The Board of Directors
First Oklahoma Bank 401(k) Employee Stock Ownership Plan
Jenks, Oklahoma

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of First Oklahoma Bank 401(k) Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of First Oklahoma Bank 401(k) Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about First Oklahoma Bank 401(k) Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of First Oklahoma Bank 401(k) Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about First Oklahoma Bank 401(k) Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental schedule H, line 4i-schedule of assets held at end of year as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of First Oklahoma Bank 401(k) Employee Stock Ownership Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 12, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

FIRST OKLAHOMA BANK 401(k) EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements
December 31, 2021 and 2020

Note 1 - Description of Plan

The following brief description of the First Oklahoma Bank 401(k) Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

First Oklahoma Bank (the Company) established the Plan effective as of January 1, 2015. The Plan amended and replaced the First Oklahoma Bank 401(k) Plan (the Predecessor Plan). The Plan operates, in relevant part, as an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Company. The trust department of an independent third-party bank is the Plan's trustee and custodian (the Trustee).

In addition, the Plan has provided a 401(k) component, where participants can elect to contribute to investment options available at the participant's discretion. The investment options selected are those provided by the Plan or in "Self-Directed" accounts.

The Trustee determines the appropriateness of the Plan's investment offerings, and monitors investment performance.

Eligibility

Employees are eligible to participate in the Plan beginning on the entry date coincident with or next following the date on which the employee attains 21 years of age and completes thirty (30) consecutive days of employment.

Entry Date

Employees may enter the Plan on the first day of the month coinciding with or following the date they satisfy the Plan's eligibility requirements.

Contributions

Each year, participants may contribute up to 100% of their annual compensation, as defined in the Plan. Contributions are subject to certain IRC limitations. The Plan allows participants to designate contributions as Roth contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover). The Company makes non-elective safe harbor matching contributions of 100% of the first 3% of base compensation and 50% of the next 2% of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the discretion of the Company's Board of Directors. No such additional discretionary contributions were made for the year ended December 31, 2021.

FIRST OKLAHOMA BANK 401(k) EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements
December 31, 2021 and 2020

Investment Options

The Plan has two distinct components. One component is an ESOP that allows eligible employees to obtain an indirect ownership interest in the Company's parent company, First Oklahoma Holdings, Inc. This is sometimes referred to as the ESOP portion of the Plan. The other component is a 401(k) Plan that allows employees to save for their retirement needs on a tax-favored basis. This component is sometimes referred to as the Non-ESOP or 401(k) portion of the Plan.

Upon enrollment to the Plan, a participant may direct deferrals and employer contributions in any of the funds offered by the Plan. Generally, the ESOP portion of the Plan limits the change in participant balances to a specified window set by the Plan administrator. Participants may change their 401(k) portion of the Plan investment options daily. The investment objectives of these investment funds vary, as do the degrees of risk involved and the fees charged by those funds. If no investment direction is given, accounts in the 401(k) portion of the Plan will be invested in a default fund. Any such default investment fund will be designed to comply with the regulations of the Department of Labor for qualified default investment alternatives.

Participant Accounts

Each participant's 401(k) and ESOP Plan account is credited with the participant's contributions and the Company's non-elective safe harbor matching contributions, as well as allocations of the Company's discretionary contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant's compensation, account balances or specific participant transactions, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Voting Rights

If a participant is in the ESOP portion of the Plan, each participant may direct the vote of shares of Company stock allocated to their account if the shares are to be voted with respect to any merger, consolidation, recapitalization, reclassification, liquidation, dissolution or sale of substantially all of the assets of any trade or business of the Company, and such other issues as may be required by regulations adopted by the Secretary of the Treasury. The Trustee will vote unallocated shares in the manner directed by the Plan administrator.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. This option is exercisable either (i) within 60 days from the date the stock is distributed to the participant or (ii) during the 60-day period immediately following the completion of the next valuation of Company stock that will apply in the Plan year following the Plan year of distributions. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Notes to Financial Statements

December 31, 2021 and 2020

Vesting

Participants are vested immediately in their contributions and Company's non-elective safe harbor matching contributions, plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of participant accounts is based on years of continuous service.

Vesting is based on years of credited services as set forth in the following table:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less Than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participants are 100% vested in their account balances upon retirement, death, or disability.

Forfeitures

There were no forfeited non-vested account balances at December 31, 2021 or 2020.

Notes Receivable from Participants

Participants may borrow from their Non-ESOP accounts, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The notes are secured by the balance in the participant's account. The rate of interest applicable to participant loans is the prime commercial lending rate quoted in the Wall Street Journal for the day on which the participant's completed loan request is received. Principal and interest is paid ratably through payroll deductions over a period not to exceed five years, unless the proceeds of the note were used to acquire the participant's residence, in which case the loan terms can range up to 15 years. A participant may have no more than 2 outstanding notes at any one time. A loan may be paid in full or in part at any time with no early-payment penalty.

Notes to Financial Statements

December 31, 2021 and 2020

Payment of Benefits

Participants may elect to receive either a lump-sum amount equal to the value of their vested interest or annual installments as defined in the Plan document upon attainment of age 59 ½, retirement, termination of service, death or disability. Distributions of the participant's vested balance may be made at any time due to a hardship as defined by the Plan. If the combined value of the participant's ESOP accounts and Non-ESOP accounts does not exceed \$10,000 (prior to any other distributions), such accounts may be distributed as soon as administratively feasible following the participant's termination of employment. The value of Company stock held in an ESOP account will be distributed as follows based on the value of the Company stock allocated to the accounts:

<u>Value of Company Stock in Account</u>	<u>Manner of Distribution</u>
Not more than \$10,000 (when combined with 401(k) accounts)	Single cash payment
More than \$10,000, but not more than the amount at specified by Code Section 409(o), currently \$1,070,000	Up to 5 annual installments
More than \$1,070,000, as adjusted for inflation	Installments over 5 years, plus 1 additional year (up to 5 more years) for each \$210,000 or fraction thereof by which such balance exceeds \$1,070,000 (as adjusted).

The Plan allows withdrawals for financial hardship for qualifying hardship conditions or events. In addition to previous hardship provisions, the Plan allows distributions if the participant certifies circumstances of hardship with no other reasonably available remedy. The Plan no longer requires suspension of salary deferrals after taking hardship distributions and no longer requires all available non-taxable loans available through the Plan before requesting a hardship distribution.

Diversification

For each of up to six Plan years after the participant reaches age 55 and complete 10 years participation in the Plan (including years of participation in the Predecessor Plan for participants who transferred assets from the Non-ESOP portion of the Plan), the participant may require the Trustee to liquidate up to 25% of their ESOP accounts to the extent that such portion exceeds the amounts to which such an election has been previously made. The diversification must be made within 90 days after the close of the Plan year. For the Plan year in which the participant makes a final election, the portion of the participant ESOP accounts eligible for the diversification election is equal to 50% of those accounts, to the extent that such portion exceeds the amounts to which such an election has been previously made. The diversification election will be implemented within 90 days after the close of the election period during which the election is made.

December 31, 2021 and 2020

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative fees and are expensed when they are incurred. Delinquent notes receivable are recorded as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2021 and 2020.

Payments of Benefits

Benefit payments to participants are recorded upon distribution.

FIRST OKLAHOMA BANK 401(k) EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements
December 31, 2021 and 2020

Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net asset available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Subsequent Events

The Company has evaluated subsequent events through October 13, 2022, the date which the financial statements were available to be issued.

Note 3 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for Substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

FIRST OKLAHOMA BANK 401(k) EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements
December 31, 2021 and 2020

Mutual funds (including money market mutual funds) – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded

Common collective fund – Valued at fair value based on the NAV of units held of the collective fund. The NAV, as provided by the trustee and custodian is used as a practical expedient to estimate fair value. The NAV is based on the observable market prices of the underlying investments within the fund less liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Company stock – The fair value of the Company common stock held in the Plan is valued at the estimated fair value based upon an independent appraiser. The appraisal was based upon a combination of the market and income valuation techniques. The appraiser took into account historical and projected cash flow and net income, discount rates, return on assets, return on equity, market comparable and estimated fair value of Company assets and liabilities, including discounts for lack of control and lack of marketability.

The valuation process involves Plan management's selection of an independent appraiser on an annual basis. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the Company Board of Directors and ESOP trustee, review in detail, discuss, and approve. The results of this process are documented in the minutes of the Company's Board of Directors.

Corporate Bonds - Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuer with similar credit ratings.

When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

Self-directed brokerage accounts – Account primarily consists of Company stock, corporate bonds, mutual funds and common stock.

The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and other third parties.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule including investments and notes receivable from participants held at December 31, 2021 and 2020, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the years ended December 31, 2021 and obtained by management and agreed to or derived from information certified as complete and accurate by the Trust Company of Oklahoma (the trustee and custodian of the Plan).

Note 6 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 30, 2020, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. Subsequent to this issuance of the determination letter, the Plan was amended. However, the Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and therefore believe the Plan is qualified and related trust continues to be tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by the trustee. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. During the year ended December 31, 2021, no dividends from Company stock were paid. These transactions are exempt party-in-interest transactions under the ERISA.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities and the Company's common stock, which are exposed to various risks such as interest rate, market, and credit risks as well as valuation assumptions based on earnings, cash flows and other such techniques. Market risks include global events which could impact the value of investment securities, such as a pandemic or global conflict. Due to the level of risk associated with certain investment securities and the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the values of investment securities or the value of common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 - Plan Amendments

As required by the Setting Every Community Up for Retirement Enhancement Act of 2019 (SECURE Act), the Plan implemented all changes mandated by the SECURE Act effective January 1, 2021. Most significantly, these included increasing the age requirement for required minimum distributions from age 70 ½ to age 72, for participants born after June 20, 1949 and changing in the distribution rules for benefits payable upon the death of a participant to generally require distributions within 10 years after the participant's death unless the beneficiary is the participant's spouse or an "eligible designated beneficiary". The SECURE Act changes were implemented as described but formal amendment of the Plan was not required until December 31, 2025.
