Independent Auditor's Report

To the Participants and Administrator of the
WABTEC Consolidated Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of WABTEC Consolidated Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 Financial Statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- the amounts and disclosures in the accompanying 2021 Financial Statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- the information in the accompanying 2021 Financial Statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 Financial Statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2021 and Schedule H, line 4j – schedule of reportable transactions, for the year ended December 31, 2021, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 11, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

WABTEC CONSOLIDATED PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF THE PLAN

The following description of the WABTEC Consolidated Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a complete description of the Plan's provisions.

The sponsoring employer is Westinghouse Air Brake Technologies Corporation (the Company).

General: The Plan is a defined benefit pension plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is a result of the consolidation of various pension plans maintained by the Company (Prior Plan(s)), with such consolidation intended to allow for centralized administration of the Company's retirement plans.

The Plan is administered by a committee established by the Company's Chief Human Resources Officer (or an authorized delegate thereof) (the Pension Committee) to administer the Plan. The Pension Committee has overall responsibility for the operation and administration of the Plan. The Pension Committee also determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Pension Benefits: Eligible employees generally become fully vested after five years of service, as defined by the Plan. The Plan is frozen and no new employees are eligible to participate in the Plan; however, depending on the Prior Plan in which an individual participated before its merger into the Plan, a participant may continue to accrue a benefit under the Plan. The Plan provides for normal retirement benefits upon reaching age 65. Benefits are determined according to a benefit formula that is based on the Prior Plan in which an employee participated prior to the consolidation of the plans. The Plan also has provisions for early, deferred vested, disability and survivor benefits for those participants who are eligible to receive such benefits. Benefits are payable in the form of a lump-sum payment, a joint and survivor annuity, a single life annuity, or another available form of payment. Payment options may vary based upon the Prior Plan in which the employee originally participated.

If a participant has terminated employment and is eligible for a distribution, and if the actuarial equivalent single sum value of the participant's accrued benefit is \$5,000 or less, the accrued benefit will be distributed to the participant, at the participant's election, in a single sum cash payment or as a direct rollover to an eligible retirement plan; provided, however, if the participant fails to make an election, then his or her accrued benefit will be rolled over into an individual retirement account established by the Company on behalf of the participant (if the value of the benefit is between \$1,000 and \$5,000) or distributed to the participant in cash (if the benefit is \$1,000 or less).

If the actuarial equivalent single sum value of a participant's accrued benefit is between \$5,000 and \$50,000 the participant (or the participant's surviving spouse, in the event of a participant's death) may elect to have his or her accrued benefit distributed in a lump sum or an annuity immediately upon termination of employment. Certain participants who previously participated in a Prior Plan for salaried employees are not subject to the \$50,000 lump sum maximum and may elect to take a lump sum distribution of their entire accrued benefit.

Funding: Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts computed by the Plan's actuary to fund at least the minimum funding calculation. The method and the actuarial assumptions utilized have been designed to provide sufficient funds to pay benefits as they become payable under the Plan. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2021 and 2020. The Company made \$5,000,000 of contributions to the Plan for the year ended December 31, 2021. The Company did not make any contributions to the Plan for the year ended December 31, 2020.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions or to terminate the Plan at any time subject to the provisions set forth in ERISA.

WABTEC CONSOLIDATED PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan have been prepared on the accrual basis of accounting.

Risks and Uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amount reported in the statements of net assets available for benefits.

Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict.

Plan contributions are estimated and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates and inflation rates, investment return and demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses: The reasonable expenses incident to the operation of the Plan, including but not limited to premiums for termination insurance payable to the Pension Benefit Guaranty Corporation (PBGC), fees for professional, legal and accounting expenses, actuary fees, trustee fees, investment advisor fees and investment manager fees, are paid by the Plan. Administrative, professional services and asset management expenses paid by the Plan amounted to \$533,728 for the year ended December 31, 2021 (\$634,977 - 2020). In addition, certain investment related expenses are included in unrealized gains on investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Benefit Payments: Benefit payments to participants are recorded upon distribution.

Subsequent Events: Management has evaluated subsequent events through October 12, 2022, the date on which the financial statements were available to be issued and determined that there have been no events that have occurred that would require adjustments to amounts or disclosures in the financial statements.

NOTE 3. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB), *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements*, provides the framework for measuring fair value. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

WABTEC CONSOLIDATED PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 3. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Exchange Traded Funds (ETF's): Valued at the closing price reported on the active market on which the individual securities are traded. Exchange traded funds are classified as Level 1 investments.

Fixed Income Funds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit rating. When quoted prices are not available for similar or identical bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available. Fixed income funds are classified as Level 2 investments.

Money Market Funds: A money market fund is a public investment vehicle valued using \$1 for the net asset value (NAV) and is classified as a Level 1 investment.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020:

	Assets at Fair Value as of December 31, 2021

NOTE 4. CERTIFICATION OF FINANCIAL INFORMATION

The following financial information relating to the Plan's assets at December 31, 2021 and 2020 as well as income and transactions for the years then ended have been derived from information provided by PNC Bank, N.A., the trustee of the Plan, and has been certified by them as complete and accurate. The incorporation of this financial information in the accompanying financial statements is based solely on their certification and has not been audited by independent accountants.

	<u>2021</u>	<u>2020</u>
Investments at fair value:

Dividends and interest	\$ 737,918	\$ 750,085
Realized gains on investment transactions	\$ 1,322,268	\$ 586,021

NOTE 5. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered to date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and, (c) present employees or their beneficiaries. The accumulated benefits for active employees will equal the accumulation with interest, of the annual benefit accruals as of the information date. Benefits payable under all circumstances - retirement, death and termination of employment - are included, to the extent they are deemed attributable to employee service provided up to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment. The actuarial cost method was computed using the projected unit credit method of funding. The significant actuarial assumptions used in the valuations were (a) life expectancy of participants (the Pri-2012 mortality table with separate sex-distinct rates for employees and nondisabled annuitants projected generationally with the MP-2021 scale) (b) average investment rate of return of 3.80% and (c) average assumed retirement age of 65. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2022 and 2021. Had the valuations been performed as of December 31, 2021, there would be no material differences.

The following is a summary of the actuarial present value of accumulated benefits determined as of December 31, 2021 and 2020:

	<u>2021</u>	<u>2020</u>
Vested benefits:		
Participants currently receiving payment	\$ 23,270,571	\$ 23,209,659
Other participants	<u>10,138,916</u>	<u>9,021,208</u>

Non-vested benefits	<u>563,804</u>	<u>541,336</u>
Actuarial present value of accumulated benefits	<u><u>\$ 33,973,291</u></u>	<u><u>\$ 32,772,203</u></u>

WABTEC CONSOLIDATED PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 5. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The following is a summary of the changes in the actuarial present value for the year ended December 31,:

	<u>2021</u>	<u>2020</u>
Actuarial present value of accumulated plan benefits at beginning of year	\$ 32,772,203	\$ 33,541,198
Increase (decrease) during the year attributable to:		
Benefits accumulated / (gains)	(688,787)	(111,157)
Changes in Plan assumptions	3,485,127	938,949
Decrease in the discount period	1,575,579	1,725,929
Benefits paid	(3,170,831)	(3,322,716)
Net increase (decrease)	<u>1,201,088</u>	<u>(768,995)</u>
Actuarial present value of accumulated plan benefits as of the end of the year	<u>\$ 33,973,291</u>	<u>\$ 32,772,203</u>

Changes in actuarial assumptions for the plan year ending December 31, 2021 include a change in the ASC 960 (plan accounting) mortality improvement scale from the MP-2020 scale to the MP-2021 scale, and a change in the discount rate from 5.00% to 3.80%.

NOTE 6. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated May 3, 2021, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by the IRS. The Pension Committee has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021 and 2020, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in process.

NOTE 7. PARTIES-IN-INTEREST

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various services providers. These transactions are party in interest transactions under ERISA.

NOTE 8. PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

WABTEC CONSOLIDATED PENSION PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 8. PLAN TERMINATION (CONTINUED)

- b. Other vested benefits insured by the PBGC up to the applicable limitations (discussed below).
- c. All other vested benefits not insured by the PBGC.
- d. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pension. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2021, the monthly ceiling was \$6,034 (\$5,813 - 2020). That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years of age at the time of retirement or plan termination, whichever comes later. For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceiling is actuarially adjusted.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

SCHEDULE SB ATTACHMENTS

Percent married	80% of males; 65% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.
Spouse age	Wife three years younger than husband
Administrative Expenses	\$535,000
Covered pay	(Collectively Bargained only) assumed plan compensation for the year beginning on the valuation date was determined as earnings provided by the employer for the prior year adjusted at the assumed compensation increase rate
Interest Crediting Rate	The plan credits interest to cash balance accounts using the single equivalent discount rate, (used for calculating ASC 715 benefit obligations) minus 250 basis points
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement

Sources of Data and Other Information

The plan sponsor furnished active and terminated vested data as of 1/1/2021. The plan sponsor, through PNC Financial Services Group, Inc., furnished data on participants currently receiving payments and those cashed out during the year. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any data assumptions made other than those described in the Demographic Assumptions section above.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits are required by regulations under IRC §430
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430

Plan Name: Wabtec Consolidated Pension Plan
EIN / PN: 25-1615902/001
Plan Sponsor: Westinghouse Air Brake Technologies Corporation
Valuation Date: January 1, 2021

SCHEDULE SB ATTACHMENTS

Actuarial value of assets	The asset valuation method is an average of the adjusted market value for each quarter during the last 3 months preceding the valuation date (two data points). The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued based on discussions with Wabtec Corporation regarding the likelihood that these benefits will be paid, with the exception of the lump sum feature for Non-Cash Balance participants. Willis Towers Watson has reviewed the plan provisions with Wabtec Corporation and, based on that review, is not aware of any significant benefits required to be valued that were not.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time
Lump sum conversion rate	As required by IRC §430, lump sum benefits are valued using "annuity substitution," so that the interest rates assumed are effectively the same as described above for the discount rate
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust)
Annual rates of increase in compensation	Assumed increases were chosen by the plan sponsor and, as prescribed by IRC §430(h), they represent an estimate of future experience

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h)
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h)
Termination	Termination rates were based on a published table for pension participants believed to have similar characteristics to the plan population

Plan Name: Wabtec Consolidated Pension Plan
EIN / PN: 25-1615902/001
Plan Sponsor: Westinghouse Air Brake Technologies Corporation
Valuation Date: January 1, 2021

SCHEDULE SB ATTACHMENTS

Retirement	Retirement rates were based on an experience study conducted by the prior actuary, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future
Percent married	The assumed percentage married is based on general population statistics on the marital status of individuals of retirement age
Spouse age	The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age

Source of Prescribed Methods

Funding methods	The methods used for funding purposes including the method of determining plan assets, are "prescribed methods set by law," as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation	<p>Other than the prescribed changes in the discount rate and mortality, the following changes in assumptions and methods were made as part of the valuation:</p> <ul style="list-style-type: none">■ The required mortality tables used to calculate the funding target and target normal cost were updated to the required mortality table reflecting the RP-2014 study and subsequent Society of Actuaries studies.■ The assumed plan-related expenses added to the target normal cost were changed from \$345,000 for 2020 to \$535,000 for 2021.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 22 Description of Weighted Average Retirement Age as of January 1, 2021

For Young Radiator Company participants, the retirement assumption varies by age and work location. The average retirement age for each group was determined as a weighted average of the age at retirement, with weights equal to the number of a hypothetical 10,000 employee group assumed to retire at such age, according to the retirement assumption.
