Independent Auditor's Report

To the Plan Administrator
Jones Day Qualified Defined Benefit Plan

Opinion

We have audited the financial statements of Jones Day Qualified Defined Benefit Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2021 and 2020 and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021 and 2020 and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As explained in Note 4, the financial statements include investments, including partnerships, hedge funds, real estate funds, and other investments, valued at approximately \$205,500,000 (28.1 percent of net assets) at December 31, 2021 and \$189,000,000 (29.7 percent of net assets) at December 31, 2020, whose fair values have been estimated by management in the absence of readily determinable market values. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

To the Plan Administrator
Jones Day Qualified Defined Benefit Plan

Auditor's Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Note 1 - Plan Description

The following description of Jones Day Qualified Defined Benefit Plan (the "Plan") provides only general information. Jones Day (the "Firm") is the plan sponsor and plan administrator. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan that covers partners of the Firm who have met eligibility requirements defined in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits

The individual pension benefit is equal to credited service times final average compensation times an accrual rate that varies based on when credited service was earned by the participant. The benefit is a variable-rate benefit, based on actual return on assets within the Plan, for a participant who is considered a covered employee on or after January 1, 2015. Special provisions for retirement at other than the normal retirement age are described in the plan agreement, if applicable. Employees may elect early retirement and receive a reduced monthly retirement benefit payable immediately in accordance with the plan agreement.

Participants will not be vested until they attain three years of service, at which time the normal retirement pension will become 100 percent vested and nonforfeitable. If a participant attains the normal retirement age or dies while employed by the plan sponsor, the participant will have a 100 percent vested and nonforfeitable interest in the normal retirement pension, regardless of years of service.

Funding

The Firm maintains a funding standard account with annual contributions to the Plan determined on an actuarial basis but in no instance below the minimum required by Section 412 of the Internal Revenue Code. All contributions to the Plan are made by the Firm. No voluntary employee contributions are allowed. The Plan has met the ERISA minimum funding requirements for 2021 and 2020.

Party-in-interest Transactions

Certain plan assets are in investment funds managed BMO Harris Bank, N.A. or its affiliates. BMO Harris Bank, N.A. is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines. However, they are exempt from the prohibited transaction rules under ERISA.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

The fair value of the plan interest in Jones Day Defined Benefit Master Trust (the "DB Master Trust") is based on the beginning of the year value of the Plan's interest in the DB Master Trust, plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. The DB Master Trust's investments are stated at fair value.

See Note 4 for further discussion of fair value measurements.

December 31, 2021 and 2020

Note 2 - Summary of Significant Accounting Policies (Continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The present value of accumulated plan benefits is actuarially determined and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment due to death, disability, or retirement between the valuation date and the expected date of payment.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment. The determination was made as of January 1, 2021.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2021 are summarized as follows:

Actuarial cost method	Traditional unit credit
Assumed rate of return	6.75 percent per annum
Mortality basis	Pri-2012 separate employee, annuitant, and contingent survivor healthy table(s) for male and female with white collar adjustment and projected generationally using the MMP-2019 projection scale, which is based on SSA mortality data through 2019 and graduated using the same approach as MP-2019 tables
Retirement rate	Various rates ranging from 11 percent at age 62 to 100 percent at age 70

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs can be paid by the Firm. These transactions qualify as party-in-interest transactions.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

December 31, 2021 and 2020**Note 2 - Summary of Significant Accounting Policies (Continued)*****Risks and Uncertainties***

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 6, 2022, which is the date the financial statements were available to be issued.

Note 3 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by an independent actuary. The calculation of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, which was made as of January 1, 2021, the most recent actuarial valuation, is as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving benefit payments	\$ 384,342,062
Other vested participants	<u>186,646,505</u>
Total vested benefits	570,988,567
Nonvested benefits	<u>1,701,833</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 572,690,400</u></u>

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended January 1, 2021 is as follows:

Actuarial present value of accumulated plan benefits - January 1, 2020	\$ 510,296,897
Increase (decrease) during the year attributable to:	
Benefits accumulated	44,019,388
Interest due to the decrease in the discount period	33,884,038
Benefits paid	<u>(15,509,923)</u>
Net increase	<u>62,393,503</u>
Actuarial present value of accumulated plan benefits - January 1, 2021	<u><u>\$ 572,690,400</u></u>

Note 4 - Interest in Jones Day Defined Benefit Master Trust

The Plan's investments are held in the DB Master Trust, which was established for the investment of assets of the Plan and one other Jones Day-sponsored benefit plan. Each participating benefit plan has a divided interest in the DB Master Trust. The assets of the DB Master Trust are held by BMO Harris Bank, N.A. Investment income and administrative expenses relating to the DB Master Trust are allocated to the individual plans based upon monthly balances invested by each plan.

December 31, 2021 and 2020

Note 4 - Interest in Jones Day Defined Benefit Master Trust (Continued)

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the DB Master Trust has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The DB Master Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the DB Master Trust's investments:

Mutual Funds

Mutual funds are valued at quoted prices reported in active markets.

Common Collective Trust Funds

Common collective trust funds are valued at net asset value per share (NAV) or its equivalent of the funds, which is based on the fair value of the funds' underlying assets. The common collective trust funds valued at NAV have no unfunded commitments.

Real Estate Funds

Real estate funds are valued at NAV of shares held by the DB Master Trust at year end, determined by the fund manager. Real estate funds valued at NAV have no unfunded commitments.

Cash

Cash is reported at amortized cost, which approximates fair value.

Hedge Funds

Hedge funds are valued at NAV determined by the fund management and are reported in their respective audited financial statements. The hedge funds valued at NAV have no unfunded commitments.

December 31, 2021 and 2020

Note 4 - Interest in Jones Day Defined Benefit Master Trust (Continued)

Corporate Obligations and U.S. Government Obligations

The U.S. government obligations and corporate obligations are valued using quoted market prices in active markets or quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures.

Partnerships

Partnerships are valued at NAV determined by the partnership and are reported in their respective audited financial statements.

Other

Other investments are valued at NAV determined by the investment manager and are reported in their respective audited financial statements.

- (1) This class includes funds that seek to achieve an unconstrained, non-benchmark-oriented investment approach and to provide a competitive rate of return and a high level of stability of principal and liquidity. For employer-initiated withdrawals, the redemption restrictions range from 0-30 days.
- (2) This class includes funds that seek to achieve long-term capital appreciation by engaging in a variety of investment strategies and techniques. Notification of any redemptions in the various funds range from 45 days to 90 days in advance.
- (3) This class represents funds that invest in various asset classes, such as real estate, private companies, traditional assets, and hedge fund strategies, in order to add diversification to the DB Master Trust. Of the funds in this category, 11 have uncalled capital commitments amounting to \$54,446,747 and \$42,183,612 at December 31, 2021 and 2020, respectively. These funds are illiquid and will be distributed when the funds close.
- (4) This class includes a separate pooled account that seeks to achieve superior returns over a full market cycle versus the NCREIF Property Index. For liquidity purposes, the fund holds a 2 percent cash position and reserves the right to hold redemptions for up to three years.
- (5) This class represents two funds that seek capital preservation over a multiyear period. These funds have no uncalled capital commitment at December 31, 2021 and 2020. These funds are illiquid and were distributed during 2021.

The investment income for the DB Master Trust for the years ended December 31, 2021 and 2020 is as follows:

	2021	2020
Net realized and unrealized gains on investments	\$ 114,652,356	\$ 84,261,286
Interest	1,744,964	2,200,939

Total investment income	125,176,879	95,191,564
Investment fees	632,284	774,133
Net investment income of the DB Master Trust	\$ 124,544,595	\$ 94,417,431

December 31, 2021 and 2020

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 6 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participant benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Note 7 - Subsequent Events

Subsequent to year end, the Plan's investment portfolio has incurred a significant decline in fair value, consistent with the general decline in financial markets. However, because the values of individual investments fluctuate with market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined.

Rationale for economic assumptions

- **Discount rate** – Prescribed by the IRS and based on the company's current elections.
- **Salary increases** – This assumption historically has been used for the plan and has not produced significant gains or losses. Further, based on facts and circumstances discussed with Jones Day, significant future changes in the rate of salary growth do not seem likely.
- **Inflation** – Based on the long-term expected inflation rate included in Mercer Investment Consulting's Capital Market Outlook.
- **Expected investment return** – Based on a blend of the hypothetical past performance of the plan's target asset mix and the median simulated investment return using capital market assumptions published in Mercer's July 2020 Investment Consulting's Capital Market Outlook for the plan's target asset mix. The expected return on assets assumption is net of an adjustment of 20 bps for expenses assumed to be paid from plan assets.
- **Expenses** – Based on the average of prior three year's expenses rounded to the nearest \$1,000.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Rationale for demographic assumptions

- **Mortality** – Prescribed by the IRS
- **Withdrawal** – Based on Mercer's July 15, 2020 plan experience study.
- **Retirement age** – Based on Mercer's July 15, 2020 plan experience study.
- **Terminated vested commencement age** – This assumption historically has been used for the plan and has not produced significant gains or losses.
- **Form of payment** – Based on Mercer's July 15, 2020 plan experience study.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods****Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Plan Name	Jones Day Qualified Defined Benefit Plan
Effective date and plan year	Restated as of December 31, 2014 Plan year: January 1 to December 31
Status of the plan	The plan has ongoing benefit accruals and new employees are eligible to participate in the plan once they satisfy the participation requirements.
Significant events that occurred during the year	None
Definitions	
• Covered employees	Partners
• Participation	<p>Each Covered Person becomes a participant on the January 1 or July 1 coincident with or immediately following the date on which he attains age 21 and completes 1 year of service. For partners hired after attaining age 35, the 1 year of service requirement is replaced by a 6 months of service (with at least 900 hours of service) requirement. However, the following partners and employees shall not be eligible to participate in the plan:</p> <ul style="list-style-type: none"> • Partners or employees who are nonresident aliens and who receive no earned income from Jones Day that constitutes income from sources within the United States • Partners not described immediately above that are nonresident aliens whose entire Compensation is a guaranteed payment under IRC Section 707(c)
• Employee contributions	None.
• Vesting service	Elapsed time from date of hire.
• Benefit service	Elapsed time from date of participation in plan.
• Compensation	<p>Net earnings reported on Form 1065, Schedule K-1, including elective deferrals, which constitute Earned Income as defined by IRC Section 401(c)(2).</p> <p>Compensation is limited each year according to the annual limit set by IRC Section 401(a) (17). For the period between January 1, 1993 and December 31, 2001, compensation is limited to \$150,000 (as adjusted annually for inflation by Section 401(a) (17)). For periods after January 1, 2002 compensation shall not exceed \$200,000 (as adjusted annually for inflation by Section 401(a)(17)).</p>
• Final average earnings	Final average pay is the average annual limited Compensation of the highest consecutive five years in the ten years immediately preceding termination or retirement. If a participant leaves on the last day of the calendar year, the final average pay is the average annual limited Compensation of the highest consecutive five years in the nine years immediately preceding year of termination or retirement plus the calendar year in which such termination or retirement occurs.

Schedule SB, Part V — Summary of Plan Provisions

• Variable participant	A participant who is a covered employee on or after January 1, 2015.
• Rate of return	The rate of return for a plan year means the annual rate of investment return earned by the assets attributable to the plan in the trust fund for the plan year.

Normal retirement

• Eligibility	Later of age 65 or completion of three years of service.
• Benefit	<p>The normal monthly accrued benefit is 1/12 of Final Average Compensation times the following applicable percentages:</p> <ul style="list-style-type: none"> • 0.5% for each year of participation service as a Partner after 1989 and before 1994 • 0.65% (0.85% if at least age 51 for entire calendar year) for each year of participation service as a Partner after 1993 and before 1998 • 0.9% (1.2% if at least age 51 for entire calendar year) for each year of participation service as a Partner during 1998 • 1.2% (1.6% if at least age 51 for entire calendar year) for each year of participation service as a Partner after 1998 and before June 1, 2000 • 0% for each year of participation service as a Partner from May 31, 2000 and before January 1, 2000 • 2.5% (3.33% if at least 41 for entire calendar year) for each year of participation service as a Partner after 2001 and before July 1, 2009 • 0.25% for each year of participation as a partner after June 30, 2009. • 2.80% for each year of participation as a partner after December 31, 2013.

For Variable Participants, the normal monthly accrued benefit as of the last day of the plan year will be adjusted to reflect the rate of return as described. The adjustment will be made each plan year beginning with the 2015 plan year. The accrued benefit as of the last day of the prior plan year is multiplied by a fraction, the numerator of which is one plus the Rate of Return for the prior plan year and the denominator of which is 1.0675, to the nearest ten-thousandth. The resulting adjusted benefit can never be less than the normal monthly accrued benefit as of December 31, 2013. In no event will a participant's retirement benefit exceed the limits set forth in Section 415, as revised by the Tax Reform Act of 1986 (effective January 1, 1987) and further revised by the Economic Growth and Tax Relief Act of 2001 (effective January 1, 2002).

Early retirement

• Eligibility	Early retirement is permitted after age 62 and 5 years of service.
• Benefit	<p>The early retirement benefit is equal to the accrued benefit commencing at normal retirement date and reduced by early retirement factors. The early retirement factors are based on the current provisions of the plan, i.e. a 6.75% compound annual interest rate and the applicable mortality table specified by the Secretary of the Treasury pursuant to section 417(e) of the Code.</p> <p>The early retirement benefit is determined as the greater of (1) the accrued benefit as of December 31, 2013 reduced under the provisions in effect on that date (a 7.50% compound annual interest rate and the 1983 Individual</p>

	Annuity Mortality Table adjusted to a unisex basis for a population deemed to be 100% female for participants and 100% male for beneficiaries) or (2) the total accrued benefit reduced under the current provisions.
Deferred vested	
• Eligibility	Upon termination after 3 years, a participant is fully vested in his accrued benefit.
• Benefit	<p>The accrued benefit is equal to the benefit developed under the normal retirement formula based on service to date.</p> <p>The accrued benefit will be payable in full at normal retirement or an actuarially reduced benefit commencing at any age after vested termination may be elected by participant.</p> <p>The benefit payable is determined as the greater of (1) the accrued benefit as of December 31, 2013 reduced under the provisions in effect on that date (a 7.50% compound annual interest rate and the 1983 Individual Annuity Mortality Table adjusted to a unisex basis for a population deemed to be 100% female for participants and 100% male for beneficiaries) or (2) the total accrued benefit reduced under the current provisions (a 6.75% compound annual interest rate and the applicable mortality table specified by the Secretary of the Treasury pursuant to section 417(e) of the Code).</p>
Pre-retirement death benefit	Upon the death of a vested active participant or vested terminated participant who is not yet receiving benefits, the surviving spouse or “domestic partner” will receive benefits equal to amount that would have been payable had the participant terminated employment (if not already terminated) during the month before his death, had elected a 50% joint and survivor option, and had elected to have benefits commence on the last day of the month following the month in which he died.
Unpredictable contingent event benefits	None.
Form of benefits	
• Automatic form for unmarried participants	A monthly life annuity.
• Automatic form for married participants	Joint & 50% Survivor annuity.
• Optional forms	<ul style="list-style-type: none"> • Single Life annuity • Certain and continuous (5 or 10 year) • Joint and survivor (50%, 66 2/3%, 75%, or 100%) • For a participant who is a covered employee before January 1, 2015, lump Sum (mandatory for lump sums less than \$1,000. Lump sum amount greater than \$1,000 and less than \$7,500 may be elected unless participant goes into government service, in which case full lump sum amount can be elected) for a participant who is a covered employee before January 1, 2015. • For a participant who is a covered employee before January 1, 2015, 3% Annual increase (a reduced single life annuity payable monthly for

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as amended and restated effective December 31, 2014, are included in this valuation.

- Most recent plan amendments included:** All amendments are included.
- Plan amendments excluded:** None.
- Late retirement increases:**
 - Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70
 - Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.

Schedule SB, Part V — Summary of Plan Provisions

- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2020 to 2021.
