Independent Auditors' Report

To the Participants and Plan Administrator of
PPL Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of PPL Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - 2021 Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter - Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 7, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. PLAN DESCRIPTION

The PPL Retirement Savings Plan (the "Plan") is a defined contribution plan designed to comply with the requirements of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and the requirements for qualification under Section 401(a) of the Internal Revenue Code (the "Code") and includes a cash or deferral arrangement that is intended to comply with the requirements for qualification under Section 401(k) of the Code, allowing for pre-tax contributions. The Plan is administered by the Employee Benefit Plan Board (the "Plan Administrator") of PPL Corporation ("PPL"). The Plan is sponsored by PPL Services Corporation (the "Company"). The Company has reserved the right to amend or terminate the Plan at any time.

An employee of the Company and each other affiliated company which is designated by the Plan Administrator to adopt the Plan ("Participating Company" and collectively the "Participating Companies"), who is hired on or after January 1, 2012 and who is classified by the Participating Company as not covered by a collective bargaining agreement and who is a full time salaried employee ("Salaried Employee") is eligible to participate in the Plan on the first day of the month following the date of employment. Effective July 1, 2014, a full-time IBEW Local 1600 bargaining unit employee ("Bargaining Unit Employee") is eligible to participate in the Plan. An employee, with the consent of the Plan Administrator, may make rollover contributions to the Plan of the amounts distributed from other plans which are qualified under Section 401(a) of the Code.

Under the before-tax and/or Roth 401(k) options, Salaried Employee participants may elect a percentage reduction in their eligible compensation of between 2% to 20%, and have this salary reduction in compensation remitted by the Participating Company to the Plan. Bargaining Unit Employee participants may elect a percentage reduction in their eligible compensation of between 2% to 50%. If a newly eligible Salaried Employee does not make an election to contribute to the Plan, the employee is automatically enrolled in the Plan beginning 30 days from date of hire with a pre-tax contribution of 6% of compensation. If an eligible Salaried Employee is automatically enrolled and does not affirmatively change the election percentage before the annual enrollment date, the contribution amount will automatically increase to 7% of compensation. This election will increase by 1% each year thereafter until it reaches 10%. The Plan’s default investment funds are target date funds based on a participant's date of birth assuming retirement at age 65. Participants can change the amount they contribute and their investment options at any time.

Participating Companies will make a fixed contribution of 3% of eligible compensation for each pay period, regardless of any before-tax and/or Roth 401(k) contributions employees elect to make. For Salaried Employees, the matching contribution is modified to 100% of the participant’s before-tax and/or Roth 401(k) contributions up to 3% of the participant’s eligible compensation and then 50% of contributions up to the next 3% of the participant’s eligible compensation. For a Bargaining Unit Employee, Participating Companies will make a matching contribution of 75% of the participant's before-tax and/or Roth 401(k) contributions up to 6% of the participant's eligible compensation.

Eligible compensation represents the base pay of a participant without regard to any compensation reduction contributions or pre-tax contributions to the PPL Flexible Spending Accounts Plan, plus any variable pay received by Managers Compensation Plan ("MCP") employees. In addition, the Internal Revenue Service (the "IRS") limits the amount that can be contributed on a before-tax and designated

Roth 401(k) basis for any calendar year. The maximum contribution amount from a participant for 2021 and 2020 was $19,500. Plan participants that are age 50 or older by the end of the year, can make an additional catch-up contribution, the maximum amount of which for 2021 and 2020 was $6,500.

Participants are immediately vested in their voluntary contributions and earnings thereon. Bargaining Unit Employees are immediately vested in the Participating Companies' fixed contribution of 3% of eligible compensation. Participants are 100% vested in all other Participating Company contributions after two years of service.

The Plan provides for loans to participants, which are secured by the balance in the participant's account. Participants are limited to no more than two loans outstanding at any time. Loans are limited to the lesser of $50,000 or 50% of the participant's vested balances in their contribution, Participating Company fixed contribution, Participating Company matching contribution and rollover accounts. Loans bear interest at a rate established by the Plan Administrator in accordance with applicable law. The interest rate for new loans in 2021 was 4.25% and ranged between 4.25% and 5.75% in 2020. Loans may be repaid through payroll deductions within five years from the date of the loan. Loans may be repaid in full at any time.

A participant who has retired or whose employment has terminated for any reason may elect to receive a lump sum, defer the distribution or receive the distribution in installments providing that the participant's account balance exceeds, or exceeded at the time of any prior distribution, $1,000. If the participant's account balance is $1,000 or less, they will receive a single-sum cash payment of their account balance.

At December 31, 2021 and 2020, forfeited nonvested accounts totaled $52,224 and $66,905, respectively. Forfeited nonvested accounts used to reduce Participating Company contributions in 2021 and 2020 were $291,662 and $303,000, respectively.

On March 27, 2020, the Coronavirus Aid Relief and Economic Security Act (CARES Act) was signed into law. The CARES Act, which was designed to help the economy recover from the effects of the coronavirus pandemic, included several optional provisions which impacted employee benefit plans. During 2020, the Plan opted into certain provisions of the CARES Act that allow for coronavirus-related hardship distributions and loan payment deferral for qualified plan participants as defined under the CARES Act.

Separate accounts are maintained for each participant. Each participant is credited with the participant's contribution and allocations of (a) the Participating Company's contributions (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct Fidelity Management Trust Company (the "Trustee") to invest their contributions and accumulated balances in their accounts into various investments provided through the PPL Defined Contribution Master Trust (the "Master Trust").

Any employee of a PPL subsidiary who has an account balance in a PPL sponsored defined contribution plan who either transfers employment between subsidiaries or changes employment

status from/to a bargaining unit employee from/to a non-bargaining unit employee, which results in a change in eligibility to participate in the Plan, shall have the account balance in such plan transferred directly from the fiduciary of such plan to the participant's transfer account under the new plan. As of the date of such transfer, the participant's rights and obligations with respect to the transfer account are governed by the terms of this Plan, except that the participant's vested interest in the transfer account is determined by the terms of the plan from which it was transferred.

Provisions of the Plan regarding vesting, distributions, loans and other matters are more fully described in the Plan document.

The Trustee of the Plan holds the Plan's investments in the Master Trust, and invests the cash received, interest, and dividend income, and makes distributions to participants. The Plan pays investment and administrative expenses directly.

The Plan issues loans to its participants which are secured by the participants' account balance. These transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

Certain administrative functions of the Plan are performed by employees of the Company. No such employee receives compensation from the Plan.

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and other participant-based fees are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments and are reflected in Plan interest in investment income of the PPL Defined Contribution Master Trust on the Statements of Changes in Net Assets Available for Benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared under the accrual basis of accounting.

For the following note disclosures, dollar amounts are presented in thousands.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

The Plan's investments are stated at fair value as discussed in Note 4. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the gains and losses on investments bought and sold as well as held during the year and is reflected in

Plan interest in investment income of the PPL Defined Contribution Master Trust on the Statements of Changes in Net Assets Available for Benefits.

Distributions to participants who terminate service for reasons other than retirement, disability or death are recorded in the period during which service is terminated unless such participants defer the distributions. Single sum distributions for active, retired, deceased, disabled and deferred terminated participants are recorded as distributed. Installment payments are recorded as distributed.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2021 and 2020.

Subsequent Events

The Plan has evaluated subsequent events through September 27, 2022, the date the financial statements were available to be issued.

3. INTEREST IN PPL DEFINED CONTRIBUTION MASTER TRUST

PPL maintains a Master Trust with the Trustee to pool the investments of its defined contribution benefit plans. Each participating plan has a divided interest in the Master Trust. The assets of the Master Trust are held by the Trustee. The value of the Plan’s interest in the Master Trust is based on the beginning of year value of the Plan’s interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based on participants' individual account balances in each plan, calculated within the daily valuation process.

The following table presents the investments and other assets and liabilities of the Master Trust and the Plan's divided interest at December 31:

	2021		2020	
	Master Trust Balances	Plan's Interest in Master Trust Balances	Master Trust Balances	Plan's Interest in Master Trust Balances
Investments, at fair value:				
Mutual funds	$ 111,616	$ 3,428	$ 80,807	$ 2,357
Common collective trusts	1,870,222	110,566	1,681,365	82,672
Total investments at fair value	1,981,838	113,994	1,762,172	85,029
Investments, at contract value:				
Stable value fund	227,722	2,012	242,043	2,201
Total investments at contract value	227,722	2,012	242,043	2,201
Total Master Trust Investments	$ 2,209,560	$ 116,006	$ 2,004,215	$ 87,230

Investment income for the Master Trust for the years ended December 31 is as follows:

	2021	2020
Investment income:		
Net appreciation in fair value of investments	$ 308,101	$ 392,072
Interest	3,104	4,476
Dividends	2,193	2,166
	$ 313,398	$ 398,714

Investments at contract value represent those directed by participants to the Blended Interest Rate Fund (the "Fund") within the Master Trust which are combined with similar investments applicable to other plans participating in the Master Trust and invested in high-grade investment contracts issued by insurance companies and banks, as well as other high-quality debt obligations and short-term money market instruments. Wrapper contracts are purchased from another party, which are agreements that allow for the Fund to maintain a constant Net Asset Value (“NAV”) per share and provide for participant transactions to be made at contract value. In a typical wrapper contract, the wrapper issuer agrees to pay the Fund the difference between the contract value and the market value of the covered assets if the market value becomes totally exhausted as a result of significant participant redemptions. Purchasing wrapper contracts is similar to buying insurance, in that the Fund pays a relatively small amount to protect against the relatively unlikely event of participant redemption of most of the shares of the Fund. The fair value of the wrapper contracts is determined using the replacement cost methodology that incorporates various inputs including the difference between the market for wrapper fees and the actual wrapper fees currently charged.

Wrapper contracts accrue interest using a formula called the "crediting rate". Wrapper contracts use the crediting rate formula to convert market value changes in the covered assets into income distributions in order to minimize the difference between the market and contract value of the covered assets over time. Using the crediting rate formula, an estimated future market value is calculated by compounding the Fund's current market value at the Fund's current yield to maturity for a period equal to the Fund's duration. The crediting rate is the discount rate that equates estimated future market value with the Fund's current contract value. Crediting rates are reset monthly.

The crediting rate, and hence the Fund's return, may be affected by many factors, including purchases and redemptions by shareholders. The precise impact on the Fund depends on whether the market value of the covered assets is higher or lower than the contract value of those assets. If the market value of the covered assets is higher than their contract value, the crediting rate will ordinarily be higher than the yield of the covered assets. Under these circumstances, cash from new investors will tend to lower the crediting rate and the Fund's return, and redemptions by existing shareholders will tend to increase the crediting rate and the Fund's return.

If the market value of the covered assets is lower than their contract value, the crediting rate will ordinarily be lower than the yield of the covered assets. When market value is lower than contract value, the Fund will have, for example, less than $10.00 in cash and bonds for every $10.00 in NAV. Under these circumstances, cash from new investors will tend to increase the market value attributed to the covered assets and to increase the crediting rate and the Fund's return. Redemptions by existing shareholders will have the opposite effect, and will tend to reduce the market value attributed to remaining covered assets and to reduce the crediting rate and the Fund's return. Generally, the market value of covered assets will tend to be higher than contract value after interest rates have fallen due to higher bond prices. Conversely, the market value of covered assets will tend to be lower than their contract value after interest rates have risen due to lower bond prices.

If the Fund experiences significant redemptions when the market value is below the contract value, the Fund's yield may be reduced significantly, to a level that is not competitive with other investment options. This may result in additional redemptions, which would tend to lower the crediting rate further. If redemptions continued, the Fund's yield could be reduced to zero. If redemptions continued thereafter, the Fund might have insufficient assets to meet redemption requests, at which point the Fund would require payments from the issuer to pay further shareholder redemptions. The wrapper contracts provide a guarantee that the crediting rate will not fall below 0%.

The Fund is credited with earnings on the underlying investments and charged for plan withdrawals and administrative expenses charged by the contract issuers. Contract value is the relevant measurement for the Fund (which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses), because the contracts held by the Fund are fully benefit-responsive. For example, within the Fund participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Fund to transact at contract value with the issuer. Such events include the following: (1) amendments to the participating plan documents (including complete or partial plan termination or merger with another plan), (2) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures, spinoffs of a subsidiary, or other events impacting a significant number of participants as defined in the contracts) that cause a significant withdrawal from

the participating plans, or (3) the failure of the Master Trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

The investment contracts can be terminated by issuers and settled at amounts different from contract value if certain events occur. Such events include the following: (1) the Fund does not meet its obligations under the contract, (2) the participating plans do not meet the qualification requirements of Section 401(a) of the Code, or (3) the participating plans are terminated and assets distributed to participants. The Plan Administrator does not believe that the occurrence of any such event, which would result in termination of the contracts and limit the Fund's ability to transact at contract value with participants, is probable.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable. Management believes such inputs are predicated on the assumptions market participants would use to measure the asset at fair value.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following tables summarize assets measured at fair value on a recurring basis by level within the fair value hierarchy for the Master Trust at December 31, 2021 and 2020:

	Fair Value Measurements at December 31, 2021			
	Total	Level 1	Level 2	Level 3
Mutual funds	$ 111,616	$ 111,616	$ —	$ —
Common collective trust funds (a)	1,870,222			
	$ 1,981,838			

	Fair Value Measurements at December 31, 2020			
	Total	Level 1	Level 2	Level 3
Mutual funds	$ 80,807	$ 80,807	$ —	$ —
Common collective trust funds (a)	1,681,365			
	$ 1,762,172			

(a) In accordance with accounting guidance certain investments that are measured at fair value using the NAV, or its equivalent, practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the disclosure of net assets of the Master Trust in Note 3.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The common collective trust funds are valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. There are no unfunded commitments. Participant transactions (purchases and sales) may occur daily. If the Plan was to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business fashion.

5. INFORMATION CERTIFIED BY TRUSTEE

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee of the Plan has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2021 and 2020, and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of

Year) as of December 31, 2021, and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2021 and 2020.

6. PLAN TRANSFERS

In 2021, PPL announced an enterprise-wide centralization effort among its service functions and employees began to transfer across companies. In late December 2021, certain plan participants in the LG&E and KU Savings Plan became employees of PPL Services Corporation. A receivable of $5,091 was recorded by the Plan for the participants' balance transferred from the LG&E and KU Savings Plan.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Participating Company contributions and would receive distribution of their accounts.

8. TAX STATUS

The Plan obtained its latest determination letter on June 26, 2018, in which the IRS stated that the Plan and its amendments dated through December 1, 2016, as then designed, were in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan has been amended since December 1, 2016. However, the Plan Administrator, and the Plan’s internal tax counsel believe that the Plan is currently designed in compliance with the applicable requirements of the Code, and the Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. RISK AND UNCERTAINTIES

The Plan's interest in the Master Trust provides for various investment options in various combinations of investment funds. Investment funds are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

At December 31, 2021 and 2020, the Master Trust includes certain commingled trust fund investments whose respective fair values are in excess of 10% of total Master Trust assets. The Plan's concentration in these funds is dependent upon the investment allocations selected by the Plan's participants.

10. RECONCILIATION TO FORM 5500

For financial reporting purposes, the investment in the Master Trust related to fully benefit-responsive investment contracts is presented at contract value. However, this investment is required to be reported at fair value on the Form 5500.

The following reconciliation details the reporting differences from the Plan's financial statements to the Form 5500 for the Plan's Master Trust investment.

	2021	2020
Investment in Master Trust per the financial statements	$ 116,006	$ 87,230
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	16	79
Investment in Master Trust per Form 5500	$ 116,022	$ 87,309

The following is a reconciliation of Net Assets Available for Benefits per the financial statements to the Form 5500 at December 31:

	2021	2020
Net assets available for benefits per the financial statements	$ 122,591	$ 88,452
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	16	79
Net assets available for benefits per the Form 5500	$ 122,607	$ 88,531

The following reconciliation details the reporting differences from the Plan's financial statements to the Form 5500 for the Plan's investment income from the Master Trust for the adjustment for fair value reporting of fully benefit-responsive investment contracts for the years ended December 31:

	2021	2020
Investment income in Master Trust per the financial statements	$ 16,099	$ 14,247
Adjustment from contract value to fair value for fully benefit-responsive investment contracts previous year	(79)	(15)
Adjustment from contract value to fair value for fully benefit-responsive investment contracts current year	16	79
Investment income in Master Trust per the Form 5500	$ 16,036	$ 14,311
