Report of Independent Auditors

To the Administrator of B. Braun of Puerto Rico, Inc. Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying 2021 financial statements of B. Braun of Puerto Rico, Inc. Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The 2021 financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended and the statement of accumulated plan benefits as of December 31, 2020 and the related statement of changes in accumulated plan benefits for the year then ended, including the related notes (collectively referred to as the "2021 financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Other Matter –2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan, which comprise the statement of net assets available for benefits as of December 31, 2020 and the related statement of changes in net assets available for benefits for the year then ended and the statement of accumulated plan benefits as of December 31, 2019 and the related statement of changes in accumulated plan benefits for the year then ended(not presented herein, other than the statement of net assets available for benefits and the related statement of changes in net assets available for benefits). As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 6, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements, other than that derived from the certified information, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

Form 5500 - Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2021 and Form 5500 - Schedule H, line 4j - Schedule of Reportable Transactions for the year ended December 31, 2021 ("supplemental schedules"), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of the Plan

The following description of the B. Braun of Puerto Rico Inc. Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a noncontributory defined benefit plan covering substantially all employees of B. Braun of Puerto Rico Inc., a subsidiary of B. Braun Medical Inc. (collectively "the Company"). The Retirement Committee of B. Braun Medical Inc. controls and manages the operations and administration of the Plan. Banco Popular de Puerto Rico (the "Trustee") serves as the Trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Company ceased operations in Puerto Rico at the end of the second quarter of 2008. The Company maintains the Plan with only former employees participating.

Funding Policy
Contributions to provide benefits under the Plan are made solely by the Company. Cash contributions are made to the Plan in amounts as determined by the Plan's independent actuary which will meet or exceed the annual ERISA minimum funding requirement. During 2021 and 2020, the Company made contributions of $102,000 and $224,000, respectively. The Plan met the funding requirements for both 2021 and 2020.

Vesting
A participant's benefits become fully vested upon attaining age 65 while employed by the Company, or upon completion of five years of service as defined by the Plan.

Retirement Benefits
Plan participants are eligible to receive annual pension benefits beginning at normal retirement age, age 65, based upon an actuarially determined formula. The Plan permits early retirement at ages 55–64 provided certain other necessary conditions are met. Participants may elect to receive the value of their accumulated benefits in the form of a lump sum payment or installment payments, in which the benefits are calculated as the greater of the career average earnings retirement or the final average earnings retirement benefit.

The Plan includes a lump sum payment-form option. The actuarial-equivalent lump sum provided under the Plan is determined using one of the following two bases, whichever results in the greater lump sum:

- 30-year treasury rate and the mortality table prescribed in IRS Revenue Ruling 2001-62; or
- The minimum-required basis defined under IRC Section 417(e) (3).

For amounts payable in a given plan year, the interest rates used to convert accrued benefits to equivalent lump sums equal the applicable rates published by the IRS for the month of November preceding such plan year. For a deferred vested participant, the lump sum payment option is assumed to commence immediately if the participant is over the age of 55; otherwise, it is not assumed to commence until the participant reaches age 55. It is also available immediately to the beneficiary of anyone who dies after having satisfied the eligibility conditions for a preretirement death benefit.

Death and Disability Benefits
Death benefits are available to the surviving spouse or designated beneficiary of an actively employed participant who is qualified for early or normal retirement and has not yet received retirement benefits. Disability benefits are available to employees eligible for Social Security disability benefits. If the participant is credited with ten or more years of service, the participant will continue to accrue benefits in the same manner as an active participant's annual compensation rate. Any disabled participant with ten or more years of service may elect to have their status terminated and receive the related benefits, however, no additional benefits will be accrued on the participant's behalf.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the dates of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If available, quoted market prices are used to value investments. The Retirement Committee determines the Plan's valuation policies utilizing information provided by the Trustee. See Note 4 for a discussion of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments sold during the period realized as well as the unrealized gains or losses on investments held in the portfolio at period end.

Actuarial Present Value of Accumulated Plan Benefits
Accumulated plan benefits are those future payments, including lump sum distributions that are attributable under the Plan's provisions to the service that Plan participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. Benefits under the Plan are accumulated based on participants' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by independent actuaries and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. The Statement of Accumulated Plan Benefits is presented at December 31, 2020

and the Statement of Changes in Accumulated Plan Benefits is presented for the year ended December 31, 2020. However, these financial statements use actuarial data as of January 1, 2021. There is not a material difference between the actuarial data as of December 31, 2020 and January 1, 2021.

The significant actuarial assumptions used to compute the actuarial present value of accumulated plan benefits as of December 31, 2020 were as follows:

Mortality table	PRI-2012 separate annuitant/non annuitant mortality table without collar adjustment, as published in 2020 by the Society of Actuaries, projected generationally with scale MP-2021
Interest rate	4.93% per annum
Non-417(e) lump sum interest rate	1.62% per annum

The significant actuarial assumptions used to compute the actuarial present value of accumulated plan benefits as of December 31, 2019 were as follows:

Mortality table	PRI-2012 separate annuitant/non annuitant mortality table without collar adjustment, as published in 2020 by the Society of Actuaries, projected generationally with scale MP-2020
Interest rate	5.02% per annum
Non-417(e) lump sum interest rate	2.28% per annum

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Administrative Expenses
Administrative expenses of the Plan are paid by either the Plan or the Company, as provided in the Plan document. The Company provides accounting and other administrative services to the Plan at no charge and are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. Administrative expenses of the Plan totaled $67,804 and $106,409 for the years ended December 31, 2021 and 2020, respectively.

Payment of Benefits
Benefits are recorded when paid.

New Accounting Standard
In August 2018, the FASB issued ASU 2018-13, “Changes to the Disclosure Requirements for Fair Value Measurements.” ASU 2018-13 eliminates, amends, and adds disclosure requirements and is applicable to all entities that are required under GAAP to disclose recurring and nonrecurring fair value measurements. The guidance is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019 and early adoption is permitted. The Plan adopted this standard in 2020.

3. Certified Information

Plan management has elected the method of compliance permitted by CFR 2520.103-8 of the Department of Labor’s (“DOL”) Rules and Regulations for Reporting and Disclosure under ERISA.

All investment balances and related investment information disclosed in the accompanying financial statements, supplemental schedule of assets (held at end of year) and supplemental schedule of reportable transactions was obtained or derived from information provided to the Plan administrator and certified as complete and accurate by Banco Popular de Puerto Rico, the trustee and custodian of the Plan.

The following line items consist of certified information within the statements of net assets available for benefits:

	2021	2020
Registered investment companies	$ 13,451,444	$ 13,216,474
Cash	87,155	85,345

The following line items consist of certified information within the statements of changes in net assets available for benefits:

	2021	2020
Net appreciation in fair value of investments	$ 1,053,142	$ 1,707,916
Interest and dividends	203,212	196,802

4. Fair Value Measurements

ASC 820 establishes a framework for measuring fair value and expands disclosures about fair value measurements in financial statements. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2021 and 2020:

Registered Investment Companies
Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open end mutual funds that are registered with the U.S. Securities Exchange Commission (SEC). These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There were no transfers of investments between levels during 2021 or 2020.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020:

	Assets at Fair Value as of December 31, 2021			
	Level 1	**Level 2**	**Level 3**	**Total**
Registered investment companies	$ 13,451,444	$ -	$ -	$ 13,451,444

	Assets at Fair Value as of December 31, 2020			
	Level 1	**Level 2**	**Level 3**	**Total**
Registered investment companies	$ 13,216,474	$ -	$ -	$ 13,216,474

5. Related Party and Party in Interest Transactions

The Plan holds an interest-bearing cash deposit account with Banco Popular de Puerto Rico. As Banco Popular de Puerto Rico is the Trustee of the Plan, transactions in such deposit accounts qualify as party-in-interest transactions but are exempt from the prohibited transaction rules. Certain expenses related to the administration of the Plan are paid by the Company, which qualify as a party in interest, but are exempt from the prohibited transaction rules.

6. Tax Status

On February 3, 2016, the Department of Treasury of Puerto Rico ruled that the Plan complies with the requirements of section 1165(a) of the Puerto Rico Internal Revenue Code of 1994, as amended, and section 1081.01 of the Puerto Rico Internal Revenue Code of 2011, as amended, and the regulations thereunder (collectively "the Codes"). The Plan is exempt from income tax under the laws of the Commonwealth of Puerto Rico.

The Company is not aware of any events which would cause the Plan to become disqualified under the Codes. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date. Accordingly, no provision for taxes has been reflected in the financial statements of the Plan.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is not subject to income tax examinations for years prior to 2018.

7. Risks and Uncertainties

The Plan invests in investment securities including registered investment companies. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur at any time and that such change could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumption process, it is at least reasonably possible that changes in these estimates and assumptions at any time would be material to the financial statements.

8. Plan Termination

The Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and the priority of those benefits to be paid. Some benefits may be fully or partially provided for by the then existing assets while other benefits may not be provided for at all.

9. Subsequent Events

The Company's management has evaluated all activity of the Plan through October 13, 2022, the date the financial statements were made available for issuance. Except for those items noted below, no other subsequent events were identified.

Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis:

- Applicable month: January
- Interest rate basis: 3-Segment Rates

Interest rates:

	Reflecting Corridors	Not Reflecting Corridors
First segment rate	4.75%	1.75%
Second segment rate	5.36%	3.04%
Third segment rate	6.11%	3.65%
Effective interest rate	5.43%	3.07%

As permitted by law, rates reflecting stabilization are used to determine the funding target and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Annual rates of increase

- 417(e) lump sum annuity conversion rate: Applicable rates in IRC Section 417(e)(3)(C) for November 2020
- Non-417(e) annuity conversion rate: 1.62%

Plan-related expenses: Plan-related expenses are assumed to equal the administrative expenses for the prior year, rounded to the nearest $1,000. For 2021, this amount was $95,000.

Form of payment

Form of Payment	Percentage
Lump Sum	90%
Single Life Annuity	5%
50% Joint and Survivor	5%

100% of the future deaths are assumed to take single life annuity

Percent married

80% of males; 60% of females. These assumptions are used to value pre-retirement surviving spouse benefits and in determining the optional form expected to be elected at commencement.

Spouse age

Wife – 2 years younger than husband

Husband – 2 years older than wife

Covered pay

W-2 compensation plus any compensation deferred under a Section 125 or Section 401(k) plan, subject to 401(a)(17) compensation limits.

SCHEDULE SB ATTACHMENTS

Mortality:

■ Healthy mortality rates	Separate rates for non-annuitants (based on RP-2014 “Employees” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2019) and annuitants (based on RP-2000 “Healthy Annuitants” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2019).
■ Disabled life mortality rates	Same as healthy lives

Disability rates	None
Termination (not due to disability or retirement) rates	None
Retirement	None

Additional Assumptions

Administrative expenses	Not applicable

Cash flow

Decrement timing	The assumptions used are collectively called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant’s rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant’s rounded age at the middle of the year.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year

SCHEDULE SB ATTACHMENTS

Funding Target	Present value of accrued benefits as required by regulations under IRC §430
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 5.02% with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2021 and information on plan provisions. Information on assets and contributions was provided by the plan trustee. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with the plan sponsor, there were no significant issues found with missing or inconsistent data. We are aware of no adjustments made by the data provider. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions

Discount rate(s)	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

SCHEDULE SB ATTACHMENTS

Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, actuarial, accounting, legal, administration and trustee fees to be paid from the trust).
Non-417(e) lump sums	The assumed annuity conversion rate is the interest on 30-year Treasury securities for November of the preceding plan year. We believe that the selected assumption does not significantly conflict with what would be reasonable based on market conditions at the measurement date.
417(e) lump sums	As required by IRC §430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430.
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430.
Benefit commencement date for deferred vested benefit	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.
Form of payment	The percentage of retiring participants assumed to take lump sums is based on observed experience over the period January 1, 2012 through January 1, 2015 as completed by the prior actuary. The percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on observed experience over the period January 1, 2012 through January 1, 2015 as completed by the prior actuary.
Percent married	The assumed percentage married is based on the percentage married observed among recent retirees as completed by the prior actuary.
Spouse age	The assumed age difference for spouses is based on observed experience of the age difference for married individuals of retirement age as completed by the prior actuary.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

SCHEDULE SB ATTACHMENTS

Changes in Assumptions, Methods and Estimation Techniques

Changes in assumptions and methods since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The mortality table used to calculate the funding target was updated to include one additional year of projected mortality improvement, as required by IRC §430.

The 417(e) lump sum mortality table was updated to reflect rates in effect for 2021 distributions.

The non-417(e) lump sum interest rate was updated from 2.28% to 1.62%

The methodology for calculating assumed plan related expenses has not changed; however, the assumed plan-related expenses added to the target normal cost were updated from $70,000 for the prior valuation to $95,000 for the current valuation.

Change in estimation techniques

The valuation software used to produce the actuarial information submitted in this valuation report is different than used for the previous valuation due to a change in both the enrolled actuary for the plan and the business organization providing actuarial services to the plan, and such change in software may be considered to be a change in estimation technique. In addition, Willis Towers Watson's valuation system reflects a rounded middle-of-year decrement timing model which is a change compared to the prior actuaries decrement timing model of beginning-of-year.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V
Summary of Plan Provisions

Plan Provisions	
Effective date and plan year	Original plan: May 1989 Restated plan: January 1, 2014 Plan year: Calendar year
Most recent amendment	N/A
Covered employees	Active employees of B. Braun Medical within the Commonwealth of Puerto Rico who are not leased employees and not covered by a collective bargaining agreement. While the plan technically still provides for ongoing benefit accruals, there are no longer any active employees within the Commonwealth of Puerto Rico.
Participation	January 1 or July 1 after completing one year of service, 1,000 hours and attaining age 21.

Definitions	
Vesting service	Number of plan years in which the employee worked at least 1,000 hours.
Credited service	Service from date of participation to date of termination, based on the number of completed months worked during each plan year. Employees must work at least 1,000 hours to earn credited service during a plan year.
Pensionable earnings	W-2 compensation plus any compensation deferred under a Section 125 or Section 401(k) plan, subject to 401(a)(17) compensation limits.
Final average earnings	Average of the five consecutive years' pensionable earnings out of the last ten years that yield the highest average.
Social Security taxable wage base	The maximum amount of earnings that may be considered wages in any year for purposes of the Social Security Tax provisions of the Internal Revenue Code.

SCHEDULE SB ATTACHMENTS

Primary Social Security benefit	Social Security benefit the participant would receive at normal retirement eligibility assuming he was covered since the later of 1951 or age 21. Benefit is calculated using actual pensionable earnings for the last five plan years preceding termination date. Covered earnings for years after the actual earnings period equal the latest actual earnings; covered earnings for years before the actual earnings period equal the earliest actual earnings projected backward at 6% per year.
Accrued benefit	The greatest of the following (1), (2), or (3): 1. a. 1.25% of final average earnings times credited service less b. 75% of the participant's age 65 annual primary Social Security benefit multiplied by a fraction, the numerator of which is credited service at the date of determination and the denominator of which is credited service the employee would have at normal retirement eligibility if he remained in full-time employment until that time. 2. The career average benefit earned prior to January 1, 1973 plus the sum of the following for each year of participation after December 31, 1972: a. 0.75% of the prior year's pensionable earnings and b. 0.75% of the prior year's pensionable earnings in excess of the Social Security Taxable Wage Base for the plan year of accrual. 3. Special accrued benefit described in Article 15 of the plan.
Normal retirement date (NRD)	First of the month coincident with or next following age 65.

Eligibility for Benefits

Normal retirement	Retirement on NRD.
Early retirement	Age 55 and 10 years of vesting service.
Postponed retirement	A participant may continue employment after his normal retirement eligibility and retire with a benefit commencing on the first day of the month following termination of employment.
Deferred vested termination	5 years of vesting service or age 65.
Disability	Eligible to receive Social Security disability benefits and 10 or more years of vesting service.

SCHEDULE SB ATTACHMENTS

Preretirement death benefit	Married and meets the deferred vested eligibility requirements, or not married and meets the requirements for either early retirement eligibility or normal retirement eligibility.

Benefits Paid Upon the Following Events

Normal retirement	Accrued benefit as of NRD.
Early retirement	Accrued benefit reduced by ¼% for each month that the commencement of benefits precedes the participant's normal retirement eligibility, except that the participant's Primary Social Security offset amount shall not exceed 83 1/3% of the participant's annual Primary Social Security benefit multiplied by a fraction, the numerator of which is the participant's credited service at the date of determination and the denominator of which is the credited service the participant would have at normal retirement eligibility reduced by 5/9% for each of the first 60 months and 5/18% for each of the next 60 months that the participant's benefit commencement date precedes normal retirement eligibility.
Postponed retirement	Accrued benefit calculated using credited service and pensionable earnings through the late retirement date.
Deferred vested termination	Accrued benefit calculated using credited service and pensionable earnings through the termination date.
Disablement	Benefits continue to accrue in the same manner as an active participant based on the pensionable earnings in the calendar year preceding the year in which the participant was last actively employed.
Preretirement death	Married: Spouse's benefit is 50% of the amount that would have been payable to the participant had the participant terminated employment and elected the 50% joint and survivor annuity at the earliest retirement age following termination. Not married: Beneficiary's benefit is 120 monthly payments equal to 100% of the accrued benefit payable as a 10-year certain and life annuity beginning at the participant's earliest retirement age.

SCHEDULE SB ATTACHMENTS

Other Plan Provisions	
Forms of payment	Automatic form for unmarried participants: Single life annuity payable monthly Automatic for married participants: 50% joint and survivor annuity payable monthly Optional forms are a single life annuity, a 50% joint and survivor annuity, 66-2/3% joint and survivor annuity, a 100% joint and survivor annuity, a ten-year certain and life annuity (under certain conditions), or lump sum.
Optional form conversion factors (annuity options)	Mortality Table: UP 84 Unisex Mortality Table Interest Rate: 7.50%
Optional form conversion factors (lump sum option)	The lump-sum option equals the actuarial equivalent of the accrued normal retirement benefit using the greater of: ■ the 30-year Treasury rate published for the month of November preceding the first day of the Plan Year during which the benefit is determined, and the mortality table prescribed in IRS Revenue Ruling 2001-62; or ■ the applicable interest rate and applicable mortality table prescribed by the Secretary for purposes of satisfying the requirements of IRC Section 417(e)(3)(B) on or after January 1, 2008. For amounts payable in a given plan year, the interest rates used to convert accrued normal retirement benefits to equivalent lump sums equal the applicable rates published by the IRS for the month of November preceding such plan year. The lump-sum payment-form option will be available immediately to anyone who retires or terminates with a vested interest in the plan. It will also be available immediately to the beneficiary of anyone who dies after having satisfied the eligibility conditions for a preretirement death benefit.
Pension Increases	Active participants: N/A Deferred vested participants: Current deferred vested participants over normal retirement age are valued by adding retroactive payments accumulated with 7.50% interest to the funding target.
Plan participants' contributions	None

SCHEDULE SB ATTACHMENTS

Maximum limits on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes take effect.

Future Plan Changes

No future plan changes were recognized in determining pension cost or funding requirements.

Changes in Benefits Valued Since Prior Year

There have been no changes in benefits valued since the prior year.

Change in Method

The valuation software used to produce the actuarial information submitted on this schedule is different than used for the previous valuation due to a change in both the enrolled actuary for the plan and the business organization providing actuarial services to the plan, and such change in software may be considered to be a method change. The new method is substantially the same as the method used by the prior enrolled actuary and is consistent with the description of the method contained in the prior actuarial valuation report and Schedule SB of Form 5500. The funding target and target normal cost (without regard to any adjustments for employee contributions and plan-related expenses), as determined for the prior plan year by the new enrolled actuary (using the actuarial assumptions of the prior enrolled actuary and disregarding the effects of any changes that are automatically approved under final IRS 430 regulations) are both within 3% of those values as determined by the prior enrolled actuary. The assets as determined by the new actuary for the prior plan year are within 2% of those that were determined by the prior actuary. Therefore the change in funding method receives automatic approval under the provisions for take-over plans in Internal Revenue Procedure 2017-56.
