial services to the plan changed the valuation software to be used for single-employer plans.

The enrolled actuary and the business organization providing actuarial services to the plan are the same as in the prior plan year.

The new method is substantially the same as the method used for the prior plan year.

The new valuation software generally will be used by the enrolled actuary for the single-employer plans to which the enrolled actuary provides actuarial services.

For the prior plan year, the funding target, target normal cost and actuarial value of assets determined under the new valuation software are each within 2% of the respective values determined under the valuation software used for the prior plan year.

The approval under Section 4.02 was not used in the prior year.
