Independent Auditor's Report

To the Plan Administrator
The Glen Mills Schools Savings and Protection Plan
Glen Mills, Pennsylvania

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Glen Mills Schools Savings and Protection Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from qualified institutions as of December 31, 2021 and 2020, and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2021 financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

The Glen Mills Schools Savings and Protection Plan

Notes to Financial Statements

1. Description of Plan

The following description of The Glen Mills Schools Savings and Protection Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions, including definitions of key terms.

General

The Plan is a defined contribution plan covering substantially all employees of The Glen Mills Schools (the Schools and Plan Sponsor). Salaried employees are eligible and commence participation immediately upon hire. Hourly employees are eligible upon completion of one year of service in which they are credited with 1,000 hours of service; participation commences on the first day of the month coincident with or next following the date on which the eligibility requirements are met.

The Board of Directors of the Schools controls and manages the operation and administration of the Plan. The Plan utilizes Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF) and Reliance Trust Company, respectively, as its custodians and trustee. The Plan's recordkeeper is ADP Retirement Services. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may make pre-tax contributions of at least 2% of eligible compensation, as defined in the Plan document, not to exceed the maximum annual amount permitted under certain Internal Revenue Service (IRS) limitations. Participants are automatically enrolled with a 2% salary deferral unless they voluntarily elect not to participate in the Plan. Participants may change their deferral elections at any time, without limitation. Effective January 1, 2013, participants were no longer permitted to make contributions to accounts with TIAA or CREF.

The Plan Sponsor makes bi-weekly contributions on behalf of each eligible participant. The Plan Sponsor contributions include a safe-harbor matching contribution of 4% of eligible compensation and an additional discretionary match distribution. The total amount of such contribution for each participant is equal to 100% of participant contributions up to 6% of eligible compensation.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Schools' safe-harbor matching contributions, and Plan earnings, and is charged with withdrawals and an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. Fund managers' fees are charged to participants' accounts as a reduction of the return earned on each investment option. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of their account balances into various investment options offered by the Plan and may change their investment options at any time, subject to the terms of the funding vehicles. Participants may select from investment options available under the TIAA and CREF 401(k) Program and the ADP Retirement Services 401(k) Program. Plan investment losses are allocated to participants' accounts on a daily basis according to the type of funding vehicle in which balances are invested.

The Glen Mills Schools Savings and Protection Plan

Notes to Financial Statements

Vesting and Forfeitures

Participants' deferral contributions, the Schools' safe-harbor matching contributions and earnings thereon are fully and immediately 100% vested. As such, there are no forfeited nonvested amounts as of December 31, 2021 and 2020.

Notes Receivable from Participants

Loans are available to participants who invest through the ADP Retirement Services 401(k) Program, subject to certain limitations. Participants may obtain interest-bearing loans in the amount of the lesser of \$50,000 reduced by the highest outstanding loan balance to the participant during the preceding year, or 50% of the participant's vested account balance. Loan terms may extend to a period not to exceed five years, or for a reasonable period of time over five years for the purchase of a principal residence. The loans are secured by balances in the participants' accounts at Reliance Trust Company and bear interest at reasonable rates based on local prevailing rates for similar loans at the date the loan is issued. Principal and interest are paid ratably through bi-weekly payroll deductions.

Plan Loans

Up until August 16, 2019, loans were available to participants who invest through the TIAA Traditional Annuity contracts (Traditional Annuity), subject to certain limitations. Existing loans issued prior to August 16, 2019 will remain in effect until paid off. Plan loans were issued directly from the funds owned by TIAA, and loan proceeds were not removed from a participant's account balance. However, a portion of the participant's TIAA Traditional Annuity account balance was reserved, or held in collateral, to cover 110% of the outstanding loan amount for the period of time the loan is outstanding. See Note 6 for discussion of the Traditional Annuity.

At December 31, 2021 and 2020, participants had outstanding Plan loan balances due to TIAA of \$5,315 and \$8,455, respectively. These loans were collateralized by Traditional Annuity balances of \$5,846 and \$9,301 as of December 31, 2021 and 2020, respectively. These amounts are included in the Traditional Annuity balances reported in the accompanying statements of net assets available for benefits. Participants pay interest on their Plan loans to TIAA. This interest expense is offset by the income received by the participants on the collateralized annuity contracts.

Payment of Benefits

Participants (or their beneficiaries in the case of death during active employment) are entitled to 100% of the value of their participant accounts upon their retirement, death during active employment, or total disability. Participants may take in-service distributions upon attainment of age 59-1/2. Participants are also permitted to make hardship withdrawals in certain cases of immediate and heavy financial need. Minimum required distributions for participants who have reached age 72 also apply per IRS regulations.

Benefits may be paid through lump-sum distributions or installment payments based upon participants' elections and subject to the terms of the funding vehicles.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) under the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value with the exception of the fully benefit-responsive investment contract. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodians. See Note 5 for a discussion of fair value measurements.

The Plan's fully benefit responsive investment contract, see Note 6, is valued at contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Administrative Expenses

Certain administrative expenses of the Plan are paid by the Plan Sponsor and are excluded from these financial statements. Administrator fees, loan processing and distribution fees are paid by the participants.

Management fees and operating expenses charged to the Plan are deducted from investment income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return.

Payment of Benefits

Benefits are recorded when paid.

The Glen Mills Schools Savings and Protection Plan

Notes to Financial Statements

3. Plan Termination

Although it has not expressed any intent to do so, the Schools have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants would remain fully vested in the Schools' contributions.

4. Certified Investments

The Plan Sponsor has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and CREF and Reliance Trust Company, qualified institutions, have certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments, at fair value and contract value, and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2021 and 2020.
- Investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2021.
- Investment information included in the schedule of assets (held at end of year) as of December 31, 2021, as shown on the ERISA-required supplemental schedule.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information in the above-named financial statements and ERISA-required supplemental schedule.

5. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

The Glen Mills Schools Savings and Protection Plan

Notes to Financial Statements

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

- The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs). The mutual funds held by the Plan are deemed to be actively traded.
- The fair values of accumulation units held by the Plan in variable annuity accounts (registered investment companies) are based on each account's daily net asset value (NAV), which is considered by Plan management to be the best approximation of fair value. Variable annuity accounts are not exchange traded. Data for NAVs are available daily to plan administrators and client investors on NASDAQ's website, and provide sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources.
- The fair value of the Plan's interest in the TIAA Real Estate Account (a pooled separate account) is based on the fund's daily NAV, which is considered by Plan management to be the best approximation of fair value. This investment is classified as Level 2 within the fair value hierarchy. The unit value of the fund is calculated daily and available to plan administrators and client investors on NASDAQ's website. Underlying holdings are primarily valued using independent appraisals or independent pricing sources. Although the underlying assets of the fund cannot be quickly sold and converted to liquid assets, the TIAA general account provides the fund with a liquidity guarantee whereby TIAA ensures that the Fund has adequate funds available to meet participant redemption, transfer or cash withdrawal requests. There are no unfunded commitments from participants in the Plan who invest in this account.
- The fair value of the Plan's interest in the TIAA Traditional Annuity contracts (fixed annuity contracts) is reported at contract value, which approximates fair value. As these investments are contract-based, observable prices for identical or similar investments do not exist, and accordingly, these investments are valued using unobservable inputs (Level 3). The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply to these investments that could impact the value realized upon exiting the contract. See also Note 6 for discussion of the TIAA Traditional Annuity. In determining the reasonableness of the methodology, Plan management evaluates a variety of factors including a review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms, while others are substantiated utilizing available market data.

The Glen Mills Schools Savings and Protection Plan

Notes to Financial Statements

- The fair value of the Plan's units in the collective trust fund (CTF) is valued at NAV, as provided by the trustee, Invesco Stable Asset Trust, of the CTF. NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the CTF less its liabilities. This practical expedient is not used when it is determined to be probable that the CTF will sell for an amount different than the reported NAV. The CTF provide for daily redemptions by the Plan at reported NAV with no advance notice. There are no unfunded commitments related to this investment. This investment is a direct filing entity.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present information about the Plan's investments measured at fair value on a recurring basis as of December 31, 2021 and 2020, and indicate the fair value hierarchy of the valuation techniques utilized by the Plan to determine such value:

Description	Assets at Fair Value as of December 31, 2021

* Certain investments that are measured at fair value using the NAV per share practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to reconcile the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The Glen Mills Schools Savings and Protection Plan

Notes to Financial Statements

Change in Fair Value - Level 3 Investment

During the year ended December 31, 2021, there were net transfers of \$40,118, no purchases and issues totaling \$29,857 relating to participant directed transactions. Transfers in totaled \$0 and transfers out totaled \$40,118.

The following tables represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2021 and 2020:

	2021 Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Range*
TIAA Traditional Annuity Contracts	\$ 2,209,746	Discounted cash flow Theoretical transfer (exit value)	Risk adjusted discount rate applied	GRA 3.00% - 3.80%

	2020 Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Range*
TIAA Traditional Annuity Contracts	\$ 2,203,278	Discounted cash flow Theoretical transfer (exit value)	Risk adjusted discount rate applied	GRA 3.00% - 4.45%

* See Note 6 for definitions of the GRA contract.

Significant increases or decreases in the above unobservable inputs in isolation would result in a significantly lower or higher fair value measurement for such assets.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

6. TIAA Traditional Annuity

The TIAA Traditional Annuity is a guaranteed fixed annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The Traditional Annuity is offered through a variety of contract types, including Group Retirement Annuities (GRA). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

The Glen Mills Schools Savings and Protection Plan

Notes to Financial Statements

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate.

All GRA contracts require withdrawals in the form of a lifetime payout annuity or in periodic installments over a 10-year period. A lump sum withdrawal is available only within 120 days after termination of employment and are subject to a 2.50% surrender charge. Therefore, the GRA contracts are not fully benefit-responsive; balances in these contracts at fair value totaled \$2,209,746 and \$2,203,278 at December 31, 2021 and 2020, respectively. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statement of changes in net assets available for benefits.

7. Investments at Contract Value

The Plan included an investment option in the Invesco Stable Value Trust Fund - Class C (the Fund), a separate account which invests primarily in wrapper contracts (also known as synthetic guaranteed investment contracts) and cash equivalents. The contract within the Fund is fully benefit-responsive and is, therefore, reported at contract value on the statements of net assets available for benefits. The Plan terminated their investment in the Fund during the year ended December 31, 2021.

In a wrapper contract structure, the underlying investments are owned by the Fund and held in trust for Plan participants. The wrapper primarily represents a diversified portfolio of corporate and government bonds, and common trust funds. The Fund purchases a wrapper contract from an insurance company or bank. The wrapper contract amortizes the realized and unrealized gains and losses on the underlying fixed-income investments, typically over the duration of the investments, through adjustments to the future interest crediting rate (which is the rate earned by participants in the Fund for the underlying investments). The issuer of the wrapper contract provides assurance that the adjustments to the interest crediting rate do not result in a future crediting rate that is less than zero.

Contract value represents contributions made under the contracts, plus earnings, less withdrawals and administrative expenses. The crediting interest rate was approximately 1.40% as of December 31, 2020.

8. Parties-In-Interest and Related-Party Transactions

Plan investments include investment contracts, a pooled separate account and registered investment companies that are managed by TIAA and CREF, the custodians of the Plan. The Plan also holds notes receivable from participants. These transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules.

Notes to Financial Statements

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Federal Income Tax Status

The Plan has received a determination letter from the IRS dated July 16, 2014 stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes that the Plan, as amended, is being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

11. Subsequent Events

The Plan was restated as of June 1, 2022 through the adoption of the Non-Standardized Defined Contribution Pre-Approved Plan sponsored by Automatic Data Processing (ADP). The IRS has determined and informed ADP by letter dated October 6, 2020 that the Plan is designed in accordance with the applicable sections of the IRC.

The Plan has evaluated subsequent events through October 13, 2022, the date the financials were available to be issued.
