Independent Auditor's Report

To the Trustees
ABM Mechanical, Inc. Employee Stock Ownership 401(k) Plan
Bangor, Maine

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

I have performed an audit of the accompanying financial statements of ABM Mechanical, Inc. Employee Stock Ownership 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the December 31, 2021 financial statements (herein referred to as 2021 Financial Statements) performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In my opinion, based on my audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section—

- the amounts and disclosures in the 2021 financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the 2021 financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of my report. I am required to be independent of ABM Mechanical, Inc. Employee Stock Ownership 401(k) Plan and to meet my other ethical responsibilities in accordance with the relevant ethical requirements relating to my audits. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ABM Mechanical, Inc. Employee Stock Ownership 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of my report, my objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, I:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABM Mechanical, Inc. Employee Stock Ownership 401(k) Plan 's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in my judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABM Mechanical, Inc. Employee Stock Ownership 401(k) Plan 's ability to continue as a going concern for a reasonable period of time.

My audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

To the Trustees of ABM Mechanical, Inc. Employee Stock Ownership 401(k) Plan

I am required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that I identified during the audit.

2021 Supplemental Schedules Required by ERISA

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, I compared such information to the related certified investment information.

In forming my opinion on the supplemental schedule, I evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In my opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the ABM Mechanical, Inc. Employee Stock Ownership 401(k) Plan (the Plan or KSOP) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is an individually designed defined contribution plan covering all full-time employees of ABM Mechanical, Inc. (the Company). The Plan operates both as an Internal Revenue Code (IRC) Section 401(k) plan and also as a leveraged employee stock ownership plan (ESOP). The effective date of the Plan was January 1, 2021. The assets of ABM Mechanical, Inc. Employee Stock Ownership Plan were merged into this plan on May 31, 2021. The assets of ABM Mechanical, Inc. 401(k) Plan merged into this plan on December 31, 2021 (Note 12). The forgoing merged plans are known herein as Predecessor Plans.

The ESOP borrowing is collateralized by the unallocated shares of common stock. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements of the plan as of December 31, 2021, and for the year ended December 31, 2021, present separately the assets and liabilities and changes therein pertaining to a) participants' 401(k) account balances, b) the accounts of the employees with rights in allocated common stock (allocated), and c) common stock not yet allocated to employees (unallocated).

The Plan is subject to the provisions Section 4975(e)(7) of the IRC and related regulations, and to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees who are age eighteen or older are eligible to make tax-deferred contributions and for employer safe harbor contributions as of the first day of the month coincident with or after completing 90 days of employment or upon becoming a qualified part-time employee, or if such requirements are not met, an employee becomes eligible for such contributions as of the first day of the month after completing a year of service.

An employee becomes eligible for employer stock allocations on the earlier of January 1 or July 1 after completing a year of service.

Contributions

Each year, participants may contribute a percentage of pre-tax annual compensation, as defined in the Plan, and may also elect to contribute after-tax Roth contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan provides for Internal Revenue Code (IRC) safe harbor match contributions. During the year ended December 31, 2021, the Company made safe harbor match contributions of 100% of deferrals up to 3% of compensation, and 50% of deferrals in excess of 3% of compensation up to 5% of compensation. Management determines the frequency of the formula for the match contributions; for 2021 the formula was calculated on an annual basis.

The Plan also provides for employer contributions in the form of shares of common stock of the employer. The related note payable is to be paid over a forty-year period using contributions the Company makes to the trust. As the Plan makes each payment of principal and interest, a percentage of stock is then allocated to eligible participants' accounts. To be eligible for an employer stock allocation, a participant must be employed as of the last day of the plan year.

Notes to Financial Statements

NOTE 1 - DESCRIPTION OF THE PLAN – CONTINUED

Contributions - Continued

Participants direct their 401(k) and related employer match contributions into various investments offered by the Plan. The Plan currently offers several mutual funds and one common collective trust (CCT) fund as investment options. All contributions are subject to certain IRC limitations.

Funding Policy

Employee deferral contributions and Roth deferrals are funded on a payroll basis. Employer safe harbor match contributions are funded quarterly.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings and charged with (c) allocations of administrative expenses. Allocations are based on participant earnings, match contribution amounts, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants are allowed to borrow from their 401(k) fund accounts up to the lesser of \$50,000, or 50% of their vested account balance (increased to \$100,000 and 100% vested balance under the CARES Act of 2020). The minimum loan is \$1,000 and only one note may be outstanding for a participant at any time. The notes bear interest at the prevailing interest rate at the date of the loan, which is based on the Wall Street Journal Prime rate plus 2% at the date of the note issuance. Such rates are fixed throughout the durations of the notes. Principal and interest are paid via payroll deduction under a level amortization schedule. Interest rates on outstanding notes receivable were 5.25% for all outstanding loans as of December 31, 2021.

Vesting

Participants are immediately vested in their pre-tax, Roth, rollover, qualified non-elective, and Company safe harbor contributions, plus actual earnings thereon. A participant will become 100% vested in his or her ESOP contributions upon attaining three years of service.

Payment of Benefits

Benefits may be paid upon termination, death, disability, or retirement. Upon severance of employment, participants may elect to withdraw their 401(k) accounts in the form of a lump-sum distribution, installment payments, or partial withdrawals. Vested account balances totaling less than \$5,000 (excluding rollover balances) are automatically distributed to participants, absent consent. If a participant's vested account balance exceeds \$5,000, a terminated participant may elect to leave the funds in the Plan until retirement or take a distribution at his or her discretion, subject to applicable withholding taxes.

The Plan's normal retirement age is 65. Participants also may make in-service distributions of their 401(k) accounts upon attaining age 59 ½ or upon establishing eligibility for a hardship distribution. Distributions from vested amounts transferred or rolled over from another plan may be made by participant request at any time.

Notes to Financial Statements

December 31, 2021

NOTE 1 - DESCRIPTION OF THE PLAN – CONTINUED

Distributions of employer stock balances on account of death, disability, or retirement are made in a lump sum in the Plan year following the event. The normal form of benefit for distributions of employer stock balances in excess of \$5,000, for other than separations from service, are made in annual installments over a period of no more than five years. The form of benefit of employer stock balances, for participants who separate from service due to termination of employment, is Company redemption of shares distributed to such participants and immediate transfer of the proceeds into 401(k) assets. This is done using the permitted diversification clause of the Plan document. The determination of stock distribution value is based upon the immediately preceding valuation date.

Distributions are normally made in the form of Company common stock plus cash for any fractional share of common stock. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which are distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations.

Benefits in excess of \$935,000 will be made over a period of more than five years, which will include an additional year for each \$185,000 in excess of \$935,000. Benefits of amounts less than \$185,000 may be paid in cash, if liquidity allows, and must be made on a non-discriminatory basis.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustees prior to the time that such rights are to be exercised. The Trustees are not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustees are required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Put Option

Under federal income tax regulations, because the employer stock that is held by the Plan's participants is not readily exchanged on an established market, each share includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is based on the most recent appraisal. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution, unless eligible for floor price protection, in which case, shares are distributed. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end. The Plan did not have any diversification obligations for the year ended December 31, 2021.

NOTE 1 - DESCRIPTION OF THE PLAN – CONTINUED

Forfeited Accounts

Forfeitures of non-vested account balances of terminated employees attributable to 401(k) accounts may be used at the employer's discretion to pay plan expenses or reduce future employer match contributions. Forfeitures attributable to employer stock accounts are allocated to participant accounts in accordance with the provisions of the Plan. On December 31, 2021 forfeited non-vested accounts totaled \$5,553. During the year ended December 31, 2021, \$77,904 of forfeitures were applied toward expenses and safe harbor match contributions, and 154.75 shares of employer common stock was allocated to eligible participants.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) participants' 401(k) account balances; (b) the accounts of employees with rights in allocated stock (allocated) and (c) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated in the period in which a debt service is paid or relates to a Company accrual.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Reinvested dividends and capital gains distributions of mutual fund shares are classified as dividends. Net appreciation (depreciation) includes the Plan's gains and losses and investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. If a participant does not make loan repayments and the plan administrator considers the loan to be in default, the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document. Management has reviewed notes receivable from participants at December 31, 2021 and determined that no allowance is necessary.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

ESOP administrative expenses of maintaining the Plan are primarily paid by the Company. 401(k) administrative expenses are mostly paid by the Plan.

Date of Management's Review of Subsequent Events

Subsequent events were evaluated through October 12, 2022, which is the date the financial statements were available to be issued.

In January 2022, the Company issued 41,960 shares to the Plan in exchange for a \$1,000 40-year promissory note at 3% interest. At the same time, the existing promissory note was refinanced to amend the annual payment date from June 30th to December 31st and to amend the rate of interest from 4% to 3%.

In June 2022 the Company redeemed 778 shares attributed with vested terminated participants totaling \$65,386, which was funded to 401(k) assets.

The Plan was amended in August 2022 for the following: a) define the determination date with respect to IRC top heavy testing, b) change the effective date of the Plan's 401(k) provisions, c) to define limitations with respect to matching contributions and d) to refine the definition of the use of forfeitures. The Plan was also amended to incorporate IRC required amendments with a December 31, 2022 adoption due date.

During 2022, the equity markets experienced a significant downturn. As of the date of these financial statements, management estimates an investment loss of 15-20%, on December 31, 2021 values.

NOTE 3 - INFORMATION CERTIFIED BY TRUSTEE

Certain financial information included in the Plan's statement of net assets available for benefits regarding investment assets and notes receivable from participants as of December 31, 2021, and for the year ended December 31, 2021, were derived from information certified as complete and accurate by the custodian of the 401(k) assets, in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The financial information subject to such certification follows:

	December 31, 2021
Investments in registered investment companies	\$ 5,641,319
Investment in common collective trust	215,846
Notes receivable from participants	28,389

*The certified assets were merged into the Plan on December 31, 2021.

NOTE 4 - INVESTMENTS AND FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
 - If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the quoted net asset value (NAV) of shares held by the Plan at year-end.

Notes to Financial Statements

NOTE 4 - INVESTMENTS AND FAIR VALUE MEASUREMENTS – CONTINUED

Common collective trust: The fair value of participation units held in the Reliance Trust Stable Value Fund (MetLife Series 25157, Class 0), is based on net asset value, as reported by the manager of the common collective trust fund, Reliance Trust Company, and is supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. The CCT provides for daily redemptions by the Plan at reported net asset value, with no advance notice requirements. The fund has no unfunded commitments.

Interest-bearing cash accounts: value based on cost of deposits plus interest earned less withdrawals.

Employer common stock: Reported at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table:

Instrument	Fair Value per Share	Principal Valuation Technique	Unobservable Inputs
ABM Mechanical, Inc. common stock	\$84.00	Income	Net income Discount for lack of control Discount for lack of marketability

The valuation process involves the selection of an independent appraiser. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. Management is provided with a draft of the report prior to a meeting of the Trustees. Management provides the Trustees with copies of the draft report, and a trustee meeting is scheduled to review the draft and ask questions of the appraiser. After all questions have been answered to the satisfaction of the Trustees, they approve a value for year-end accounting.

The Plan's policy is to recognize transfers into or out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2021, there were no significant transfers into or out of Level 3.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value by type as of December 31, 2021:

	Fair Value	Fair Value Measurements at Reporting Date Using		
		Level 1	Level 2	Level 3
Mutual funds	\$ 5,641,319	\$5,641,319		
Employer common stock	8,235,348			\$ 8,235,348
Interest bearing cash	5,553	5,553		
	13,882,220	5,646,872		8,235,348
Common collective trust*	215,846		215,846	
	\$14,098,066	\$5,646,872	\$ 215,846	\$ 8,235,348

*In accordance with FASB ASC 820-10, if a readily determinable fair value is not available as of the reporting date, NAV may be used as the practical expedient. In such circumstances, fair value leveling is not required. The amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

NOTE 4 - INVESTMENTS AND FAIR VALUE MEASUREMENTS – CONTINUED

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits: Level Level 3 - \$21,569.

The following table provides a summary of changes of the Level 3 fair value measurements for the year ended December 31, 2021:

Balance as of January 1, 2021	\$ 0
Acquired through merged assets	8,378,000
Stock redeemed	(164,221)
Net appreciation in stock value	21,569
Balance as of December 31, 2021	<u>\$8,235,348</u>

The Plan's investment in Company common stock on December 31, 2021 was as follows:

	<u>Allocated</u>	<u>Unallocated</u>
Number of shares	10,539.8525	87,500.0000
Cost	\$10,540	\$87,500
Fair value	\$885,348	\$7,350,000

NOTE 5 - LOAN PAYABLE

The Plan has a \$100,000 term loan agreement with the Company. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral multiplied by current year payments divided by the total of current year payments plus all future years' payments. This resulted in 2,500 shares being released and allocated for the year ended December 31, 2021. The agreement provides for the loan to be repaid in annual payments over 40 years, on July 1st each year.

As described in Note 2, subsequent events, the promissory note was refinanced in January 2022. As a result, the scheduled amortization of the loan for the next 5 years ending December 31st, is as follows:

2022	\$1,591
2023	\$1,639
2024	\$1,688
2025	\$1,738
2026	\$1,791

The loan bears interest at 4% (refinanced at 3% 2022).

NOTE 6 - ADMINISTRATION OF PLAN ASSETS

The Plan's 401(k) assets are held by the custodian of the Plan, Ascensus Trust Company.

The Plan's investment in employer stock is managed by the Plan's group of individual trustees. The trustees administer the payment of interest and principal on the loan, which is reimbursed to the trustees through contributions as determined by the Company. The trustees work with a third-party administrator to track stock allocations to participants and stock redemptions, as they occur. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Notes to Financial Statements

December 31, 2021

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer accounts.

Upon termination, the plan administrator directs the Trustees to pay all liabilities and expenses of the KSOP and to sell shares of the financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

NOTE 8 - TAX STATUS

The Plan applied for and received a favorable determination letter from the IRS dated August 3, 2022 which stated that the Plan as then designed (June 1, 2021) is in accordance with applicable sections of the IRC. The Plan has been amended since that date per the request of the Internal Revenue Service and for recent changes in the law. Management and plan counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code (IRC), and therefore, believe that the Plan is qualified and tax-exempt. No provision for income taxes has been included in the Plan's financial statements.

As of December 31, 2021, the 401(k) plan, which merged into this Plan, had certain corrective transactions outstanding. Most of these transactions were either corrected after 12.31.2021 (prior to the merger) or are in the process of correction by management. Management has determined that the Plan has no uncertain tax positions that require adjustment to the financial statements. The Plan is currently open to examination under the statute of limitations by the Internal Revenue Service for the year ended December 31, 2021.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with the investment in privately held common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of investment securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. The Plan has a concentration of investment in the employer stock of ABM Mechanical, Inc., which represents an elevated risk for the Plan.

NOTE 10 - VESTED TERMINATED BALANCES

As of December 31, 2021, there were no vested terminated balances for which participants had requested withdrawal.

NOTE 11 - PARTY IN INTEREST TRANSACTIONS

The Plan has the following related party and party in interest balances: the Plan invests in certain mutual funds that are issued by the trustee. Those investments total \$4,962,032 and are individually noted on the supplemental schedule to these financial statements. The Plan also invests in Company common stock and has indebtedness guaranteed by the Company. Notes receivable from participants are also considered to be related party and party in interest balances.

Notes to Financial Statements

NOTE 11 - PARTY IN INTEREST TRANSACTIONS - CONTINUED

Each of the following provide services to the Plan and, therefore, are considered to be parties in interest as defined by ERISA: The Vanguard Group, Inc. – investment vendor; Ascensus Trust Company and related entities – recordkeeper; Lebel & Harriman (affiliated with Valmark Advisors, Inc.) – investment advisor, and Blue Ridge ESOP Associates – third party administrator. During the year ended December 31, 2021, fees associated with the 401(k) assets paid to the forgoing parties were paid by the ABM Mechanical, Inc. 401(k) plan (prior to merging). Other plan fees to the forgoing parties were paid outside of the Plan, by ABM Mechanical, Inc.

NOTE 12 - PLAN MERGERS

Effective May 31, 2021, and December 31, 2021, the assets of the Predecessor Plans were merged into the Plan, as follows:
