Independent Auditors' Report

To the Participants and Plan Administrator of
National Starch and Chemical Company Consolidated Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of National Starch and Chemical Company Consolidated Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 13, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

National Starch and Chemical Company Consolidated Pension Plan

Notes to Financial Statements
December 31, 2021 and 2020

1. Description of Plan

The following description of the National Starch and Chemical Company Consolidated Pension Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan established in 1997, restated effective January 1, 2006 to consist of the National Salaried Document, Acheson Salaried Document, Nonsalaried Document, Indianapolis Union Document and North Kansas City Union Document. The Plan covers certain active, retirees, and terminated vested employees of Indopco, Inc., Abelstik Laboratories, Tra-Con Inc., Ascheson Industries, Inc., ICI Group Services Inc. and ICI Financial Corp. which were acquired by Henkel of America, Inc. (the Company). The Plan was restated January 1, 2015.

The Henkel of America, Inc. Benefits Administrative Committee (the Committee), and the plan administrator control and manage the operation and administration of the Plan. State Street Bank and Trust Company, N.A. (State Street) serves as the trustee of the Plan. The Plan's investments are held in the Henkel of America Master Trust (the Master Trust). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective September 2, 2013, the Plan was amended to allow for certain terminated vested participants to receive a distribution of their vested benefits if certain requirements were met for a period of time as defined.

Pension Benefits

Salaried Employees

Eligible salaried employees with five or more years of service are fully vested and are entitled to pension benefits (beginning at normal retirement age, which is 65) equal to 1.25% of their average monthly earnings for the highest five consecutive calendar years during the last ten calendar years of service up to the Social Security Earnings Base, plus 1.5% of such average monthly earnings in excess of the Social Security Earnings Base, multiplied by the number of years of credited benefit service. Reduced early retirement benefits may be elected by a participant who reaches age 55 and has at least five years of credited service. Participants are eligible to receive a reduced early retirement benefit if they retire and are at least age 60 and have five years of service; or are at least age 55 and their age plus years of service equals or exceeds 65. Former participants of certain predecessor plans shall have their benefit calculated under this Plan offset by their benefit under the predecessor plan.

In the event a married participant dies after he/she has met the Plan's requirement for a deferred vested benefit or has reached a normal retirement age, a spouse's benefit shall be payable to his/her surviving spouse under a 50%, 75% or 100% joint and survivorship annuity.

A salaried participant who becomes disabled while an employee of the Company is eligible to receive a benefit commencing at normal retirement based on continuous service, determined as though the participant had continued in active employment to age 65.

Subject to spousal consent, a lump sum is an optional form of payment for all salaried groups.

Nonsalaried Employees

The Plan provides that nonsalaried employees at eligible sites may become participants as of January 1 or July 1, after having attained an age of 20-½ or 21 years (depending on location) and completing 6 months of service. Certain employees become participants on their date of hire with no restriction on age, depending on location. Participants in the Plan are completely vested after completing 5 years of continuous service, as defined. Eligibility for normal retirement benefits generally begins at age 65. Under certain circumstances, adjusted benefits can be received between the ages of 55 and 65.

With respect to rehired Hazleton union, Acheson union, and nonunion, nonsalaried employees, post-rehire service will be counted for vesting, eligibility for early retirement subsidies and other rights and features but not benefit accrual.

Participants, for certain locations, whose age and years of service to the Company total 65 years, may retire with an unreduced pension benefit, with a minimum age of 55.

In the event a married participant dies after he/she has met the Plan's requirement for deferred vested benefit or has reached a normal retirement age, a spouse's benefit shall be payable to his/her surviving spouse under a 50% joint survivorship annuity.

Certain disabled participants receive credited service for periods of disability, as defined by the plan document. Participants are also entitled to a disability benefit if disability occurs prior to the normal retirement age.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company, including actuarial fees, insurance premiums, legal fees, and accounting fees, are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. Accrued expenses include investment and administrative expenses. Certain investment related expenses are included in the plan interest in the Master Trust investment (loss) income presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Investment of Valuation and Income Recognition

The Plan's investments are held in the Master Trust. Investments in the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by the trustee. See Note 6 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Investment (loss) income includes the Plan's interest in the Master Trust's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits presented below is based on an actuarial valuation as of January 1, 2021, prepared by the Plan's actuary, Mercer, using the present value of accrued benefits.

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation and years of credited service. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, retirement and termination of employment) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of January 1, 2021 is as follows:

Vested benefits:

Retired participants and beneficiaries currently receiving benefit payments	\$ 64,595,542
Other participants	<u>126,136,730</u>
Total vested benefits	190,732,272

Nonvested benefits	<u>4,673,521</u>
--------------------	------------------

Total actuarial present value of accumulated plan benefits	<u><u>\$ 195,405,793</u></u>
--	------------------------------

National Starch and Chemical Company Consolidated Pension Plan

Notes to Financial Statements
December 31, 2021 and 2020

The change in actuarial present value of accumulated plan benefits for the year ended December 31, 2020 is as follows:

Actuarial present value of accumulated plan benefits, at beginning of year	\$ 188,213,925
Increase (decrease) during the year attributable to:	
Benefits accumulated and experience gains or losses	5,097,143
Increase for interest due to decrease in discount period	7,971,785
Benefits paid	(20,424,275)
Change in actuarial assumptions	<u>14,547,215</u>
Total actuarial present value of accumulated plan benefits, at end of year	<u>\$ 195,405,793</u>

Significant assumptions underlying the actuarial computations are as follows:

Interest rate	4.10%
Mortality	Pri-2012 sex distinct, separate employee and retiree tables with contingent survivor adjustments and blue collar adjustments applied and with future improvement using the MP-2021 projection scale
Retirement age	Age 65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The assumed rate of interest used to value the present value of accumulated plan benefits changed from 4.50% to 4.10% and the mortality table changed from the Pri-2012 sex distinct, separate employee and retiree tables with contingent survivor adjustments and blue collar adjustments applied and with future improvement using the MP-2020 scale to the Pri-2012 sex distinct, separate employee and retiree tables with contingent survivor adjustments and blue collar adjustments applied and with future improvement using the MP-2021 scale resulting in an increase of \$14,547,215 in the actuarial present value of accumulated benefits for the year ended December 31, 2020.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through October 13, 2022, the date the financial statements were available to be issued.

The Plan was amended effective October 7, 2022 to allow for the purchase of one or more group annuity contracts. The annuity contracts will cover accrued benefits for certain participants or beneficiaries with payment dates on or before August 1, 2022 and monthly benefits in payment as of August 1, 2022.

3. Related-Party Transactions and Party In Interest Transactions

The Plan's investments are administered under a contract with State Street. Contributions are held and managed by State Street, who invests cash received, interest and dividend income and makes distributions to participants. These transactions qualify as party in interest transactions which are exempt from the prohibited transactions rules of ERISA.

Certain expenses of State Street related to plan operations and investment activity are paid by the Plan, as described in Note 2. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

4. Funding Policy

The Plan's funding policy is for the Company to make annual contributions to the Plan as determined by the Plan's independent actuary in amounts necessary to provide the Plan with assets sufficient to fund participants' benefits by the time they retire. No participant contributions are permitted. The minimum funding requirements of ERISA were met for 2021 and 2020.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

5. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed subsequently).
- c) All other vested benefits (that is, vested benefits not insured by the PBGC).
- d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value by the Plan and in the Master Trust. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Short-term investments consist of cash and cash equivalents, foreign currencies, the State Street Short Term Investment Fund and U.S. Treasury Bills. The State Street Short Term Investment Fund is valued at net asset value (NAV) of shares held at year-end. Foreign currencies and U.S. Treasury Bills are valued based on quoted market prices in the active markets on which the individual securities are traded.

Corporate debt obligations are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

Notes to Financial Statements
December 31, 2021 and 2020

The collective trusts and commingled funds are valued at the NAV of units of a bank collective trust. The collective trusts and commingled funds are valued at the NAV of the unit values of such funds held by the Plan at year-end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Were the Plan to initiate a full redemption of the collective trusts and commingled funds, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

U.S. government agency securities are valued using pricing models maximizing the use of observable inputs for similar securities.

The private equity limited partnerships are valued at NAV in a manner consistent with fair value guidance. The values assigned are based upon the general partners estimates and assessment of each underlying investment, incorporating valuation techniques that consider the evaluation of financing and sale transactions with third parties, EBITDA (earnings before interest, taxes, depreciation and amortization) multiples, expected cash flows and market-based information, including comparable transaction and performance multiples, among other factors. The Committee considers fair value measurements based on valuations provided by the investment manager of the partnerships. The private equity limited partnerships have unfunded commitments and redemption restrictions and are classified as Level 3 in the fair value hierarchy. The redemption restrictions do not have a material impact on the stated NAV's of the limited partnerships, which represent fair value, as of December 31, 2021 and 2020.

Investments Measured Using NAV per Share Practical Expedient

The following tables summarize investments measured at fair value based on NAV per share as of December 31, 2021 and 2020, respectively.

7. Undivided Interest in Henkel of America Master Trust

The Plan's investments are in the Master Trust, which was established for the investment of assets of the plan and several other Company sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust.

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment (loss) income less actual distributions and allocated administrative expenses. At December 31, 2021 and 2020, the Plan's undivided interest in the net assets of the Master Trust was 21% and 22%, respectively. Total investment (loss) income (including net (depreciation) appreciation in the value of investments) and administrative expenses of the Master Trust are allocated to the individual plans based upon the amount of the time the Plan's assets were invested in the Master Trust.

The following table presents the investments and other assets and liabilities of the Master Trust and the Plan's undivided interest as of December 31, 2021 and 2020:

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

The table below sets forth a summary of certain changes in the fair value of the Master Trust's Level 3 assets for the years ended December 31, 2021 and 2020:

	Level 3 Assets

The amount of total losses for the years ended December 31, 2021 and 2020 attributable to the change in unrealized gains (losses) relating to assets still held at the reporting date was \$1,014,800 and (\$1,762,575), respectively.

8. Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2021 and 2020. Accordingly, State Street, the trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2021 and 2020 and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years then ended.

9. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated October 14, 2016, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rate, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

In addition, the Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

As of December 31, 2021 and 2020, the Master Trust had investments of \$92,103,482 and \$121,732,259, that were concentrated in one fund, respectively.

11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits on the financial statements to Form 5500 at December 31, 2021 and 2020:

Rationale for economic assumptions

- **Discount rate** – The discount rate assumption for funding purposes is prescribed by the plan sponsor through an election from allowable alternatives under IRS regulations.
- **417(e) lump sums** – The 417(e) lump sum assumptions for funding purposes are prescribed by IRS Section 430 and relevant regulations.
- **Salary increases** – The age-graded salary increases are based on an experience study undertaken in 2015 using data from plan years 2010 to 2014. The plan sponsor believes that this age-graded structure is representative of anticipated future experience.
- **Inflation** – The inflation assumption is based on the inflation assumption periodically published by Mercer Investment Consulting in their Capital Markets Outlook.
- **Social Security taxable wage base increases** – This assumption is equal to 150 basis points higher than inflation based on historical experience of national real wage growth.
- **Expected investment return** – The expected rate of return on plan assets for funding purposes is the median rate based on the hypothetical past performance of the plan's target asset mix, adjusted for current market conditions. The expected return on assets assumption is net of an adjustment for investment expenses assumed to be paid from plan assets.
- **Expenses** – Administrative expenses are not paid from the plan trust and are therefore assumed to be \$0.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Rationale for demographic assumptions**

- **Withdrawal:** Withdrawal rates are based on an experience study undertaken in 2015 using data from plan years 2010 to 2014. The plan sponsor believes that this period will be representative of anticipated future experience.
- **Disability incidence:** The disability incidence table is based on the Conference of Consulting Actuaries 1985 Pension Disability Study Class 1 rates multiplied by 82% because the plan's disability requirements are more stringent than Social Security Disability, which was the basis of the 1985 study.
- **Retirement Rates:** The retirement rates are based on a blend of the prior assumed retirement rates and those produced by an experience study undertaken in 2015 using data from plan years 2010 to 2014, which was given 50% credibility. The plan sponsor's expectation is that actual experience during the review period was lower than would reasonably be expected to continue into the future.
- **Vested terminated benefit commencement age:** Benefit commencement age for vested terminated participants is based on an experience study undertaken in 2015 using data from plan years 2010 to 2014. The plan sponsor believes that this period will be representative of anticipated future experience.
- **Percentage married/spouse age difference:** The assumptions regarding percent married/spouse age difference at benefit commencement are based on the actuary's experience with many plans and discussions with employer representatives.
- **Form of payment:** The form of payment assumptions were changed in 2013 for all actives, future vested deferred, future disabilities and future deaths following the plan's amendment to allow for lump sum payments for all participants upon termination. The new assumption places more emphasis on participants taking lump sums to reflect the availability of this new optional form and the plan sponsor's corresponding view on anticipated future experience.
- **Mortality for Funding:** The mortality assumption for funding purposes is prescribed by the plan sponsor through an election from allowable alternatives under IRS regulations.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods****Asset methods- Effective January 1, 2009**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods- Effective January 1, 2008

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** Only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods- Effective January 1, 2008

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

	1,445 <= Hours < 1,615	9/10 Year
	1,615 <= Hours	1 Year
	Effective January 1, 2012, participants who are promoted to Management Circle Level 3b or higher will not accrue additional Credited Service beginning with the first pay period on or after the first day of the month following sixty days after the participant's promotion.	
• Monthly retirement benefit	The product of the number of years of Credited Service and the benefit rate in effect on the date of retirement according to the following: <ul style="list-style-type: none">• Retirement between 1/1/1998 and 12/31/1999: \$26.00• Retirement between 1/1/2000 and 11/30/2000: \$28.00• Retirement between 12/1/2000 and 12/31/2001: \$30.00• Retirement between 1/1/2002 and 6/30/2003: \$32.00• Retirement between 7/1/2003 and 6/14/2004: \$34.00• Retirement between 6/15/2004 and 1/14/2006: \$36.00• Retirement between 1/15/2006 and 12/31/2010: \$38.00• On or after 1/1/2011: \$40.00	
Normal retirement		
• Eligibility	Age 65, except for a participant first performing an hour of service on or after 1/1/2002; later of age 65, the date the participant completes 5 years of participation in the plan or the date the participant has completed 5 years of vesting service.	
• Benefit	Monthly Retirement Benefit at normal retirement date.	
Reduced early retirement		
• Eligibility	Age 55 and 10 years of credited service.	
• Benefit	Monthly Retirement Benefit reduced by 1/3 of 1% for each month by which the early retirement date precedes age 62.	
Unreduced early retirement		
• Eligibility	Age 62 and 10 years of credited service or age 55 with age plus credited service equal to 85.	
• Benefit	Monthly Retirement Benefit at normal retirement date.	
Late retirement		
• Eligibility	Retirement after normal retirement date.	
• Benefit	Greater of (i) the normal retirement benefit determined using the benefit rate and credited service as of the retirement date, and (ii) the actuarial equivalent of the normal retirement benefit.	
Deferred vested		
• Eligibility	5 years of vesting service.	
• Benefit	Normal retirement benefit payable at normal retirement date. Participant may elect to receive a reduced retirement benefit prior to normal retirement date. Reduction is 8% per year for each of the first 5 years prior to age 65, 4% per year for the next 5 years, and actuarial reduction thereafter. Benefit is only payable prior to early retirement age if the participant does not have a grandfathered non-qualified benefit.	

Schedule SB, Part V — Summary of Plan Provisions

Disability	
• Eligibility	Totally and permanently disabled.
• Benefit	Participant continues to accrue credited service and vesting service only if receiving benefits under the long-term disability plan. Upon attaining normal retirement age, the participant shall be entitled to a normal retirement benefit. Such normal retirement benefit commences on the participant's normal retirement date or if later, the first day of the month on or immediately after the date of ceasing to be eligible for pre-retirement payments under the Company's long-term disability plan.
Pre-retirement death	
• Eligibility	Must be vested at date of death.
• Benefit (if participant has a grandfathered non-qualified benefit)	Monthly benefit amount equal to the amount which would have been payable to the spouse had the participant retired on the first day of the month immediately following the month in which death occurred, or at age first eligible for retirement, if later, having elected a 50% joint and survivor annuity.
• Benefit (if participant does not have a grandfathered non-qualified benefit)	Monthly benefit amount equal to the amount which would have been payable to the spouse had the participant retired on the first day of the month immediately following the month in which death occurred, having elected a 50% joint and survivor annuity.
Form of benefits	
• Automatic form for unmarried participants	Life annuity
• Automatic form for married participants	J&S 50% annuity (reduction based on actuarially equivalence)

Plan provision changes since prior valuation

- Maximum compensation amounts were updated from 2020 to 2021.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated January 1 2006 and amended through *January 1, 2021*, are included in this valuation.

- **Most recent plan amendments included:** *Amendment #3, adopted December 26, 2018*
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - Active participants: The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70.
 - Deferred vested participants: Current deferred vested participants over normal retirement age are valued including a retroactive lump sum as of the valuation date. The amount of the lump sum is actuarially equivalent to a temporary life annuity of missed payments from age sixty-five to the valuation date.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - Unpredictable contingent event benefits: This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - Plan amendments: See above.
 - Prohibited payments: Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - Benefit accruals: The plan's funding target does not reflect any limitation on benefit accruals . The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.

Schedule SB, Part V — Summary of Plan Provisions

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, line 32 — Schedule of Amortization Bases

The total shortfall amortization charge is the sum of the individual shortfall amortization installment for each plan year since the IRC Section 430 changes made by the Pension Protection Act of 2006 (PPA) took effect for the plan. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than \$0.
