INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and Participants
Diebold, Incorporated Pension Plan for Hourly Employees
Hudson, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Diebold, Incorporated Pension Plan for Hourly Employees (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits and the statement of accumulated plan benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits and the statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of December 31, 2021, and for the year then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for the twelve months from the date of this report.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal controls. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 13, 2021, we indicated that (a) because of the significance of the information we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Benefits included or excluded

Unless noted below, all benefits provided by the plan are included in this valuation:

- **Plan amendments excluded:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Late retirement increases:**
 - *Active participants:* Not applicable for the valuation as there are no active participants remaining in the plan.
 - *Deferred vested participants:* Not applicable for the valuation as the plan requires deferred vested participants to commence benefits upon reaching age 65.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions**• IRC Section 436 benefit restrictions:**

- *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits for events that occurred before the valuation date but includes contingent event benefits for events that are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

Maximum benefit amounts under IRS rules were updated from 2020 to 2021.

Schedule SB, line 24 — Change in Actuarial Assumptions

Actuarial assumption changes since prior valuation

- The expected investment return assumption was updated from 6.05% for 2020 to 5.30% for 2021.
- The expense component of normal cost decreased from \$51,831 to \$46,222 to reflect expectations for the current year.

Schedule SB, line 22 — Description of Weighted Average Retirement Age

Retirement is assumed to occur at age 62 for former employees with at least 10 years of service and at age 65 for all others.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Rationale for significant assumptions**

- **Discount rate for funding** – Prescribed assumptions by the IRS. The 2021 stabilized interest rates reflect the relief contained in the American Rescue Plan Act of 2021.
- **Mortality for funding** – Prescribed assumptions by the IRS.
- **Expected investment return** – The expected rate of return on plan assets is based on a blend of the hypothetical past performance of the plan's current asset mix, adjusted for current market conditions, and a reasonable range of simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's current asset mix. The expected return on assets assumption is net of the adjustment of expected passive expenses assumed to be paid from plan assets.
- **Expenses** – The expense load is calculated by taking the prior year expenses on the trust statement less actual PBGC premiums as reported on the trust statement plus estimated PBGC premiums reported to be paid in the current year.

Actuarial methods for funding**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as required by IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Participant methods**

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break-in-service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's **valuation date** is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Note 1: Description of the Plan

The following brief description of the Diebold, Incorporated Pension Plan for Hourly Employees (the “Plan”) is provided for general information purposes only. Participants and users of the financial statements should refer to the Plan document for more complete information.

General

The Plan is a defined benefit pension plan designed to provide retirement benefits to former employees of the Canton, Ohio plant of Diebold Nixdorf, Incorporated (the “Company”) who were within the bargaining units of Lodge 1191 of the International Brotherhood of Boilermakers, Iron Ship Builders, Blacksmiths, Forgers and Helpers (AFL-CIO-CFL) and the Safe Workers’ Organization, Chapter 1, Inc. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan has been amended and restated to either provide additional benefits or options, or to comply with changes in the law.

Retirement Dates

The normal retirement date of a participant is the later of the 65th anniversary of his or her date of birth or the 5th anniversary of the date the employee commenced participation in the Plan. Any employee who has attained 30 or more years of benefit service may retire regardless of age. The early retirement date of a participant is the 62nd anniversary of his or her date of birth if such participant has 10 or more years of benefit service; an alternate early retirement date is the 60th anniversary of the date of birth if the participant has 10 or more years of benefit service and elects to receive actuarially reduced benefits. Any employee who has completed 15 or more years of benefit service and becomes incapacitated by total and permanent disability is retired and receives a disability retirement benefit. In addition, any participant who has five or more years of vesting service but whose service is broken before the age of 65 retains the right to receive a vested deferred pension benefit commencing at the age at which he or she could have elected to retire or would have been retired by the Company.

Benefit Service

Benefit service is computed to the nearest month and is credited and computed for each calendar year for each employee on the basis of his or her total hours of service during such calendar year and prior to retiring. An employee who is credited with at least one hour of service in any week is credited with an entire week (45 hours). Any calendar year in which the employee has 1,600 or more hours of service is counted as one year of benefit service. The maximum number of years of benefit service which can be acquired by an employee cannot exceed 30 years.

Trust Fund Management

Effective April 1, 2021, the Plan changed Trustee service providers from The Bank of New York Mellon to Russell Investments (the “Trustees”). Under the terms of both trust agreements between the Trustees and the Plan, the Trustees manage the trust funds and execute transactions on behalf of the Plan. All investments, as of December 31, 2021 and 2020, and a portion of the investment income for the year ended December 31, 2021, are included in the financial statements have been reported to the Plan by the Trustees as having been determined through the use of fair values of all assets of the trust fund.

Vested Benefit

Vested benefits means the retirement benefit to which an employee, whose service terminated after his or her vesting date, is entitled. After five years of vesting service, such vested benefit is 100 percent of the employee's accrued benefit.

Preretirement Survivor Annuity

Effective January 1, 1985, an active or terminated employee who has attained his or her vesting date, is married to an eligible surviving spouse, and who dies before his or her pension starting date, has a preretirement survivor annuity provided, as of the date of death, for the eligible surviving spouse.

Plan Merger

Effective December 31, 2021, the Company merged the Diebold, Incorporated Pension Plan for Hourly Employees into the Diebold Nixdorf, Incorporated U.S. Pension Plan. As a result of the merger, Plan assets totaling \$12,783,640 were transferred out of the Plan and into the Diebold Nixdorf, Incorporated U.S. Pension Plan at December 31, 2021.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting and are in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Company has evaluated subsequent events through the date the Plan financial statements were available to be issued, September 29, 2022. There were no significant subsequent events that have occurred which would require adjustments to or disclosure in the Plan financial statements.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Due to investments in partnerships within the Diebold, Incorporated Pension Master Trust ("Master Trust") not being traded on an active market, the values as of any particular date are not necessarily indicative of amounts that may ultimately be realized as a result of future sales or other dispositions of investments held. The estimated values may differ significantly from the values that would have been used had an active market for the securities existed. Actual results could differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. Significant assumptions underlying the actuarial computations include:

- Assumed retirement based on age 60 for employees who have 10 years of service and age 65 for all others;
- Assumed valuation interest rates for both 2021 and 2020 of 5.25 percent and 6.05 percent, respectively, compounded annually;
- Assumed turnover and disability rates based on published statistical data and tables;
- Assumed mortality rates based upon the Pri-2012 base table ("Pri-2012") with no collar adjustment, separate for employees, retirees, contingent survivors, and disabled participants, with the MP-2021 generational mortality improvement projection scale to reflect the updated assumption as of December 31, 2021.
- Assumed mortality rates based upon Pri-2012 with no collar adjustment, separate for employees, retirees, contingent survivors, and disabled participants, with the MP-2020 generational mortality improvement projection scale to reflect the updated assumption as of December 31, 2020.

The actuarial cost method used by the actuary is the unit credit cost method. This is a method under which an accrued benefit is calculated as of the beginning of the year and as of the end of the year for each benefit that may be payable in the future. The accrued benefit is based on the Plan's accrual formula and upon service as of the beginning or end of the year. For benefits where the Plan's accrual formula is not relevant, benefits are assumed to accrue on a straight-line basis over the period during which the employee earns credited service.

The actuarial accrued liability is the present value of the accrued benefits as of the beginning of the year for the employed participants and is the present value of all benefits for other participants.

The December 31, 2021 calculation of the actuarial present value of accumulated benefits contains an increase of \$390,707 due to change in actuarial assumptions. This change was the result of updates to the discount rate and the mortality generational projection scale from MP-2020 projected to the valuation date (January 1, 2021) to MP-2021 projected to the valuation date (January 1, 2022).

Note 3: Funding Policy

The Plan has met the ERISA minimum funding requirements for 2021 and 2020.

Note 4: Investments

The Company has adopted a pension investment policy designed to achieve an adequate funding status based on expected benefit payouts and to establish an asset allocation that will meet or exceed the return assumption while maintaining a prudent

level of risk. The Company utilizes the services of an outside consultant in performing asset / liability modeling, setting appropriate asset allocation targets along with selecting and monitoring professional investment managers.

The Company has elected the method of compliance permitted by 103(a)(3)(C) for the year ended December 31, 2021 and permitted by 29 CFR 2520.1 03-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure for the year ended December 31, 2020. Accordingly, all investment information applicable to the Master Trust and at the Plan level is certified complete and accurate or derived from information certified complete and accurate by the Trustees as of December 31, 2021 and 2020 and the year ended December 31, 2021.

Assets of the Plan are maintained on a commingled basis with assets of one other pension plan of the Company in a Master Trust for investment purposes, with the allocation of assets, earnings, and expenses among the funds maintained by the Trustee as of December 31, 2020 and for the year ended December 31, 2021.

The assets of the Master Trust as reported by the Trustee were \$0 at December 31, 2021, thus omitted, and at December 31, 2020 were:

During the year ended December 31, 2021, the net appreciation and investment income within the Master Trust consisted of:

Net appreciation of invested assets	\$ 49,780,238
Investment Income	2,156,401
Total Master Trust Income	\$ 51,936,639

Note 5: Fair Value Measurement

The fair value framework described in FASB Auditing Standards Codification ("ASC") 820, Fair Value Measurements, requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to value the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant management judgment.

DIEBOLD, INCORPORATED PENSION PLAN FOR HOURLY EMPLOYEES

Notes to Financial Statements

December 31, 2021 and 2020

The three levels are defined as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Unadjusted quoted prices in active markets for similar assets or liabilities, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active or inputs, other than quoted prices in active markets that are observable either directly or indirectly.

Level 3: Unobservable inputs for which there is little or no market data.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2020:

	<u>Level 1</u>	<u>Level 2</u>	<u>Fair Value</u>
Total investment held by Master Trust:			
Cash and short-term investments	\$ 16,568,675	\$ —	\$ 16,568,675
Corporate stocks, common and preferred	75,732,037	—	\$ 75,732,037
Emerging markets	—	31,094,513	\$ 31,094,513
Fixed income securities	—	68,464,163	\$ 68,464,163
Total	<u>\$ 92,300,712</u>	<u>\$ 99,558,676</u>	<u>\$ 191,859,388</u>
Investments measured using Net Asset Value (NAV) per share as a practical expedient			293,255,729
Total Investments			<u>\$ 485,115,117</u>

The classification of fair value measurements within the hierarchy is based upon the lowest level of input that is significant to the measurement. Investments that were measured at NAV per share are not classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the Plan's total investments at fair value. Valuation methodologies used for assets measured at fair value are as follows:

- Cash, short-term investments and corporate stocks: Valued based on period end closing prices in active markets on which the individual securities are traded.
- Emerging markets: Valued by fund managers using the latest reported information for comparable securities and financial analysis. If the manager believes the fund is not capable of immediately realizing the fair value otherwise determined, the manager has the discretion to determine an appropriate value.
- Fixed income securities: Valued on the latest available ask price or latest price if listed.
- Common collective trusts and alternative investments using NAV per share practical expedient: Valued at the Plan's interest in private equity, hedge and property funds. The value is determined based on the NAV as reported by the underlying investment managers.

DIEBOLD, INCORPORATED PENSION PLAN FOR HOURLY EMPLOYEES

Notes to Financial Statements

December 31, 2021 and 2020

	<u>Fair Value 2020</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Redemption Notice Period</u>
Common collective trusts				
Northern Trust Large Cap Index	\$ 91,209,843	N/A	Daily	1 day notice
Blackrock Midcap Equity Index	\$ 44,161,760	N/A	Daily	1 day notice
JP Morgan Long Duration	\$ 113,353,455	N/A	Daily	1 day notice
Alternative investments				
Blackstone Hedge	\$ 21,344,911	N/A	Semi-Annually	95 day notice

JP Morgan Core Real Estate	\$ 18,042,082	N/A	Quarterly	45 day notice

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6: Tax Status

The Internal Revenue Service (“IRS”) has determined and informed the Company by a letter dated June 29, 2017 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). As of December 31, 2021, the Company believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. The Plan has been amended and restated since receiving the determination letter. However, the Company and Plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for the income taxes has been included in the Plan's financial statements.

Note 7: Party-In-Interest

Certain Plan investments are managed by the Trustee and, therefore, these transactions are party-in-interest transactions. Fees are paid by the Master Trust for asset custody and management to parties-in-interest. These fees are pursuant to arrangements exempted from the prohibited transaction rules.

Note 8: Subsequent Events

The Plan has evaluated subsequent events through September 29, 2022, the date the financial statements were available to be issued. No subsequent events were identified.
