INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator
Pasadena Refining System, Inc. Retirement Plan

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of Pasadena Refining System, Inc. Retirement Plan (the Plan), which comprise the statements of net assets available for benefits and of accumulated Plan benefits as of December 31, 2020; the related statements of changes in net assets available for benefits and of changes in accumulated Plan benefits for the year then ended; and the related notes to the financial statements.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, which includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used

and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of Pasadena Refining System, Inc. Retirement Plan's net assets available as of December 31, 2020, and changes in its financial status for the year then ended in accordance with accounting principles generally accepted in the United States of America.

PRIOR-PERIOD FINANCIAL STATEMENTS

The financial statements of Pasadena Refining System, Inc. Retirement Plan as of December 31, 2019, were audited by other auditors whose report, dated October 15, 2020, expressed an unmodified opinion on those statements.

OTHER REGULATORY REQUIREMENTS

Our audit of the financial statements of Pasadena Refining System, Inc. Retirement Plan for the year ended December 31, 2020, was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The additional information, included in Form 5500, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) and Form 5500, Schedule H, Line 4j - Schedule of Reportable Transactions, as of December 31, 2020, is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to

THE PASADENA REFINING SYSTEM, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2020 AND 2019

NOTE 1. DESCRIPTION OF THE PLAN

The following description of Pasadena Refining System, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - Pasadena Refining System, Inc. (the "Employer") maintains a defined benefit retirement plan with an originally effective date of January 25, 2005. Effective May 1, 2019, Chevron Corporation acquired Pasadena Refining System, Inc.

The Plan covers all bargained employees, age 21 or older, after one year of service, provided that the employee has performed more than 1,000 hours of service in the year. Eligible participants enter the Plan in the following year in which the eligibility requirements have been met.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Pension Benefits - Employees with five or more years of service are entitled to annual pension benefits beginning at normal retirement age of 65 equal to 2.4% of the participant's compensation for the first 20 years of benefit service, after their benefit accrual date, plus 3% of the participant's compensation for benefit service exceeding 20 years of benefit service after their benefit accrual date. The Plan permits early retirement at age 55, for participants who have completed 15 years of vesting service. A participant's early retirement benefit is actuarially reduced in accordance with the Plan Document. If employees terminate before rendering five years of service, they forfeit the right to receive the portion of their accumulated Plan benefits attributable to the Employer's contributions.

Unless the participant elects an optional form of payment provided by the Plan, the participant's normal retirement pension will be payable in the form of a five-year certain and life annuity with 60 monthly payments guaranteed for unmarried participants and a qualified joint and survivor annuity for participants with a living spouse at the time the pension becomes payable.

NOTE 1. DESCRIPTION OF THE PLAN (CONT'D)

If a participant dies after their payments have begun, then the pension must be paid to their beneficiary at least as rapidly as under the method of distribution elected by the participant. If a participant dies before the pension payments have started, their pension must be distributed within five years after the participant's death.

Vesting - A participant will be credited with one year of vesting service for each Plan year in which the participant completes 1,000 hours of service. A participant will become 100% vested in his accrued benefit after five or more years of service. Vesting is 0% for less than five years of service.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of Pasadena Refining System, Inc. Retirement Plan have been prepared on the accrual basis of accounting.

Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated Plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by its investment advisers, custodians and insurance company. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Administrative Expenses - The Plan's expenses are paid either by the Plan or the Employer, as provided by the Plan Document. Expenses that are paid directly by the Employer are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their credited service. The accumulated Plan benefits for active employees will equal the accumulation, with interest, of the annual benefits accruals as of the benefit information date. Benefits payable under all circumstances—retirement, death, disability and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of December 31, 2020 and 2019, were (a) life expectancy of participants (the Pri-2012 mortality tables with blue collar adjustments and projected forward using Scale MP-2020, and the Pri-2012 mortality tables with blue collar adjustments and projected forward using Scale MP-2019, respectively), (b) retirement age assumptions (upon termination of employment after age 55 with 15 years of service), and (c) investment return: The 2020 and 2019 valuations included an assumed average rate of return of 5.75% and 6.00%, respectively. The 2019 valuation was revised to reflect an election to use prefunded balance to satisfy a portion of the minimum required contribution. The return on asset assumption is net of administrative expenses associated with providing benefits.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2021 and 2020. Had the valuations been performed as of December 31, there would be no material difference.

NOTE 3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 820, *Fair Value Measurements and Disclosures*, are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities within active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE 3. FAIR VALUE MEASUREMENTS (CONT'D)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded (Level 1).

Money market - These funds are valued at the closing price reported by the fund sponsor from an actively traded exchange. These are included as Level 1 in the FASB ASC 820 hierarchy.

The following tables detail the Plan's investments at fair value, by value within the fair value hierarchy, as of December 31, 2020 and 2019:

<u>Description</u>	December 31, <u>2020</u>	Fair Value Measurements at Reporting Date Using: Quoted Prices in Active Markets for Identical Assets (Level 1)

Money market funds	6,791,444	6,791,444
Total investments at fair value	<u>\$ 37,499,413</u>	<u>\$ 37,499,413</u>

NOTE 4. FUNDING POLICY

The Plan's funding policy is for the Employer to make annual contributions in an amount that will meet or exceed the Plan's annual ERISA minimum funding requirement, based on the advice of the actuary of the Plan.

Although it has not expressed any intention to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

NOTE 5. RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

The Employer provides administrative services to the Plan and absorbs administrative costs for the Plan. Transactions with the Employer, as Plan Sponsor and Plan administrator, qualify as party-in-interest transactions.

NOTE 6. PLAN TERMINATION

It is the intent of the Employer to continue the trust and the Plan in full force and effect; however, the right to discontinue the trust and the Plan is reserved to the Employer. To the extent required to provide all of the accrued benefits under the Plan, if terminated, the Employer will allocate the terminated Plan's assets on an actuarial basis among the Plan's members and their spouses, joint pensioners and beneficiaries in the manner prescribed by Section 4044 of the Employee Retirement Income Security Act of 1974 (ERISA). If the terminated Plan has assets in excess of the amount required to fully provide for the accrued benefits thereunder, then (except as provided below) the excess assets will be returned to the Employer, subject to any restriction imposed by applicable law.

Moreover, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (the PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. The PBGC does not guarantee all types of benefits and the amount of any individual participant's benefit protection is subject to certain limitations, particularly with respect to benefit increases as a result of Plan amendments in effect for less than five years. Some benefits may be fully or partially provided, while other benefits may not be provided at all.

NOTE 7. TAX STATUS

The Plan obtained its latest determination letter on January 7, 2008, in which the Internal Revenue Service (the IRS) stated that the Plan, as then designed, was in compliance with applicable requirements of the IRS. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. The IRS has determined that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that, more likely than not, would not be sustained upon examination by taxing jurisdictions. The Plan is subject to routine audits by these various taxing jurisdictions; refer to Note 9 for further information. The Plan believes it is no longer subject to income tax examinations for the years prior to 2017.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to risk such as interest rate, market risk and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9. SUBSEQUENT EVENTS

Subsequent to December 31, 2020, the Internal Revenue Service concluded their audit for the Plan years ended December 31, 2013, through December 31, 2018. On May 7, 2021, the Employer adopted the restated Plan Document to satisfy the requirements to amend the Plan for various required technical amendments.

Subsequent events were evaluated through the date on which the financial statements were available to be issued. This date is approximately the same as the independent auditors' report date.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.
Actuarial value of assets	Actuarial Value of Assets is equal to the market value of assets as of the valuation date plus the discounted present value of contributions made after the valuation date for the 2019 plan year, discounted using the effective interest rate for the 2019 plan year.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions and is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

Pasadena Refining System, Inc. furnished participant data and plan provisions as of 1/1/2020. Information on assets and contributions was supplied electronically from Wells Fargo. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions for Contributions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	Administrative expenses are assumed to equal the actual administrative expenses paid by the plan for the most recent 12- month period for which information was available.

Assumptions Rationale - Significant Demographic Assumptions

Healthy and Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination and Retirement	Note that since the PRSI plan does not have enough experience to produce a credible assumption, the rates used by Crown at the date of the PRSI spin-off have been used. Rates have not resulted in significant gains and losses in the annual valuation.
Benefit commencement date for deferred benefits	Deferred vested participants are assumed to commence benefits at the earliest date when benefits are unreduced under the terms of the plan. Note that since the PRSI plan does not have enough experience to produce a credible assumption, the rates used by Crown at the date of the PRSI spin-off have been used.
Percent married	The assumed percentage married is based on general population statistics on the marital status of individuals of retirement age.
Spouse age	The assumed age difference for spouses is based general population statistics on the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Weighted average retirement age:				61

For each active participant, an expected retirement age was calculated, weighted in proportion to the probability that the individual would remain an active participant to each age and then retire at that age. The plan's weighted average retirement age of 61 is the arithmetic average of the expected retirement ages of all such participants on January 1, 2020.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.
Actuarial value of assets	Actuarial Value of Assets is equal to the market value of assets as of the valuation date plus the discounted present value of contributions made after the valuation date for the 2019 plan year, discounted using the effective interest rate for the 2019 plan year.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions and is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

Pasadena Refining System, Inc. furnished participant data and plan provisions as of 1/1/2020. Information on assets and contributions was supplied electronically from Wells Fargo. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions for Contributions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	Administrative expenses are assumed to equal the actual administrative expenses paid by the plan for the most recent 12- month period for which information was available.

Assumptions Rationale - Significant Demographic Assumptions

Healthy and Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination and Retirement	Note that since the PRSI plan does not have enough experience to produce a credible assumption, the rates used by Crown at the date of the PRSI spin-off have been used. Rates have not resulted in significant gains and losses in the annual valuation.
Benefit commencement date for deferred benefits	Deferred vested participants are assumed to commence benefits at the earliest date when benefits are unreduced under the terms of the plan. Note that since the PRSI plan does not have enough experience to produce a credible assumption, the rates used by Crown at the date of the PRSI spin-off have been used.
Percent married	The assumed percentage married is based on general population statistics on the marital status of individuals of retirement age.
Spouse age	The assumed age difference for spouses is based general population statistics on the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was adopted on January 25, 2005 (amended effective January 1, 2008).

Covered Employees	Employees who are members of PACE or the Local Chain 716 of the Incentive Brotherhood of Electrical Workers.
Participation Date	First of the month following attainment of age 21 with at least one year of service. Participants in the Crown Central Plan as of January 24, 2005 are automatic participants.

Definitions

Annual Compensation	The total compensation paid to a participant during the plan year as reported on the IRS Form W-2 plus eligible elective deferrals excluding signing bonuses, bonuses, imputed income, and individual recognition awards. Subject to Code 401(a)(17) limits. Compensation prior to January 25, 2005 is not used.
Benefit Service	Years and months from date of hire or January 25, 2005 if later. Service with Crown Central for former Crown Central participants who became participants on January 25, 2005 is used to determine the benefit accrual percentage. For participants who participated in the lockout from February 5, 1996 to February 1, 2001, service has been reduced five years, per the collective bargaining agreement.
Normal retirement date (NRD)	Later of first of the month on or after the participant's 65th birthday and the first of the month after the 5th anniversary of the date on which a participant first completes an hour of service

Eligibility for Benefits

Normal retirement	Age 65
Early retirement	15 years of service, including service with Crown Central
Vested benefit	Five years of service, including service with Crown Central

Death benefit Five years of service, including service with Crown Central

Amount of Benefits

Normal retirement The Maximum of A and B below:

A = 2.4% of Annual Compensation for each year of the first 20 years of Benefit Service + 3% of Annual Compensation for each year of Benefit Service beyond 20.

B = \$12 x months of Benefit Service

Early retirement Normal Retirement Benefit payable as early as age 55, reduced for commencement prior to the participant's age 60 by 5% per year

Vested benefit Normal Retirement Benefit payable as early as age 55, reduced for commencement prior to the participant's age 60 by 5% per year

Death benefit The benefit to the surviving spouse or beneficiary of a vested participant is the participant's benefit amount assuming the participant survived until the earliest date on which he could have retired, elected a 50% joint and survivor benefit, and died immediately.

Maximum benefit All benefits for any plan year may not exceed the maximum limitation for that year as defined in the Internal Revenue Code.

Normal form of benefit 5-year certain and life annuity for single participants; 50% joint and survivor annuity for married participants.

Optional forms of benefit Single life annuity, 50%, 75% and 100% joint and survivor annuity, and 10-year certain and life annuity

Lump sums Mandatory lump sum if present value of benefit is less than or equal to \$5,000

Weighted average retirement age:				61

For each active participant, an expected retirement age was calculated, weighted in proportion to the probability that the individual would remain an active participant to each age and then retire at that age. The plan's weighted average retirement age of 61 is the arithmetic average of the expected retirement ages of all such participants on January 1, 2020.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was adopted on January 25, 2005 (amended effective January 1, 2008).

Covered Employees	Employees who are members of PACE or the Local Chain 716 of the Incentive Brotherhood of Electrical Workers.
Participation Date	First of the month following attainment of age 21 with at least one year of service. Participants in the Crown Central Plan as of January 24, 2005 are automatic participants.

Definitions

Annual Compensation	The total compensation paid to a participant during the plan year as reported on the IRS Form W-2 plus eligible elective deferrals excluding signing bonuses, bonuses, imputed income, and individual recognition awards. Subject to Code 401(a)(17) limits. Compensation prior to January 25, 2005 is not used.
Benefit Service	Years and months from date of hire or January 25, 2005 if later. Service with Crown Central for former Crown Central participants who became participants on January 25, 2005 is used to determine the benefit accrual percentage. For participants who participated in the lockout from February 5, 1996 to February 1, 2001, service has been reduced five years, per the collective bargaining agreement.
Normal retirement date (NRD)	Later of first of the month on or after the participant's 65th birthday and the first of the month after the 5th anniversary of the date on which a participant first completes an hour of service
