Independent Auditor's Report

RSM US LLP

Plan Administrator
Oberlin College Defined Contribution and Tax Deferred
Annuity Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We were engaged to perform an audit of the financial statements of Oberlin College Defined Contribution and Tax Deferred Annuity Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from qualified institutions as of and for the year ended December 31, 2021 stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion on the 2021 Financial Statements

We do not express an opinion on the accompanying 2021 financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion on the 2021 Financial Statements

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 6 to the financial statements, the Plan has excluded from investments in the accompanying statement of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, Annual Reporting Requirements for 403(b) Plans. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America (U.S. GAAP) require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Other Matters***2021 Supplemental Schedules Required by ERISA***

The supplemental schedules of delinquent participant contributions for the year ended December 31, 2021 and assets (held at end of year) as of December 31, 2021 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, it is inappropriate to and we do not express an opinion on these supplemental schedules.

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by qualified institutions. Further, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

The Plan has excluded from the 2020 financial statements certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, Annual Reporting Requirements for 403(b) Plans. The investment income and distributions related to such accounts have also been excluded from the 2020 financial statements. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not determinable. U.S. GAAP require that these accounts and the related income and distributions be included in the 2020 financial statements.

In our report dated October 8, 2021, we indicated that because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements.

Oberlin College Defined Contribution and Tax Deferred Annuity Retirement Plan

Notes to Financial Statements

Note 1. Plan Description

The following is a summary of certain provisions of Oberlin College Defined Contribution and Tax Deferred Annuity Retirement Plan (the Plan), a 403(b) defined contribution and tax-deferred annuity plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: Employees of Oberlin College (the College) are immediately eligible to contribute a portion of their pay to the Plan as a pre-tax deferral. Employees who are students are generally not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Participants may elect to contribute a portion of their eligible compensation to the Plan on a pre-tax basis subject to certain limitations. A percentage of the employee's contribution to the Plan is matched by the College using formulas based on an employee's age and job classification in accordance with the Plan agreement. Employees must complete one year with at least 1,000 hours of service and attain age 26 or 23, as defined in the Plan agreement, before they are eligible to receive matching contributions from the College. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The College also provides a non-elective contribution to eligible employees using formulas based on a participant's age, eligible compensation, years of service, and job classification in accordance with the Plan agreement.

The College provides a matching contribution between 2% - 4% to the Office and Professional Employee Union. Effective July 1, 2020, the Plan eliminated employer contributions for employees covered by a collective bargaining agreement with the Oberlin College Security Association through the end of the union's current three-year contract period. Effective July 1, 2020, the Plan eliminated employer contributions for employees covered by a collective bargaining agreement with the Oberlin College Security Association through the end of the union's current three-year contract period. Effective August 1, 2020, the Plan suspended for one-year, employer contributions for faculty, and administrative / professional staff employees.

Participant accounts: Each participant's account is credited with the participant's contributions, the College's contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Plan loans: Participants may borrow from TIAA and CREF using a portion of their Plan accounts as security for the loan. The amount of the loans cannot exceed \$50,000 or 50% of the participant's vested balance. The minimum amount of each loan is \$1,000. Only one loan per participant can be outstanding at any given time. Interest is charged based on the prevailing rate at the time of the loan. Participant loans from TIAA and CREF funds are administered by TIAA and CREF and are transacted outside the Plan. These loans are not included in the Plan's assets. At December 31, 2021 and 2020, these loan balances of \$431,423 and \$588,042, respectively, were secured by Plan assets in the borrowing participants' accounts at 110% of the loan amount. As these loans are repaid, the collateral balance is reduced accordingly. In addition, \$19,597 and \$32,578 of TIAA and CREF loan collateral remains in the Plan related to defaulted loans of active participants at December 31, 2021 and 2020, respectively. These amounts will be forfeited to TIAA and CREF upon the termination, retirement, or death of the participant.

Oberlin College Defined Contribution and Tax Deferred Annuity Retirement Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

In the event of default, such loans are reportable to the Plan participants as taxable income but remain outstanding and continue to accrue interest until repaid by the Plan participant or the participant becomes eligible to receive a distribution under the terms of the Plan. During the year ended December 31, 2021, no loans went into default. As of December 31, 2021 and 2020, loans in default amounted to \$19,597 and \$32,578, respectively. Such amounts include the principal and accumulated interest.

Effective June 2021, TIAA no longer provides new loans to Plan participants.

Notes receivable from participants: Participants may borrow from their vested accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance, subject to further limitations from TIAA annuity funds as defined in the Plan document. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with current interest at the time of origination. Principal and interest is paid ratably through payroll deductions.

Vesting: Participants are immediately 100% vested in all contributions and earnings thereon.

Payment of benefits: Upon reaching early retirement age or termination of service due to death, disability, retirement, or separation, a participant is entitled to receive a distribution of his or her account balance in the form of a lump sum payment, installment payments, or an annuity contract. Participants are also permitted to receive a distribution from funds in their account prior to termination of employment if they experience financial hardship.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amount of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value, except for fully benefit-responsive insurance contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment issuer and custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2. Summary of Significant Accounting Policies (Continued)

Other income: TIAA and CREF may receive revenue sharing payments from registered investment companies in which the Plan's assets are invested. The record keeping services agreement between the Plan and TIAA and CREF provides that to the extent revenue sharing payments received by TIAA and CREF exceed administrative fees charged to the Plan, the excess will be credited to the Plan. For 2021, approximately \$290,000 was earned by the Plan under this agreement. As of December 31, 2021 and 2020, the balance in the suspense account which holds these revenue sharing payments amounted to approximately \$68,000 and \$138,000, respectively, all of which is available to pay future administrative expenses or to allocate to participants. During 2021, approximately \$300,000 of funds were allocated to participants and approximately \$60,000 was used to pay expenses.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Plan administrative expenses are either paid directly by the College or the Plan, at the discretion of the College, or are offset with revenue sharing payments received from the Plan custodians and investment fund managers.

Note 3. Information Certified and Provided by the Trustee and Custodians

The following is a summary of the Plan's asset and income information as of December 31, 2021 and 2020, and for the year ended December 31, 2021, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by TIAA and CREF, as Issuer, and as Agent for TIAA, FSB, the Trustee, and Ameriprise Trust Company and RiverSource Life Insurance Company, the Custodians, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from TIAA and CREF and the Custodians that information provided to the Plan Administrator by TIAA and CREF and the Custodians related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets and income.

TIAA and CREF certified the completeness and accuracy of the following as of and for the years ended December 31:

	2021	2020
Pooled separate account, at fair value	\$ 19,653,856	\$ 15,837,112

Note 3. Information Certified and Provided by the Trustee and Custodians (Continued)

Ameriprise Trust Company and RiverSource Life Insurance Company certified the completeness and accuracy of the following as of and for the years ended December 31:

	2021
Variable annuity contracts, at fair value	<u>\$ 2,342,450</u>
Net appreciation in fair value of investments	<u>\$ 277,631</u>

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Pooled separate account: Valued at net asset value of the units of the pooled separate account. The TIAA Real Estate fund is a pooled separate account in which daily unit values are published on NASDAQ. The fund is not traded on this exchange. The value of the unit holder's investment rises and falls with the return on the underlying assets in the account.

Guaranteed annuity contracts: Investments in the non-fully benefit-responsive portion of fixed annuity contracts are reported at contract value which approximates fair value. The value of the TIAA contracts are based upon the individual purchases and sales of individual contracts and the correlation between the contracts' crediting rates with the highest quality debt security yields, adjusted for contract liquidity.

Note 4. Fair Value Measurements (Continued)

Variable annuity contracts: The RiverSource contracts are individual annuity contracts whose underlying investments consist of equity securities and fixed income instruments, which have quoted prices in active markets. The value of the unit holder's investment rises and falls with the returns on the underlying assets in the fund.

Registered investment companies: Valued at the daily closing price as reported by the fund, which represents the net asset value of the fund. Each fund's net asset value is calculated as of the close of business of the New York Stock Exchange and National Association of Securities Dealers Automated Quotations. These funds are required to publish their daily net asset value and to transact at that price and are deemed to be actively traded.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

Note 4. Fair Value Measurements (Continued)

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2021, there were no transfers in or out of Level 3. Purchases of Level 3 investments totaled \$13,881,248 during the year ended December 31, 2021.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value		Technique	Unobservable Inputs	Input Values
	2021	2020			
TIAA Traditional Annuity	\$ 125,169,562	\$ 125,313,538	Discounted Cash Flow Theoretical Transfer (exit value)	Risk-adjusted discount rate applied	3.00% - 3.80%

Note 5. Guaranteed Annuity Contracts with TIAA

The Plan has a guaranteed annuity contract with TIAA. Under this contract are sub-contracts, some of which are fully benefit-responsive while others are not. TIAA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Each premium allocated to the guaranteed fixed annuity investment contract buys a guaranteed minimum amount of lifetime income based on the rate schedule in effect at the time the premium is credited. The contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

For investment contracts that are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. An investment contract must meet certain criteria to be considered fully benefit-responsive which includes, among other criteria, a requirement that all permitted participant-initiated transactions occur at contract value with no conditions, limits, or restrictions. These contracts are included in the financial statements at contract value, as reported to the Plan by TIAA. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. At December 31, 2021 and 2020, the Plan held fully benefit-responsive contracts at \$20,193,010 and \$18,901,568 respectively.

Certain events can limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the custodial account to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Notes to Financial Statements

Note 5. Guaranteed Annuity Contracts with TIAA (Continued)

For investment contracts that are not fully benefit-responsive, fair value is the relevant measurement attribute. TIAA indicates that contract value approximates fair value for investment contracts that are non-fully benefit-responsive at December 31, 2021 and 2020. The value of non fully benefit-responsive contracts at December 31, 2021 and 2020 was \$125,169,562 and \$125,313,538, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are reviewed on an annual basis for resetting.

Note 6. Excluded Contracts

The Plan Administrator has elected to exclude from investments certain annuity and custodial accounts which may have been issued to current and former employees without the Plan Administrator's knowledge prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such potential accounts have also been excluded from the statement of changes in net assets available for benefits. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements. The Plan Administrator is not able to determine the amount of these excluded annuity and custodial accounts and the related income and distributions because records relating to these are not available or do not exist.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the College has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, all interests of the participants existing at such time would be distributed to the participants in accordance with the Plan agreement.

Note 8. Income Tax Status

The Plan has been designed to qualify under Section 403(b) of the IRC (Code). The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service in Revenue Procedure 2007-71. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for plan participants under Section 403(b).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Related Party and Party-in-Interest Transactions

Certain Plan assets are held in a pooled separate account, guaranteed annuity contracts, variable annuity contracts, and registered investment companies managed by the investment issuer and custodians or their affiliates. Administrative expenses, which are not material to the Plan financial statements, were paid by the Plan to the investment issuer, custodians and their affiliates during 2021. These transactions qualify as party-in-interest transactions.

Certain employees of the College are performing services to the Plan and are not compensated by the Plan. Certain other expenses of the Plan are paid by the College.

Notes to Financial Statements

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11. Prohibited Transactions

During 2021, the College inadvertently failed to deposit \$52,686 of participant contributions within the required timeframe as stated by the DOL regulations. The plan sponsor reimbursed the Plan for lost earnings related to the Plan year ended December 31, 2021 during 2022 and for the Plan years ended 2020 and 2019 during 2021. The reimbursement for lost earnings was not material to the Plan financial statements.

Note 12. Subsequent Events

The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 10, 2022, the date the financial statements were available to be issued.
