Independent Auditor's Report

To the Plan Administrator of the
Punahou School Defined Contribution Retirement Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of the Punahou School Defined Contribution Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the accounting principles generally accepted in the United States of America (U.S. GAAP).

- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement

resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

The 2020 financial statements of the Plan were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the predecessor auditor not to perform, and they did not perform, any auditing procedures with respect to the information certified by a qualified institution. Their report dated October 8, 2021, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and supplemental schedule, and (b) the form and content of the information included in the financial statements and supplemental schedule, other than that derived from the certified information, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Punahou School Defined Contribution Retirement Plan

Notes to Financial Statements
December 31, 2021 and 2020

1. Description of Plan

The following description of the Punahou School (the School) Defined Contribution Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan covering all employees of the School. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is intended to be a plan that meets the requirements for qualification of Section 403(b) of the Internal Revenue Code of 1986, as amended (IRC).

b. Administration of Plan Assets

The plan administrators are appointed by the School and are responsible for management and administration of the Plan. Under provisions of a contractual agreement effective March 2006, plan assets are held by the Teachers Insurance Annuity Association of America and College Retirement Equities Fund (TIAA and CREF), whose primary functions are to hold the Plan's assets and execute investment transactions.

c. Eligibility

Employees are eligible to participate in participant deferrals on the first day of hire. Employees become eligible for employer contributions after 2 years of service and are at least 21 years old. An employee will receive a year of service if the employee worked at least 1,000 hours during the eligibility measuring period, which is the twelve-month period beginning with the date of hire.

d. Contributions

The School contributes an amount equal to 8% of the participant's compensation for employees with 2 – 14 years of eligible service and 10% for those with 15 or more years of eligible service. Participants may make additional contributions into the Plan's Supplemental Retirement Account up to the annual limit as allowed by the IRC, which was \$19,500 in 2021 and 2020. Employees that are eligible to participate in the Plan and have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Employees that are eligible are automatically enrolled in the Plan at the default percentage of 3% of the participant's compensation.

1. Description of Plan (continued)

e. Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the School's contribution, if any, (b) plan earnings and losses, and (c) administrative expenses. Allocations are based on account balances, as defined under the Plan. Participant accounts are fully vested at all times, and the benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All investment accounts are participant directed.

f. Payment of Benefits

Upon termination of service, retirement, death, or total permanent disability, a participant may elect to receive a distribution of his or her entire accumulated plan balance, subject to the terms of the funding vehicles. Distribution options include lump-sum payments, partial payments, or installments. In addition, participants may elect in-service withdrawals of their elective deferral account balances after reaching age 59½ or for hardship purposes. Rollover account balances and certain employee deferrals made prior to 1989 may be withdrawn at any time. Minimum required distributions for participants who have reached age 70½ also apply per Internal Revenue Service (IRS) regulations.

g. Plan Loans

Loans are available to participants through TIAA, subject to certain limitations. Plan loans are issued directly from the funds owned by TIAA and loan proceeds are not removed from a participant's account balance. Accordingly, plan loans are not reflected in the statements of assets available for benefits. However, a portion of a participant's TIAA Traditional Annuity account balance is reserved, or held in collateral, to cover the outstanding loan amount for the period of time the loan is outstanding. See note 5 for discussion of the TIAA Traditional Annuity. For active loans, investments equal to 110% of the outstanding loan amount are reflected in the statements of assets available for benefits and serve as collateral for the loan. Investments underlying defaulted loan balances are reflected in the statements of assets available for benefits until a distribution event occurs.

Notes to Financial Statements
December 31, 2021 and 2020

1. Description of Plan (continued)

h. Plan Loans (continued)

At December 31, 2021 and 2020, participants had outstanding plan loan balances due to TIAA of \$300,104 and \$424,157, respectively. During 2021 and 2020, amounts totaling \$7,073 and \$22,387, respectively, were used to satisfy plan loan defaults, which have been recorded as distributions in the accompanying statements of changes in assets available for benefits.

i. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate is fixed for the duration of the loan. Principal and interest are paid ratably through either bi-weekly payroll deductions, ACH agreement, or other repayment method agreed to by the investment arrangement to repay the loan.

j. Administrative Expenses

All expenses incurred in the administration of the Plan shall be paid by the Plan.

k. Plan Termination

Although it has not expressed any intent to do so, the School has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA.

2. Summary of Significant Accounting Policies

a. Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Punahou School Defined Contribution Retirement Plan

Notes to Financial Statements
December 31, 2021 and 2020

2. Summary of Significant Accounting Policies (continued)

b. Fully Benefit-Responsive Investment Contracts

Fully-benefit responsive investment contracts held by a defined contribution plan are required to be reported at contract value. Contract value is the relevant measurement attribute for that portion of the assets available for benefits of a defined contribution plan attributable to full benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by Accounting Standards Codification (ASC) Topic 962, *Defined Contribution Pension Plans*, the statements of assets available for benefits and the statements of changes in assets available for benefits are prepared on a contract value basis for full-benefit responsive investment contracts. Two TIAA Traditional Annuity contract types, the Supplemental Retirement Annuities and the Retirement Choice Plus Annuities, are considered fully benefit responsive and are reported at contract value for the years ended December 31, 2021 and 2020. See note 5 for further discussion of the TIAA Traditional Annuity.

c. Investment Valuation and Income Recognition

Investments in variable annuity accounts consist of CREF accounts and are based upon each account's daily net asset value (NAV), which is considered by plan management to be the best approximation of fair value. Investments in mutual funds consist of TIAA and CREF funds and are valued using market quotations or prices obtained from independent pricing services. Investments in fixed annuity contracts are reported at contract value for the fully benefit-responsive investment contracts and fair value for the nonfully benefit-responsive investment contracts. Investments in pooled separate accounts consist of TIAA Real Estate and is valued principally using external appraisals, which are estimates of property values based on a professional's opinion.

Net appreciation or depreciation in fair value of investments includes realized and unrealized changes in the values of investments bought, sold, and held during the year. Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividends are recorded on the ex-dividend date.

d. Payment of Benefits

Benefits are recorded upon distribution.

Punahou School Defined Contribution Retirement Plan

Notes to Financial Statements
December 31, 2021 and 2020

2. Summary of Significant Accounting Policies

e. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 or 2020. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

f. Management's Use of Estimates

In preparing the financial statements in conformity with U.S. GAAP, the Plan's management is required to make estimates and assumptions that affect the reported assets and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

g. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities in general are exposed to various risks, such as interest rate, market, and credit risks. The value, liquidity, and related income of these securities may be sensitive to changes in economic conditions, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

On March 10, 2020, the World Health Organization declared the novel coronavirus to be a pandemic. The novel coronavirus and actions taken to mitigate it have had and are expected to continue to have an adverse impact on the global economies and financial markets. It is unknown how long these conditions will last and what the financial effect will be to the Plan. Additionally, it is reasonable possible that the estimates in the financial statements could be materially and adversely impacted, the extent of which is yet unknown, as a result of these conditions.

h. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 10, 2022, the date at which the financial statements were available to be issued, and it was determined that all subsequent events had been properly accounted for.

Punahou School Defined Contribution Retirement Plan

Notes to Financial Statements
December 31, 2021 and 2020

3. Information Certified by the Custodian (TIAA and CREF)

The plan administrator has elected the method of reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications from TIAA and CREF that all information provided by TIAA and CREF is complete and accurate. The plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule. Information included in the accompanying financial statements and notes as to investments, notes receivable from participants, investment income, interest income on notes receivable from participants, and all investment information in the supplemental schedule, excluding the fair value of nonfully benefit-responsive fixed annuity contracts, is presented in reliance solely upon those certifications.

4. Tax Status

The Plan has not obtained a determination letter from the IRS, as the IRS has not issued determination letters on Section 403(b) Plans. The plan administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2018.

5. TIAA Traditional Annuity

The TIAA Traditional Annuity is a guaranteed fixed-rate annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The TIAA Traditional Annuity is offered through a variety of contract types, including Retirement Annuities (RA), Group Retirement Annuities (GRA), Supplemental Retirement Annuities (SRA), Retirement Choice Annuities (RC) and Retirement Choice Plus Annuities (RCP). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account and the options for receiving income upon retirement.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest amounts, when declared, remains in effect for the 12-month declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years.

Together, the guaranteed minimum and additional amounts make up the crediting interest rate. For accumulating GRA and RA contracts, the crediting interest rates were 3.34% and 3.00% as of December 31, 2021 and 2020, respectively. For accumulating SRA contracts, the crediting interest rates were 3.02% and 3.00% as of December 31, 2021 and 2020, respectively. For accumulating RC contracts, the crediting interest rates were 3.55% and 2.90% as of December 31, 2021 and 2020, respectively. For accumulating RCP contracts, the crediting interest rate were 2.80% and 2.15% as of December 31, 2021 and 2020, respectively.

The RA contract does not allow lump-sum cash withdrawals and transfers must be spread over 10 annual installments. With the GRA and RC contracts, lump-sum withdrawals are available within 120 days of termination of employment and are subject to a 2.50% surrender charge. All other withdrawals and transfers from RA and GRA contracts must be spread over 10 annual installments (five annual installments for withdrawals after termination of employment). Other transfers from RC contracts must be spread over 84 monthly installments.

Notes to Financial Statements

December 31, 2021 and 2020

5. TIAA Traditional Annuity (continued)

The SRA and RCP contracts provide for full participant-directed liquidity. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statements of changes in assets available for benefits.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, and (4) a material amendment to the agreement without consent of the issuer.

6. Fair Value Measurements

Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1: Valuation is based upon quoted prices (unadjusted) for identical assets or liabilities traded in active markets. A quoted price in an active market provides the most reliable evidence of fair value and shall be used to measure fair value whenever available.

6. Fair Value Measurements (continued)

Level 2: Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3: Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect the Plan's own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of discounted cash flow models and similar techniques that require the use of significant judgment or estimation.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to plan management's perceived risk of that investment. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Variable annuity accounts – The fair values of accumulation units held by the Plan in CREF accounts (variable annuity accounts) are based on each account's daily NAV, which is considered by plan management to be the best approximation of fair value. Variable annuity accounts are not exchange traded and are not classified within the fair value hierarchy. Data for NAVs are available daily to plan administrators and client investors on TIAA's website, and provides sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources. There are no unfunded commitments from participants in the Plan who invest in these accounts.

Fixed annuity contract (nonfully benefit-responsive) – Investments in TIAA Traditional Annuity contracts are reported at contract value, which approximates fair value. Certain TIAA Traditional Annuity contracts, including the RA, GRA, and RC, are nonfully benefit-responsive and are measured at fair value. As these investments are contract-based, observable prices for identical or similar investments do not exist, and accordingly, these investments are valued using unobservable inputs (Level 3). The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract. See also note 5 for discussion of the TIAA Traditional Annuity.

6. Fair Value Measurements (continued)

Mutual funds – The fair values of TIAA and CREF mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Pooled separate account – The fair value of the Plan's interest in the TIAA Real Estate Account (a pooled separate account) is based on the fund's daily NAV, which is considered by plan management to be the best approximation of fair value. This investment is not classified within the fair value hierarchy. The unit value of the fund is calculated daily and available to plan administrators and client investors on TIAA's website. Underlying holdings are primarily valued using independent appraisals or independent pricing sources. There are no unfunded commitments from participants in the Plan who invest in this account.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2021 and 2020, there were no transfers into or out of Level 1, 2, or 3.

6. Fair Value Measurements (continued)

In accordance with the fair value measurements and disclosure guidance, the following tables present the category, fair value, redemption frequency, and redemption notice period for the Plan's investments, the fair values of which are estimated using the NAV per share as of December 31, 2021 and 2020:

	Fair Value		Redemption frequency	Redemption period
	2021	2020		
Variable annuity accounts:				
Equity funds (a)	\$ 89,185,867	\$ 80,014,949	Daily	Daily
Fixed-income funds (b)	9,417,368	9,756,079	Daily	Daily
Multi-asset fund (c)	8,464,644	5,994,645	Daily	Daily
Money market fund (d)	<u>2,118,205</u>	<u>2,813,278</u>	Daily	Daily
Total variable annuity accounts	109,186,084	98,578,951

Total	<u>\$ 121,487,561</u>	<u>\$108,556,425</u>		

- (a) Funds in this category invest in a diversified portfolio of domestic (70% – 75%) and/or foreign equities (25% – 30%) to achieve a long-term rate of return.
- (b) Funds in this category invest in various types of debt securities to achieve a long-term rate of return while preserving capital. These funds invest heavily in U.S. government bonds.
- (c) This fund invests in domestic and foreign equities and in fixed income securities to achieve a long-term rate of return.
- (d) This fund invests in high-quality, short-term instruments to achieve high current income, and capital preservation. This account primarily invests in commercial paper, bank obligations, and U.S. government-issued securities that are classified as first-tier securities.
- (e) This fund invests in real estate properties, other real estate-related investments, and securities. Underlying real estate holdings are valued principally using external appraisals. Underlying securities are generally priced using values obtained from independent pricing sources.
