Independent Auditor's Report

To the Plan Administrator of the Suffolk University Employee Retirement Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of the Suffolk University Employee Retirement Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from qualified institutions as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note G to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- the information in the accompanying financial statements related to assets which provide benefits under the plan and certified to by qualified institutions and assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified information in the supplemental schedules related to assets which provide benefits under the plan and certified to by qualified institutions and assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by qualified institutions. In our report dated October 7, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS

A. PLAN DESCRIPTION:

The following description of the Suffolk University Employee Retirement Plan (the “Plan”) provides only general information. Participants should refer to the plan document for more detailed information.

General

The Plan is a defined contribution plan covering substantially all employees of Suffolk University (the “University”) immediately upon date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Contributions

Upon meeting eligibility requirements participants may contribute up to 100% of their plan compensation on a pre-tax or after-tax Roth basis, subject to Internal Revenue Code (“IRC”) limitations. Participants who are at least 50 may make an additional “catch up” contribution subject to IRC limitations. Participants may also contribute funds from another qualified plan (“rollover contributions”), subject to certain requirements. All new participants are automatically enrolled at a contribution rate of 1% of plan compensation up to a maximum of 5%, unless they opt out.

Effective July 1, 2020, the Plan was amended to suspend employer contributions to the Plan. Effective July 1, 2021, the Plan was amended to reinstate employer contributions to the Plan. Participant contributions may be matched by the Company at a percentage of the participants’ contributions, as determined by the Company. For the plan year ended December 31, 2021 the Company matched 90% of each participant’s deferral contributions up to 5% of the participant’s compensation, for a maximum match of 4.50% of compensation. The Company may also elect to make a discretionary non-elective contribution. Employees must be employed on the last day of the plan year to be eligible for non-elective contributions. The Company did not make a non-elective contribution of for the 2021 plan year.

Participant Accounts

Each participant’s account is credited or charged with contributions, investment income, and administrative expenses. Investment income, including realized and unrealized gains and losses, and expenses are allocated to participants’ accounts based on each participant’s account balance within each fund. Participants determine the percentage in which contributions are to be invested in each fund. Participants may change their investment options as set forth in the plan document. The benefit to which a participant is entitled is equal to the value of the participant’s vested interest in their account.

SUFFOLK UNIVERSITY EMPLOYEE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

Vesting

Participants are fully vested in that portion of their account which represents their contributions and the income earned thereon. Participants become 100% vested in the Company's contributions and earnings thereon upon death, total and permanent disability, or attainment of normal retirement age. Otherwise, a participant's interest in the Company's contributions and earnings thereon vests according to the following schedule:

Completed Years of Service	Percent Vested
1 year	33%
2 years	67%
3 years	100%

Forfeitures

When certain terminations of participation in the Plan occur, a portion of the affected participant's account may be forfeited. Forfeitures may be used to reduce employer contributions or allocated to participant account balances. Any remaining forfeitures may be used to pay plan expenses or to reduce company contributions. During 2021, \$3,352 were used to pay plan expenses and no forfeitures were used to reduce employer match. Unallocated forfeitures were \$107,752 and \$50,420 at December 31, 2021 and 2020, respectively.

Unallocated Assets

The Plan holds assets in revenue credit accounts which receive deposits as a result of revenue sharing agreements with Fidelity and TIAA-CREF. During 2021, deposits to the accounts totaled \$126,698, which is included in net appreciation in fair value of investments in the statement of changes in net assets available for benefits. Funds in the account are used to pay qualified plan expenses including investment management fees, trustee fees, audit fees, and legal fees. During 2021, \$47,815 was used to pay plan administrative expenses and \$116,692 were allocated to participant accounts. Unallocated assets were \$128,839 and \$182,013 at December 31, 2021 and 2020, respectively.

Distribution of Benefits

Benefits may be distributed to participants upon termination of employment by reason of retirement, disability, death or other separation from service. Distributions under the Plan may be made in lump sums, installment payments, ad-hoc distributions or an annuity.

A participant may also request a withdrawal upon attainment of age 59½ or upon demonstration by the participant to the plan administrator that the participant is suffering from "hardship", as defined in the plan document. The plan also permits in-service distributions of amounts from rollover accounts at any time.

SUFFOLK UNIVERSITY EMPLOYEE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

Notes Receivable from Participants

A participant with retirement assets at Fidelity, TIAA-CREF or Lincoln may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account. Loans must bear a reasonable rate of interest. All loans must be repaid within five years unless the proceeds are used to acquire a principal residence, in which case a longer repayment period is allowed. No more than one loan may be outstanding at any time. Principal and interest is generally repaid at least quarterly by participants directly to the plan custodian.

Plan Loans

A participant with retirement assets with TIAA-CREF may borrow against their account balance accumulated from participant contributions in an aggregate amount up to the lesser of \$50,000 or 50% of their vested account balance, subject to plan limitations, directly from TIAA-CREF. Loans must bear a reasonable rate of interest. An amount equal to 110% of the loan must be transferred to the TIAA Traditional Annuity in the participant's account to serve as collateral for such loans. TIAA uses funds from its general accounts to make loans directly to participants. A promissory note is executed by the participant. Loans must be repaid over a period not to exceed five years unless the loan proceeds are used for the purchase of a primary residence, in which case a longer repayment period is allowed. In the event a loan is defaulted on, the outstanding loan balance and any accrued interest will be deducted from the participant's TIAA Traditional Annuity account upon the occurrence of a distributable event. As of December 31, 2021 and 2020, \$567,667 and \$751,269, respectively, of the TIAA Traditional Annuity was pledged as collateral for loans to participants from TIAA-CREF. Of these amounts, \$337,494 and \$346,635 were defaulted loans and the assets will revert to TIAA upon a distributable event. Interest rates on the outstanding loans as of December 31, 2021 range between 4.00% and 4.44%.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

SUFFOLK UNIVERSITY EMPLOYEE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2021 or 2020. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Expenses of the Plan

Participant transactions, investment expenses, and annual administrative fees incurred by the Plan are paid by the participants. Investment related expenses are included in net appreciation in fair value of investments. Any remaining fees not paid from plan assets are paid by the University. Expenses that are paid by the University are excluded from these financial statements.

Payment of Benefits

Benefits are recorded when paid.

C. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

SUFFOLK UNIVERSITY EMPLOYEE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used by the Plan. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contracts (non benefit-responsive): The TIAA Traditional Annuity is valued at fair value by TIAA by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Since participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, minimum crediting rate, duration or payout date) while others are substantiated utilizing available market data (for example, discount rate).

Pooled separate accounts - Valued at the net asset value of units of a pooled separate account. The net asset value, as provided by the contract issuer, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

Variable annuity contracts - Valued at the net asset value of units of a variable annuity. The net asset value, as provided by the contract issuer, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

SUFFOLK UNIVERSITY EMPLOYEE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

Variable annuity contracts – This category consists of accounts managed by CREF that invest principally in equity securities, fixed-income instruments and short-term investments. The fair values of each account in this category are determined daily using the net asset value per share of the investments. There are no unfunded commitments. There are no restrictions on redemptions of these investments.

Accounting standards require disclosure of investment strategies for investments valued using net asset value as a practical expedient to estimate fair value if the investment does not file a Form 5500 with the DOL as direct filing entity (“DFE”). The following table discloses investment strategies for such investments:

	2021	2020
Investments measured		
at net asset value (non-DFE's):		
Variable annuity contracts:		
Equity (a)	\$ 130,782,475	\$ 113,343,048
Money market (b)	3,559,909	4,345,160
Multi-strategy (c)	14,437,363	12,851,108
Fixed income (d)	11,679,479	12,118,231
Total variable annuity contracts	<u>\$ 160,459,226</u>	<u>\$ 142,657,547</u>

- (a) The equity variable annuity seeks a favorable long-term rate of return through capital appreciation and investment income by investing primarily in a broadly diversified portfolio of common stocks.
- (b) The money market variable annuity seeks high current income consistent with maintaining liquidity and preserving capital.
- (c) The multi strategy variable annuity seeks a favorable long-term rate of return that reflects the investment performance of the financial markets while giving special consideration to certain social criteria.
- (d) The fixed income variable annuity seeks a long-term rate of return that outpaces inflation, primarily through investment in inflation-indexed bonds—fixed-income securities whose returns are designed to track a specified inflation index over the life of the bond.

Pooled separate account – This category consists of the TIAA Real Estate Account. The underlying investments of this account consist primarily of real estate and real estate-related investments. There are no unfunded commitments. Although the underlying assets of the account cannot be quickly sold and converted to liquid assets, the TIAA general account provides the account with a liquidity guarantee that ensures the account has the funds available to accommodate participant redemption requests. Redemptions are limited to one per calendar quarter.

SUFFOLK UNIVERSITY EMPLOYEE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

The guaranteed investment contracts are with Teachers Insurance and Annuity Association of America ("the contract issuer"). Participants individually contract with TIAA to establish an account within the TIAA Traditional Annuity. The TIAA Traditional Annuity is offered through a variety of contracts including retirement annuities ("RA") and retirement choice ("RC") annuities as determined by the contract between TIAA and the participant. The TIAA RA and RC contracts are considered non benefit-responsive due to certain illiquidity features and accordingly are valued at fair value measured using a discounted cash flow methodology.

Participant accumulations are available for pre-retirement withdrawal in 10 annual installments upon separation of service under an RA contract. The minimum crediting interest rates are contractually guaranteed to be not less than 3 percent for the RA.

Participant accumulations are available for pre-retirement withdrawal in 84 monthly installments upon separation of service under an RC contract. The minimum crediting interest rates are contractually guaranteed to be between 1 and 3 percent for the RC.

Purchases and sales of the Plan's level 3 investments during the year ending December 31, 2021 were \$982,542 and \$4,089,704, respectively. There were no transfers into or out of level 3 investments during the year.

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges and values for those inputs for the year ended December 31:

Guaranteed Investment Contract - TIAA Traditional Annuity

The Plan has entered into an annuity arrangement with Teachers Insurance and Annuity Association of America. Participants individually contract with TIAA to establish an account within the TIAA Traditional Annuity. The TIAA Traditional Annuity is offered through a variety of contracts including retirement annuities ("RA"), supplemental retirement annuities ("SRA"), retirement choice ("RC"), and group supplemental retirement annuities ("GSRA"), as determined by the contract between TIAA and the participant. Employer contributions must be made to an RA contract. Participant contributions may be made to an RA, SRA, or GSRA contract as determined by the participant. RA and RC contracts are not considered fully benefit-responsive due to certain illiquidity features discussed below and are valued at fair value measured using a discounted cash flow methodology. See Note C for valuation and terms of these non-fully benefit-responsive contracts.

SUFFOLK UNIVERSITY EMPLOYEE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

SRA and GSRA are traditional investment contracts that meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

With traditional investment contracts, the Plan owns only the contract itself. These contracts are designed to accrue interest based on crediting rates established by the contract issuers.

The traditional investment contracts held by the Plan are guaranteed investment contracts. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 3 percent for SRA, GSRA, RC and RA contracts. During the accumulation phase, the TIAA Traditional Annuity provides a guarantee of principal, a guaranteed minimum interest rate, and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect for the "declaration year" which begins each March 1. Additional interest is not guaranteed for future years. The crediting rates are supported by the investment performance of the underlying investments and may be reset as frequently as monthly. The contract does not have a maturity date.

Participant accumulations are available in lump-sum payments, which may be subject to surrender charges, upon meeting certain triggering events under an SRA or GSRA contract. When the accumulation in TIAA Traditional Annuity is converted to an annuity by a participant based on his or her life expectancy, the present value of the stream of payments is equal to the accumulation. These payments may be made in the form of an annuity or a lump sum benefit and are contractually obligated.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974.

SUFFOLK UNIVERSITY EMPLOYEE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that would also limit the ability of the Plan to transact at contract value with the participants.

Guaranteed Investment Contract – Lincoln Fixed Interest Account

The Plan holds a traditional investment contract issued by Lincoln National Life Insurance Company (“the contract issuer”) through the Lincoln Fixed Interest Account. The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

With traditional investment contracts, the Plan owns only the contract itself. These contracts are designed to accrue interest based on crediting rates established by the contract issuers.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 3 percent. Such interest rates are reviewed on an annual basis for resetting. The contract does not have a maturity date. The contract may be subject to a surrender charge upon withdrawal.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan’s prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that would also limit the ability of the Plan to transact at contract value with the participants.

E. PARTIES-IN-INTEREST:

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, loans to participants and the management of investments held by the custodians are considered party-in-interest transactions.

SUFFOLK UNIVERSITY EMPLOYEE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

F. TAX STATUS:

Effective January 1, 2019, the Plan adopted the volume submitter 403(b) plan document of TIAA, the sponsor of the volume submitter document. The Internal Revenue Service ("IRS") has determined and informed the sponsor of the volume submitter document by a letter dated August 7, 2017 that the volume submitter plan document is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

G. CERTIFIED INVESTMENTS:

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2021 and 2020, and net appreciation in fair value of investments and interest and dividends for the year ended December 31, 2021, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company, TIAA, CREF, TIAA and CREF on behalf of TIAA, FSB, and the Lincoln National Life Insurance Company, the custodians of the Plan.

H. PLAN TERMINATION:

Although the Plan was established with the intention that it will continue indefinitely, the University retains the right to discontinue its contributions at any time or to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, all participants will become 100% vested in their accounts.

I. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

SUFFOLK UNIVERSITY EMPLOYEE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

J. SUBSEQUENT EVENTS:

The University has evaluated subsequent events through October 13, 2022, the date these financial statements were available for issuance.

Effective July 22, 2022, the University changed the employer matching contribution to 180% of the first 5% of participant's deferrals.
