Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of Spangler Candy Company Non-Union Associates Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Members of RSM US Alliance have access to RSM International resources through RSM US LLP but are not member firms of RSM International.

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental schedule H, line 4(i) – schedule of assets (held at end of year) as of December 31, 2021 and the supplemental schedule H, line 4(j) – schedule of reportable transactions for the year ended December 31, 2021 are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 12, 2021 we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

SPANGLER CANDY COMPANY NON-UNION ASSOCIATES' PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 1—Plan description

The following description of Spangler Candy Company Non-Union Associates' Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan covering substantially all nonunion employees of Spangler Candy Company and related companies (the "Company") who have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 2011, the Plan was frozen to new entrants. Effective December 31, 2020, all participant service and compensation was frozen and no additional benefit will be earned. The significant changes to the Plan are described below in the retirement benefits paragraph and Note 2.

Vesting

Participants under the Plan became vested upon completion of 5 years of vesting service or reaching normal retirement age (age 65). All participants are fully vested.

Retirement benefits

Employees with five or more years of service are entitled to normal annual pension benefits beginning at the participant's normal retirement age of 65, based on a percentage of highest compensation for five consecutive years of service through December 31, 2010. Effective January 1, 2011, the definition of average compensation was changed from highest compensation for five consecutive years of service to a career average. The Plan permits early retirement at age 55 through 64. Retired employees receive monthly annuity payments for life; married employees receive pension benefits in the form of a joint and 50 percent survivor annuity unless they elect otherwise. Employees are 100 percent vested after five years of service.

Death benefits

In certain circumstances, if an employee who has been married for more than one year dies after early retirement age, the spouse will receive 50 percent of the annuity benefit the employee would have received had the employee retired on the day before death. An employee's spouse can receive 100 percent of a reduced annuity benefit if this option is selected by the employee prior to death.

Party-in-interest transactions

Certain plan assets are in investment funds managed by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the plan trustee, or its affiliates. Therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2—Summary of significant accounting policies

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment valuation

The Plan's investments are stated at fair value. See Note 5 for additional information.

SPANGLER CANDY COMPANY NON-UNION ASSOCIATES' PENSION PLAN
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2021 and 2020

Note 2—Summary of significant accounting policies—continued

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Administrative expenses

Certain administrative functions are performed by the officers or employees of the Company. No officers or employees receive compensation from the Plan. Certain administrative expenses for the trustees and other fees are paid directly by the Company.

Payment of benefits

Benefit payments are recorded when paid.

Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to:

- a. Retired or terminated employees or their beneficiaries
- b. Beneficiaries of deceased employees
- c. Present employees or their beneficiaries

Benefits under the Plan are based on the average annual compensation during the five highest consecutive years of credited service through December 31, 2010. The accumulated plan benefits for active employees are based on their average compensation during the highest five consecutive years ending on the valuation date through December 31, 2010. Effective January 1, 2011, the definition of average compensation was changed from highest compensation for five consecutive years of service to a career average. The participants' benefits accrued as of December 31, 2010 were frozen under the old formula. However, the participants continued to earn additional benefits under the new formula effective January 1, 2011. Effective December 31, 2020, all participant service and compensation was frozen and no additional benefit will be earned. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits payable by annuity contracts are excluded from the calculated accumulated plan benefits obligation to the extent the annuities are not included in the plan assets.

The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Note 2—Summary of significant accounting policies—continued

Risk and uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the statement of net assets available for benefits.

Subsequent events

The Plan has evaluated subsequent events through October 13, 2022, the date the financial statements were available to be issued, and has determined there are no subsequent events that require recognition or disclosure.

Note 3—Actuarial present value of accumulated plan benefits

The actuarial present value of accumulated plan benefits, as determined by an actuary using the frozen entry age actuarial cost method, is summarized as follows as of December 31, 2021 and 2020:

Actuarial present value of accumulated plan benefits:	2021	2020
Vested:		
Participants currently receiving benefits	\$ 13,313,796	\$ 12,869,804
Other participants	8,121,144	10,433,125
Total vested benefits	21,434,940	23,302,929
Nonvested	77,292	112,625
Total actuarial present value of accumulated plan benefits	<u>\$ 21,512,232</u>	<u>\$ 23,415,554</u>

The change in accumulated plan benefits, as determined by an actuary using the frozen entry age actuarial cost method, is summarized as follows for the years ended December 31, 2021 and 2020:

	2021	2020
Actuarial present value of accumulated plan benefits –		
Beginning of year	\$ 23,415,554	\$ 22,407,933
Increase (decrease) during the year attributable to:		
Benefits accumulated	394,981	645,940
Benefit payments	(1,345,559)	(1,234,848)
Increase for interest due to the decrease in the discount period	909,975	926,370
Change in assumptions	(1,862,719)	670,159
Net increase (decrease)	<u>(1,903,322)</u>	<u>1,007,621</u>
Actuarial present value of accumulated plan benefits –		
End of year	<u>\$ 21,512,232</u>	<u>\$ 23,415,554</u>

The benefit accrual freeze is considered in the calculation of the liability as of December 31, 2021.

Note 3—Actuarial present value of accumulated plan benefits—continued

The significant actuarial assumptions used to determine the present value of accumulated plan benefits at December 31, 2021 and 2020 were (a) using the Pri-2012 mortality table dataset projected generationally using the Principal Mortality Improvement Scale in 2021 and 2020, (b) normal retirement age of 62, with early retirement available beginning at age 55 and five years of plan participation, and (c) investment return at an average rate of 5.25 and 4.50 percent, respectively. The calculation at December 31, 2021 updated long-term capital market assumptions which included a 0.75 percent increase in the assumed asset return, and a 0.75 percent increase in interest rate used in the calculation of liabilities.

Note 4—Unaudited information

Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company (the “Trustee”) holds the Plan’s investments and executes all related transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year and supplemental schedule of reportable transactions are based solely on information provided by the Trustee.

Note 5—Fair value measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the plan has the ability to assess.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management’s own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Note 5—Fair value measurements—continued

The Plan's investments are valued by the Custodian. Following is a description of the valuation methodologies used for assets measured at fair value. As of December 31, 2021, the Plan changed its investment methodology of pooled separate accounts and common collective trusts to classify such investments as Level 1 within the fair value hierarchy. Prior to December 31, 2021, the Plan classified such investments at net asset value using the practical expedient available under Subtopic 820-10. This change in classification was retrospectively applied to investments held at December 31, 2020. There have been no other changes in the methodology used at December 31, 2021 and 2020.

Mutual funds – valued at quoted market prices, based upon the underlying net asset value of shares held by the Plan at year-end.

Pooled separate accounts – valued using the net asset value per unit provided by the administrator of the fund. These funds are required to publish their daily net asset value and to transact at that price.

Common/Collective Trust Fund – valued daily at the net asset value of units of a collective trust. The net asset value, as provided by the trustee, is the basis of current transactions. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2021 and 2020.

Note 6—Funding policy

Contributions are made sufficient to fund normal costs plus past service costs and interest on the unfunded balance over 30 years based on actuarial assumptions. During 2021 a discretionary contribution of \$1,000,000 was made. There were no contributions made or required during 2020. Annual contributions in 2021 and 2020 met the minimum funding requirements of ERISA.

Note 7—Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document. In the event of any termination of the Plan or upon complete or partial discontinuance of contributions, the accounts of each affected participant shall become fully vested.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide these benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at the time. Some benefits may be partially or fully provided by the existing assets and the PBGC guaranty, while other benefits may not be provided at all.

Note 8—Tax status

Effective December 31, 2020, the Plan was restated under the Trustee's Defined Benefit Volume Submitter Plan which the Internal Revenue Service (IRS) determined and informed the Trustee by a letter dated March 30, 2018 that the volume submitter plan qualifies as a tax-exempt defined benefit plan under the applicable provisions of the Internal Revenue Code (IRC). Prior to December 31, 2020, the plan received a letter dated June 8, 2017 from the IRS that the Plan qualifies as a tax-exempt defined benefit plan under the applicable provisions of the IRC. Accordingly, the Plan Sponsor and the Plan Administrator believe that the Plan is qualified, and the related trust was tax-exempt as of December 31, 2021 and 2020, and accordingly, no provision for income taxes is included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
Spangler Candy Company Non-Union Associates' Pension Plan
EIN 34-4360680 Plan No. 001

Assumptions prescribed by law

Mortality	<u>During benefit payment period</u> IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.
	<u>Before benefit payment period</u> IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

Assumptions selected by actuary

Asset return	4.50% for the current plan year. The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. See Long-Term Capital Markets Assumptions May 2021.
---------------------	---

Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.
-------------------------	---

Retirement	Active participants are assumed to retire at the following rates:
-------------------	---

Age	Probability of retirement
62	15%
63	5%
64	15%
65	100%

Inactive participants are assumed to retire at age 62.

This assumption is based on the results of recent experience analysis and anticipated future experience.

Disability	None. This plan does not offer a subsidized disability benefit; therefore, the disability assumption is built into the withdrawal assumption.
-------------------	--

Marriage	75% married; husbands are 3 years older than wives. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.
-----------------	--

Withdrawal	2003 Society of Actuaries Small Plan Age Table multiplied by 0.75. We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 0.75 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.
Form of benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement age. The assumption is based on the results of recent experience analysis and anticipated future experience.
Methods prescribed by law	
Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Methods selected by plan sponsor	
Asset method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.
Segment rates	24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis

Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 01/01/2014 plan year and the method must be used for five years before a change can be made.

Segment 1	Segment 2	Segment 3
years 0-5	years 5-20	years 20+
0.51%	2.26%	3.01%

Methods elected by actuary

Retirees

Assets and liabilities for current and future retirees are included.

Vested benefits

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality

Based on Pri-2012 total dataset base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2016-10).

Base rates

Before benefit payment period

Employee amount-weighted, male and female

During benefit payment period

Retiree amount-weighted, male and female

The Society of Actuaries is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan and has been selected due to data limitations in identifying contingent survivors. In addition, we believe beneficiary mortality isn't materially different while both participants are alive.

Mortality improvement (MI)

Principal 2016-10 MI scale: this scale is based on MP-2020 study and model issued by SOA with the exception of the following user-selected assumptions:

- 10-year convergence period on age and cohort
- Long-term rates (LTR) assumptions using sex-distinct and age-based rates developed from Social Security Trustees Reports

See Mortality Documentation for rationale and additional information.

Interest rate used to value liabilities

4.00%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation and then converted to the geometric under lognormal distribution assumption. See Long-Term Capital Markets Assumptions May 2021.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan would usually be reimbursed annually through required funding except when contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

 Spangler Candy Company Non-Union Associates' Pension Plan
 EIN 34-4360680 Plan No. 001

Age	The later of attained age 65 or 5 years after plan entry.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	The accrued benefit as of 12/31/2010 plus, for service earned on or after 01/01/2011, 0.90% of monthly compensation for each year of accrual service and 0.65% of monthly compensation in excess of the integration level for each year of accrual service with a maximum 35 years (all years of service). Benefit accrual is frozen for all participants effective December 31, 2020.

Early retirement benefit

Age	Attained age 55.
Service	5 years of credited service.
Form	Same as normal retirement benefit.
Amount	The portion of the accrued benefit based on monthly compensation is unreduced if the age is 60 or above and the sum of age and credited service is 90 or greater; otherwise it's reduced by 5% per year but not reduced more than 50%. The portion of the accrued benefit based on monthly compensation in excess of the integration level is reduced by 1/13 for each of the first 3 years and 1/24 for each of the next years that precede the normal retirement date.

Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on normal retirement date actuarially increased to late retirement date or accrued benefit on late retirement date.

Termination benefit

Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Death benefit

Eligibility	Qualified married participant fully vested in an accrued benefit and married for at least one year.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 100% survivor annuity in effect, then died the next day.

Definitions

Plan compensation	Prior to 01/01/2011, the average compensation was based on total pay received for the five consecutive years which gave the highest average. Effective 01/01/2011, monthly compensation is defined as 1/12th of an employee's compensation for a year earned after 12/31/2010.
Optional forms of benefit payments	The optional forms of benefit payments are: • Monthly annuity payable for life, or 5, 10, 15 or 20 years certain and life. • Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 75 or 100. The optional form conversion basis is PBGC interest rates and the UP-1984 mortality table for payments other than lump sums. The optional form conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the plan year.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
